The regulation which covers UFO reports is AFR 200-2. Refer to it if you have any questions in the handling of this report. Turn in this form with your OD report in the morning.

One final note. Most UFO reports are rather routine "lights-in-the-sky" sightings. When a report comes in that is obviously based on more tangible evidence, or when several reports of sightings at the same time are received, contact the Operations Duty Officer through the CAC, Ext 493. Reports are much more easily investigated at the time of the sightings than a day or two later. Your cooperation and good sense will help the Air Force investigate these sightings in a professional manner.

**Physical Evidence:** Were photographs taken or was any physical evidence of the object left behind? (Note: If the caller says there is physical evidence still present, contact Wing Operations Duty Officer through CAC, Ext 493, or the Air Police, Ext 408, immediately).
