U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

31 (Day) May (Month) 1966 (Year)

2. Time of day: 6 (Hour) 40 (Minutes)

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
(d. Pacific)
e. Other _____

(Circle One): (a. Daylight Saving)
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Central Valley (City or Town) California (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 2 (Minutes) _____ (Seconds)

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? radio

5.2 Was object in sight continuously? Yes _____ No ✓

6. What was the condition of the sky?

DAY
a. Bright
(b. Cloudy) some

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
(d. To your left)
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Electric Street Light

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

The object disappeared while standing still. Never did move in any direction.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

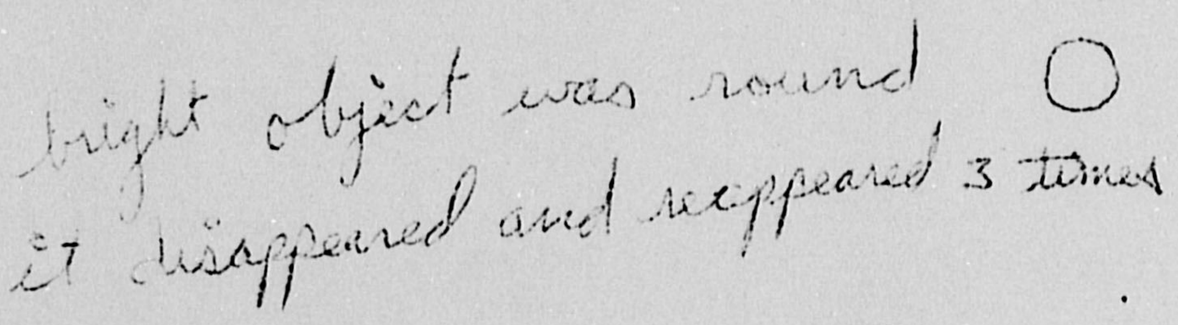

a. Sound none

b. Color white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

$\frac{3}{4}$ of it would have been covered.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 5 - 6 miles

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

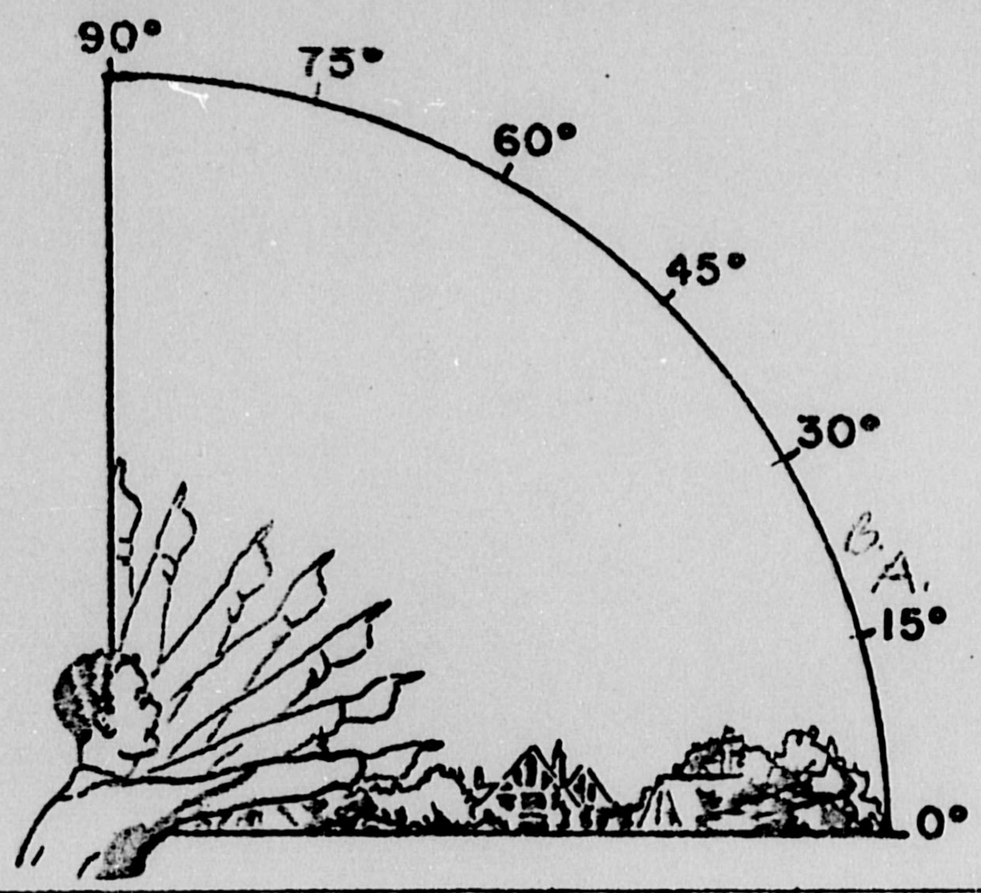

25. Did you observe the object through any of the following? none of these

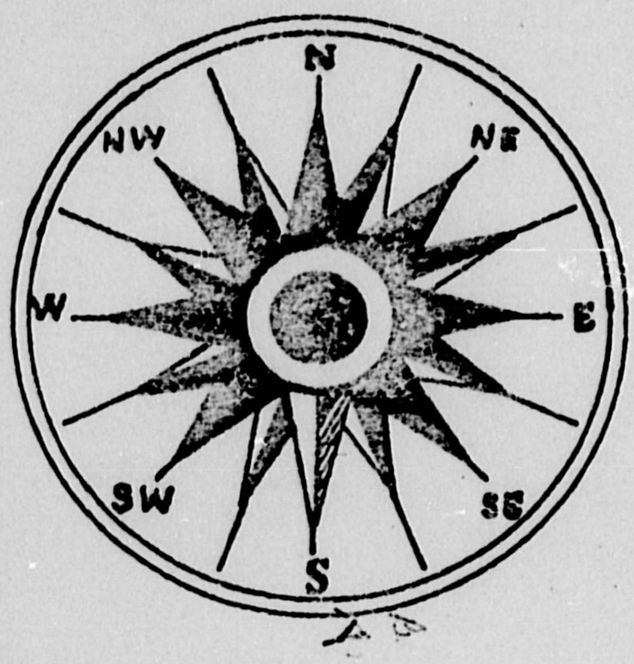

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

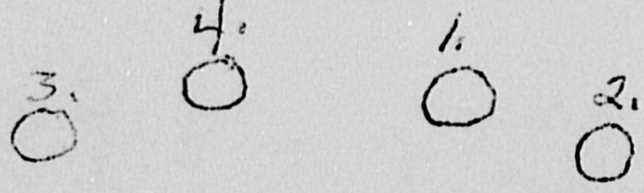

a bright star is all I can think of.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

5-11, 12, 13, 14, 15, 16, 17, 18, 19 and 5-21-23, 24, 25, 26, 27, 28

all dates at same address - [redacted] Blvd, Central Valley, Calif

31. Was anyone else with you at the time you saw the object? (Circle One) Yes (No)

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name — First — Middle Name

ADDRESS [redacted] Central Valley — California
Street — City — Zone — State

TELEPHONE NUMBER _____ AGE 29 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

? May 1966
Day — Month — Year

[redacted] works at [redacted] Lumber Co.
Central Valley, Calif

34. Date you completed this questionnaire: 2nd (Day) June (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Gentlemen, again I shall tell you that I have friends who also see these lights. This summer we shall take pictures of these lights as we now have rich people backing us. As soon as we get a good picture, then all newspapers shall see a picture because our story will be for sale. We'd much rather keep quiet + sell our story and pictures to the Government.

The Government will learn of our success only from Newspapers if they continue to show no interest. Again, I shall tell you that people not of our planet control these things. We know that the Government has a Saucer that came from another planet from another universe back in 1936. Men, food, and books was also found. Thank you Gentlemen for your time.

Mr. [redacted]
Education: High School
Occupation: Mail Clerk

Mrs. Robert Devoe
39 Gardner Street,
Waltham, Mass.

PLACE: Newton-Watertown, Mass (Near Watertown Arsenal)

TIME: 10:00 PM EDT

BACKGROUND:

Miss [redacted] came to me at Sylvania with note of the object that she, her boyfriend and cousin had witnessed. The picture she drew of the object was impressive as it was near-identical to the objects sighted over Beverly, Mass. on April 22nd.

SIGHTING:

The witnesses described an oval object with bright rotating red, green and white lights. Its apparent size was that of a dime held at arms' length. Its brightness was compared to that of the moon which was also visible in the sky. [redacted] first noticed it hovering and alerted others who joined her in an automobile to try to get closer to it. At the closest point it seemed to be about 800 feet away and at fairly low level. Lower than airplanes normally fly. It was in the vicinity of the Watertown Arsenal. Total viewing time varied with witnesses between 5 - 10 minutes.

EVALUATION:

None of the witnesses are trained observers but all were certain that the object was not an aircraft because it was flying slow enough to see its oval configuration clearly. Due to a very busy schedule we were not able to check this sighting out thoroughly as we would have liked to. I was told by others that a radio station announced sightings of a UFO over Watertown that evening but this was not followed up. Nothing appeared in newspapers reporting UFO sightings on this night. Although there is much information to be desired in this sighting, I felt as if it should be reported because of the similarity of the witnesses' description to the Beverly, Mass. and other sightings during the months of March and April.

Respectfully submitted,
[redacted]

5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc.

6. Position of the Sun or Moon in relation to the object and to you. I DON'T KNOW - MOON

7. If seen at night, twilight, or dawn, were the stars or moon visible?

8. Were there more than one object? NO If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. IT APPEARED SOLID AND WAS REVOLVING

10. Was the object(s) brighter than the background of the sky? YES.

11. If so, compare the brightness with the Sun, Moon, headlights, etc. BRIGHT LIKE THE MOON

12. Did the object(s) — (Please elaborate, if you can give details.)

a. Appear to stand still at any time? YES
b. Suddenly speed up and rush away at any time? YES
c. Break up into parts or explode? NO
d. Give off smoke? NO
e. Leave any visible trail? NO
f. Drop anything? NO
g. Change brightness? YES
h. Change shape? NO
i. Change color? THE LIGHTS CHANGED ITS COLOR - GREEN, WHITE, RED

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.

14. Was there any wind? - NO If so, please give direction and speed.

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? NO What?

16. Did the object(s) have any sound? NO What kind? How loud?

17. Please tell if the object(s) was (were) —

a. Fuzzy or blurred.
b. Like a bright star.
c. Sharply outlined.

18. Was the object —

a. Self-luminous?
b. Dull finish?
c. Reflecting?
d. Transparent?

19. Did the object(s) rise or fall while in motion? YES

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? I WAS RIDING IN A CAR, AND IT CAUGHT MY COUSIN'S EYE.

22. Where were you and what were you doing at the time? RIDING IN A CAR

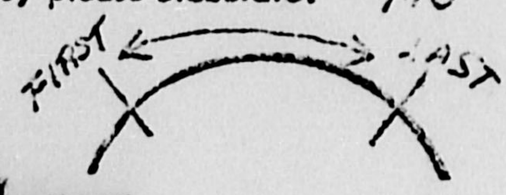

23. How did the object(s) disappear from view? DISAPPEARED AS IT GLIDED AWAY

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. IT WAS SLOWER THAN A PLANE, BUT IT MANEUVERED VERY QUICKLY.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. — NO

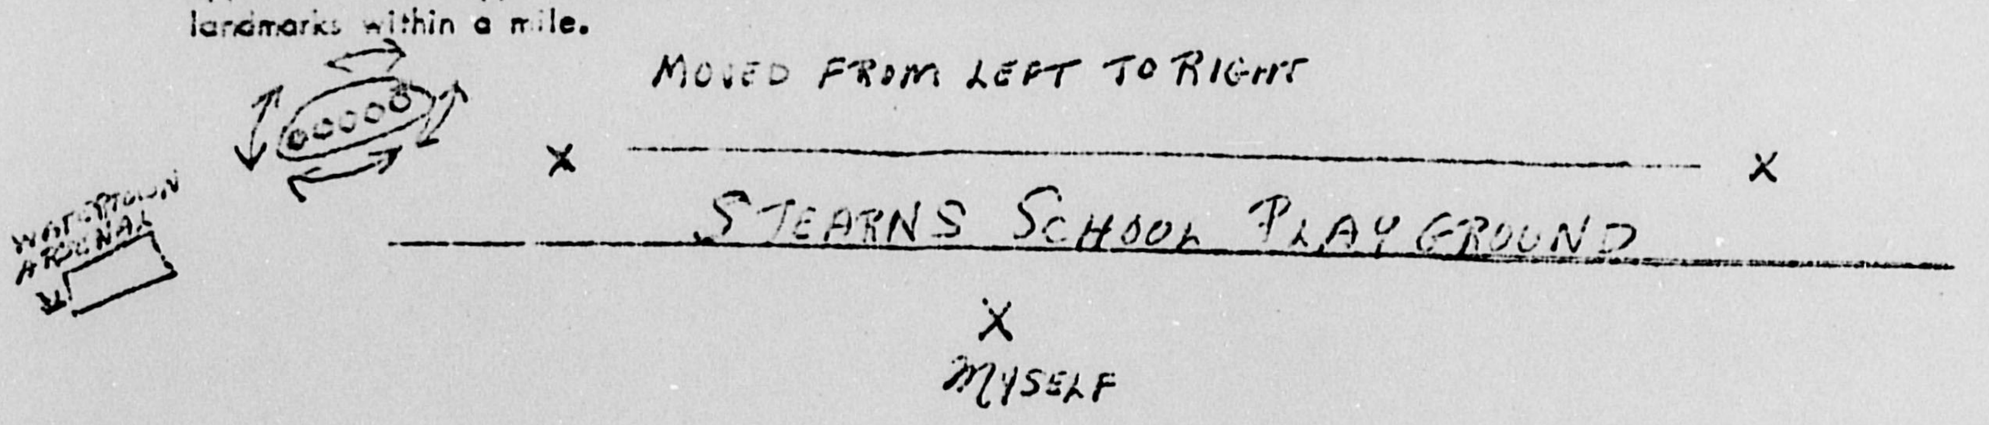

26. Please estimate the distance of the object(s). 700 FEET

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. [redacted]

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? YES. WATERTOWN ARSENAL

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully.

May whom it may concern,

On the after noon of May 17,1966 between 11:30 + 12:00 A.M. I glanced out the window at the ~~xxxxxx~~ twins next door,and I saw a object that looked like a spool of thread. It was over a field about 900 6r more feet away. I dont know how high it was, just that it looked like it was over a woods. It looked like it was made of some shinny metal. I could see some kind of material around it. I was looking at it for three min. When I was looking at ~~xxix~~ it ~~xxj~~ it just hovered, until it desappered. That night I was watching the 6:00 news and they had people on tv that saw UFOs that day. I never though of sending it in ,because I never though of sending it in before.

Kind Sir:

There is ~~aa~~ a flying object I seen. I'll try and discribe it for you. I thought something was on fire in the sky. I twist around a long and gave a quick jirk and made a smoke ring about 2 ft across. Then there was this object it look like this drawing.

1. the nose was cut off
2. was made of strips & painted dull color
3. is nickle
4. look like glass.
5. the body was white.

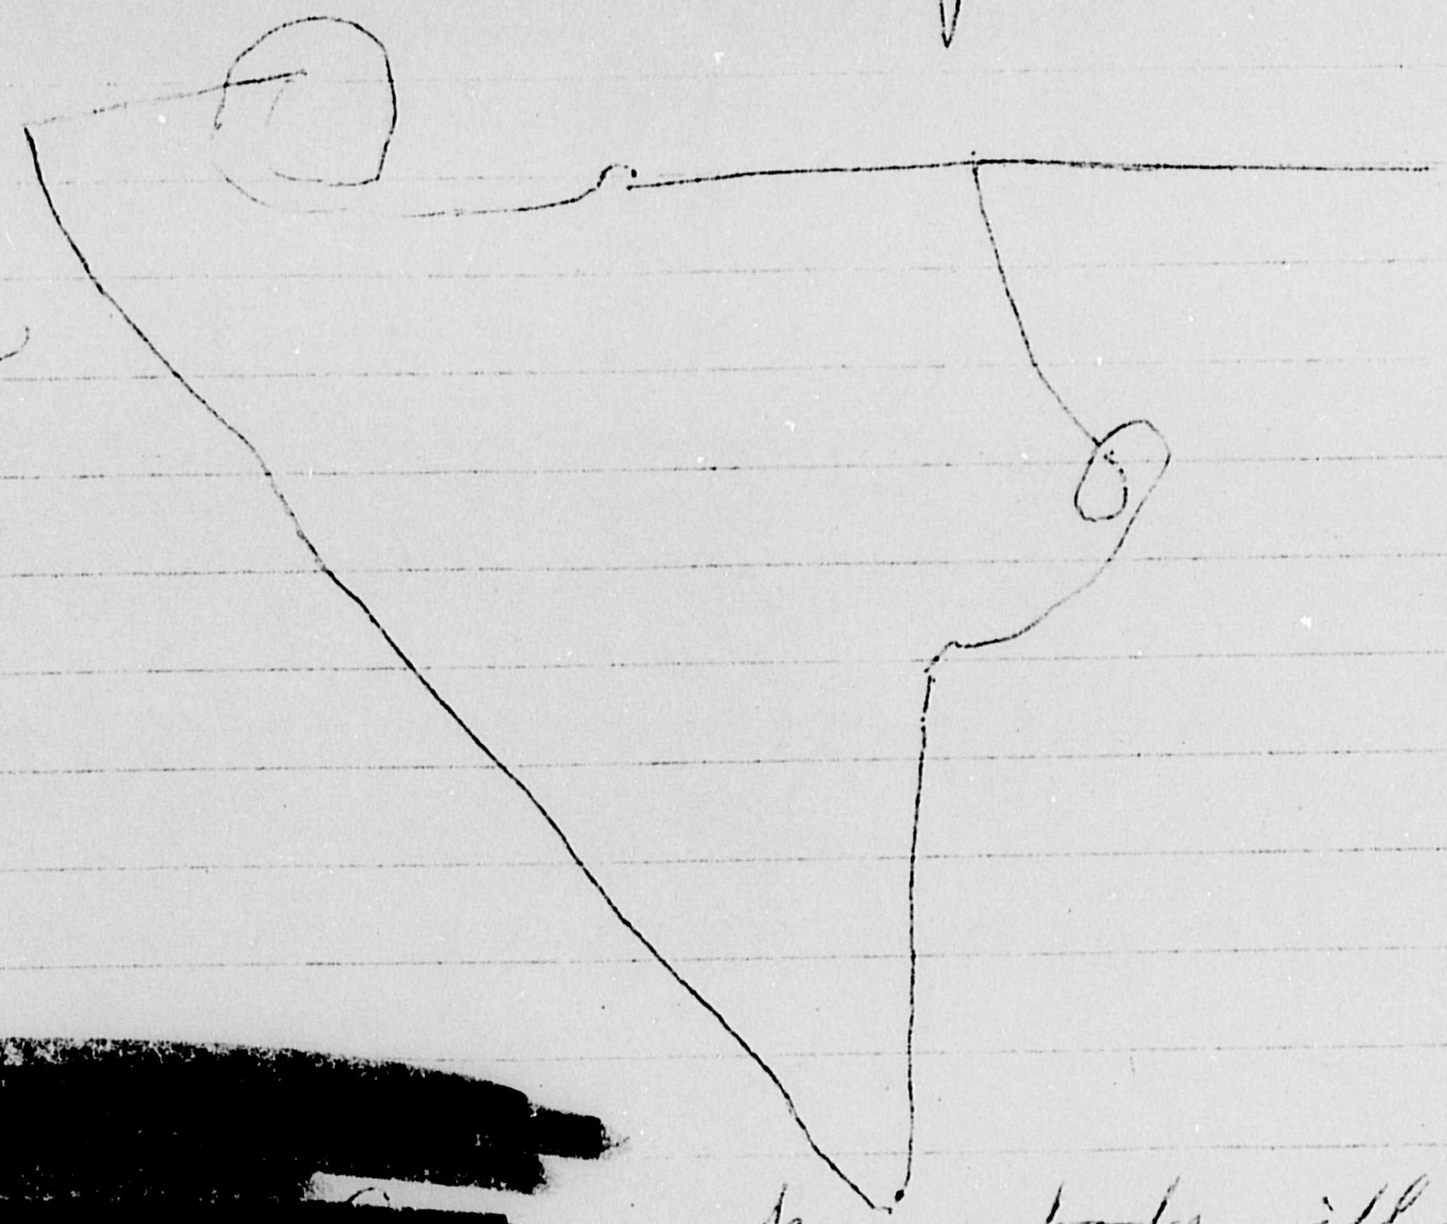

I saw it from my dinning room window. Then I went in the Kitchen and saw the trail of smoke in when straight east as far as I could see. Then I went back to the dinning room and look at it again like a flash is was gone. I went to the window and I seen the

smoke screen above the house so I went out side and watche watch it travil across the sky in a smoke screen. It left a heavy

puff of smoke from the nose ~~of~~ which cover it as it trail along. I seen about ⅓ of ½ of the object that is all that came out of the smoke screen it was very large for I will try to tell you how it trail across the sky. It came straight in from the east. here is how the smoke trail it left behine. best I can draw. I lived in Easton when I seen this object The date Mar. 13, 1945 the day Tues. the time 2 P.M.

HOPEDALE UFO SIGHTING

Tuesday evening on the 24th of May 1966 at 8:15 p.m. my sister-in-law, Helen E. Zampino, and I, Annette M. Strapponi, went to the back yard of her home to watch the skies for anything unusual we might see in the heavens. (We have done this very same thing many times before) There were low hanging clouds, but the stars were visible here and there, directly overhead. Looking toward a south-easterly direction we could see a bright red star-like object above the tree tops in the sky. We saw this about 8:30 p.m.

I also have several pictures that were ta

orce UFO form continued

After watching it for a while we crossed over to the rear of my house. From there we could see another red object that was more toward the east, just about the position where the moon rises, although it was now in the west and in the first quarter. We then went back, to watch from the other position. Both these objects could not be seen from the same position because of the trees obstructing the view. I gave up my watching to go home.

Before entering the house, I went once more to the rear, and just as I looked up I saw a large red object with a silver dome, crossing very silently, from east to south-west. I ran very quickly to look from the other position. Helen was still watching. As I arrived it had just crossed over the high tension wires, behind the trees, and out of view. As I began to turn I said "LOOK", and to the left, from the very same direction, came another and another, and, another. Four in all. The first having the lead was out of view; but the three following were one behind the other. We could see all three at the same time.

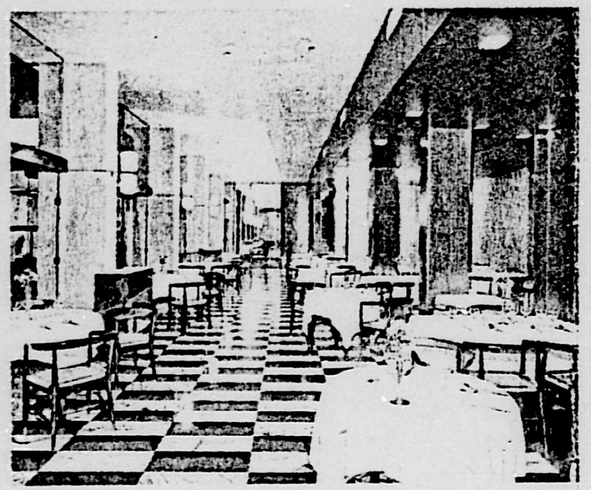

We listened for some kind of sound but heard none. The time was about 9:30. The other two red objects reduced in size and turned to white. The time was now between 9:30 and 9:45 p.m., and we also sighted a USAF experimental plane flying overhead. At first we thought it was another UFO but soon realized, from the span of the wings, that it definitely was a plane with all the bright lights that lit up the craft so that it created a beautiful sight, almost directly over our heads. About 10:15 p.m. both red objects vanished.

Probe Comment: These two ladies are very sincere and open-minded; not excitable or seeking publicity - but rather - willing to share what they have seen with others.

It was a very nice interview and we are happy to present it in Probe. Thank You.

Dear Sir,

I hope you will forward this letter to the correct office. It is a description of an "Unidentified Flying Object" (UFO) which my wife and I saw last night.

First seen: 1:00 AM ± 5 minutes, 24 May, 1966.
Duration: 6 ± 2 minutes
Location: Room [redacted], Minerva Hotel, Florence, Italy.
Appearance: Looked like a very bright white star, brighter than any visible in sky at time.
Course: Heading up from horizon towards big dipper. Passed through big dipper pan & turned (left (West)??); Disappeared about 60° West of pan. Speed not constant, but variable. Almost stopped at times. Course not straight, but slowly changing, appeared to be wandering slightly.
Other obs.: Clear sky. Disappeared by slowly fading out over a period of 5 to

10 seconds, in a region of closely spaced, clearly visible faint stars (i.e.: not lost in a cloud). No aircraft of any type seen during this period. Heard one conventional commercial type aircraft for one or two minutes during this period, but sound came from different direction than UFO. Otherwise very quiet night. So far have heard no one else mention seeing this. My home address is

Gentlemen,

I am writing a report concerning several UFO's witnessed by myself and several others who were with me at different times.

The first and most prominent one was an object I saw flying between my home and Kansas City. The object, when I first saw it, was about the size of a street light at a distance of one hundred yards away. This was on the night of May 23, 1966. The object seemed to be shaped as thus:  . It was glowing a dull orange-red. I watched it, as it went through a series of manuvers, for approximately half an hour.

It seemed to be looking for something. It would hover, then descend to the horizon, hover,

repeat the maneuver.

Then it stopped for a few seconds and seemed to be just about fifty feet from the ground. The height, of course, is only an estimate.

Suddenly the intensity of its glow increased ~~enormously~~ immensely and it flashed off toward the south, ascending at about a 30° angle to the ground.

But then where it had stopped the appeared another one who repeated the change in light and followed the first. I watched them until they had gone.

The night had been a dark one, with no moon or clouds to be seen anywhere. I observed them from my bedroom through a pair of 5X binoculars.

For about a week after, both my family and I watched several UFO's which were in twos & threes flying at a very high altitude.

at a party by a lake when three
flew over flying southwest in what
seemed to be an formation, ° ° °, like
this. These were very high, and but
brighter than any star I've ever seen.
Each was a single white light.

The reason I was so long in
contacting you was because I didn't
have an address.

I am in the Air Force now and
I think I owe it to my country
to tell them that there is something
in our skies that doesn't belong there.
Our duty is to gain and ~~maintain~~
maintain air supremacy throughout
the ~~skies~~ skies. But, gentlemen, I
I think we've lost that goal
simply because were to ignorant
to except what we don't understand.

I thank you for your time.

Sincerely,
