4. NUMBER OF OBJECTS one	
5. LENGTH OF OBSERVATION 15-38 minutes	11. BRIEF SUMMARY AND ANALYSIS Observers reported a bright white oblong shaped object that went behind a cloud. At one time a humming sound was heard. The brightness was compared to that of a car headlight, at about six blocks away. One observer said that it was nothing more than a car light. It was his son who reported the sighting. The time duration of the sighting is different in the two fact sheets; one said the object was viewed for over one hour, in another for about 15 minutes. Also there is some discrepency in the time zone making difficult to determine the exact time of the sighting.
