

PROJECT 10073 RECORD

1. DATE - TIME GROUP 2 October 66 03/0143Z	2. LOCATION Detroit, Michigan (1 Witness)
3. SOURCE Civilian	10. CONCLUSION Astro (METEOR) ✓ <i>JG</i>
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 3 - 6 Seconds	11. BRIEF SUMMARY AND ANALYSIS Object was oblong, bright trailing white like phosphorous burning from end, very bright pink-red in middle and bright green in front. Red and green area were constant while trail varied slightly in shape. Brilliant white tail about 1 1/2 times as long as green and red area. Observer just happened to look up and at first thought he was looking at a shooting star. No maneuvers other than going straight across the sky. Disappeared into some tree tops at a high rate of speed.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE E - W	
8. PHOTOS <input type="checkbox"/> Yes XX No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes XX No

SUBJECT: UFO Report

TO: Wright-Patterson Air Force Base (AFSC)(FTD), Ohio

The following UFO Report is submitted:

a. Description of Object:

- (1) Oblong, Bright trailing white-like phosphorous burning from end, very bright pink-red in middle and bright green in front.
- (2) About 1-1/2 pea size.
- (3) Green-red-white, all very bright
- (4) One
- (5) No
- (6) Red and Green areas were constant, while trail varied slightly in shape.
- (7) Brilliant white tail about $1\frac{1}{2}$ times as long as green and red area.
- (8) None
- (9) The red part was about 7-10 times bigger than the red running light of the light plane, and the green part was about $2\frac{1}{2}$ times bigger than the red part, and the white part was about $1\frac{1}{2}$ times as long as the green and red part.

b. Description of Course of Object:

- (1) Just happened to look up and at first thought I was looking at a shooting star because of brilliant white light.
- (2) Have no idea as to its height, but a light single engine plane I observed immediately after was about $1/5$ of height, angle parallel to earth.
- (3) The angle remained constant, that of parallel flight, as did the height.
- (4) No maneuver other than going straight across the sky from East to West - when first observed it was like starting on my right almost directly in front of me.
- (5) It disappeared going at an amazing rate of speed - about five times faster than a jet going to the West - it disappeared into some tree tops still at a high rate of speed.
- (6) From 3-6, maybe 7 seconds.

c. Manner of Observation:

- (1) Ground visual
- (2) None
- (3) N/A

2-2-2

d. Time and Date of Sighting:

- (1) 2 Oct. 66, 8:43 p.m.
- (2) Night

e. Location of Observer:

Parking lot Brightmoor Community Center, Lyndon and Burt Roads,
Detroit, Mich.

f. Identifying Information on Observer:

(1) [REDACTED] 36 - YMCA [REDACTED]
Highland Park, Michigan. Presently training to manage a Red Barn,
(Hamburger & Chicken Take Out). I saw it and I do not lie. Reliability
on this is 100%.

- (2) No military background.

FOR THE COMMANDER

Mina P Costin
