(5) N/A

(6) WINGLESS WITH FINNED TAIL, BODY APPEARED GROOVED.

(7) NONE OBSERVED

(8) YES. WHISTLING SOUND

(9) NONE REPORTED

B. DESCRIPTION OF COURSE OF OBJECT:

(1) OBSERVER NOTICED ALLEDGED SIGHTING DUE TO WHISTLING SOUND FROM OVERHEAD AND BECAUSE SOUND WAS TRAVELING FROM NORTHEAST TO SOUTHVEST.

(2) ANGLE APPROXIMATELY 360 DEGREES, AZIMUTH 060 DEGREES

(3) ANGLE APPROXIMATELY 330 DEGREES, AZIMUTH 060 DEGREES

(4) FLIGHT PATH WAS ON NORTHEAST TO SOUTHWEST HEADING AT AN UNDERTERMINED SPEED. ALTITUDE APPROXIMATELY 200 FEET BY OBSERVERS ESTIMATE.

(5) OBJECT CONTINUED ON ORIGINAL HEADING AND DISAPPEARED RAPIDLY.

(6) OBJECT WAS VISIBLE OR IN SIGHT FIVE (5) SECONDS.

C. MANNER OF OBSERVATION

(1) GROUN-VISUAL

(2) NONE USED

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 (Day) 5 (Month) 66 (Year)

2. Time of day: 10 (Hour) 30 (Minutes)

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): (a.) Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): (a.) Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Lynchburg (City or Town) Virginia (State or County)

5. How long was object in sight? (Total Duration) ___ (Hours) ___ (Minutes) 5-10 (Seconds)

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? ESTIMATE

5.2 Was object in sight continuously? Yes ✓ No ___

6. What was the condition of the sky?

DAY
a. Bright
(b.) Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
(d.) Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
(b.) ~~Fog, mist,~~ or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

(a.) Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
(c.) Sharply outlined
d. Don't remember

e. Other _____

_____

_____

_____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know IN MOTION
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

YES OVER TREES TOPS

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: ____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: ____

17. Tell in a few words the following things about the object:

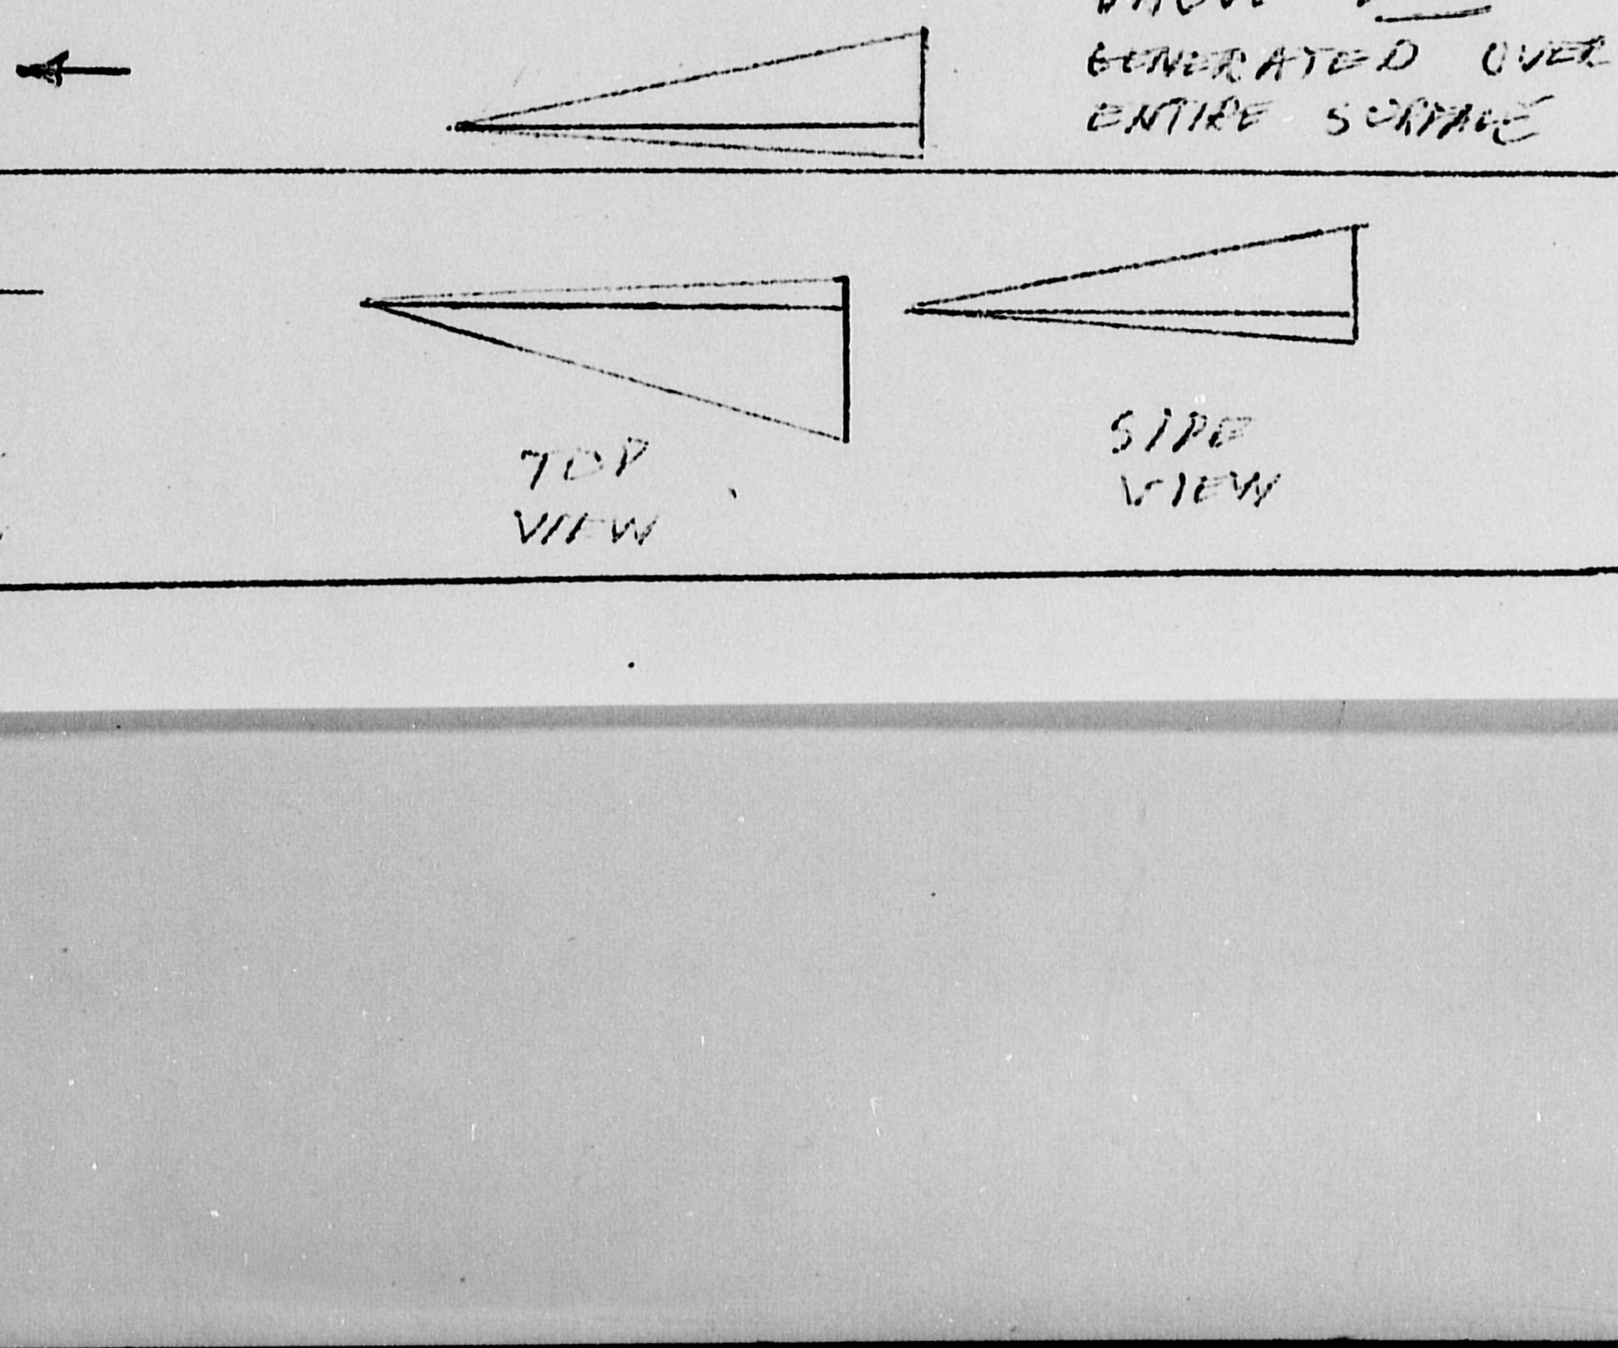

a. Sound NONE

b. Color DULL ALUMINUM, DIRTY IN CENTER

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/4 OF OBJECT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 300-500 MPH

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 100-200 YDS

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
(b.) In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
(h.) Northwest

24.2 How fast were you moving? SLOWING TO STOP miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

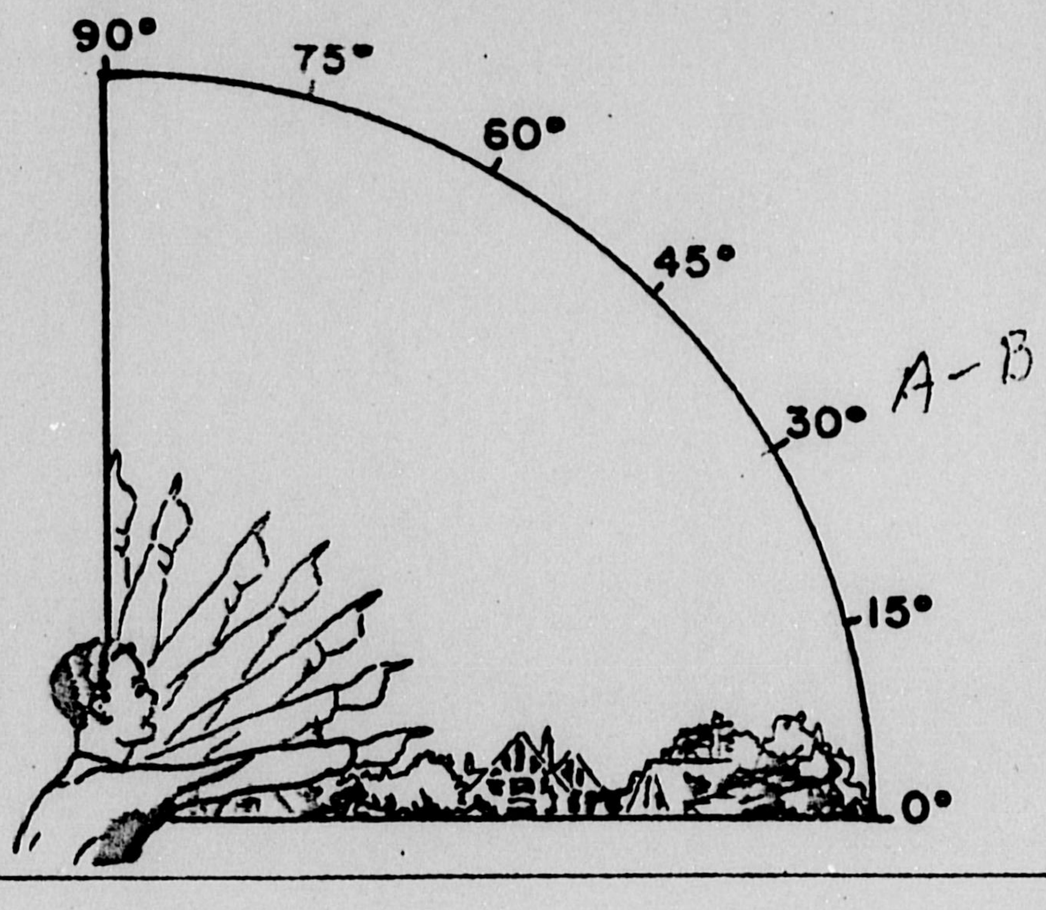

25. Did you observe the object through any of the following?

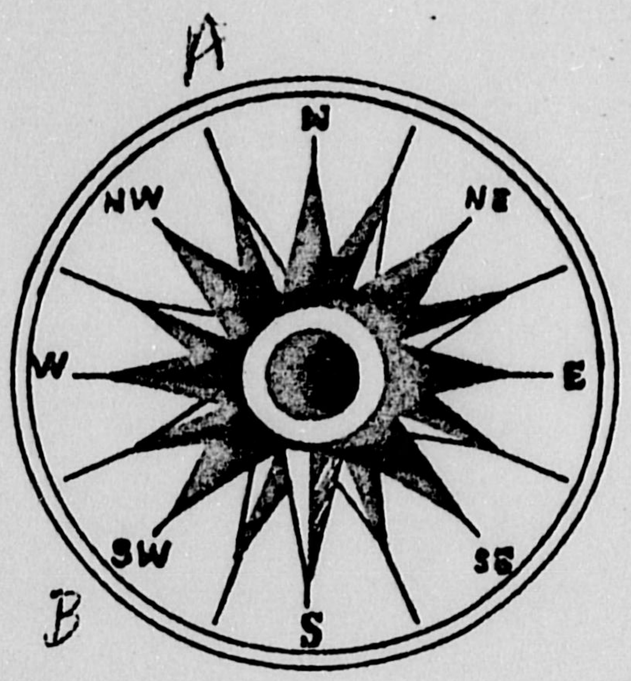

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
(c.) Windshield	(Yes)	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

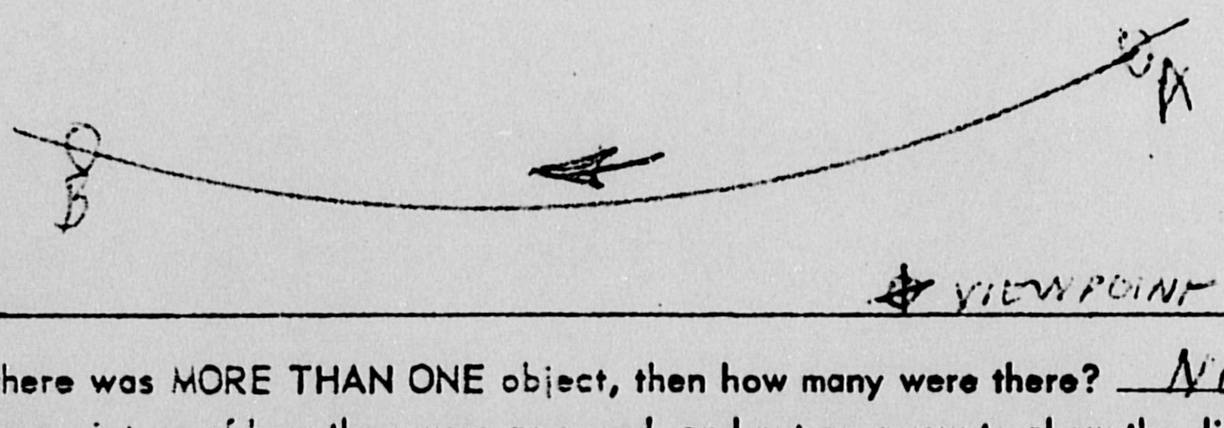

TWO TRIANGULAR PLANES PLACED TOGETHER AT 100° ANGLE. RESEMBLED PAPER ~~PLA~~ AIRPLANES CHILDREN MAKE BY FOLDING PAPER.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? NO

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] Last Name [redacted] First Name M. T. Middle Name

ADDRESS [redacted] Street, Lynchburg, Va. 24503 City Zone State

TELEPHONE NUMBER [redacted] AGE 23 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ Day _____ Month _____ Year

34. Date you completed this questionnaire: 9 (Day) 6 (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

[redacted]
Rossville, Ga. 30741

Dear Sirs: mar. 21, 1967

I do not remember exactly when I sighted the objects, but I do remember that it was last summer.

My next door neighbor and I were camping out one night last summer. All of a sudden I noticed what looked like a very bright star which started in the horizon and began to move across the sky. I knew something was funny because the object did not make any noise. We had my telescope out trying to look at it, but it was moving too fast to use the telescope. When it got directly over head, it looked to be triangle in shape. I also noticed that it had two small, (What appeared to be round shiny disks) objects following close behind it. When they were directly over head the two small objects began to pick up speed as those the longer behind. After they vanished the longer did also. It all lasted about 5 min.

Thank you
[redacted]

P.S. Would you please read this and tell me what you think of it? I would also like you to send me your latest report on "Project Blue Book"

Thank You
[redacted]

Summer 1966

SAF-OICC/Mrs Cassel/bp/79079/15 May 67

MAY 15 1967

Dear Mr [redacted]

Reference your recent letter reporting your unidentified flying object (UFO) observation of last summer.

At this late date, it would be extremely difficult to make a comprehensive evaluation of the sighting. It is most important that we receive the reports at the earliest possible date.

The only possible explanation that I can give is that the sighting has the characteristics of an aircraft refueling mission. Such refueling exercises have been responsible for numerous UFO sightings in the past.

Inclosed is the report on Project Blue Book which you requested. Your interest in our program is appreciated.

Sincerely,

GEORGE P. FREEMAN, JR.
Lt Colonel, USAF

No case Info only

OFFICE OF PROJECT BLUE BOOK;
Wright-Patterson AFB.,
Dayton, Ohio,
USA.

November 24th,
1966.

To whom it may concern:

Enclosed is data pertaining to my sighting of a unidentified flying object, some months ago. I request an evaluation.

DATE: Uncertain; about May, 3, 4, or 5th, 1966.
PLACE: Ste. Foy, suburb of Quebec City, Quebec.
TIME: Approx. 4-4:30 P.M.
WEATHER: Excellent. Sky was clear, a deep blue. No clouds were discernible, except on the western horizon, which the sun was a few degrees above, a glowing red ball. The wind, by my memory, was light. The clouds on the horizon, dark and puffy, were identified as stratocumulus.

* * * * * *

REPORT: At the stated time, an unusual example of aerial phenomena was observed. The UFO was merely a bright star-like brilliance, resembling Capella, or Venus, on a clear and cloudless night. It was unmistakably far more brilliant than the surrounding sky, which was a light marine blue. The object was approximately 45-50 degrees above the NE, or South (horizon). At the time of the observance, I was playing ball with a close friend, Thomas Melville, of Parnum Ave., Toronto. The reasons we were in Quebec are as follows: Deer Park, former public school (was in Grade, 8, now 9, at Jarvis Collegiate Institute, Toronto), was sponsoring a one-week student exchange program with Quebec's schools; ~~Grav was tutor~~ about 60 Deer Parkites left for the city on April 30th, arrived that night. We were boarding with 2 Quebec parents. Back to the UFO. It was in sight for an approx. 15-20 minutes, though this could be in error by a considerable margin. It did not appear to be a jet, for 2 apparent reasons: (i): Its speed was very slow, even for when compared to the illusion of planes, high-flying, showing an illusory "sluggishness"; (ii): Its apparent reflective light source (from the sun, it showed an apparent metallic surface), was so study, that I concluded beyond little doubt that it had a spherical, or ellipsoidial shape. The first is obviously more inviting. Was it a balloon? The lack of speed ~~for~~, as well as the constant reflection, makes such a hypotheses very probable. The object was travelling about SE, and faded out slowly about 10-15 degrees above the horizon, in the same manner in which a jet does. The sketch on the following page(s) emphasize this factor.

I am an amateur meteoroligist of 2 or 3 years standing, and have studied to a moderate extent unusual weather phenomena. However, I am inclined to reject the hypotheses that the light source was of a meteorological explanation, for various reasons (i): The steady light, and constant movement, in the same direction, apparently indicated something intelligently controlled or of intelligent make---as a balloon would be. I rest assured that it was not a "Moby Dick" giant aerial research balloon, as the object was definitely a point of light, not triangular in form. (ii): The light source appeared to be reflective. This is not consistent of any aerial phenomena that I have studied, except a mirage, which I am certain that the UFO was not. Also, the possibility I could have seen reflecting (of the sun's rays) ice crystals is unlikely, as no cirrus, cellular, or other high-level, ice clouds were prominent at the time. I have watched the skies for years and certainly am capable of identifying such a phenomenan. Therefore, the balloon answer, if there is one by modern rational examination, is the most likely. But who can say it wasn't an intelligently controlled vehicle, that crossed the peaceful skies on that bright afternoon, at a speed possibly faster than 100 miles an hour? Might not it have been a spaceship, .. a "flying saucer", that terrible something we know so little about?

* * * * * * * * * * * * * * * * *

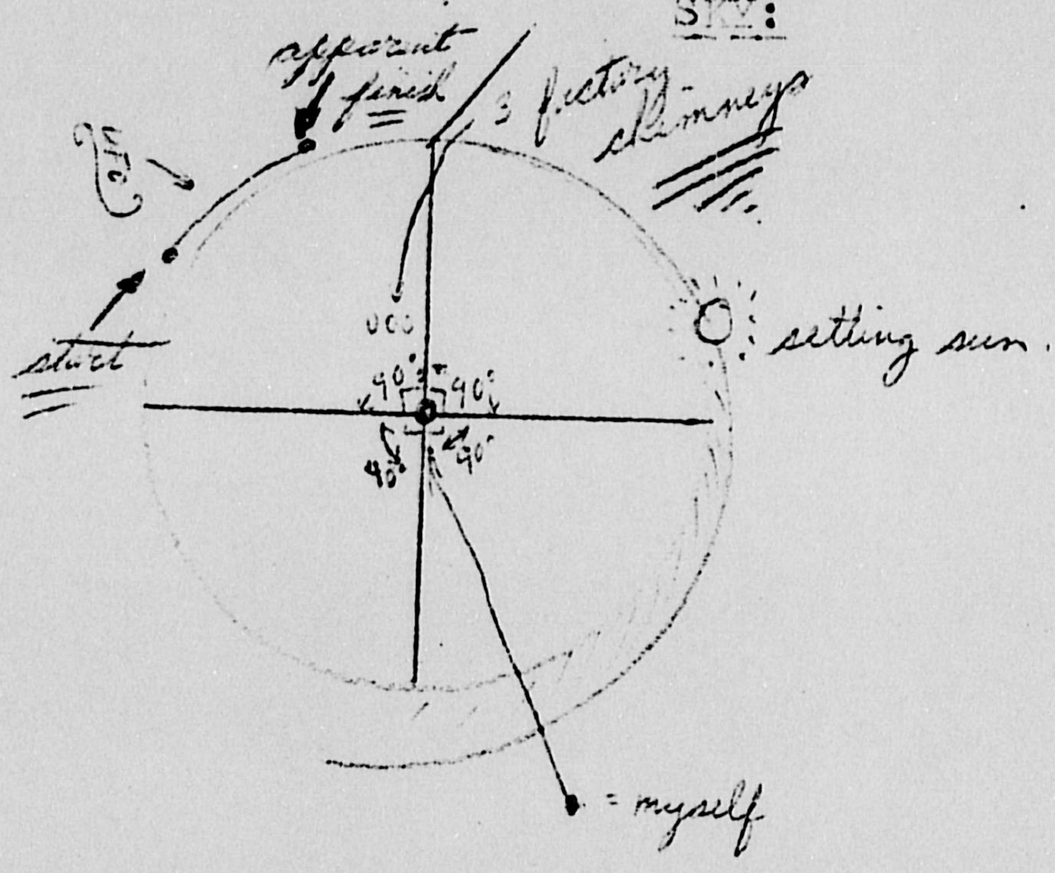

AUTOBIOGRAPHY

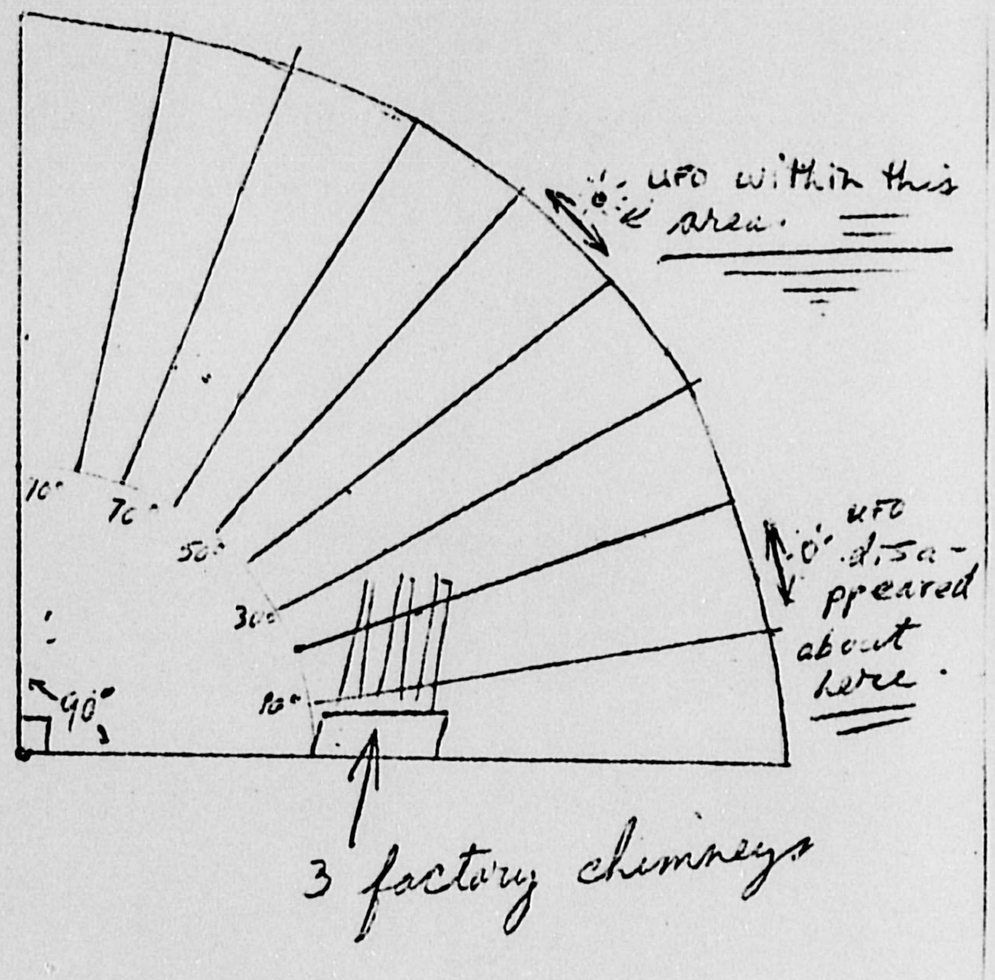

I was born May IIth, I953, in Columbus, Ga., USA. My father and the rest of my family moved to Toronto in I960, where my father, a physician, M.D., PhD., planned to do diabetes research with the renowned Dr. Charles Best, co-discoverer of insulin (I923). It was accomplished. From I960 through I964, I attended grades 2 through 6, at Whitney Public School. Then I spent 2 [illegible] junior high years at the nearby Deer Park Public School. In Grade 8, my average in all subjects, including science, was 8[illegible]% (no boasting...this an autobiography, remember?) At the end of the year my teacher selected me as a recipient for the "Jesse Ketchum School Award," based on regular conduct and schoolwork.

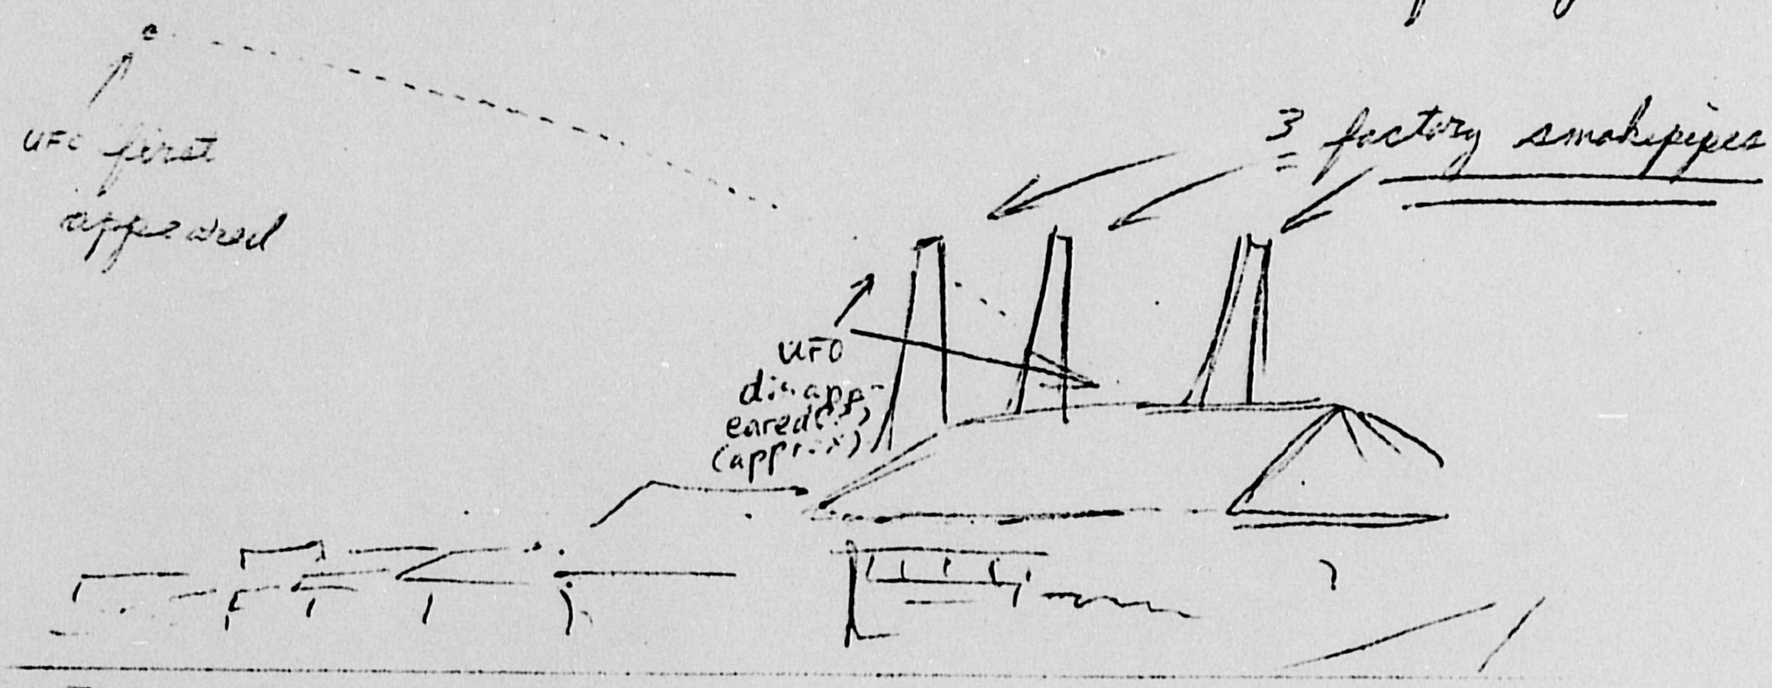

In fall, I968, I entered Jarvis Collegiate Institute, Toronto, where I am taking 5-year Arts and Science; I plan on University, with training in math, chemistry, physics, and the like. I plan on a meteorological career, or as an associate with NASA, in some way. [redacted] I am 13 years old.

I assure you every typewritten word you have read so far is correct, and undistorted.

SKETCH OF UFO's PATH, MANEUVERS, RELATION WITH SURROUNDING SKY:

NOTE: UNLESS LEDGE IS FAILING ME, UFO APPEARED TO PASS BEHIND FACTORY CHIMNEYS SHOWN ABOVE.

Herefore, signed, on November 24TH, 1966, by [redacted], to affirm that the data presented herein is verily true and correct.

signed [redacted]

[redacted],

CANADA.

(TELE[redacted]).

PHOTO SHOWING HORIZON OPPOSITE TO HORIZON ON WHICH UFO WAS OBSERVED.

WITNESS NO. #2- THOMAS MELVILLE, UNIVERSITY OF TORONTO SCHOOLS, (I3?),
-FLIGHT OBJECT WAS PROBABLY AN AIRCRAFT.

(Please return photos along with evaluation, which need not arrive any time soon).

P.S. - checked old weather maps - found a radiosonde balloon had been released from Moosonee, Ont., early in the morning of the sighting; big wind currents indicated calculated it would reach Southern Quebec late in the day.

Dear Major Quintanella,

I am a sixth grader. I am to give a report on the UFOs. Could you tell me where some of the UFOs were sited in Ohio and Michigan?

Also a girl in my class said she saw something in the sky one evening. All she saw were three red lights standing still. First one would blink. About 2 or 3 minutes later the next one would blink and so on. She said she watched it about 15 minutes it started to move up slowly then vanished. Would you give me your opinion on this object?

Thank you very much.

Sincerely yours,

Dear Sir(s),

I suppose you have received many wild and unbelievable letters on flying saucers, but please believe mine!

I was staying at my friends at the time. We were walking west down to our soda bar after school, when we saw the odd looking object. At first we thought it was just a plane but, there were different physical changes in the shape as the object soared closer to the trees.

TIME - 5.10 p.m - THURSDAY - MAY 4, 1966 - NIAGARA FALLS
DIRECTION - no real direction - stayed stationary
SHAPE - OVAL (egg shape) | position but soared up and down from time to time.
HEIGHT - about 50 ft. above tall poplars.
DURATION - five minutes roughly.
COLOUR - Pinkish and grey
SOUND - a continuous humming.
ANGLE - I could only see the bottom and the side.
SIZE - little larger than moon.
CONDITION OF SKY - only a few slight wisps of clouds.
MAIN FACTOR - two claw like hands and ~~a~~ green beam - I am not to sure about this as it happened very quickly.

After my friend and I had seen the saucer for

approximately five minutes, the saucer soared with tremendous speed and disappeared.

I would of notified someone earlier but I didn't know who to inform. When Science digest came out I saw the UFO's on the front so I bought the book for my own interest.

Sir: I would very much appreciate it if you would please send me all your available UFO pictures available to you. I am 13 years old (thirteen) and am very interested in astronomy and the UFO.

Yours truly,

[redacted]

Proposed reply to letter from [redacted], 13 December 1966

Dear [redacted],

This is in reply to your letter of 13 December 1966 in which you report an unidentified observation. The United States Air Force does not investigate sightings outside the continental limits of the U.S. Therefore, we filed your sighting for information purposes.

Enclosed is a brochure on Project Blue Book which describes the Air Force's program on unidentified flying objects.

Flying Saucer Over Belvidere

Noticed First By Girl, 8, While Playing With Dog

A "sparkling orange and green inverted saucer which turned completely white at times" hovered over Belvidere for more than an hour last night. According to Mrs. Bruce Stewart of 401 Mansfield St., the object had "square windows on the bottom—like an observation room—and actually looked quite large." Although, she added, it appeared to be quite a distance away.

EASTON EXPRESS, FRIDAY, MAY 6, 1966

The saucer was first noticed by Mrs. Stewart's daughter, Holly, 8, who was playing with their dog near their home shortly before 9 o'clock. Holly called to her mother, "Mommy, look what's coming!"

Mrs. Stewart and her other children, Robert, 10, and Kim, 5, joined Holly.

Mrs. Stewart said the object "made a circle around the house and then seemed to come to a standstill above the trees across the street." Mrs. Stewart noted that the saucer began to glow red and green. "I thought it would burn out, but it just stayed there." She got her husband's field glasses, she said, to compare the object with the stars in the sky. "But the stars were not like the saucer at all," she added.

Mrs. Stewart called her husband at his place of business, Stewart Chevrolet Co., but was told he was at a meeting. She then called a neighbor who said she was "busy packing her husband's lunch." However, another neighbor, Mrs. Joseph McDonald, responded and looked at the object through the binoculars. "Maybe the reports of flying saucers are true," she commented.

"Kim was quite upset," Mrs. Stewart said. "She thought the Martians were landing." She said her son wanted to take pictures but "we didn't have the film for taking night pictures."

Mrs. Stewart gave up the vigil at 9:30 p. m. to put the children to bed. When she went outside again at 10 p. m. the object was still there, she said. "But," she said "when my husband came home at quarter to 11, it was gone."

Asked if she planned to keep on the lookout for flying saucers, Mrs. Stewart commented, "When I walk the dog every night I'll take the binoculars along. The neighbors will probably think I'm a Peeping Tom."

OFFICIAL U.S. AIR FORC

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6th (not sure) / May / 66
Day / Month / Year

2. Time of day: 9 (Hours) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Ta...ter Ave. / Berwyn / Pa.
Nearest Postal Address / City or Town / State or County

5. How long was object in sight? (Total Duration) _____ (Hours) 2 (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes _____ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

An extremely bright camera flash

12. The edges of the object were:

(Circle One)

a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other_____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force UFO form

14. Did the object disappear while you were watching it? If so, how?

no

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

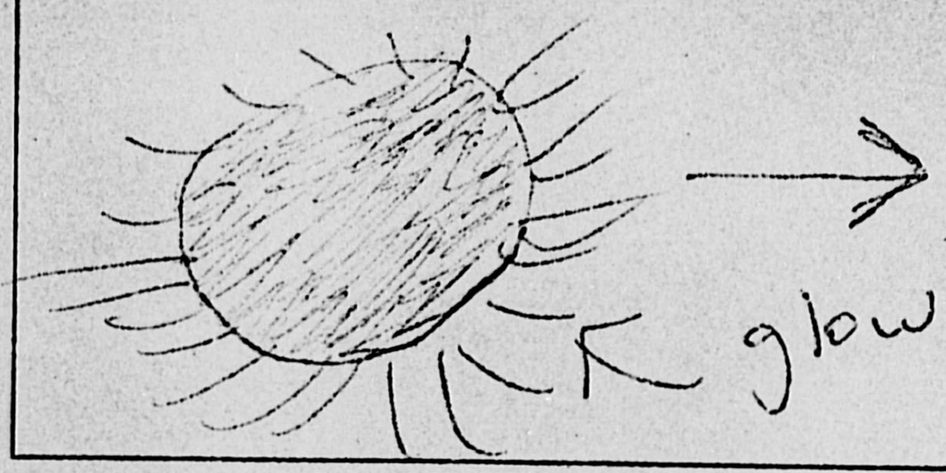

17. Tell in a few words the following things about the object:

a. Sound none

b. Color yellow

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can est

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 100 - 200 mph

21 Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One)*:

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

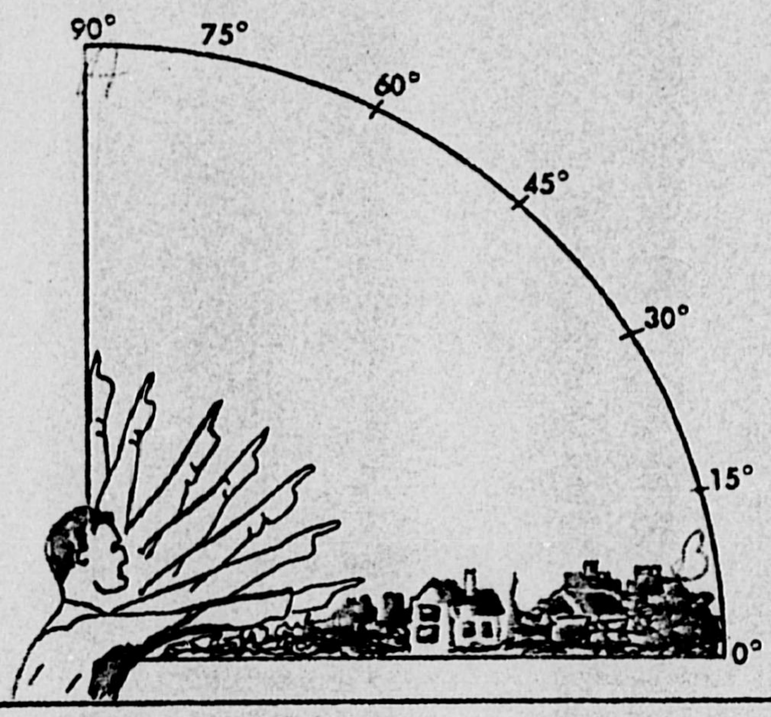

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

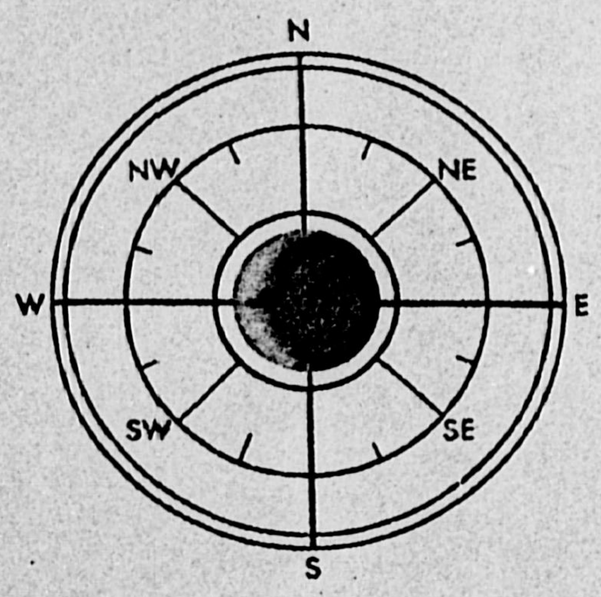

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A very bright camera flash for a couple of seconds, then just an object the size of a star.

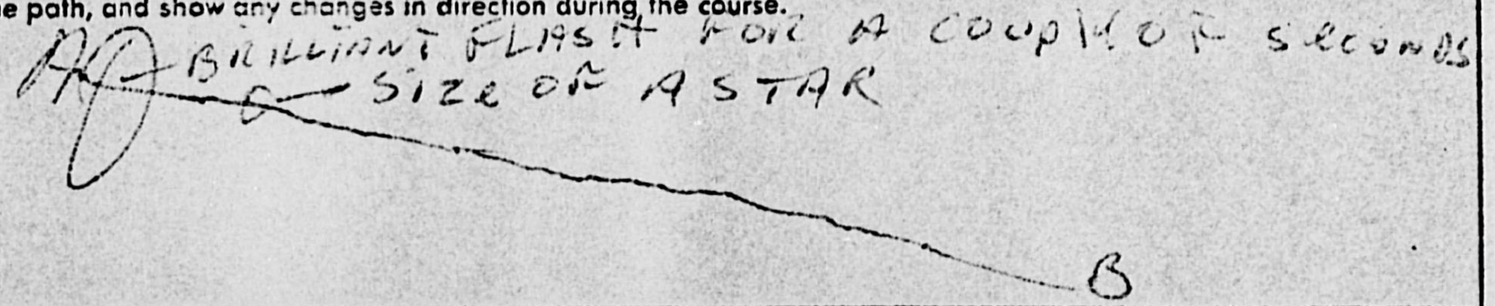

Official U.S. Air Force UFO for

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

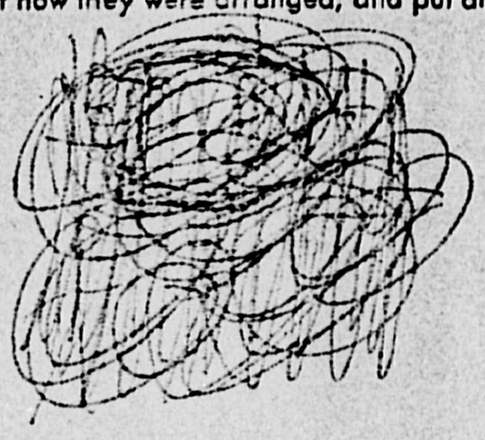

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

100 CASE INFO ONLY 14 MAY 66 ?

Call from [redacted] Battlecreek, Michigan, 17 May 66 (phone area 616 265-11 ext 6171?)

I saw an aircraft, a Navy blimp. Checked with the radar boys. Have seen it enough times that may be we can identify blimp. 60 - 70 feet long, 17 - 18 feet in diamter, hydrogen fired. Because of its take off speed and the way it appears, 45 deg angle, comes in between 30 - 45 deg. Comes in over the hills. When he takes off on Saturday. From the time he ~~last~~ raises up nad lifts his nose, gradually takes off and systems up. Out of sight 30 - 40 seconds. Seen this many times. Two story blimp, the engines in the bottom sctry. Talked to radar people and they didn't have anything (Kustard) that's why he is worried. Talked to Navy officers and some of the naval aviators and they said they never had anything on it. One boy said that it wasn't picked up on radar. He got this from his friend at Kustard. Saw it at 11am. Figures that it is an experimental aircraft. When it comes to him it scarees him. Nothing about this craft that basic physics cannot built. This thing is probably firing through a tonguexton arc. Said that Custard AFB was going to send us a report but he would send his writing about what he saw so that we would be helped in identifying it and that maybe it will solve other cases.

Call to P.I.O.
