35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

This is an honest & true picture of 2 vehicles, solid & rotating slowly, moving slowly in a uniform line, one behind & a little above the other, definite outline of 2 discs with superstructures & square windows, approx. 4 all rotating together a bright orange glow from within square windows, a row of "sparkle" like lights across lower body, rotating in a line with body as if stationary, not appearing as a reflection nothing noticeable on outer ring of objects. definite squares on a brownish like lower body, giving the impression of a "turtle shell" or "checkerboard". No sound noticeable. Definitely not aircraft or helicopter. (This is an exceptionally good sighting, that can only be defined as very weird, unexplainable. Weather balloons, reflections, clouds, gasses etc must be ruled out in this case. This was just at dusk, just light enough to see all features & yet dark enough to see lights & "sparkles". Bottoms of objects not visible to observer.

Mon. June 6-1966 approx. 9:25 PM. Over Potato Lake  
12 miles east of Spooner, Wisc. on road 70 Wisc.  
2 revolving brightly lighted, disc shaped, objects plainly

visible, superstructure plainly visible, very bright orange  
light most noticeable in superstructure. One <sup>obj.</sup> immediately

between Stone Lake + Hayward Wisc. mainly, N.E.

Different colored lights on main bodies of objects revolving.  
Skies very clear, no clouds, stars visible, this sighting was  
preceded by strange behavior of water in lake, much like  
gently rocking of fish bowl, no sound of boat motors, absolutely  
no sound from "Objects" at all, This was followed by  
the sighting of very bright, obj. a "satellite" crossing horizon from N x N.W.  
to S. x S.E., approx 25 or 30 <sup>East</sup> from Zenith, brighter than any star  
or planet in sky, moving very slow, taking 30 min or so to cross

①

Dear Sirs,

I am writing this letter more or less as a report on 2 unidentified flying objects, seen by my wife, & accompanying incidents witnessed by myself. I hesitate to report this to local authority, on insistence by my wife for fear of ridicule, harassment etc. as usually accompanies such reports. My wife was so taken aback by this, I spent nearly the entire night trying to calm her nerves. She describes the 2 objects as, very beautiful, weird, as I write this letter, she says the experience was as though she were witnessing the civilization of another world in action. Please bear in mind, this is not another "sack of potatoes" or "hallucination" report, but rather

②

one of a very serious nature. Ridicule or not,  
I feel it my duty to report this incident  
so someone of proper authority can  
weigh its value. Following is a  
description of our experience, close in  
detail as we can gather. My wife & I  
were fishing on a quiet, calm evening on  
Potato Lake, 12 miles east of Spenceville  
one He was 70. It was still light  
enough to plainly see any aircraft or "fly"  
in sky, & yet just dark enough to see  
bright stars & any light in sky.  
The lake began to act up, much  
like the gently rocking of a fish bowl  
then shortly after my wife noticed  
2 circular, distinct, brightly lighted  
revolving, objects, with bright orange  
light in superstructure & revolving  
lights on main body, no sound  
what ~~was~~ so ever. Low in sky

one directly behind & above the lead object. My wife watched in astonishment & then called my attention, but I wasn't in time to see objects nor did I hear any sound. I more or less passed it off as a meteorite until she began to describe "Vehicles".

Her description: 2 disk like, undulating brightly lighted, definite outline of superstructure, Beautifully, orange light in upper section, lights on main section revolving with main body. Definitely not an airplane, helicopter or conventional aircraft but something unbelievably constructed & controlled. This was followed by very bright satellite obj. crossing horizon shortly afterwards. This obj or satellite was apparently, very high taking 30 minutes or so to cross

horizon.

Accompanying letter is much the same information, but written down immediately after incident to better preserve details.

It is my very sincere & honest opinion that this ~~last~~ incident warrants attention, & utmost consideration should be given this report.

Sincerely
