The same feeling came over me <sup>as the last one</sup> before I sighted the UFO. I was <sup>saw</sup> ~~as~~ <sup>going to</sup> go to bed and I looked out at the stars. It was like something wanted me to look outside. I looked out the window at the stars - the North star was just shining. Then I caught something in the trees the object; then 3 times it gave off big flashes like 20 flash bulbs. It moved in the direction I wrote down and then went off ~~big~~ like someone turned the light switch off.

Like something drew me in to look outside.
