APR 11 1967

Dear [redacted]

Reference your unusual photographs which were forwarded to our office for detailed photographic study.

Photographic analysis revealed the following: Slide #1 is a normally exposed good quality transparency with one water spot or chip in emulsion probably caused in processing. Slide #7 may also be a good transparency, highly magnified. It may also be some object or reflection of some shape other than shown, but made to appear as two lobes with high lights and shadows by the extent of or lack of focus. The higher the magnification, the more focus can alter the image's size and shape. The image on slide #7 could be of an object, a light source, or a reflection of a light source. Any identification from the submitted photographs would be only speculation.

Your interest in Project Blue Book is appreciated. I am returning your slides. Thank you for submitting them to the Air Force for evaluation.

Sincerely,

GEORGE P. FREEMAN, JR.

PHOTO ANALYSIS REPORT NR 67-9

DATE OF REPORT 14 February 1967

SUBJECT UNIDENTIFIED OBJECTS, CLINTON, MISSOURI

LOCATION CLINTON, MISSOURI DATE Aug, Sept, Oct 66

PHOTOGRAPHY

AF _____ IR _____ QUALITY _____

P NRS 6 - 35 mm Color Transparencies, 6 B&W 8 x 10 Prints, 6 - 35 mm B&W Negatives

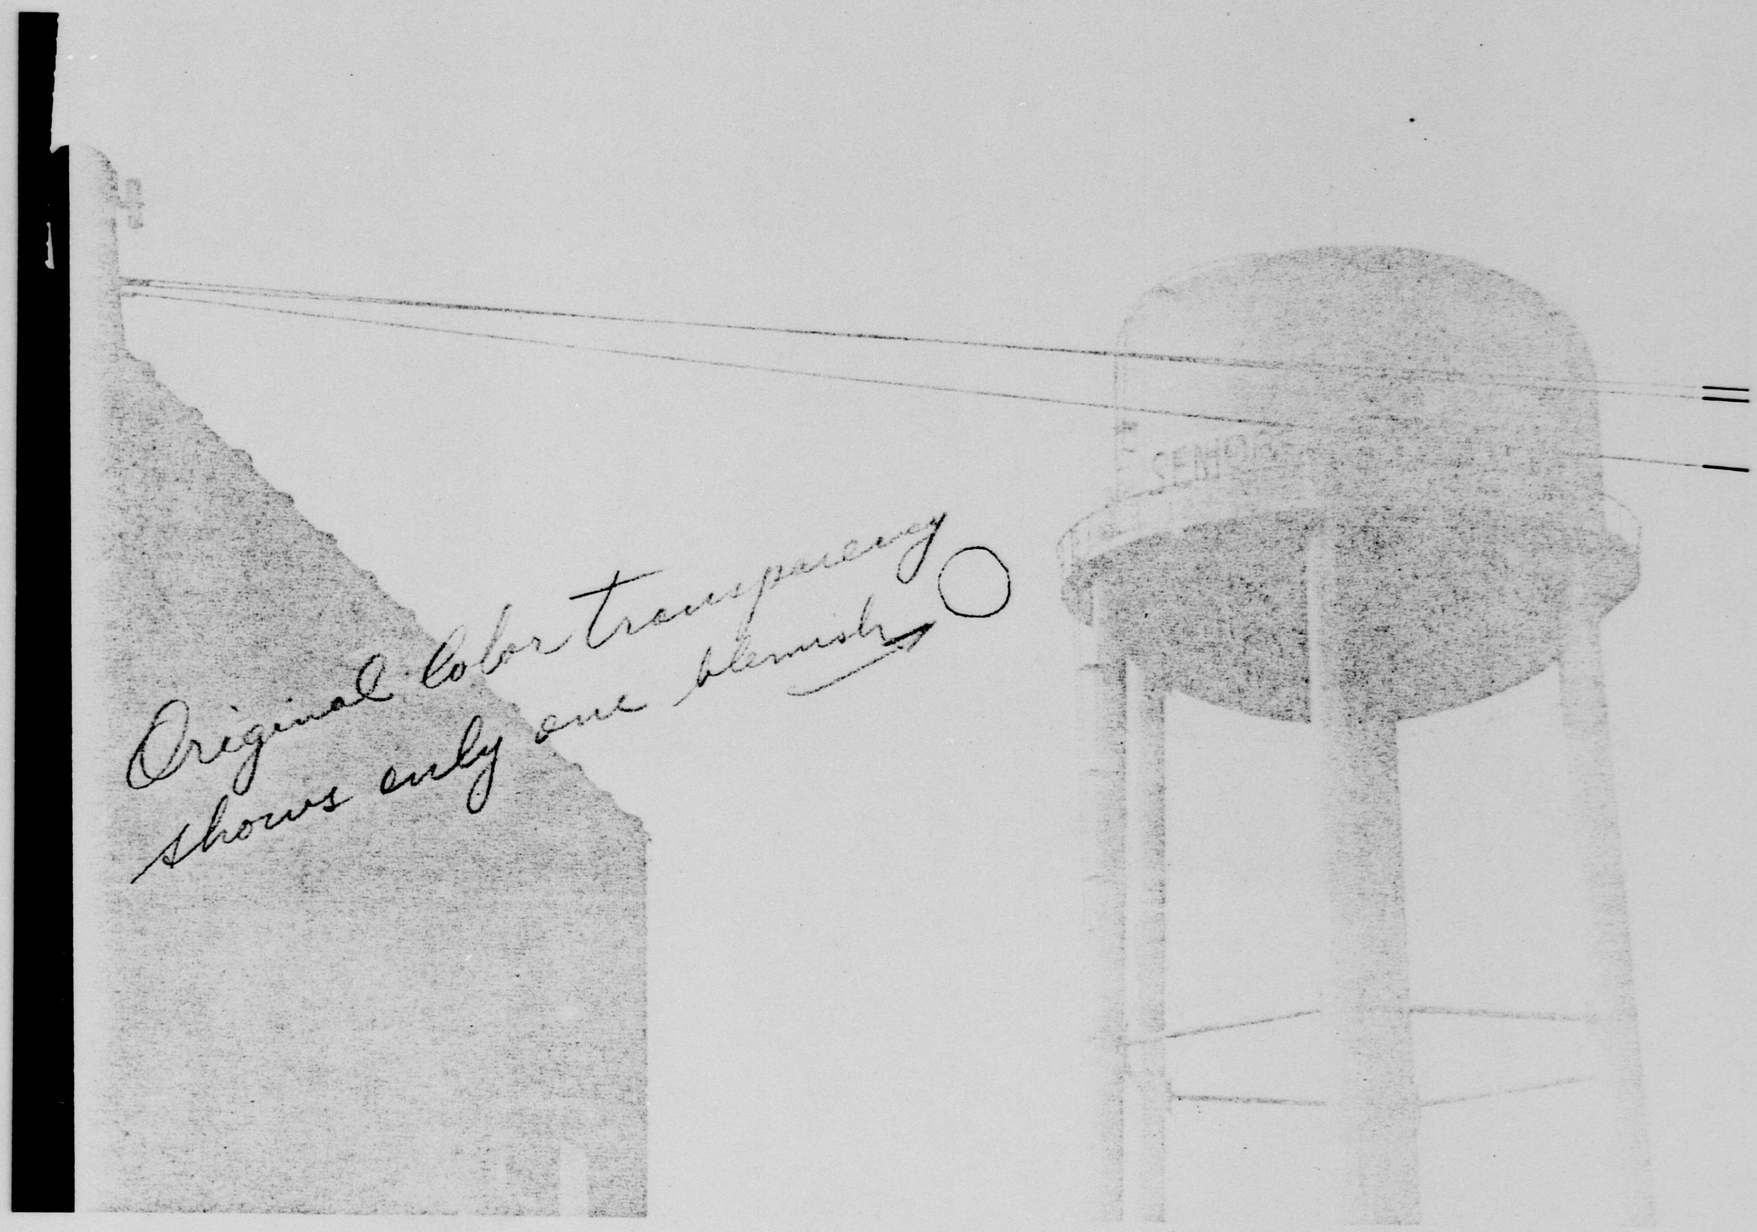

1. PURPOSE: The purpose of this report is to answer Work Order Number 67-12 submitted by Major H. Quintanilla, Jr. for an analysis and determination of the objects' identities, if possible.

2. ANALYSIS:

a. Slides #1 & #7, from [redacted] appear to be as follows: #1 is a normally exposed good quality transparency with one water spot or chip in emulsion probably caused in processing. #7 may also be a good transparency, highly magnified. It may also be some object or reflection of some shape other than shown, but made to appear as two lobes with high lights and shadows by the extent of or lack of focus. The higher the magnification, the more focus can alter the image size and shape. The image on slide #7 could be of an object, a light source, or a reflection of a light source. Any identification from the available information would be only speculation.

b. Slides #10, and #11, from [redacted] were taken in the hours of near darkness and slides #12 and #13 were taken in daylight. All four of these slides appear to have been taken through the same window and nearly along the same azimuth. Slide #10 shows what appears to be a light source, airborne or elevated above the horizon. Slide #11 shows the same light source, or a similar subsequent light source in the same approximate position, dependent upon the time lapse between frames, but of a longer duration. A slower shutter speed on frame #11, as compared to #10, would produce a lighter transparency, capture more of the movement of the object and make the object or image appear longer. These conditions have been met in frame #11 which is of lighter density and has a longer image. An aircraft landing light could produce such images.

c. Slides #12 and # 13 show linear patterns such as of smoke, gas, vapor or exhaust trails. These patterns appear in approximately the area as the lights or reflections in slides #10 and #11. The linear patterns of the object in slides #12 and #13 are nearly parallel to the apparent movement of the light in slide #11. The similarity of implied motion in three of the four slides, #11, #12, and #13, suggests numerous objects traveling in the same area and same direction, such as traffic on an airport approach or airway.

Original color transparency shows only one blemish

JUN 13 1967

Dear Mr [redacted]

Reference your recent correspondence regarding your observation and subsequent photograph of an unidentified flying object (UFO).

Examination of the submitted negative has negated double exposure and/or retouching. Close inspection of the negative revealed many smaller images in addition to the bright image which is visible on the prints. These smaller images appear to follow a course parallel to the path of the bright image indicating that the camera was moved rather than the images moving as the photograph was taken. Notation should be made of the fact that the images are located in the trailer section of the film and not in a normal frame position. Without specific details, there is no way to determine what produced the images.

The description of the visual observation is consistent with that of an aircraft sighting. Jet aircraft operating at altitudes above 20,000 to 25,000 feet can be easily observed; however, unless proper conditions prevail, they cannot be heard. Lack of sound is not a valid reason to exclude an aircraft. After detailed investigation, it appears an aircraft could have been responsible for the sighting although it was not photographed.

Thank you for reporting your observation to the Air Force.

Sincerely,

BARNETT B. YOUNG

Gentleman of the Air Force:

I have photos of a UFO. You people will call it something else, do to the fact that you put down people who try to prove to the people of the United States that life does exsist on other planets, if they are in our time and space or not.

My name is [redacted] I live in Minneapolis, Minn. I saw I UFO on a clear sky over Minneapolis. The object was going south in the eastern sky. It was not a airplane do to the fact that a airplane makes sound. I heard no sound, and as the picture shows-no running lights. I losted the film somewhere, and was, not able to find it,(I took picture in late August or early October). I did find it and had a negitive made at the PAKO film company in Minneapolis. The object did not pass over head. The object was in the sky at about ¼ of the overhead sky to the ground. (see ill.)

Time: was about 7:00 & 7:30 pm. No airplane was around at that time.
Path was zig-zag. Shutter of camera was open at about 4 to 5 seconds, camera was also not moving and was on a base that did not more. Checking, I find out, shows that fireballs, comets, and mademan matieal in the sky does not zig-zag.

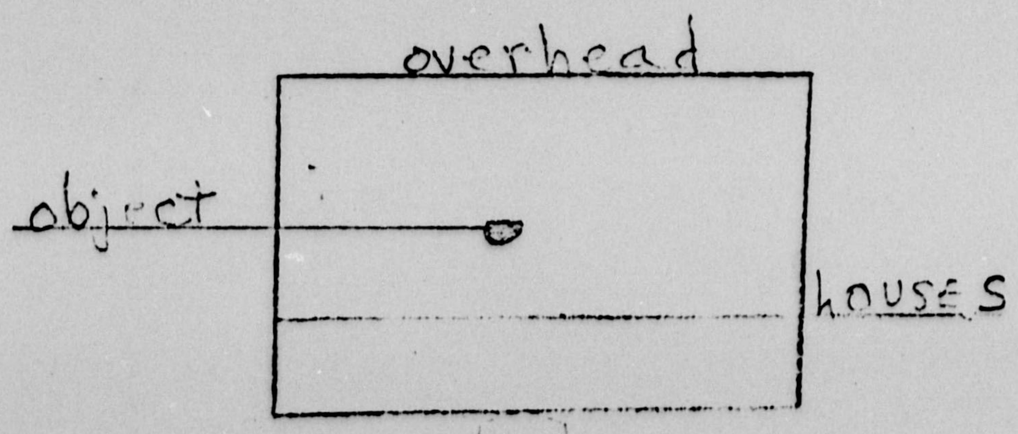

Speed was about or over 1000 miles per hour.

Color of object was orangeish-white and looked more dised than round.

Sky was clear (see stars in picture). There than, there was no lighting. It was a chilly night, and there was no heat lighting. I left shutter open to "path" the object, and to get the tail of the path of the object.
The object as far as I can tell is unknown. I have never seen a object like it. A friend of mine, who made pictues out of the negitive, said "I don't know what the object is"

Please send photo back to: [redacted]

AF _____ IR _____ QUALITY _____

P NRS One negative, one 4 x 5, and one 8 x 10 print

1. PURPOSE: This report is written in response to Work Order Number 67-43 submitted by Major Quintanilla, TDETR, requesting photo analysis of a negative and two prints to determine what the unidentified object may be.

2. ANALYSIS: The photography appears genuine insofar as content is concerned. Examination of the submitted negative has negated double exposure and/or retouching. Close inspection of the negative reveals many smaller images in addition to the bright image which is visible on the prints. These smaller images appear to follow a course parallel to the path of the bright image indicating that the camera was moved rather than the images moving as the photo was taken. Notation should be made of the fact that the images are located in the trailer section of the film and not in a normal frame position. No satisfactory explanation could be found as to what produced the images.

Please note: I did not see the objects at any time. They only appeared in the photographs. Therefore my answers will have to take this into consideration.

I firmly believe that they are the result of light refraction - but many people think otherwise.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

21 (Day) August (Month) 1966 (Year)

2. Time of day: 6 (Hour) 45 (Minutes)

(Approximtae. Just before sundown)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): (a. Daylight Saving) b. Standard

4. Where were you when you saw the object?

Westhampton Beach (Nearest Postal Address) Westhampton (City or Town) L.I., N.Y. (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) _____ (Seconds)

(See above. Never sighted. Merely photographed.

a. Certain c. Not very sure

b. Fairly certain d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes _____ No _____

6. What was the condition of the sky?

DAY	NIGHT
(a. Bright)	a. Bright
b. Cloudy	b. Cloudy Sunset.

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): (a. In front of you) b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

See photo

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

See photo

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

See photo

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

See photo

20. Do you think you can estimate the speed of the object? See photo.

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was? See photo.

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea standing hip deep in ocean
f. Other with underwater camera a little submerged. Photographing sunset.

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other Camera		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

See photo.

14. Did the object disappear while you were watching it? If so, how?

See photo on all below.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: ____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: ____

17. Tell in a few words the following things about the object:

a. Sound ____

b. Color ____

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

34. Date you completed this questionnaire: Nov. 6 (Day) Nov. (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

As I have said, I ~~saw~~ saw nothing. I was standing in shallow water with the camera submerged. My back was to the sea, (east) and I was facing the sun set (west). The sun was setting over the beach in that location, of course. Since I was unsure of exposure, I bracketed the shot on the camera - A Nikonos - from F 22 to F 2.5. Only the enclosed three shots were of interest. I used Ektachrome X film.

Lt. Colonel George Freeman's letter has reached me here in Palma de Majorca - and although I filled out the questionnaire on the above date I shall have to await my return to my home in Stamford sometime later this month to get the ~~trans~~ transparencies and send them. Although the letter requested the negatives - actually the transparencies are the originals and I'd have to have negatives made from them - which would serve little purpose.

DEPARTMENT OF THE AIR FORCE
WASHINGTON, D. C. 20330

OFFICE OF THE SECRETARY

OCT 27 1966

Dear Mrs. [redacted]:

Please excuse the delay in replying to your letter regarding your photographs of unidentified flying objects. A heavy backlog of correspondence and reports has precluded a prompt response to your letter.

The Air Force would be interested in analyzing your photographs. However, we will need the original negatives and pertinent camera information (type of camera used, shutter speed, "F" stop, etc.). Upon completion of the analysis, the negatives and a copy of the report will be returned to you.

It is requested that the attached FTD Form 164 be completed as fully as possible and returned with the negatives.

Your interest in Air Force matters is appreciated.

Sincerely,

David P. Stiles Maj. USAF
GEORGE P. FREEMAN, JR.
Lt Colonel, USAF
Chief, Civil Branch
Community Relations Division
Office of Information

FTD Form 164

[redacted]
Stamford, Connecticut 06903

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No - altho' they look similar to me to refracted light shown in other photography, particularly of satellites.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) [redacted] (City) ___ (Zone) Conn. U.S.A. (State)

TELEPHONE NUMBER [redacted] AGE 51 SEX F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

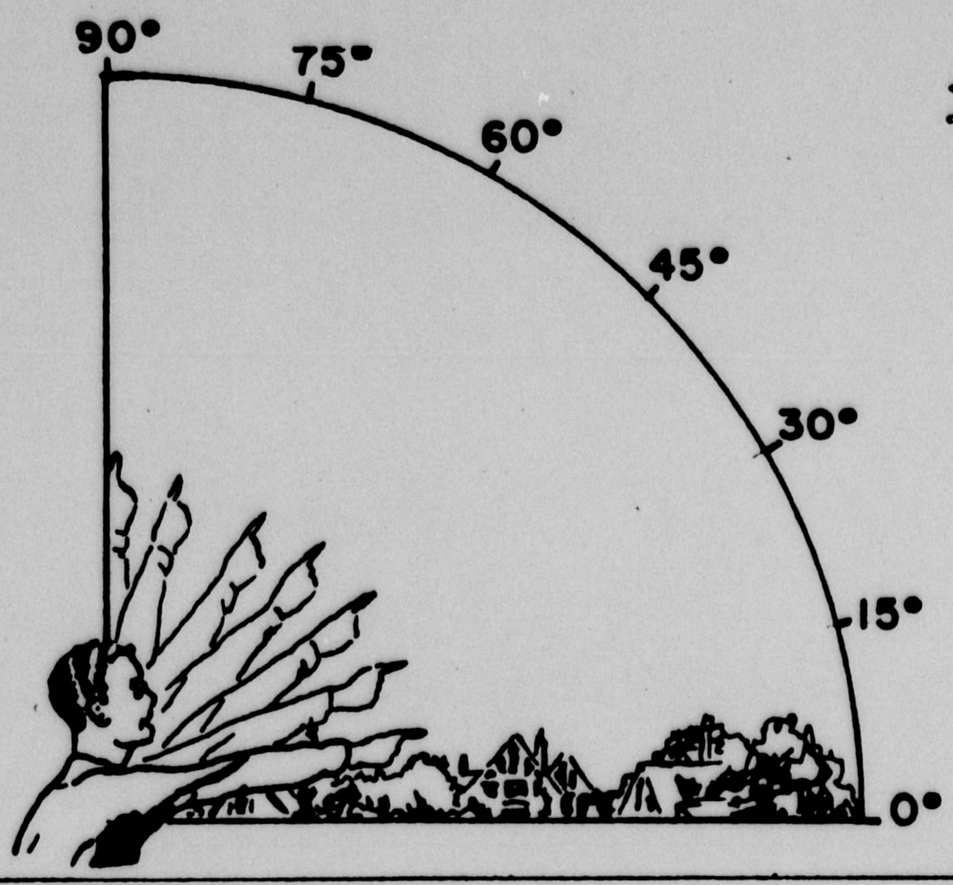

I have a great interest in photography - particularly underwater photography and the unusual effects that can be achieved by a camera underwater. (I do dive with an aqualung.)

33. When and to whom did you report that you had seen the object?

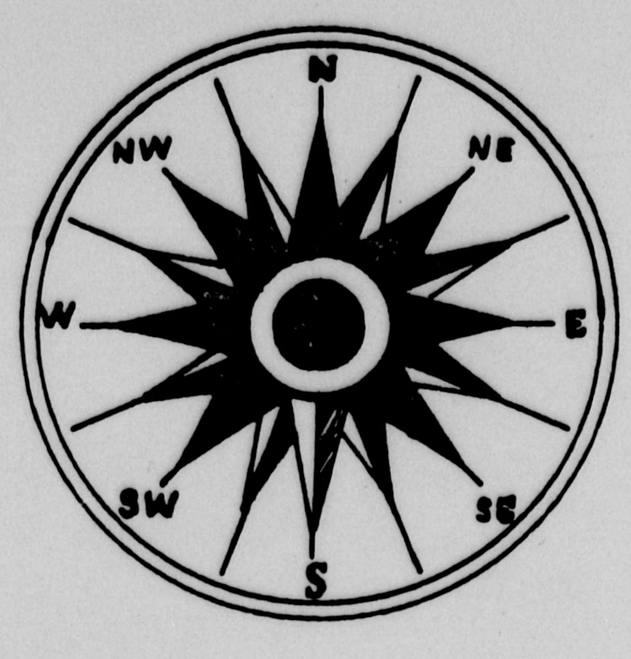

Aug. or Sept. (Day) ___ (Month) 1966 (Year)

Wrote to the Air Force. Was answered by Lt. Col George [redacted]. Freeman Jr.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

See Photo

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

See Photo

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

See Photo

Gentlemen:

My name is [redacted] and I would like to submit the following UFO report.

On August 22, 1966, at approximately 7:30 p.m. EST my friend [redacted] and I were observing the moon with my 300x reflector. (We are both amateur astronomers). Taking a brief rest,we decided to take a stroll. As we glanced into the sky we noticed what appeared to be two ordinary airplane light. Further observations, however, revealed a weird flying object with two legs. At the time, the sun was setting so features on the craft were discernible. My friend noticed that the object had two legs. Each leg had a light on the bottom. One light, red in color, was slightly smaller than the green light. As the object approached zenith, I noticed the main rectangular part of the craft. At zenith the red and green lights disappeared and all that was visible was one, large, blinking yellow light that was apparently rising in altitude, as features were no longer clear. It curved and finally disappeared in the northeastern sky. It had originated in the west. Period of visibility was one minute, fifteen seconds.

Would you please give me your opinion of the sighting?

Yours truly,

[redacted]

MAY 8 1967

Dear Mr[redacted]

Reference your recent letter reporting your August 22, 1966 observation of an alleged unidentified flying object. The late date of the report disallows a detailed scientific investigation.

We ask that reports follow observations as soon as possible after occurrence. This enables Project Blue Book's analysts to check the factors necessary to determine the cause of a sighting. If you had reported your observation shortly after the date of your sighting, a meaningful scientific investigation would have been possible. Your report will be filed for information purposes only.

Thank you for reporting your observation to the Air Force. I have inclosed the 1967 report on our project which I think you will find interesting.

Sincerely,

GEORGE P. FREEMAN, JR.

OCT 21 1966

Dear [redacted]

Your letter to the International Airport at Corpus Christi, Texas, has been referred to this office for reply.

We are unable to specifically identify the aircraft which you observed on August 23, 1966. In the Texas area, there are many conventional and experimental aircraft in operation, making it extremely difficult to locate the exact culprit. For example, General Dynamics, builders of the F-111 aircraft, is engaged in aerospace functions.

We feel you observed the ECHO I satellite on August 28 which was heading on a southeasterly direction at 2127 CST. ECHO I, with a stellar magnitude of plus 1, is easily visible on a clear night.

Your interest is appreciated.

Sincerely,

Gentlemen;

Would you be so kind as to tell me what the following flight movements were, or forward this letter to someone who can.

1) On August twenty-three at 1:20 pm I saw an aircraft moving moving over Ingleside about 85° up from the Eastern horizon. It was following a curve from West to East to North, was leaving a contrail, but was moving at an incredibly high rate of speed. The only thing that set this particular craft off from any of a hundred other high-flying planes I have seen was its high rate of speed. I would estimate strictly from a layman's point of view that it was moving in excess of 1700 miles per hour.

2) On August twenty-eight around 9:30 pm, perhaps sometime after 10:00 pm I saw what looked to be a satellite moving Northwest to Southeast. I was only able to watch it for about 10 minutes before it disappeared into the light of the moon.

Thank you very much for your kind attentions.

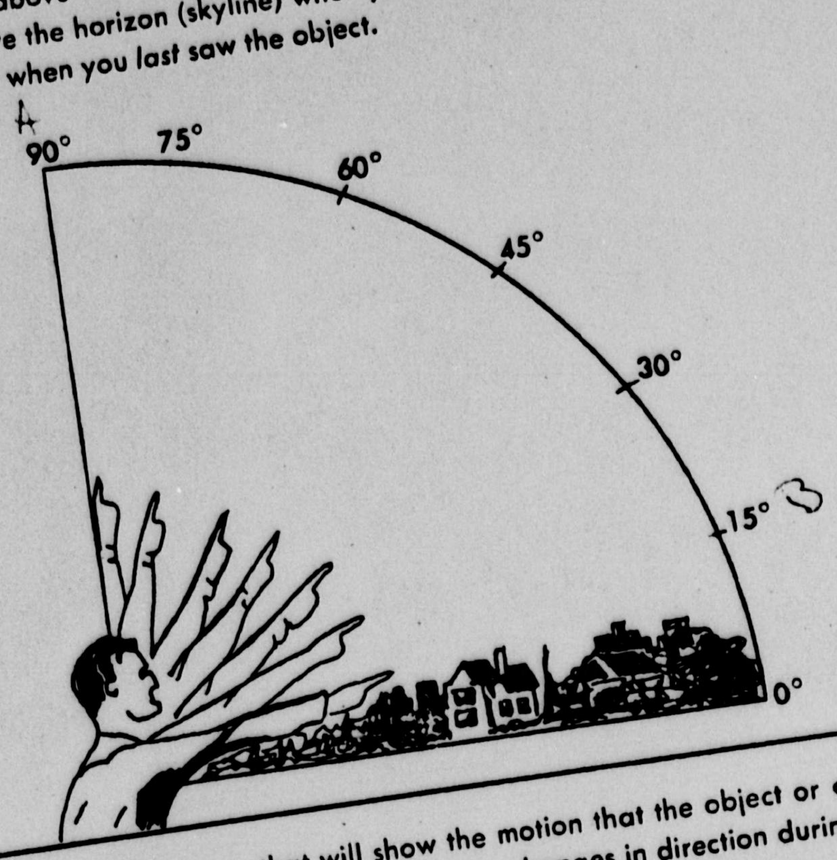

Sincerely,
WORLD WIDE TRAVEL of texas, inc.

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

I saw them at different times and at three.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Yes, at home with Dale, Talking a walk.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Nashua (City) 03060 (Zone) N.H. (State)

TELEPHONE NUMBER [redacted] AGE 17 SEX F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I've written to many people about Ufo's + Ufologists + Nothing.

33. When and to whom did you report that you had seen the object?

no one. but

_____ Day _____ Month _____ Year

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 2-3 hundred feet.

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other at an area p. 32

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other fast looking at it,		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

I've seen more than one, the all of
diffrent sounds. Some I said were
real close. A.B, diffrent ones would give
as sound that hurt my ears.
I cannot give an object that would compare.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Sir, I can't draw it.

FORCE UFO FORM

Impostrian on back sheet.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

(a) None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

(a) Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

with vapor trail. and other things

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other It was a great size. It left a vapor then exploded into different colors like vapor after it blew. a object flew out and was gone in a matter of sec. Right direction.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	(Yes)	No	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness? in a way.	Yes	No	Don't know
f. Change shape? in a way.	Yes	No	Don't know
g. Flash or flicker? in a way	Yes	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

25th (Day) 8th (Month) 1966 (Year)

2. Time of day: 6:00 (Hours) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. (Standard)

4. Where were you when you saw the object?

over Rte 3 (Nearest Postal Address) Nashua (City or Town) N. H. (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 2 (Minutes) 1½ (Seconds)

a. Certain
(b) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? after my 16th Birthday.

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
(a) Bright - clear.
b. Cloudy

It was clear during day & night hrs.

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

34. Date you completed this questionnaire: Tuesday (Day) 7 (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

There is a man he has no blood. High sounds hurt his ears.

He has no tastes. He picks his food for the energy and protein. He only has peace. He doesn't feel pain of any kind. He arrived here some time last summer on a mountain side. Than when he was walking down he meet with some friends. He says he is about 30 or 30 years of age.

His skin is a lot diffrent in colon.

He was asked about death. His answer was "you mean I

UFO form continued

have I ever experienced it?"

Then he said I have seen it since I have been here but I don't like it.

He never sleeps at anytime. No one can insult him, at anytime. He doesn't like hate of any kind.

He hesitates when he talks. He like water the best. At night all he does is look at the stars, and feels a long way from home. When he walks throug the woods he looks at the sky at times. He went back to the mountain, He got to the top, looked down and sighted a treesball down by the trees. I know his name. I know about where he is staying. There is more information but not enough room.

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

flew ~~away~~ away with tremendous speed

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color Whitish

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all of it

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

gave of white light

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? ~~1~~ 1/4 mile away

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
(c. In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving?_____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other Eyes it was clear enough		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Well it was very bright. If the sun was put up there at night that's how it ~~was~~ would be.

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

around 25 (Day) 8 (Month) 66 (Year)

2. Time of day: 10 (Hours) : _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Coplay (City or Town) Penna (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 10 (Minutes) _____ (Seconds)

(b. Fairly certain)
a. Certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes X No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Like the Sun

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

JFO form continued

Official U.S. Air Force U

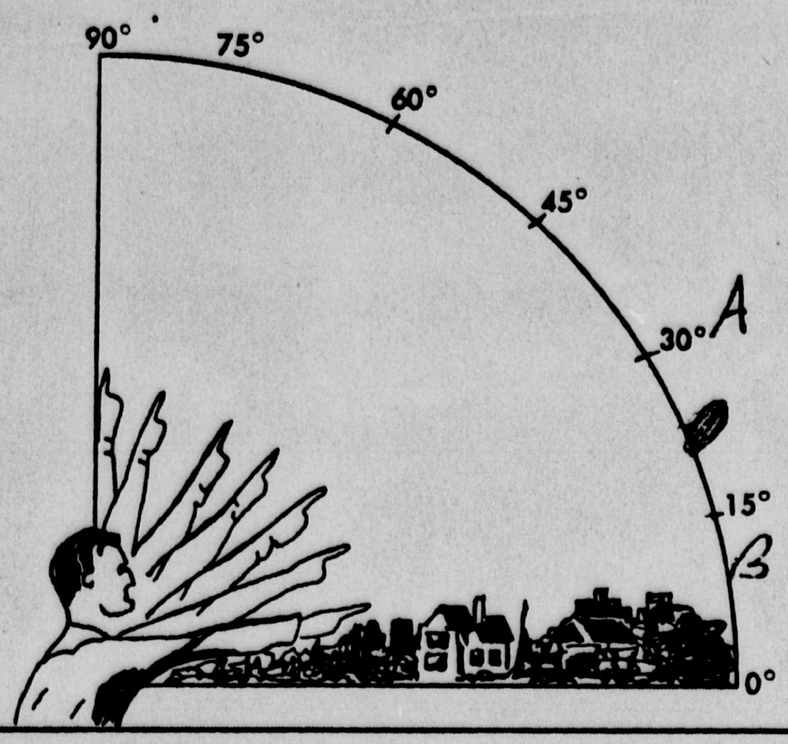

34. Date you completed this questionnaire: 11 (Day) 2 (Month) 67 (Year)

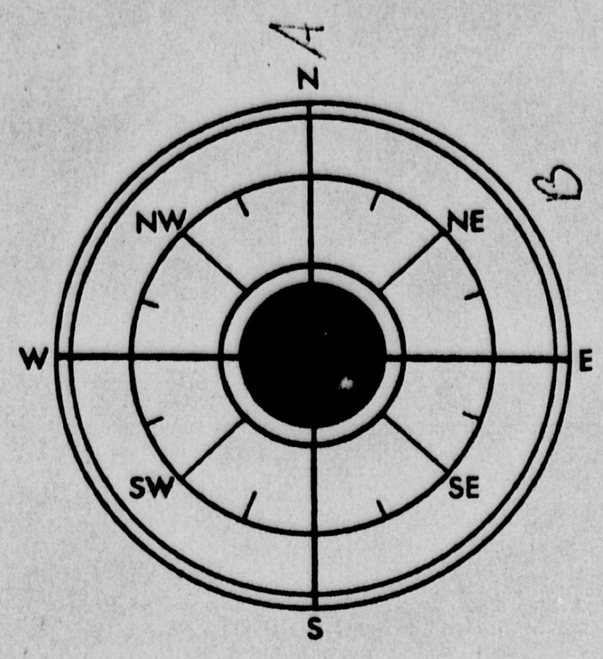

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

It was as big as the sun. But it wasn't the sun I assure you that.

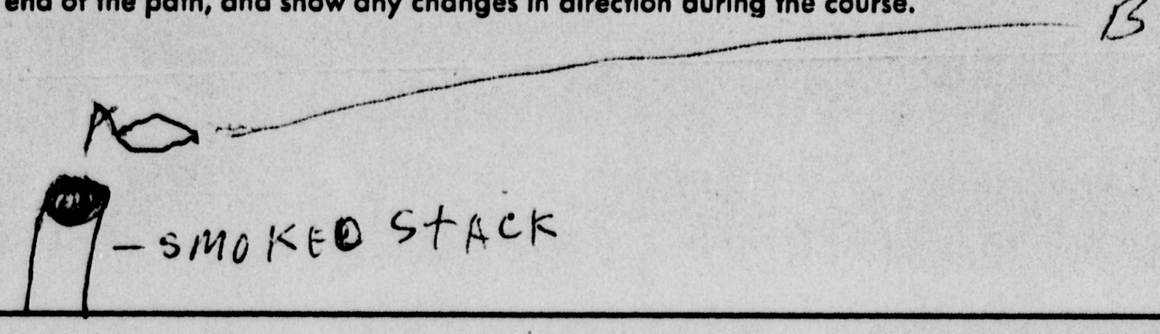

It was flying over a cement mill stoped over the stack and waited there in mid air for about 10 min. then sped off.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

It flew around a light when it took off and did all more than one came from that one and flew away

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Yes, two of them the same summer. There was a bright thing moving around in the sky at first I thought it was a satellite. But it would like this.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

The one that I saw my mom was with me.

The one that I saw two my cousin was with me.

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Bethlehem PA.
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 16 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Ever since then I got books about it. I wouldn't mind being a guy who does reports on it.

33. When and to whom did you report that you had seen the object?

Day Month Year

No one cause they might think I'm nuts. at the time, About 2 mos. later I told a couple kids.

TDET/UFO (Maj Quintanilla/70916/mhs) 19 May 1967

UFO Observation, 28 Aug 1966

[redacted]
Newark, New Jersey 07104

1. This replies to your letter of 19 April 1967 regarding your observation of an unidentified flying object. If you had reported your 28 August 1966 sighting to the nearest Air Force installation, a meaningful scientific investigation would have been possible. Each Air Force installation has its own UFO investigator whose responsibility is to gather all the pertinent information for analysis. Since, at this late date, an investigation cannot be accomplished, your information will be added to our data base.

2. Thank you for reporting your observation to the Air Force.

JAMES C. MANATT, Colonel, USAF
Director of Technology and Subsystems

Dear Sirs,

On August 28, 1966 I was walking on the broadwalk with some friends. It was 8:25 P.M. at the time. My friends went home but I stayed at the broadwalk. At 8:30 P.M. I noticed what I thought was an odd star. I went to a friends house who studyed stars. I found looking at the sky with a telescope. I asked him what he was doing he repled looking at a U.F.O. I asked if I could take a look he said yes it was the same thing I had seen on the broadwalk. Here is my description:

(1) shape: oval
(2) Yellow orange was the color
(3) size: the size of a top only in oval form
(4) number: one
(5) discernable features: blinking

(over)

(6) sound: none
. Course of U.F.O.
(1) northwest
(2) flight path: up and down and end
over end.
(3) Length of time in view: 1 hour
At 9:00 P.M it was over the ocean
and headed downward it seemed
to land in the ocean but than it
came back up a 9:15 P.M. it had moved
over the lake upon 50 feet to 25 feet up
then it went up at least 500 feet
at 9:30 P.M. The next day we
read about a U.F.O. in all the shore
area. We saw it in the same course
for 3 strait nights and never saw
it again

Yours in Christ

Aug 21, 1966

Dear Sirs,

While doing a science report, I came across Project Blue Book's address. My encounter was as follows.

Date ~~August 21, 1966~~

Time - around 9:50 P.M.

Place - Burlington, N.J. - at my home

Conditions - 1.) observation was made with the naked eye - no optical aid

2.) weather - very clear, no clouds or factory smoke in sight.

3) temperate - 80° or so

4) direction - south westerly

5.) Viewing conditions - perfect

Account - (taken from my astronomy notebook)

"A very bright all white light appeared in the S.W. sky behind our neighbors house. I guess around there since I was in the front yard and their house blocked part of the view. It disappeared behind the Packing House" (now - a Chein warehouse) "a few seconds later in a rough N.W. way. Was brighter than a street light - just like the light that the moon reflects (brightness)" There was no noise or-

MOVEMENT OF BALLOON

MATCH SUPERVISORS

CHIEFS, ARTC CENTER, MEMPHIS, TENNESSEE

THE FOLLOWING INFORMATION CONCERNS MOVEMENT OF UN-CONTROLLED BALLOON.

30-0400Z MKC CENTER ADVISED BALLOON REPORTED TO BE 10 MILES NW OF SEDALIA, MISSOURI, MOVING ESE AT 5 TO 10 MILES PER HOUR.

30-1100Z MKC CENTER ADVISED BALLOON REPORTED TO BE JUST EAST OF VIH ALT UNKNOWN (REPORTED TO BE ABOVE 59,000 FEET).

30-1651Z MKC CENTER ADVISED BALLOON OVER SALEM, MISSOURI MOVING EASTWARD.

30-1725Z MKC CENTER ADVISED BALLOON 30 MILES WEST OF FAM (ALT EST AT 55,000 FEET).

AUGUST 31, 1966

31-0022Z BALLOON REPORTED TO BE 1 MILE WEST OF PIEDMONT, MISSOURI MOVING SLOWLY SE ALT EST 11,000 TO 15,000 FEET.

31-0055Z BALLOON REPORTED TO BE 55 MILES SW OF FAM-10 MILES EAST OF J-101 ALT EST AT 50,000 FEET PLUS.

31-1145Z BALLOON REPORTED TO BE BETWEEN BYH AND ABQ EST ALT ABOVE 50,000 FEET.

31-1245Z U-2 TYPE AIRCRAFT REPORTED ACTUAL ALT OF BALLOON TO BE 56,000 FEET.

31-1428Z BYH TOWER REPORTED BALLOON BEARING 225 DEGREES FROM BYH MOVING SOUTH SLOWELY (ALT EST AT ABOUT 20,000 FEET) VISUAL STARTING.

31-1435 P-10634 T-39 SOUTH BOUND ON J-35 AT FL 330 OVER BHY REPORTS BALLOON AT HIS TWO OCLOCK POSITION EST ALT TO BE ABOVE 40,000 FEET

31-1533Z BYH TOWER ADVISED BALLOON BEARING 231 DEGREES FROM BYH APPEARS TO BE MOVING WNW.

31-1549Z U-2 TYPE AIRCRAFT CIRCLING BALLOON. POSITION 40 MILES WSW OF BYH AT 59,000 FEET. APPEARS TO BE MOVING NW FROM PREVIOUS REPORTED POSITIONS. U-2 PILOT SAYS CABLE IS ABOUT 800 FEET LONG AND LOOKS TO BE MADE OF NYLON WITH RED KNOTS TIED IN IT ABOUT EVERY 20 FEET.

31-1630Z BALLOON ALMOST DIRECTLY OVER BYH APPEARS TO BE MOVING EAST, SIGHT LOST BY BYH TOWER DUE TO CLOUD COVERAGE. AREA OFFICE AND CCS ADVISED.

31-2115Z AAL FLIGHT INBOUND TO ME ON V-11 REPORTS BALLOON TO BE AT HIS TWO OCLOCK POSITION. THIS AGREES WITH RADAR TARGET ON MEM RADAR 300/15.

31-2140Z BALLOON REPORTED TO BE OVER WYNNT ARK.

31-2203Z M7K102 F-8 ADVISED THE BALLOON IS AT THE MEM 300/50 MILE POSITION BETWEEN 50,000 AND 55,000 FEET.

31-2308Z MEMPHIS 307/60 ALT EST 50,000 FEET PLUS.

31-2347Z MEMPHIS 315/53 ALT EST 50,000 FEET PLUS. LOST IDENTITY SHARPLY THEREAFTER.

01-0240Z JERSEY 001 SITE PICKED UP TARGET ON HEIGHT FINDER AT LIT VOR 066-65 ALT 49,000 FEET. NOT VISIBLE ON RADAR.

SEPTEMBER 1, 1966

01-1135Z APPROX 40 MILES WSW MEM EST ALT 40,000 FEET.

01-1409Z REX WOOD LITTON INDUSTRIES ADVISED OF POSITION OF BALLOON. HE ADVISED THE BALLOON WAS RELEASED FROM MINNEAPOLIS 8-24-66 AT 0730 CDT. HE MAY BE REACHED AT ONE OF THE FOLLOWING NUMBERS. BUSINESS 612-331-4282 HOME 612-SUNSET 4-4015

01-1440Z BALLOON REPORTED BY A LEAR JET AS 15-18 WEST OF GRW AT 50,000 TO 51,000 FEET.

01-1458Z REPORTED BY GRW FSS SW OF GRW.

01-1515Z AIRCRAFT REPORTED BALLOON NW OF GRW.

01-1546Z REPORTED BY GRW FSS OVER SLAUGHTER, MISS. (GRW 335/13)

01-1643Z POSITION AND MR. WOODS CONVERSATION REPORTED TO SW CCS-AREA OFFICE-AND SO-CCS.

01-1629Z DC-9 AT FL 240 REPORTED POSITION OF BALLOON 15 NM OF GRW.

01-1626Z PILOT OF LOW ALT AIRCRAFT REPORTED BALLOON OVER CLEVELAND, MISS., MOVING AT 110 MILES PER HOUR.

01-1703Z SO-472 REPORTED BALLOON TO BE 22 N OF GRW AT 7000 TO 8,000 FEET.

01-1719Z AIRCRAFT COMPUTED POSITION 3107N 9057W ALT 52,500 FEET.

01-1725Z NORAD COMMAND DIRECTOR (CAPT. SEEFE) CCS ADVISED THAT ACCORDING TO MR. FLEMMER MR. OF GEN MCKEE HAD DECLARED THE BALLOON TO BE A HAZARD TO NAVIGATION HE REQUESTED TO BE ADVISED VIA AUTOVON (576-2016) OF ANY ESTABLISHED MOVEMENT DIRECTION AND POSITIVE ALTITUDE. (INFO GIVEN TO MR. LEWIS 1755)

01-1800Z MR. KALMBACK MAL DISPATCHER IN ATL CALLED TO REPORT THAT 2 DELTA FLIGHTS D-817 FL 350 AND D-895 FL 280 REPORTED WHEN 27 EAST OF GRW AT 1713 THEY REPORTED THE BALLOON 10 NW OF GRW APPARENTLY DESCENDING. THEY FELT THE BALLOON WAS CONSIDERABLY LOWER THAN WE HAD BEEN LED TO BELIEVE. THEY WERE ABOUT READY TO ABONDON THE USE OF J-35 ROUTE. GIVEN TO AREA MR. DIXON.

01-[illegible] [illegible] REPORTED BALLOON AT ORW 300/[illegible] 52,000 FEET.

01-2207Z [illegible] AT 297 LIT VORTAC 147/48

01-2225Z ORW FSS RECEIVED A REPORT THAT THE BALLOON WAS DOWN AT MOREHEAD, MISS.

01-2220Z B-58 REPORTS BALLOON AT MEM 230/114 ORW 278/76

01-2243Z B-58 REPORTS BALLOON ALT AT 48,000 FEET.

01-2258 MEM NORAD REPORTED ALT AT 63,000 FEET 10 SE OF MONTICELLO, ARK.

01-2332Z [illegible]

SEPTEMBER 2, 1966

02-0013Z 2 AIRCRAFT REPORTED THE BALLOON TO BE JUST NORTH OF (15MI) OF CROSSETT, ARK.
