HEADQUARTERS 2852D AIR BASE GROUP (AFLC)
McCLELLAN AIR FORCE BASE, CALIFORNIA 95652

REPLY TO
ATTN OF: SMBB

8 SEP 1966

SUBJECT: UFO Report

TO: AFSC (FTD)

1. The following observation was reported to the Operations Branch, Security and Law Enforcement Division, at 2102, 3 Sep 1966, by Mrs [redacted], [redacted]y, North Highlands, California:

a. Description of the object observed:

(1) Shape - round

(2) Size - pin head held at arms length.

(3) Color - white with a bluish tint.

(4) Number - one

(5) Formation - not applicable

(6) Discernible features - none

(7) Tail, trail or exhaust - none

(8) Sound - none

(9) Unusual features - none

b. Description of course of object:

(1) Observer noticed two bright stars, one star began moving in a zig-zag pattern from the original point of sighting.

(2) Angle of elevation and azimuth - when first sighted, object was over head at approximately 0 degrees.

(3) Description of flight path - Object was at an approximate 45° angle at disappearance, no apparent set flight path, back and forth rapidly.

(4) How object disappeared - instantaneously to the southeast.

(5) Length of time in view - continuously for approximately five minutes.

c. Manner of observation: ground visual, no optical aids used.

d. Time and date of sighting: 0353Z, 3 Sep 1966, dark, night

e. Location of observer: residence, one-half mile north of McClellan AFB and east of Watt Avenue.

f. Identification of observer: Mrs [redacted], age 33, widow, housewife, 3[redacted], North Highlands, California.

g. Weather and wind conditions at time of sighting:

(1) Observer reported conditions, "clear as a bell."

(2) McClellan AFB - surface, 210° at 2 knots; 5,000 ft, 310° at 5 knots; 16,000 ft, 070° at 7 knots; 30,000 ft, 020° at 15 knots; 53,000 ft, 350° at 20 knots.

(3) Ceiling - unlimited

(4) Visibility - clear to 15 miles

(5) Cloud cover - none

h. McClellan AFB Weather station reported no meteorological weather phenomenon or thunderstorms in the area. No unusual activity or conditions known which might have accounted for the sighting.

i. Interception - none

j. Base Operations, McClellan AFB, reported no flights or air traffic in the area of sighting.

2. Investigating Officers Edgar W. Gray and Hollis L. Burgess were unable to make a determination or to offer comments as to possible causes. Observer stated she has seen satellites pass over, however from the zig zag pattern of travel, she did not believe the object to be a satellite.

FOR THE COMMANDER

J. H. MCCURLEY, Capt, USAF
Chief, Scty & Law Enforcement Division

PROJECT 10073 RECORD

1. DATE - TIME GROUP 4 September 66 05/0430Z	**2. LOCATION** Fallon, California
3. SOURCE Civilian	**10. CONCLUSION** Possible (SATELLITE) Fact
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 15 Minutes	**11. BRIEF SUMMARY AND ANALYSIS** Observer noted bright light in sky which was like a man-made satellite; however, when he heard several other people saw the same thing he felt he should report such. Object was at such a great altitude that a detail explanation is not possible.

Mr [redacted]an
[redacted]H
Talmage, California 95481

September 5, 1966

COMMANDER:
Air Technical Intelligence Center (ATIC)
Wright-Patterson AFB,
Dayton, Ohio

Dear Sir:

The purpose of this communication is to informally confirm an alleged sighting of an unidentified flying object. Actually, I didn't realize that I was watching a "UFO" yesterday evening, however, according to local radio broadcasts, many other citizens in this area viewed the same object. At the time, I didn't give it much thought, because I immagined it to be a man-made satellite. I am not quite sure as to the validity of "UFO" sightings and I actually have never sighted one before now...

I am located in the small town of Talmage, California (POP: 878) which is situated two miles east of Ukiah, California. At the time of the sighting, I was facing south and was looking into the southern sky. Visibility was unlimited and the time was approximately 2130 PDT (4 Sept. 66) (0430Z - 5 Sept. 66). The object was at such a great altitude that I am unable to give you an estimate, however, it was fairly bright and was at a 10 O'Clock position in the southern sky, heading in a SSE direction on a fairly erratic course. The sighting (mine) lasted for approximately 15 minutes (until 0445Z - 5 Sept. 66), at which time it faded out of sight. It seemed to be traveling at a constant speed. I could not make out the shape of this object at all because of its great distance.

I regret that this is all of the information that I am able to give you regarding the above...

Sincerely,
Richard K. Mann
RICHARD K. MANN
Former: A/1C - USAF
AFSSO 1st Missile Division
(USAFSS Command)

PROJECT 10073 RECORD

1. DATE - TIME GROUP 1. 0030 5 Sept 66 2. 0150	**2. LOCATION** [illegible], Pennsylvania (3 Miles East)
3. SOURCE Civilian	**10. CONCLUSION** 1. SATELLITE ~~/~~ Jet 2. AIRCRAFT
4. NUMBER OF OBJECTS Three	ECHO I was over area at 0043Z heading in SE direction.
5. LENGTH OF OBSERVATION 1. 3 Minutes 2. 5 Minutes	**11. BRIEF SUMMARY AND ANALYSIS** Observer noted 3 objects about 2030 following each other in one object formation. All objects were bright silver in color. Object that appeared to be star began to move about the same speed as a jet. Five minutes later the exact same type of object followed in the same way. Later in the same night the exact type object was sighted to the south.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

830 + 950

1. When did you see the object?

5 (Day) Sept. (Month) 1966 (Year)

2. Time of day: 8 + ~~09~~ (Hour) 30+50 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. (Daylight Saving)
b. Standard

4. Where were you when you saw the object?

Maple Glen P.O. Office (Nearest Postal Address) Maple Glen (City or Town) Montgomery, Pa ~~Pa~~ (State or County)

5. How long was object in sight? (Total Duration) 6 (Hours) 3+5 (Minutes) ? (Seconds)

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? fairly certain

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

headlight of a car only as the size of a star

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

yes. In the horizon

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound no sound heard

b. Color bright silver ~~white~~ sort of white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

entire head. some sticking

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Round

Saw 3 objects 2 at 8:30 following each other
1 at 9:50

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? as fast as a jet ~~faster than an airplane~~

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? 8-10 miles

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section) of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

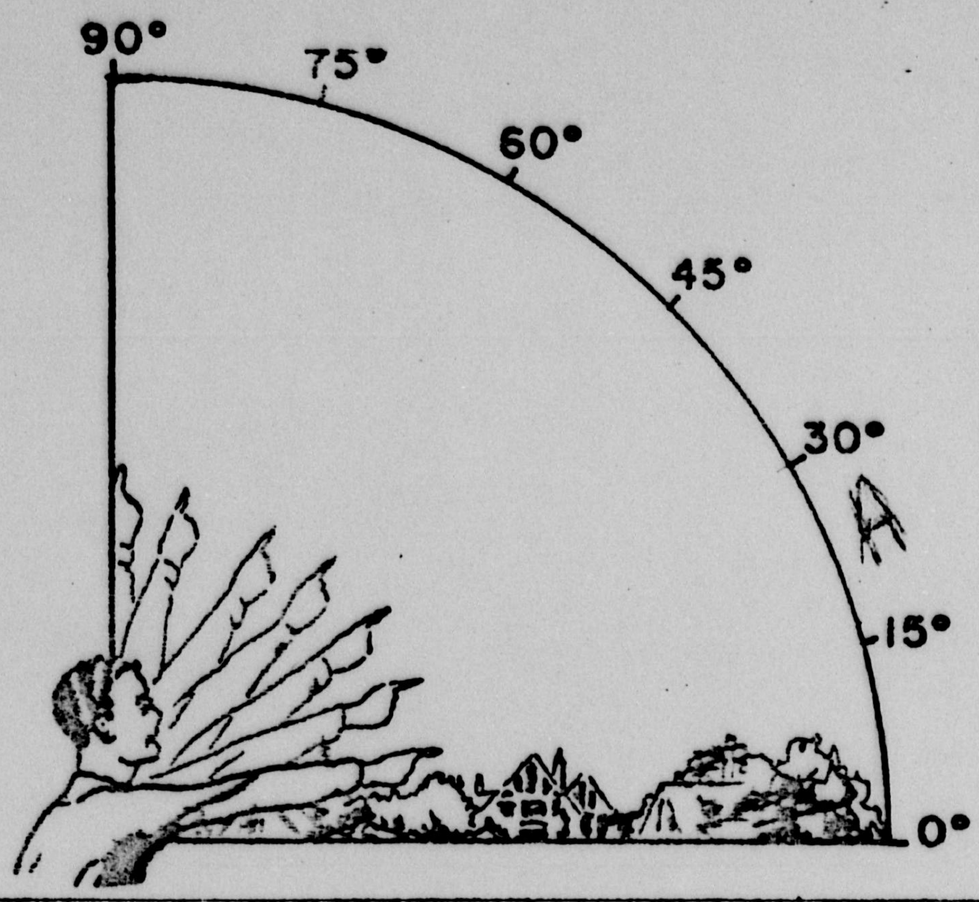
25. Did you observe the object through any of the following?

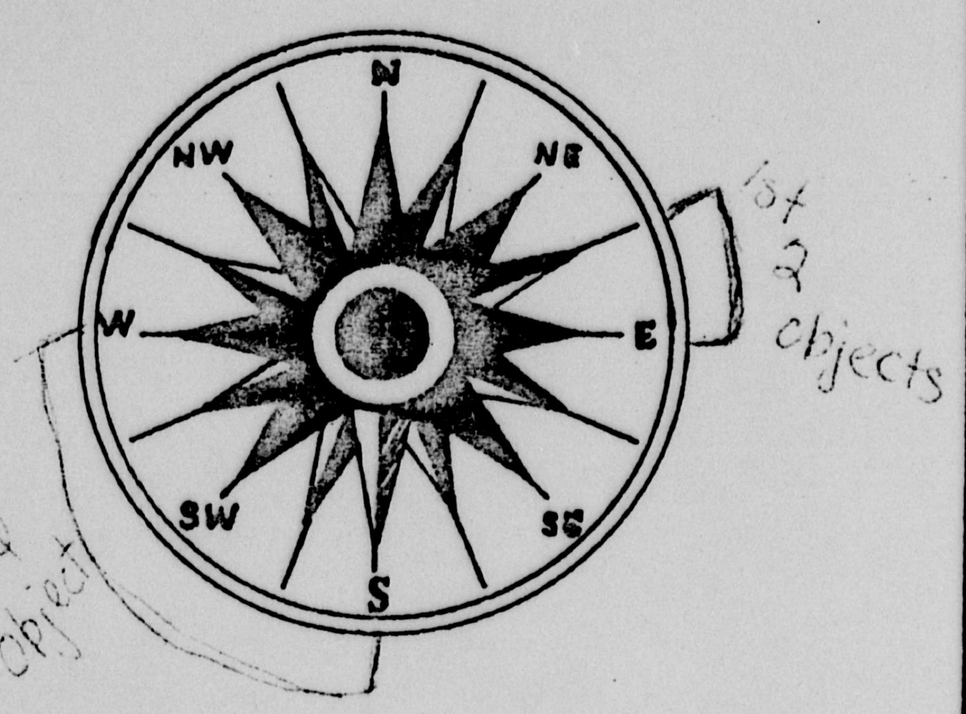
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

stars, only bigger and moving across the sky

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

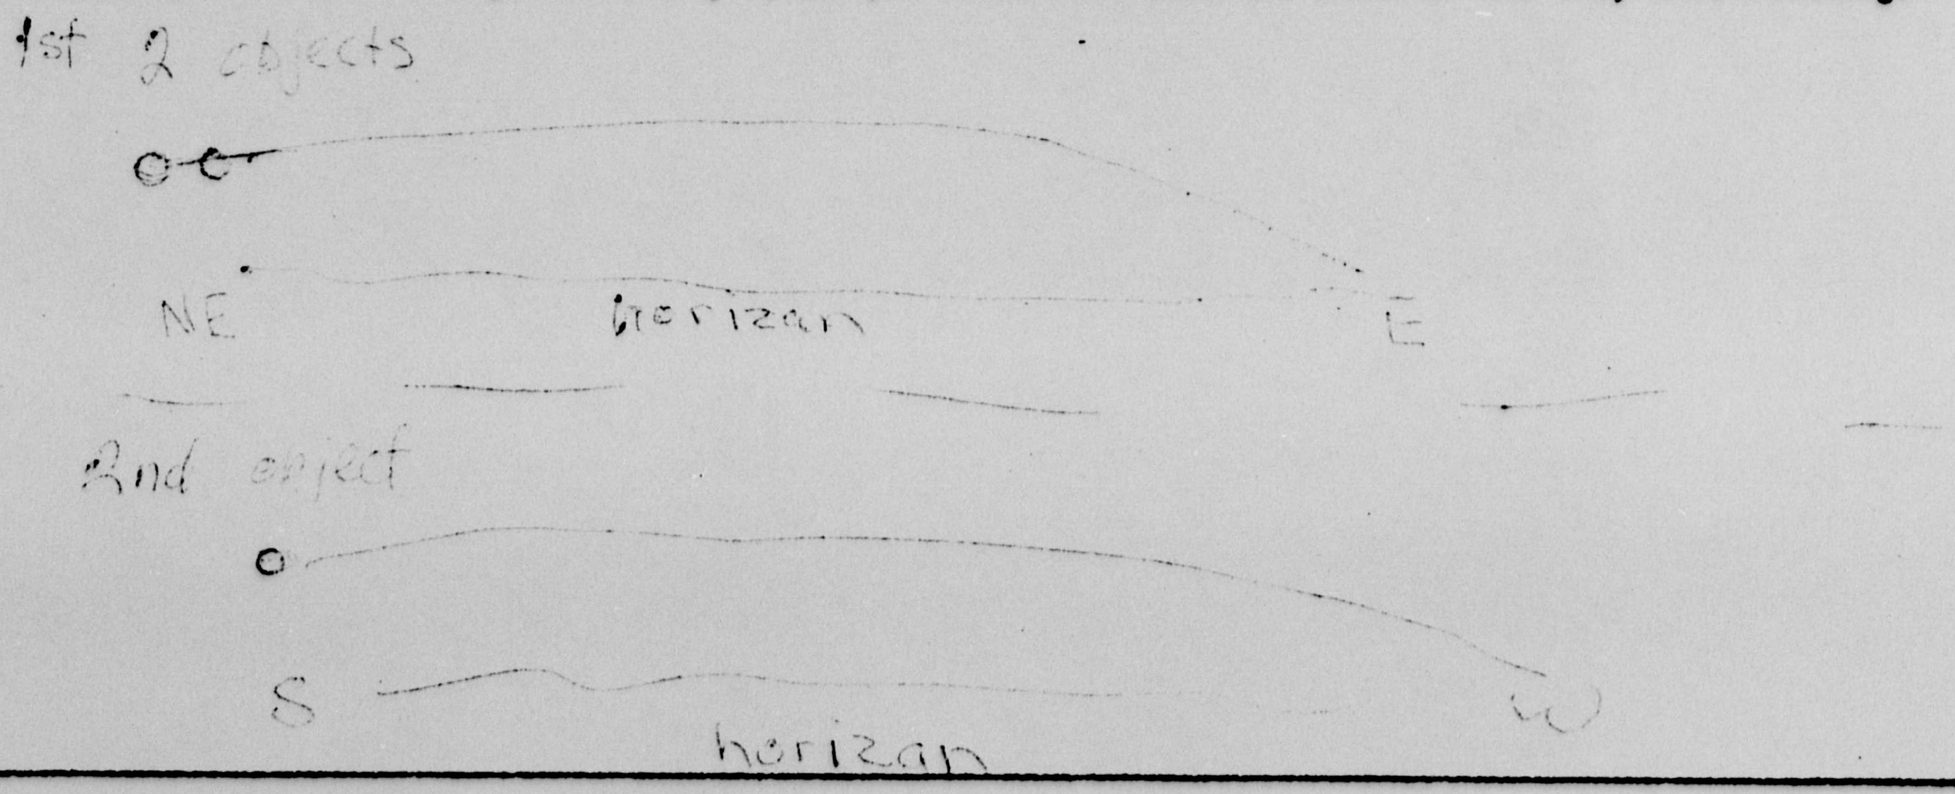




28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.



30. Have you ever seen this, or a similar object before. If so give date or dates and location.

no. An exact ~~replica~~ copy of the first 3 was seen leading SW – E.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes (No)

31.2 Please list their names and addresses:

[redacted] Drive, Maple Glen " " "

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Maple Glen (City) 19002 (Zone) Penna. (State)

TELEPHONE NUMBER [redacted] AGE 13 SEX Boy

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

5 (Day) Sept. (Month) 1966 (Year) Willow Grove Naval Air Station

34. Date you completed this questionnaire: 9 (Day) Sept. (Month) 66 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

At 8:30 September 5, 66 2 friends and I were sitting in the street after a Labor Day picnic. In the sky we what looked to be a star but suddenly it started to move, about the same speed as a jet. ~~It~~ About five minutes later the exact same type of object followed, ~~it~~ in the same way.

Later that evening, at approximately 10:00 the exact same type object was sighted by us near the TV towers in Roxborough. Then we called Willow Grove Air Base

Maple Glen, Pa. 5 Sept 66

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Tues (Day) Sept. 6 - 1966 (Month, Year)

2. Time of day: 8 (Hour) 20 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
(b. Central)
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Wichita (City or Town) Kansas (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 10 (Seconds).

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Counted seconds to myself

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____
_____
_____
_____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how? no

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound none

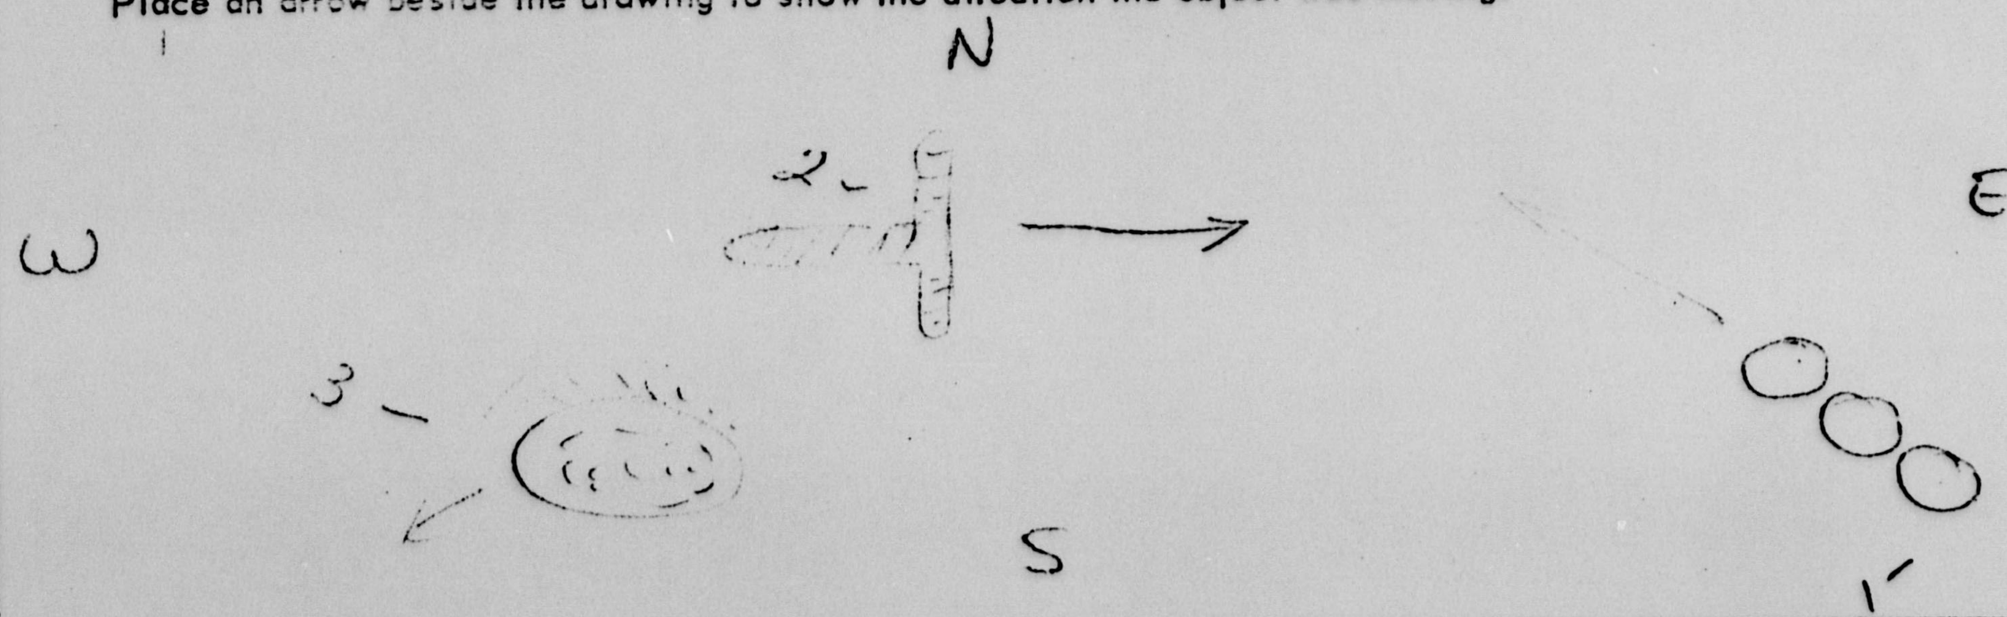
b. Color Appeared gray and black striped

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/100th

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 150 - 200 Miles per hr.

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 200 ft. ~~150 - 200 Miles per hr.~~

22. Where were you located when you saw the object? *(Circle One)*:

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

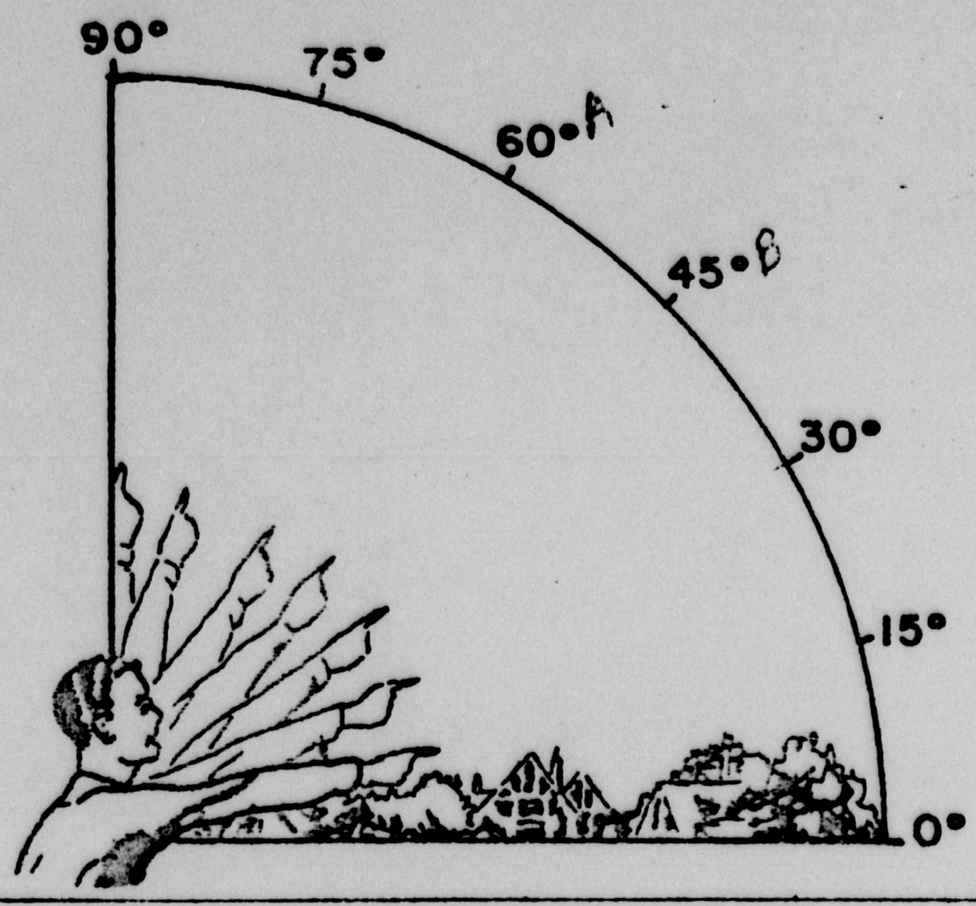
25. Did you observe the object through any of the following?

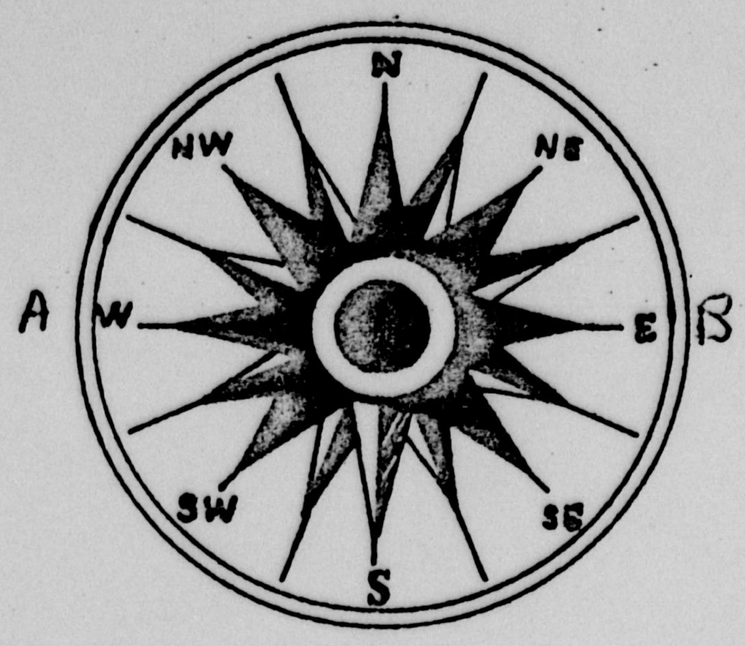
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

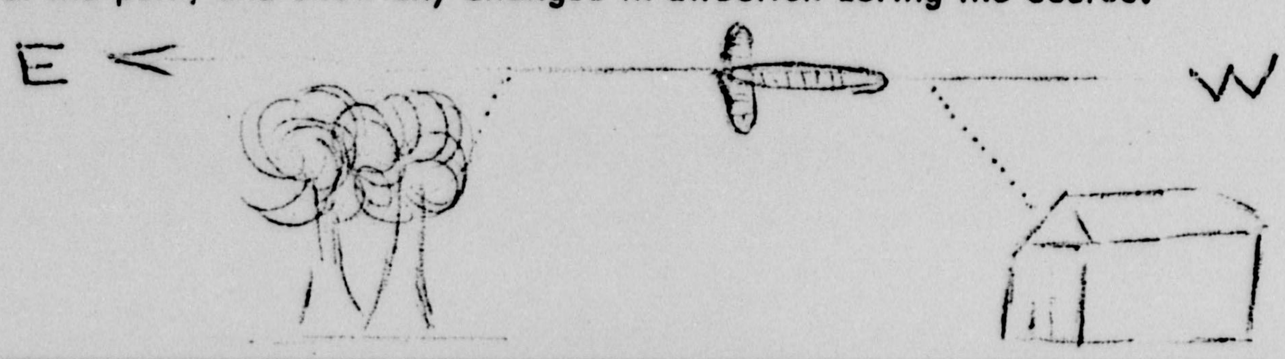
Cigar with wings

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.



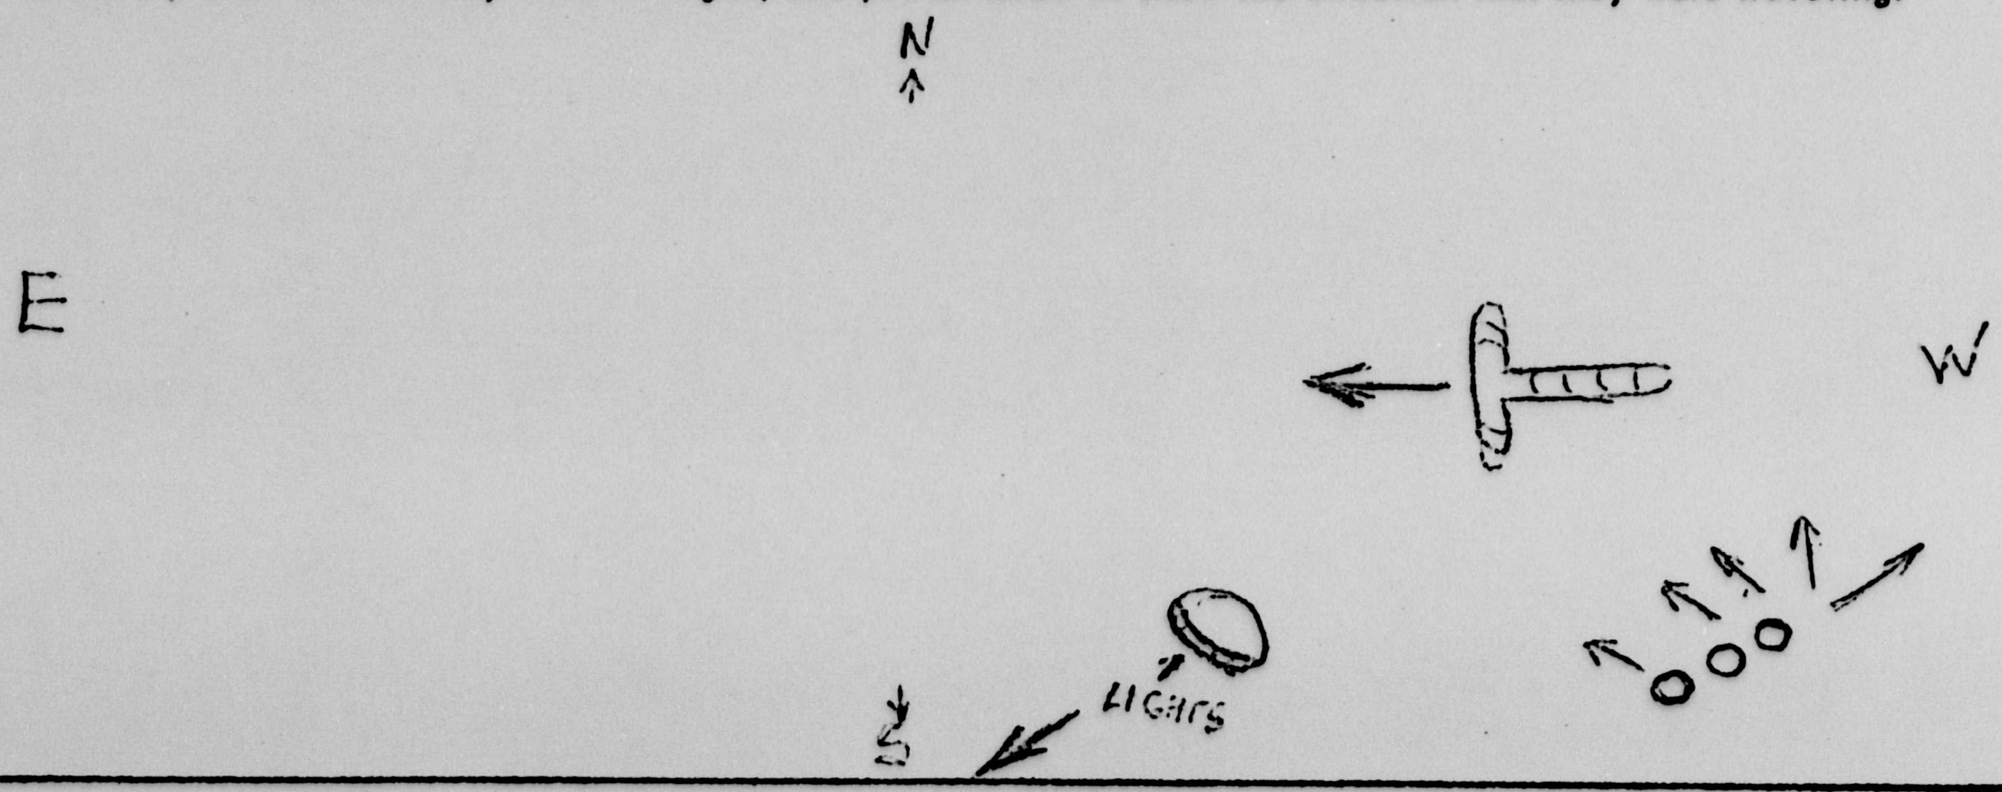


28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? 5

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.



30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

My 12 yr. old son saw the first 3 objects in the distance. I was alone on the last two.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Wichita (City) Kansas (State) Zone 67213

TELEPHONE NUMBE [redacted] AGE 35 SEX female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Wed (Day) Sept 7 (Month) 1966 (Year)

McConnell Air Force Base

34. Date you completed this questionnaire: Tues Sept 13 1966
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Wichita, Kans. 1 Sept.

Mrs [redacted]
[redacted]
Wichita, Kansas 67213

Dear Mrs [redacted]

Reference your unidentified observation of 1 September 1966. The information which we have received is not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

(1F)

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

OFFICIAL FILE COPY
TDETR
Office of Record

Dear Major Quintanilla.

Due to the number of objects involved in my sightings, I will tell you about them step by step.

At approximately 8:00 pm, on Tues. - Sept 6, 1966, after finishing the supper dishes and putting my youngest child to bed, I went out on the back porch and sat. I was out there only a few minutes, when I saw a light appear and disappear, I watched it for several minutes then called my husband to come out. I tried to point it out to

(2.)

* it was a dimmer light and was hard to see.

him, but he could not see it, because of its distance and also because of it disappearing and reappearing. * It was definitely not a bright light, My 12 year old son came out and I took him over to the fence and tryed to get him to see it. He finally saw it when it apeared for a couple of seconds as much brighter. At this time a second and then a third object came in behind it. This was the last we saw them, my husband had already gone back in the house. These were about the size of a grapefruit. This

lighting lasted about 5 min.
My dog went back into the
house and I stayed outside
and sat on the porch
thinking I might see them
again. About 5 min. later
I looked straight up &
coming over our house to the
right a little, was a
cigar-shaped object with
wings, it was lower than
~~as~~ any aircraft I had ever
seen going over a residential
area. There was no noise
at all, it had no lights
on it, the outline was very
sharp - it appeared to have
~~both~~ black and gray stripes.
It was a solid object with

no openings showing. There
was no clouds around
it ar no vapor trails.
It was not going at any
fantastic speed. About
4 ar 5 min. later I saw
coming from the other
direction and a little to
the south of our house,
what appeared to be a
round object, flying at
an angle, this had a
yellow glow at the bottom
and I could see some
details thru the glow but
couldn't make anything
out. This object also had
stripes on the top which
was not a very sharp

outline. It was about
as high as the cigar-
shaped one. It was
traveling a little faster.
I called to my husband
but it was gone by the
time he had gotten there.
He got dressed and he and
my 12 yr. old son came
outside and we sat for
about 20 min. hoping
they would return, but
they didn't, so we retired
to the house to watch
TV. I must say I was
a little shook for awhile.
I should say I'm not at
all good about telling how
high something is or how

(61)

fast something is going
in the air. I told the
man from McConnell
Air Base the last two
objects were in view about
15-20 seconds, but have
since gone out and tried
to time it out and it
would probably be closer
to no more than 10 sec.
The form I have filled
out was difficult because
of the number involved,
most questions were N/A
answered on the one
object that went over the
house. My husband helped
me estimate altitude & speed.
He also drew answer to no.

(7)

29. he has it headed toward what would be the west, so he changed directions, which confuses me, so will do it over again on a piece of paper and help straighten it out for you. I think I have covered just about everything, if I can be of any help, please let me know.

Sincerely,

Mrs. [redacted]

UNIDENTIFIED FLYING OBJECTS SIGHTED OVER WICHITA, KANSAS

020000Z AND 023000Z BY TWO RELIABLE WITNESSES AT [redacted]

MAIN STREET. MRS. K[redacted] AND TWELVE YEAR OLD SON.

THE SIGHTINGS INVOLVED FIVE OBJECTS; A GROUP OF THREE IN FIRST

SIGHTING, TEN MINUTES LATER TWO MORE OBJECTS WERE SIGHTED.

THE FIRST THREE OBJECTS APPEAED AS BRIGHT WHITE CIRCLLAR

LIGHTS DANCING AROUND IN THE SKY. LATER THEY MOVED AWAY

AFHQ FORM JAN 65 0-309C

UNCLASSIFIED

UNTIL OUT OF SIGHT. THE SECOND OBJECTS WERE DESCRIBED AS CYLINDRICAL WITH WINGS, WITH BLACK AND GRAY STRIPES AROUND THE CYLINDRICAL PART OF THE OBJECT. ONE OF THE OBJECTS WAS SEEN TO HAVE A LARGE FLASHING YELLOW LIGHT. THE FIRST SIGHTING LASTED ABOUT THREE OR FOUR MINUTES, SECOND SIGHTING LASTED FOR 15 TO 20 SECONDS. WITNESSES STATED THAT IN EACH SIGHTING, THE OBJECTS MADE NO NOTICEABLE NOISE AS THEY FLEW OVER.

WEATHER DURING THE TIME OF SIGHTINGS WAS: CEILING UNLIMITED, VISIBILITY 15 MILES, WINDS 060 DEGREES AT 2 KNOTS.

PRELIMINARY ANALYSIS INDICATE THAT DURING THE TIME OF THE SIGHTINGS THERE WERE NUMEROUS AIRCRAFT FLYING IN THE GENERAL AREA, AS WELL AS A LARGE DERELICT BALLOON (450FT X 315FT) WITH LARGE CABLE HANGING BENEATH IT, FLYING AT HIGH ALTITUDE (33,000 TO 66,000FEET)

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

7 (Day) Sept. (Month) 1966 (Year)

2. Time of day: 8 (Hour) 35 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

3[redacted]e (Nearest Postal Address) | Lapeer (City or Town) | Michigan (State or County)

5. How long was object in sight? (Total Duration) ____ (Hours) 4 (Minutes) ____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Comparison with passage of Echo I

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

(NIGHT)
(a. Bright)
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*.

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

Object appeared as an opaque glowing mass.

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It was about as bright as a 100 watt light bulb at 200 yards.

12. The edges of the object were:

(Circle One)

a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how? Yes. It flew into the distance until it became so dim that it was no longer visible.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound.

b. Color Light orange or yellowish.

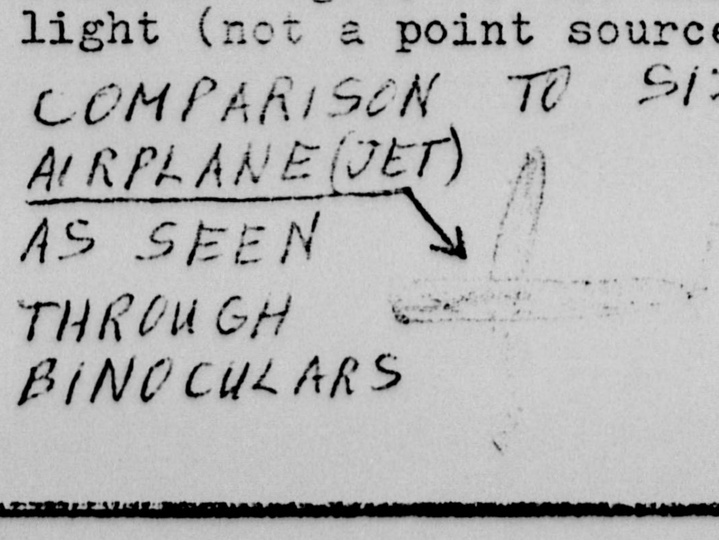
18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

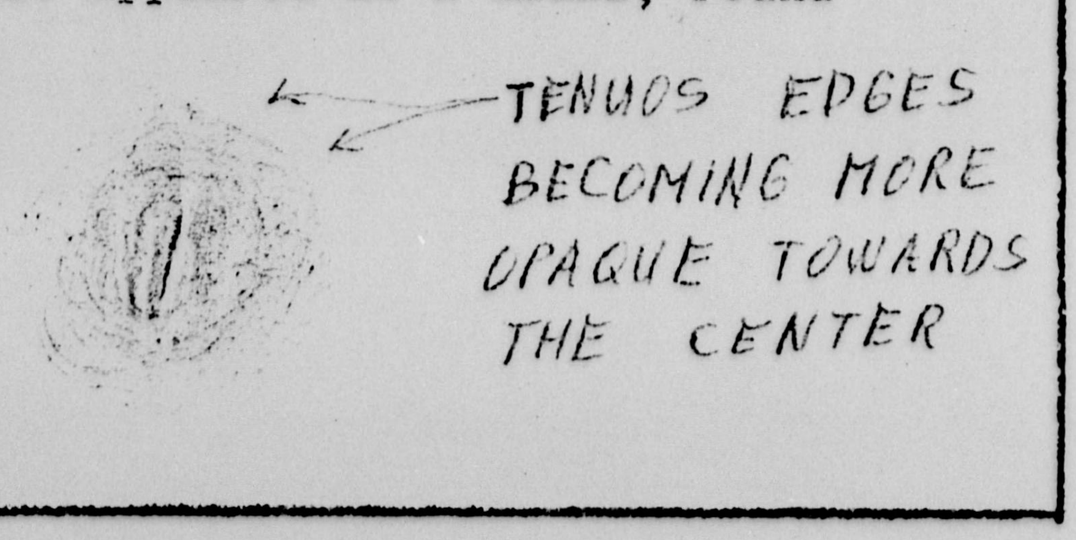
A match head would have completely covered the object. It was about 1/20 of a degree in diameter.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

Through 5 power binoculars it appeared perfectly round with tenuous edges. To the naked eye it appeared as a small, round light (not a point source).





20. Do you think you can estimate the speed of the object? See last sheet.

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was? See last sheet.

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
(c. In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

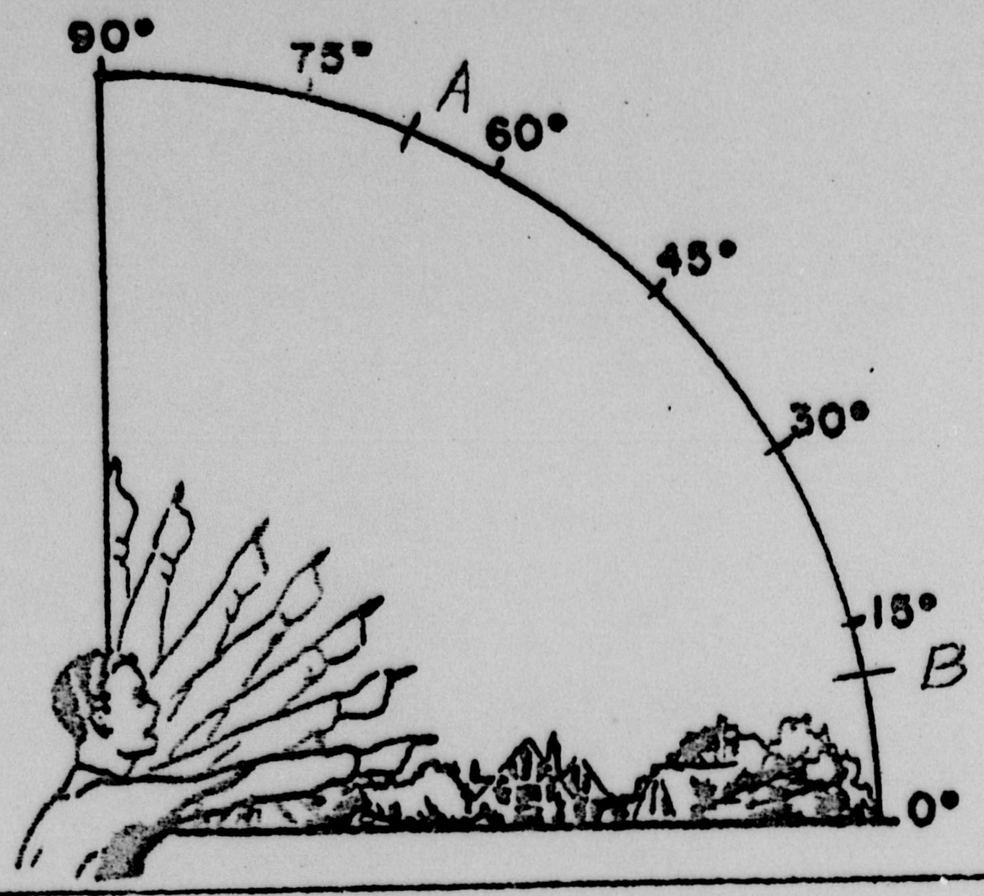
25. Did you observe the object through any of the following?

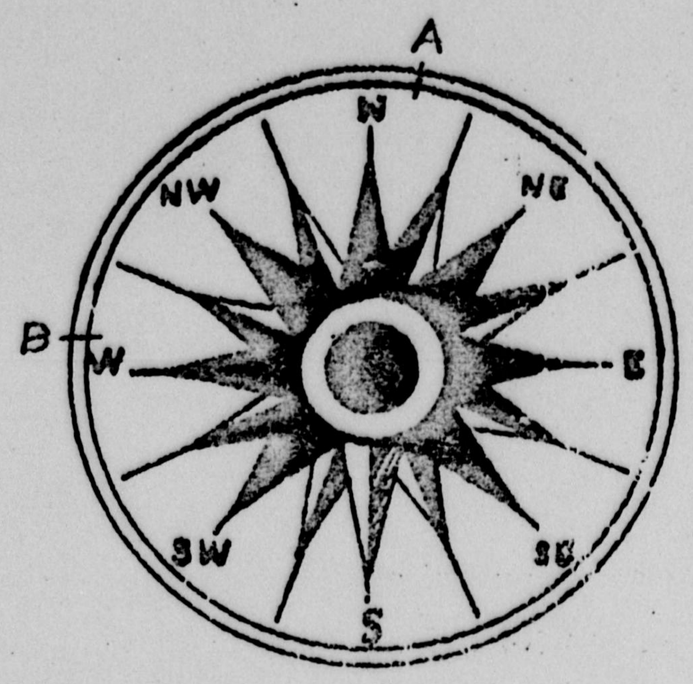
a. Eyeglasses	(Yes)	No	e. Binoculars	(Yes)	No
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

The object looked almost exactly like the glow in the center of a low wattage, frosted light bulb.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

It followed a straight course, and maintained a constant speed.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: 14 (Day) Feb. (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

We first noticed the object while watching a jet airplane. The plane came from the NNE and made a gradual turn to the west. While the plane was on a more westerly course we noticed the object about 20 degrees above the plane. The plane seemed to pull in closer to the object while making its turn to the west.

The object seemed to be far away. Actually there is no way to tell how far away it was, and it could have been fairly close. If it was close to the airplane, it was traveling at the same speed.

As the plane and object came closer to the horizon, the object was about 1/2 degree to the south and above the plane.

According to the Weather Bureau in Flint, the winds were out of the east at about 6 mph at the time of the sighting. Since the object flew an a straight course to the west, it is possible that it was blowing in the wind. However, I could not think of anything which would have fit the object's description and been a possibility considering the weather conditions.

The object crossed an arc of 45 degrees in not more than 30 seconds. Using this information along with the speed of the wind, I compared street lamps to the apparent size of the object. I figured that if it was blowing in the wind, it was about 16 inches in diameter. Of course this is not an extremely accurate measurement since I cannot remember exactly the apparent size and angular speed of the object.

7 Sep 66

Proposed reply to letter from [redacted] 29 November 1966

Dear Mr. [redacted]

I have checked our files and have found only one sighting which occurred 7 September 1966. This sighting occurred in Dalton, Kentucky at approximately 1800 CST and was not; however, observed by any air crew as far as we know. After the information has been submitted on your sighting, on the enclosed FTD Form 164, our analysts will study and try to determine the stimuli.

to Lafave 19 Jan 67

November 29, 1966

Project Blue Book Information Office
SAFOI
Washington D.C. 20330

Dear Sirs,

I would like to inform Project Blue Book concerning the sighting of an unusual flying object by a friend of mine, [redacted], and myself on the evening of September 7, 1966. The object appeared to be in the vicinity of a jet aircraft, however, I am certain this object was not a part of the aircraft, or caused by it. Would you please send me two copies of the UFO report form for us to fill out.

I am planning to write a research paper concerning this sighting for an astronomy class. I would also like to know if at all possible whether any airplane pilots reported sighting an unusual phenomenon on Sept. 7, 1966 at 8:35 P.M. (EST) from 17 miles east of Flint, Mich. along a line into Flint. If someone else did report an unidentifiable phenomenon at that time and place, I would appreciate it very much if I could be given any information concerning the sighting to be used in my paper, or the names and addresses of any such observers in order that I could contact them for information. This is very important, and any help you could give me would be greatly appreciated.

Would you also please send me a copy of the Air Force booklet, "Aids to Identification of Flying Objects" and a copy of the most recent Department of Defense release concerning UFO's.

Thank You Very Much,

[redacted]
ng

FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

8 (Day) Sept. (Month) 1946 (Year)

2. Time of day: 4 (Hour) 50 (Minutes)

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Bowling Green (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 20 (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Estimate

5.2 Was object in sight continuously? Yes yes No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
(a. Bright)
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

0420
2 0515

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

Check enquire alc

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

The color and about ½ as bright as Mars with a 15° Tail which followed it.

12. The edges of the object were:

(Circle One): a. ~~Fuzzy or blurred~~
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Tail did not increase in length but moved with the object. Tail also color of Mars.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how? Yes — Gradually disappeared as it approached the horizon in the direction of the Sun — when first observed was above and to South of Jupiter - Moved at ∠° toward Horizon

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

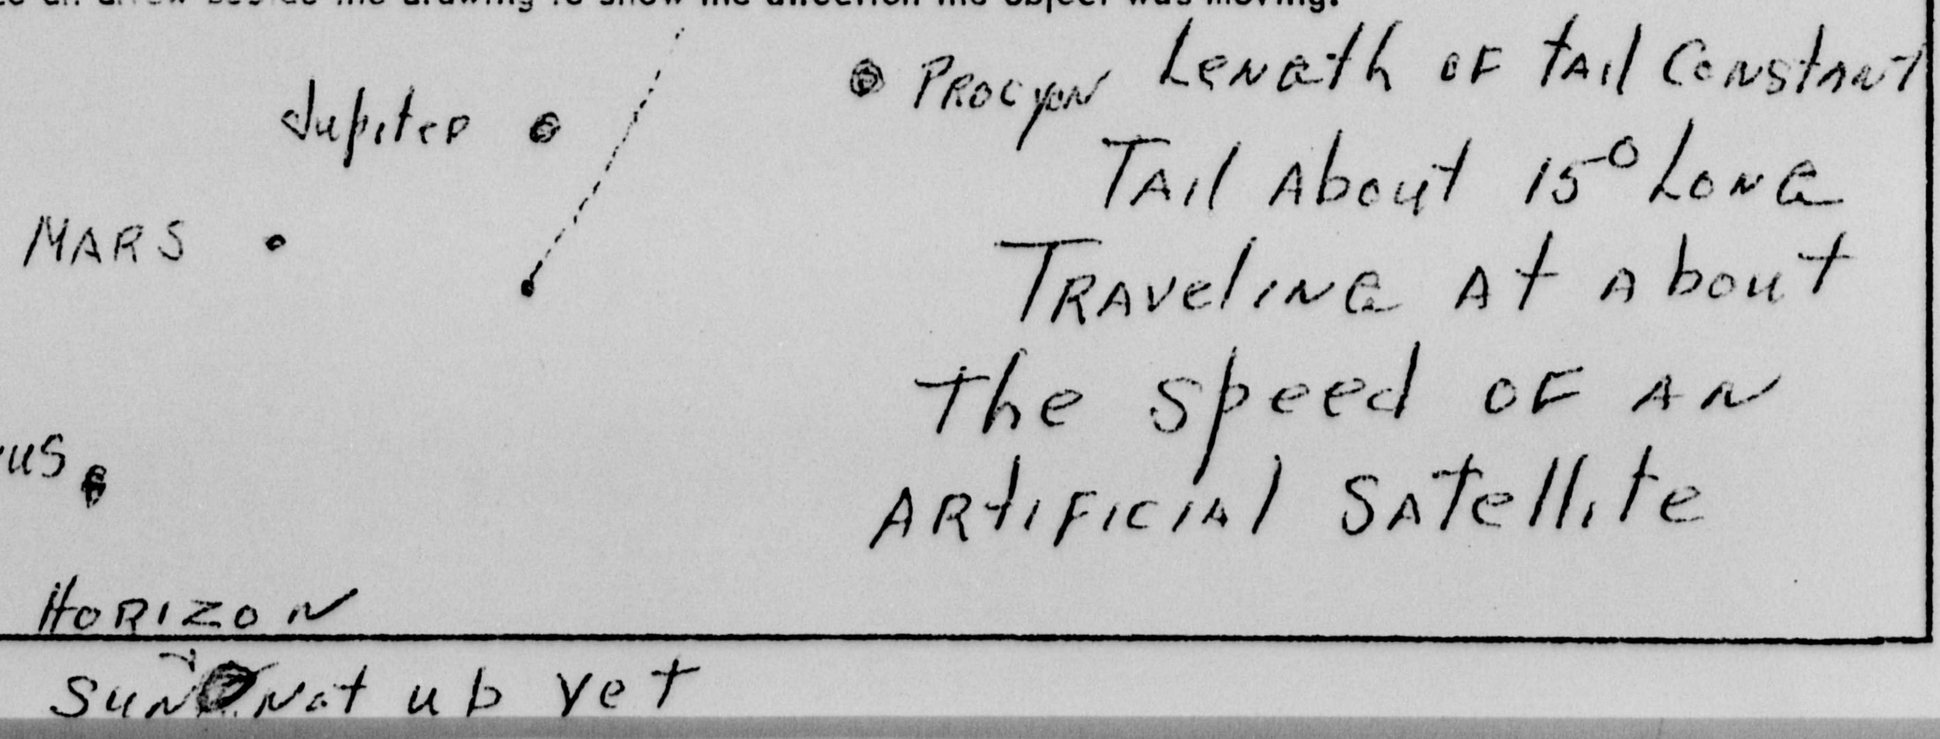
a. Sound NONE

b. Color Color of Mars.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

This object was about ½ size of Mars which was visible at time - Tail may have been as Wide as Mars.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? Speed of an artificial satellite.

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

(a.) Inside a building Yes
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

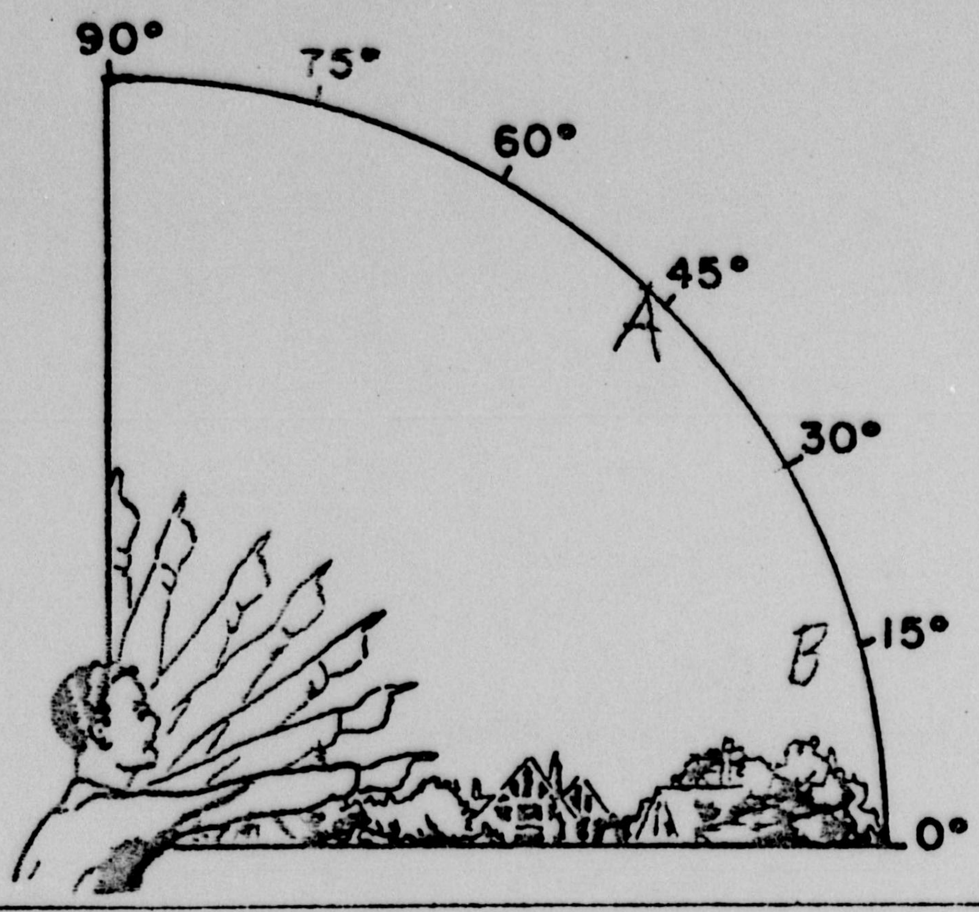
25. Did you observe the object through any of the following?

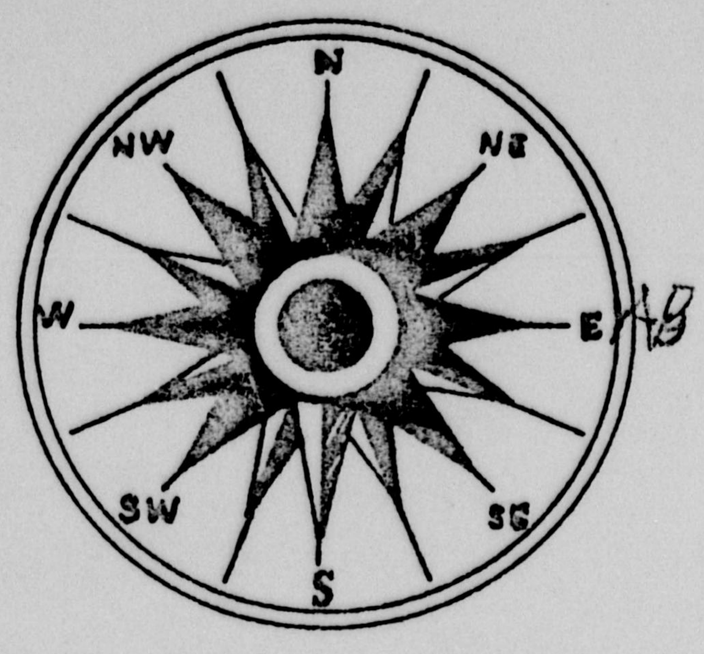
a. Eyeglasses	Yes	No	e. Binoculars	(Yes)	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
(d.) Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

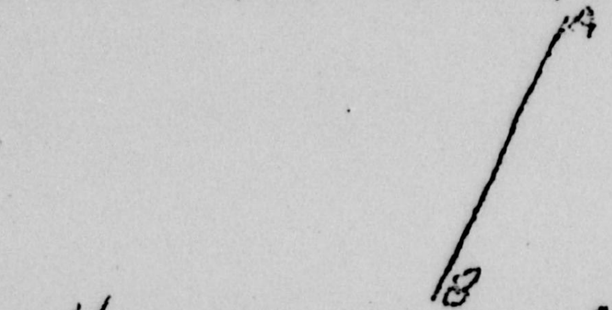
½ size and brightness of Mars with a 15 degree tail moving at the speed of an artificial satellite toward the sun which was below the horizon - seemed to be traveling vertical instead of horizontal.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]

Bowling Green Ohio

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Bowling Green (City) Ohio (State)

TELEPHONE NUMBER [redacted] House AGE 55 SEX Male

[redacted] OFFICE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Hobby STAR GAZING.
Education Ohio State University DVM
OREGON State University M.S.

33. When and to whom did you report that you had seen the object? HARVARD Observatory

8 (Day) Sept (Month) 64 (Year)

34. Date you completed this questionnaire: 10 (Day) Sept (Month) 66 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

If the tail had not remained consistant in length I might have thought it was an airplane with vaper trail going into the rising sun altho it did not resemble one at all. The sun is up at this time. Venus is just emerging. I thought it must be a comet and called to find out if one was visible at this time. It seemed to be traveling down and not horizontal.

If any conclusion are reached I would appreciate a report.

Respectfully

[redacted]

34. Date you completed this questionnaire: 10 (Day) Sept (Month) 66 (Year)

Dear Dr. [redacted]

Reference your unidentified observation of 8 September 1966, which you reported to the Smithsonian Institute. The information which we have received is not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book
