ADC  
MOADS

Radio Station WHOO is both AM and FM commercial radio station operating on the following frequencies AM 990KC, FM 96.5 MC. WHOO AM broadcasts are primarily designed to cater to teen-age listeners with commercial promotions of various types and the dialogue emphasizing UFO contests and increasing listener interest on this subject.

Mr. [REDACTED] uses a "stage name" of [REDACTED] while broadcasting as a "Disc-jockey." I noted one sponsor has a taped announcement concerning a contest to identify a "UFO" and receive a prize. When the disc-jockey announced the start of a network baseball game broadcast he stated "well gang I'll return right after the ballgame with more of the same. In the meantime I'll be looking for UFO's."

## Everybody But Police Sees Lights

The little green men are back at it again!

Hundreds of Orlandoans reported to police and The Sentinel Monday night that weird objects were hovering over the Central Florida landscape.

THE ORANGE County Sheriff's Department dispatched a car to Colonial High School after callers reported the object (or objects) in that area. The deputies reported seeing nothing unusual.

The Sentinel received in excess of 40 calls. Reports of sightings ranged from the Pine Hills area to College Park and the east end of the county.

Most observers agreed it was green, red, pink, white or some other color, that it was round, square, oblong, shapeless or crescent shaped and that it zigged, zagged, rocked back and forth, rushed forward and backed up or remained motionless while it was visible.

## PROJECT 10073 RECORD

1. DATE - TIME GROUP 22 May 1966 23/0237Z	2. LOCATION Orlando, Florida
3. SOURCE Civilian	10. CONCLUSION <del>XXXXXX</del> Other: Possible (BIRDS) <i>738</i>
4. NUMBER OF OBJECTS Three	
5. LENGTH OF OBSERVATION 30 Seconds to 1 Minute	11. BRIEF SUMMARY AND ANALYSIS Observer saw three yellow-orange objects overhead heading to the northwest from the southeast then went into a bank toward the north, and faded into a cloud layer. There is nothing that indicates the reported sighting is not <del>an artifact</del> in the area. There was nothing unusual reported on radar in the area.
