U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

17th or 24th (Day) of July (Month) 1966 (Year)

2. Time of day: 10:00 PM, 0 (Hour, Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
(b.) Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): (a.) Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Belleville, ~~Illinois~~ (City or Town) Illinois (State or County)

5. How long was object in sight? (Total Duration) ½ (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

We watched the objects for about ½ hr and then quit watching.

5.1 How was time in sight determined? My Brother went outside during a commercial on T.V. at 10:00 PM,

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b.) A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

(a.) Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
(b.) Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
(c.) Sharply outlined
d. Don't remember

e. Other _____
_____
_____
_____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

No.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound I never heard any sound only of cars & trucks on the super hyw.

b. Color Sort of grey with red green & blue lights shining brite & Dim

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? These two objects were cone shaped and were approximately 24" high x 18" wide. and were 1 mile away 3000 ft high and about 1 mile apart.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

The holes represent lights and the objects weren't moving at all

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? Eqatly 1 mile

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
(c.) In open countryside?
(d.) Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

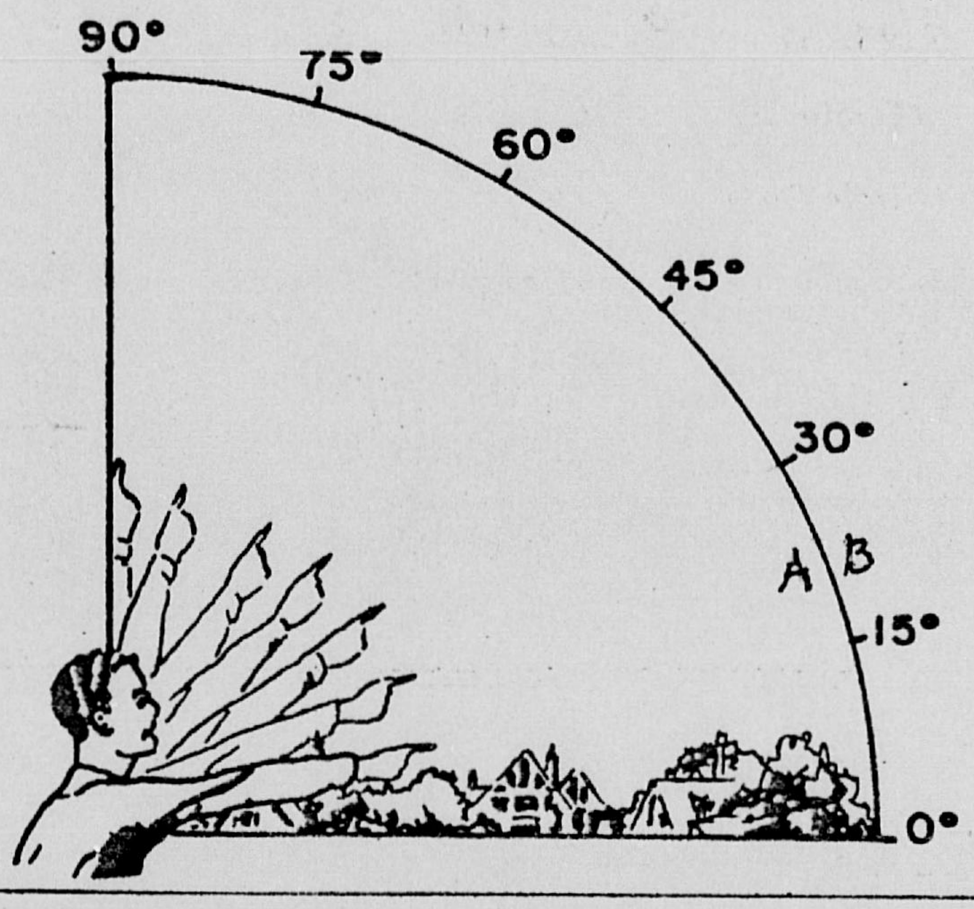
25. Did you observe the object through any of the following?

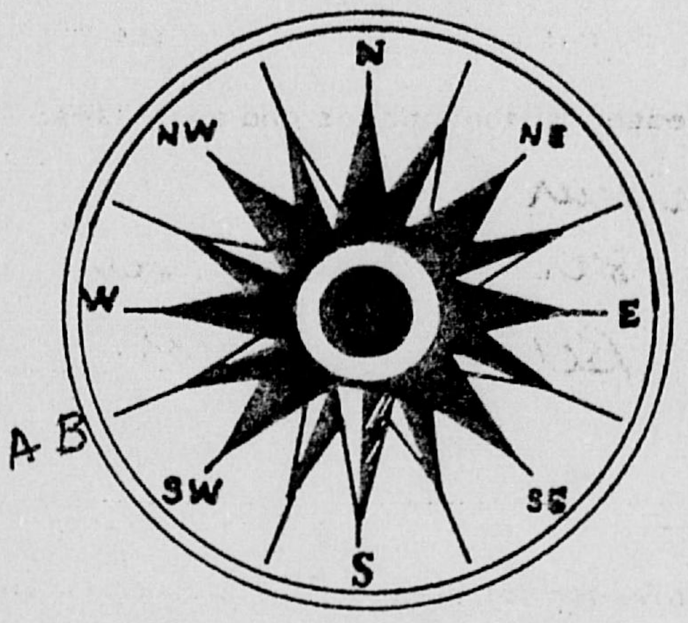
a. Eyeglasses Yes (No)
b. Sun glasses Yes (No)
c. Windshield Yes (No)
d. Window glass Yes (No)
e. Binoculars Yes (No)
f. Telescope Yes (No)
g. Theodolite Yes (No)
h. Other Naked Eyes

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Two coneshaped balloons about 24" X 18" with red blue & green lights going brite & Dim on a clear moonlite nite.

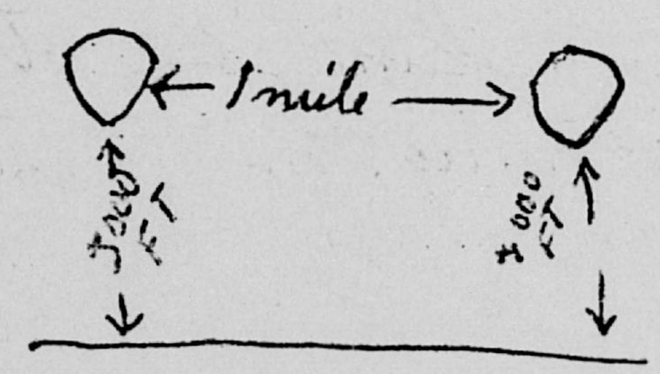
27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2 & an airplane
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.



They weren't traveling in any direction at the time we were watching them.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

I have seen a fiery cigar shaped object loom upwards thrue the clouds toward Scott Airforce base but this thing didn't have any wings that I could see this was 5.50 A.M. Aug 24, 1966

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

ADDRESS [redacted] (Street) Belleville (City) ___ (Zone) Illinois (State)

TELEPHONE NUMBER _____ AGE 43 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I am always on the lookout for clues of this sort as I know there have been strange objects for quite sometime I am really trying to figure out how they are powered I think it is strictly by electricity such as that of lightning. The only thing is to harness such power for useful purposes.

33. When and to whom did you report that you had seen the object? I didn't tell anyone because I thought they were air boys used for guiding planes in at nite since they didnt move while we were watching.

Day Month Year

34. Date you completed this questionnaire: 3rd (Day) Nov (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting. As I said before these objects whatever they are must be powered by a sort of electricity taken from the atmosphere. Most people think they are probably driven by some sort of fuel but thats impossible since there wouldnt be no storage space for such extras Now atomic energy in some advanced form could provide just that type of power without having to have too much of a payload. Since these objects that are usually seen changing directions at 90° and dart off at enormous speeds you know there isnt a wieght factor at all. You ask yourself how can these objects stay airborne without wings well they probably create a heavy atmosphere around themselves much like the earth as a whole has around it. And then too these objects could have forced helium type gas inflated chambers to keep them afloat this would eliminate a few pounds of for as flight is concerned. They ~~do~~ say a fish in a tub of water wont weigh a thing unless he touches the bottom or lays on the bottom of the tub could this sort of thing be true with flying objects in space. I sure hope this information is helpful because if these objects are foriegn someone probably has the jump on us and thats not so good.

Dear Mr. [redacted]

The information which you provided in your letter of August 1 is insufficient to substantiate a valid explanation for what you observed. Request you complete the attached FTD Form 164 to aid in evaluation and return to the Office of Information, Office Secretary of the Air Force, The Pentagon, Washington, D. C. 20330.

In reviewing your plan for "air boys" to guide airplanes to their landing, I feel that you should submit your plan to the National Academy of Sciences, National Research Council, Attn: Office of Information, 2101 Constitution Avenue, N. W., Washington, D. C. 20418. This office, on national level, has the responsibility for evaluating new theoretical proposals and inventions.

Thank you for your letter; I hope you will find the above information helpful.

Sincerely,

GEORGE P. FREEMAN, JR.

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound no sound

b. Color we disagree on the color at first sighting; white and orange were the colors

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? Too little surface area to speculate over; the object was judged against the railroad bridge that it was above.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

My wife and I sighted this "bulb" above the rail-road bridge in my home town. We observed it at first, and then proceeded across the Sabine River bridge into Texas. It moved with tremendous speed until it reached Joaquin, Texas, and then we were able to keep in close range as we made our way down a farm and market road. We were what I consider extremely close as it would go out completely and re-appear on the opposite side of the road. At times it would stop complete, and we assumed it was actually waiting for us to catch up. Finally it would approach us, especially once when we made a wrong turn. After a while, it cut directly across the farm-land back to the Tenaha, Texas highway. we made our way back to this highway and got close to it again. I got out of the car at a point approximately half way between Joaquin and Tenaha, Texas, and foolish as it may seem, Tried to contact the ship verbally. I would disappear and reappear just to my right, and then it was on its way toward Tenaha again. When we reached Tenaha, we could follow it no more because the ship followed a path

with no access road, so we went to my home, told my parents, and them phoned our friends.

We own a beach resort and after closing July 4, 1966, we took our employees down to the beach and had a fireworks display. I wasn't there during the display but after it about ½ hour we all were going to take a swim,(The Special Officer I mentioned on other page stood on a Jetty thats a wooden plank protruding into the bay to hold the sand on the beach).
Mr. [redacted] and I went to the beach to wade into the water when I saw this object which I thought to be a falling star and I said"don't look its a falling star, (which to my family means there will be a death in the family) We turned and when we looked [illegible] again it hadn't fallen but was coming toward us and much lower, it got brighter and moved in a sigsag motion, we called to the officer on the jetty and ask him to see if he could tell us what it was, at first he said it was a Jet. then he said,"No I've never seen anything like it" He called to the others in the water and they were so frightened by it they got out of the water and we all stood on the beach and watched it. At this point it had come very close to us and then went to the right and very high under another ball of lite ### and they both went higher until we couldn't see them.

There were just two of us as we watch the place at nite. I was waiting for my daughter to come home from a date and out on a picnic table we were having a coke, about 12.25 and I looked up and saw this thing I thought was a star at first move and sigsag accross the sky I showed the person I was with and watched it,(my daughter had come home in the mean time and gone inside) We called her out to see it and she at first thought it was a plane but after watching it said it couldn't be.(She flies a plane and works at Lee's Airport Edgewater, Maryland.

I have seen more but no one would even know they are not stars if they haven't had the sightings I have had.

Gentlemen:

My name is [redacted] and I would like to submit the following UFO report:

On July 6, 1966, at approximately 6:30 P.M., I happened to glance toward the western sky. As I looked, I noticed a silver metallic cigar-shaped object travelling slowly across the sky. The object had a light on the bottom and had a wobbling motion. After three seconds, the object disappeared behind a cloud, hidden from my view.

Recently, I submitted this report to the National Investigations Committee on Aerial Phenomena and this committee was very interested in my report.

So that a picture of the object might become clear in your mind, I have

drown a sketch of the object. I
assure you this sighting is no
hoax.

Yours truly,

Proposed reply to letter from [redacted], 29 March 1967

Dear Mr. [redacted]

Reference your recent letter concerning your observation of an unidentified flying object on 6 July 1966. Since you have just reported the incident to the Air Force, a detailed scientific investigation is not possible. If you had reported your observation to the Air Force shortly after 6 July, a meaningful scientific investigation would have been possible. The report will be filed for information purposes only.

Thank you for reporting your observation to the Air Force.

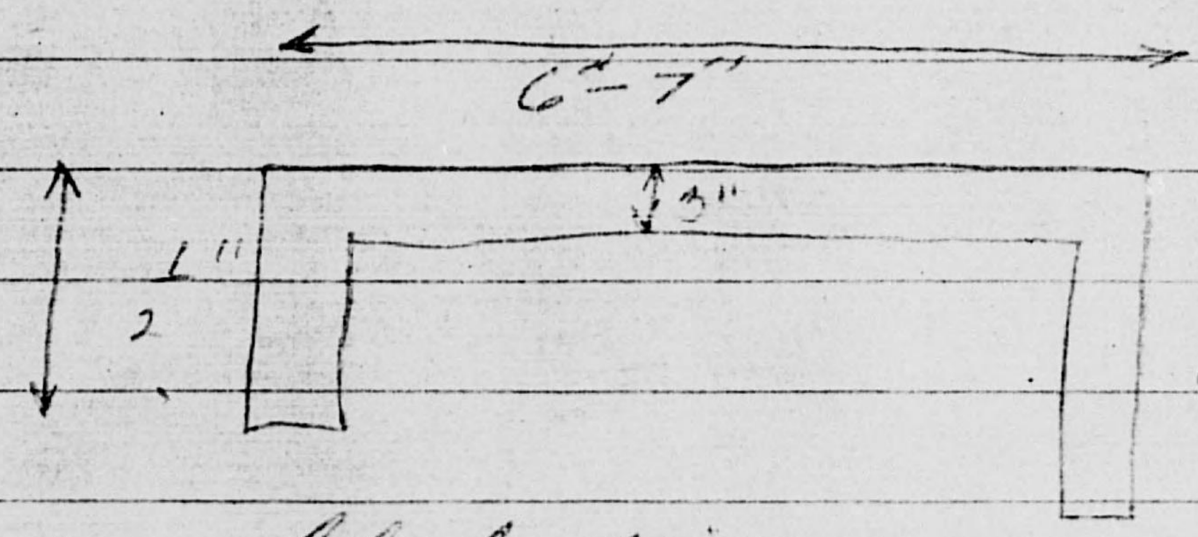
Mr. [redacted]

Dayton, Ohio.

Mr [redacted] called at 1830 hours, 13 July 1966 and stated that he had an object which fell from the sky and struck an automobile. He said that no one was near by who could have thrown it and no aircraft was overhead at the time. The object he stated was made of brown synthetic material and had the dimensions as shown below:



a flat piece less than 1/16" thick, (had an odor as if from a radio)
