ATTN: Major Hector Quintanilla

I am forwarding the reports received in the Houston area since 26 October 1965 for your information only. I do not feel any of them are unusual enough to justify complete investigations based on previous experience. UFO activity has slowed down considerably and I therefore held the reports until I had enough to forward. I will continue with this procedure just to give you an idea of the UFO activity in this area. I will forward any very unusual reports immediately after completion of local investigation.

34. Date you completed this questionnaire: 30 (Day) Dec (Month) 1965 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The questions are not adequate enough for my story. I was washing windows and I looked up to see about 30 objects which appeared to be geese. However closer looking showed the objects ~~to be~~ not to be acting as birds (the wings weren't flapping). It's hard to explain by writing it but they had none of the characteristics of a bird (no movement of the body itself). They appeared to be hitting into each other. They flew in a circle and at the same time were gaining height. I went in. after watching for about 2 ~~minutes~~ minutes from the time I first saw them (maybe 1 minute), and got my telescope. I came out 1-2 minutes later & they were out of sight. I then noticed an object like a dim star moving from about the spot the 30 objects had seemed to rise to. The bright object moved in a northern direction.

My father also saw the 30 objects (OVER)

The bright object I ~~said~~ I saw must be ~~does~~ discussed. Now some leaves etc were blowing not far from me. And I saw a number of ~~sakes~~ flies over me. It is reasonable to allow for the fact that the bright object might have been an ash. However I clearly saw the approximately 30 objects which, by the time I returned outside, were gone. My father also saw these 30 objects (he only watched for about 30 seconds). He didn't see the bright object. Again it is very possible that it was an ash (the bright object, I mean)

That's about the best I can do - the drawing should not be so fat - the objects were streamlined -

SUBJECT: Transmittal of UFO Information

TO: Foreign Technology Division

ATTN: Major Hector Quintanilla

I am forwarding the reports received in the Houston area since 26 October 1965 for your information only. I do not feel any of them are unusual enough to justify complete investigations based on previous experience. UFO activity has slowed down considerably and I therefore held the reports until I had enough to forward. I will continue with this procedure just to give you an idea of the UFO activity in this area. I will forward any very unusual reports immediately after completion of local investigation.

REPLY TO ATTN OF: BOT-P

14 December 1965

SUBJECT: Transmittal of UFO Information

TO: Foreign Technology Division
Wright-Patterson AFB, Ohio
ATTN: Major Hector Quintanilla

I am forwarding the reports received in the Houston area since 26 October 1965 for your information only. I do not feel any of them are unusual enough to justify complete investigations based on previous experience. UFO activity has slowed down considerably and I therefore held the reports until I had enough to forward. I will continue with this procedure just to give you an idea of the UFO activity in this area. I will forward any very unusual reports immediately after completion of local investigation.
