Dear Sir,

On Monday evening, May 30th,  
about 9 P.M. I saw a flashing  
white light high in the sky.  
It had no sound to it and it  
was travelling East. It wasn't a  
minute later that another  
object travelling West of Haweysburg  
appeared and it looked to be round.

It seemed to be about 1000 ft  
off the ground with red, green,  
and white flashing lights. It  
was traveling about 100 miles  
an hour and sounded something  
similar to a low flying jet.

But wasn't quite as long. It

Was a clear moonlight night

most the air very few clouds. I haven't  
ever seen any thing like it before.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The reason why I came to see the object is I saw a bright flashing light in the sky going West and continued watching it until it appeared out of sight and then I seen the other object coming in the opposite direction and watched it until it went out of sight. I didn't think the other object was important but if it is it was a white bright flashing light very high in the sky and going very fast probably going twice as fast as a high flying jet.

I thank you
