Commanding Officer  
Bome Air Base  
Bome, New York  
Dear Sir:

On the night of March third at 7:20 P.M. a group of us high school students were on our way to Quego Catholic High School for a Glee Club rehearsal. About two blocks away from school, one of our friends spotted an object in the air, moving very slowly. We all agreed that we had never seen anything like it before. It was white on the bottom with two red flashing lights, which seemed to be on the top. It was circular in shape, about the size of a plane, but much lower. Two of the girls noticed that it had stopped and began to lower. It was traveling in the same direction that we were, south, but when we turned southeast it turned with us and disappeared over the roof of Catholic High, as we were entering the school. One

of the girls thought she heard a sound, but  
wasn't sure, no one else heard the  
sound. We notified the police the same  
night and they could give no explanation  
of what we saw. The next day when  
looking through Look Magazine, we came  
across an article on unidentified  
flying objects. After reading the article,  
we brought it to the Chief of Police, and  
he agreed that it sounded exactly like  
what we saw. This was the February 22  
issue of Look.

If there is anything else you wish  
to know you may contact us. We will  
include the names, addresses and  
phone numbers of the other three girls.

Sincerely yours,
