PROJECT [illegible] RECORD

1. DATE - TIME GROUP	2. LOCATION	
20 Nov. 66 21/0300Z	New York City, New York	multiple
3. SOURCE	**10. CONCLUSION**	
Civilian	Aircraft(possible) Astro(S/P)	
4. NUMBER OF OBJECTS		
several		
5. LENGTH OF OBSERVATION	**11. BRIEF SUMMARY AND ANALYSIS**	
Varied	Observers watched an octagonal object with lights at each angle, with a flat surface, and an inverted bowl on top. The objects in formation may very well have been a couple planes flying close together, stated one witness. This same witness did not see the objects close enough to tell. The plane shaped object went over the building very low without any motor sound. Another witness said that she saw a plane flying so low that the bright headlight type beams in front nearly blinded us. This aircraft lifted seeming to just clear the building. Also during the observation period several other objects were noted. These objects were red blinking lights that were stationary. The descriptions are consistent with that of an aircraft observation and that of an astronomical observation.

FORM
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

FTD (TDETR)
Wright-Patterson AFB, Ohio 45433
22 November 1966

[redacted]
Bronx, New York 10451

Dear Mrs. [redacted]

Reference your recent unidentified observations which you reported to Lt. Marley at Wright-Patterson AFB. Request you complete the attached FTD Forms 164 and return them to our office in the envelope provided. It is also requested that you give your two friends, who also witnessed the objects, a copy of the form to aid in our evaluation.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) — Aug (Month) — 1966 (Year)

2. Time of day: _____ (Hour) _____ (Minutes)

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) — the Bronx (City or Town) — N.Y. 10453 (State or County)

5. How long was object in sight? (Total Duration) 3 (Hours) — 45 (Minutes) — _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? clock

5.2 Was object in sight continuously? Yes ____ No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Bright street lights

12. The edges of the object were:

(*Circle One*)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: (*Circle One for each question*)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Object covered with my hand then disappeared

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: the boundary

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound

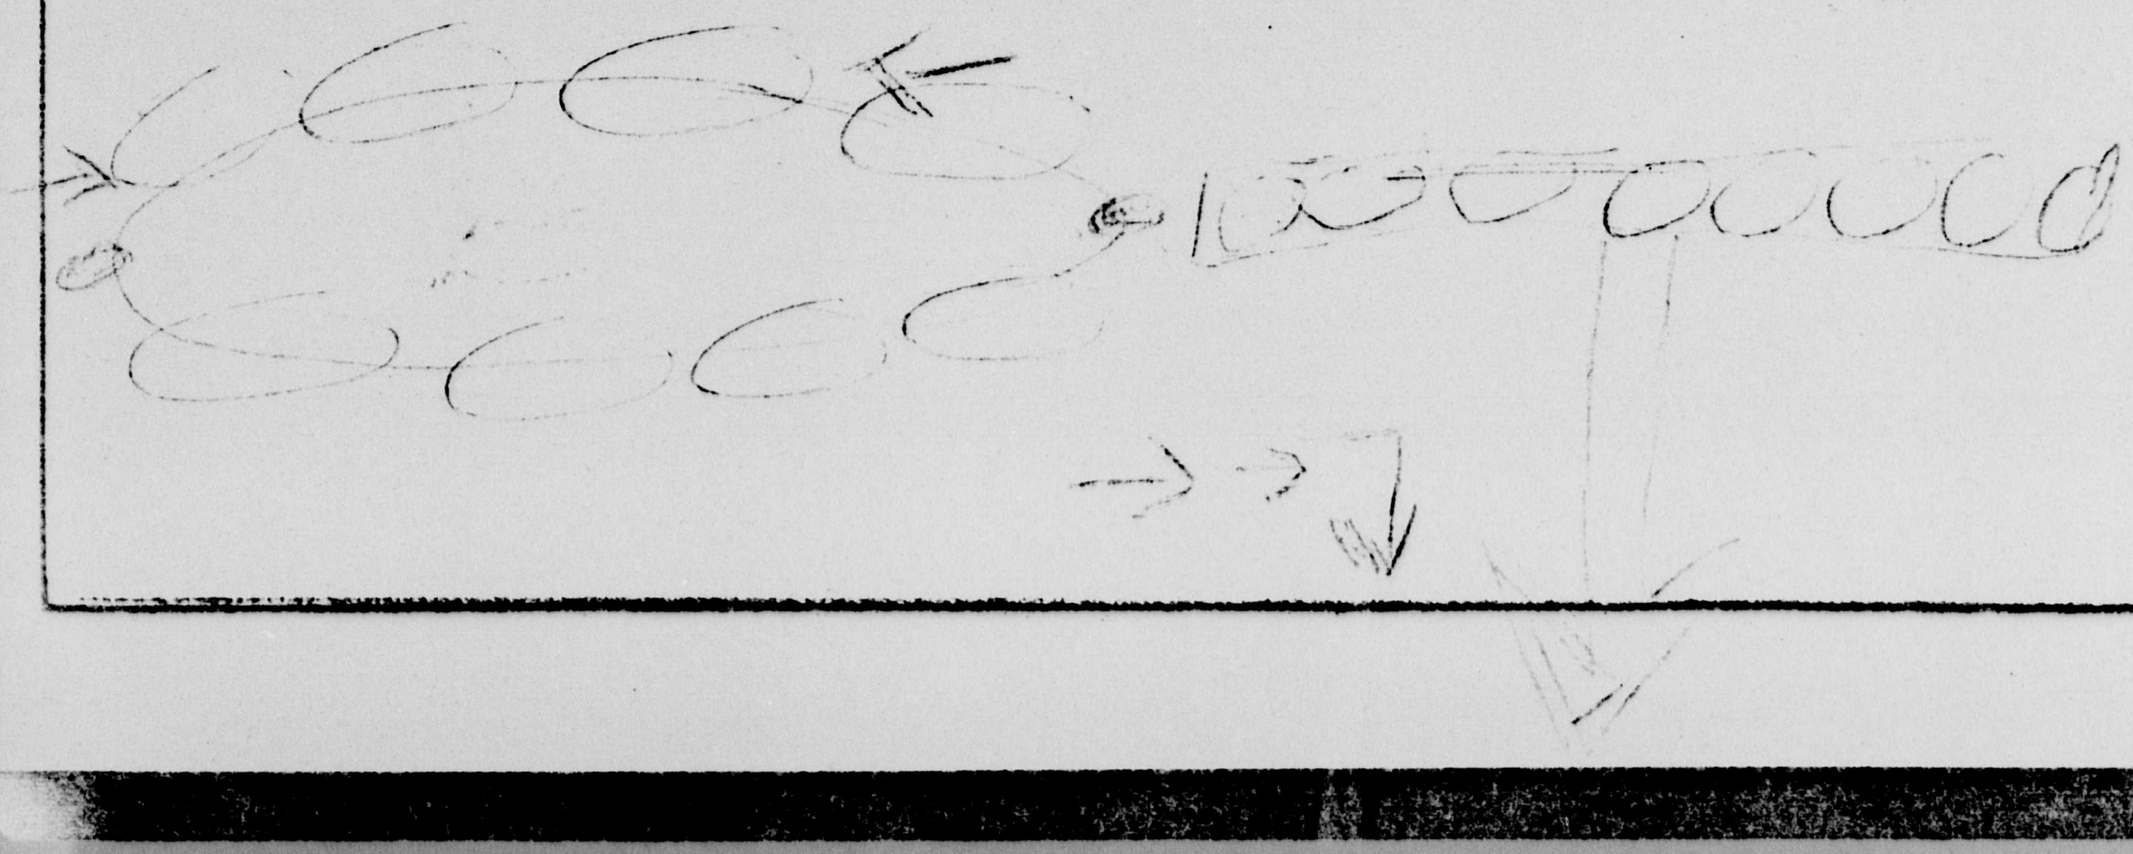

b. Color Gold Red Blue green light and dark

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Object was about the size of four arms or a circle. The Roundball plane was about four stage jet planes combined.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? Fast

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? Not Sure

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other On my Fence

23. Were you (Circle One)

a. in the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

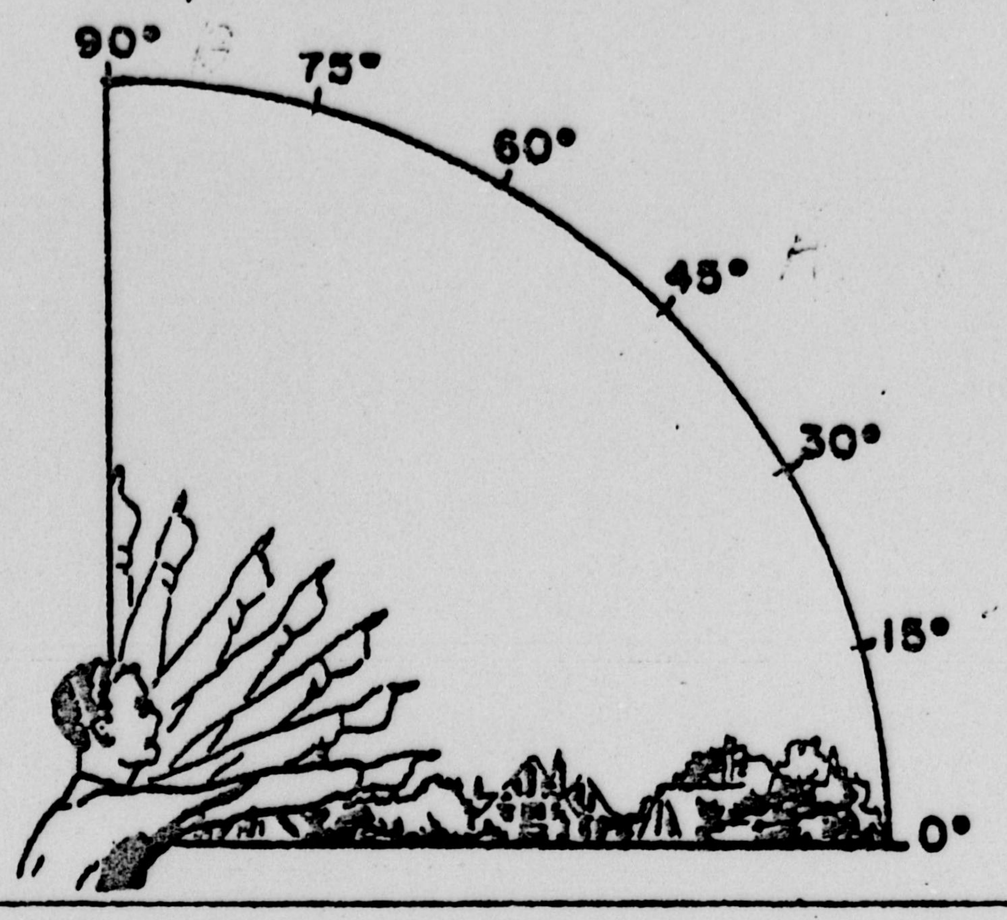

25. Did you observe the object through any of the following?

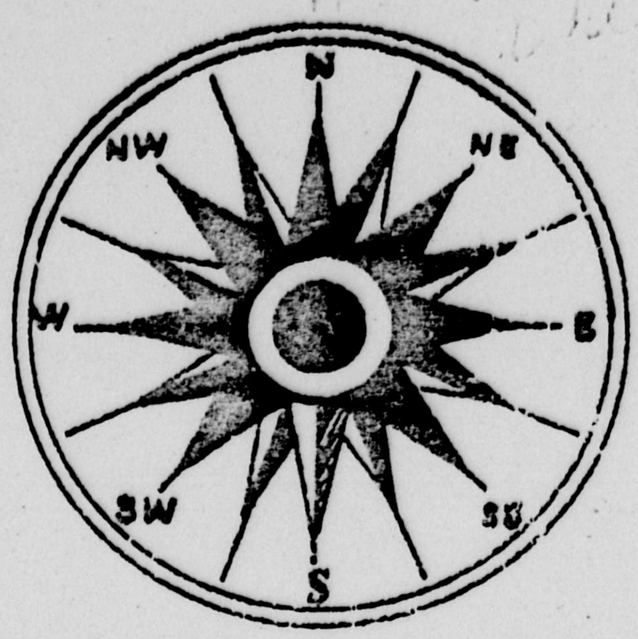

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw

Don't think I'm Crazy. But it was like the shape of a large Circle with the Slight (Blue) Tint to the Lights

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 3 Or 4 Or 5
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

always
We saw from the dark at 10 pm and it was
Southeast to 3 one car from South and
met with one coming from South and
then Can Flock of 20 to 30 migrating birds
with the migration one to the north pleas
Stay from Eagle And Crane it was and there
inside Neighborhood. The lights are so bright
they caused through Chairs blinds and drapes.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

Pat Weibert — 1849 Sedge Lane Apt 26.
Deloras Smith " " apt 1F
Richard Weibert Son 1849 Sedg Lane 13H.
Marlayne Weibert Son " " "

32. Please give the following information about yourself:

[redacted] First Name Middle Name

ADDRESS [redacted] Street Clute City Texas 77531 Zone State

TELEPHONE NUMBER [redacted] AGE 30 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I called the Rattigan farm hands Sunday night and Monday morning at 6:45. I have things to see still on the almanac. They are still there. Now I have them as late as last night. I am a retired Sec.

33. When and to whom did you report that you had seen the object?

Nov. 20 Nov 1966
Day Month Year

Rattigan, Washington

May 21, 1966 Air Force Daylight Ob.

34. Date you completed this questionnaire: 26 Dec 1966
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

After [illegible] Saw - Came [illegible]

I don't even want to be bothered

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Sunday 20 Nov. 1966
Day Month Year

2. Time of day: 10 / Hour / Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. (Daylight Saving)
b. Standard

4. Where were you when you saw the object?

[redacted] Bronx N.Y.
Nearest Postal Address City or Town State or Country

5. How long was object in sight? (Total Duration) 7 / Hours _____ Minutes _____ Seconds

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Clock

5.2 Was object in sight continuously? Yes _____ (No)

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. (Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM
FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*).

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object: a bit of flash lights

12. The edges of the object were:

(*Circle One*)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(*Circle One for each question*)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

It went over behind building.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: building

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

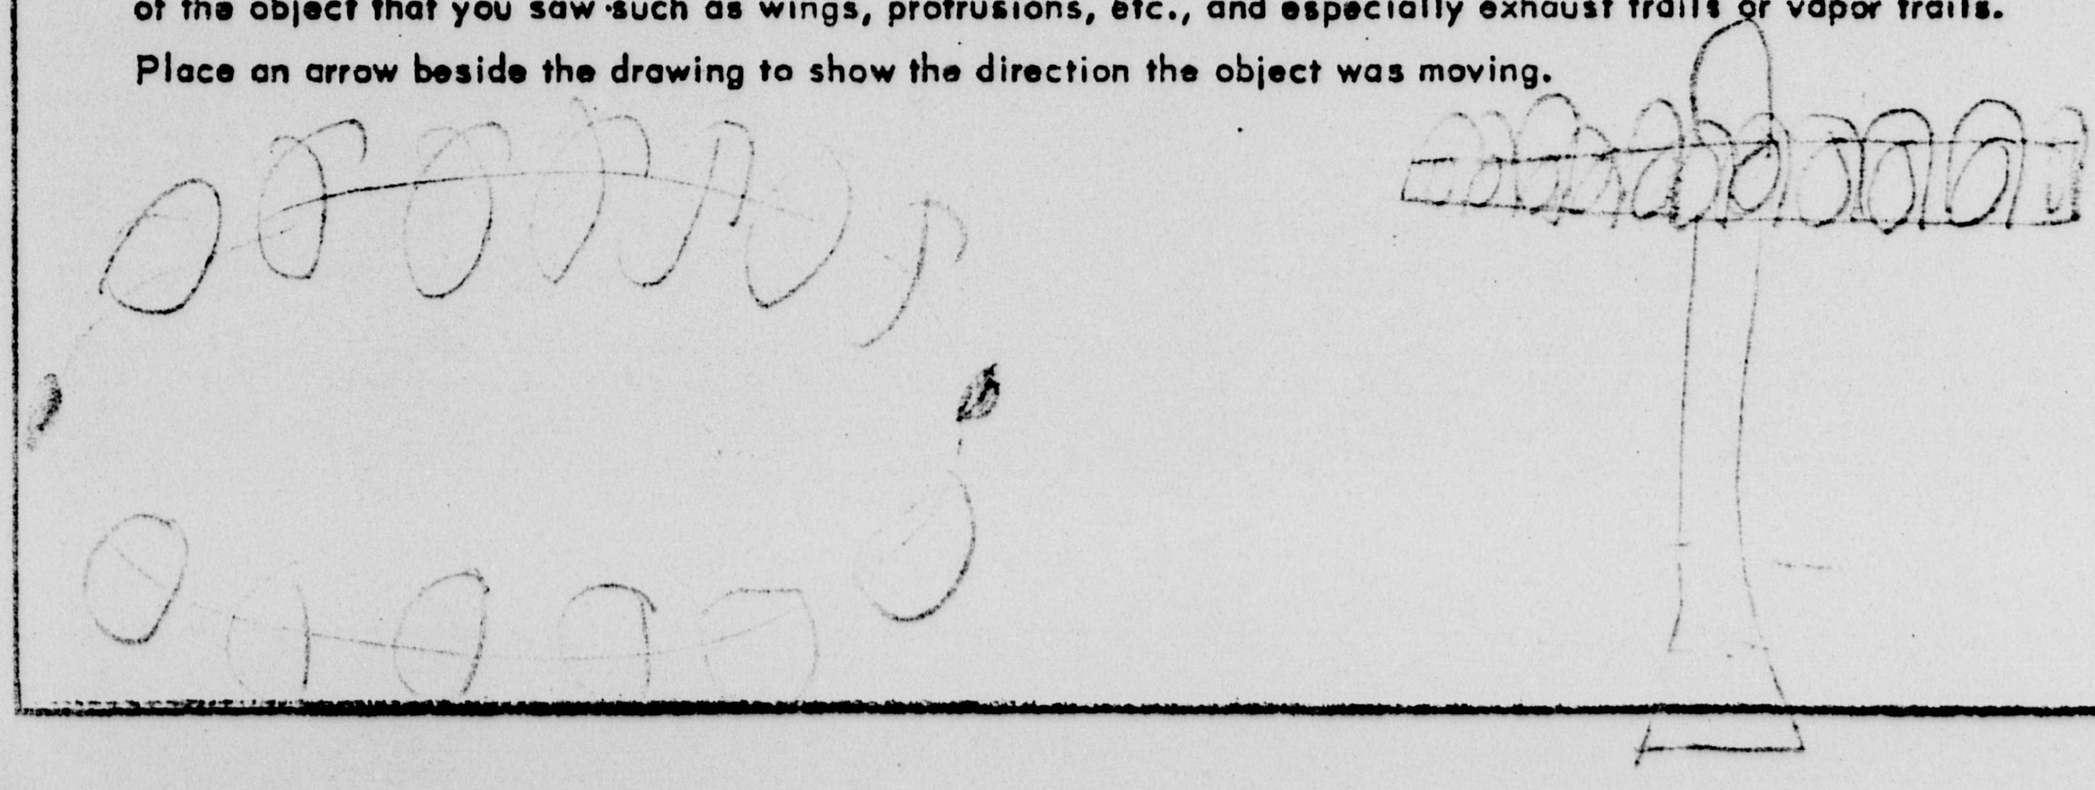

a. Sound No sound

b. Color don't know, lights were blue & red

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

don't know

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? 20 Miles an hour

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? Very Great Height Estimated

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

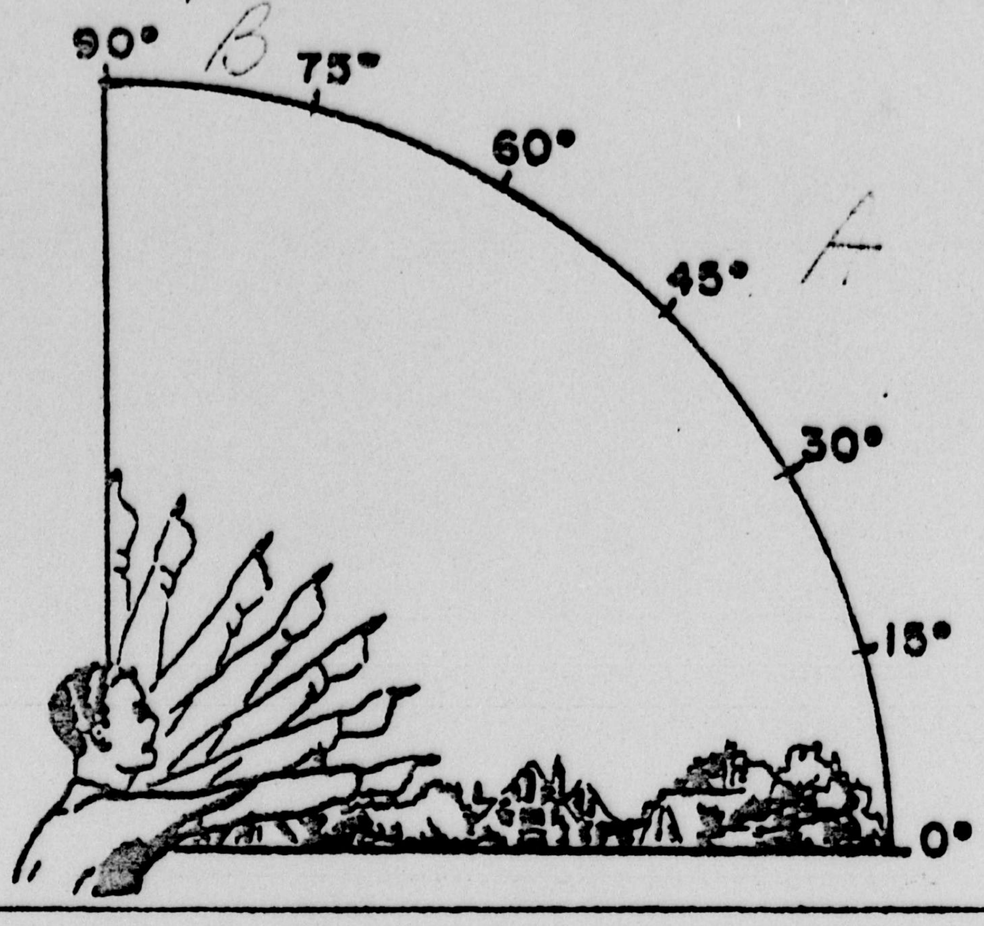

25. Did you observe the object through any of the following?

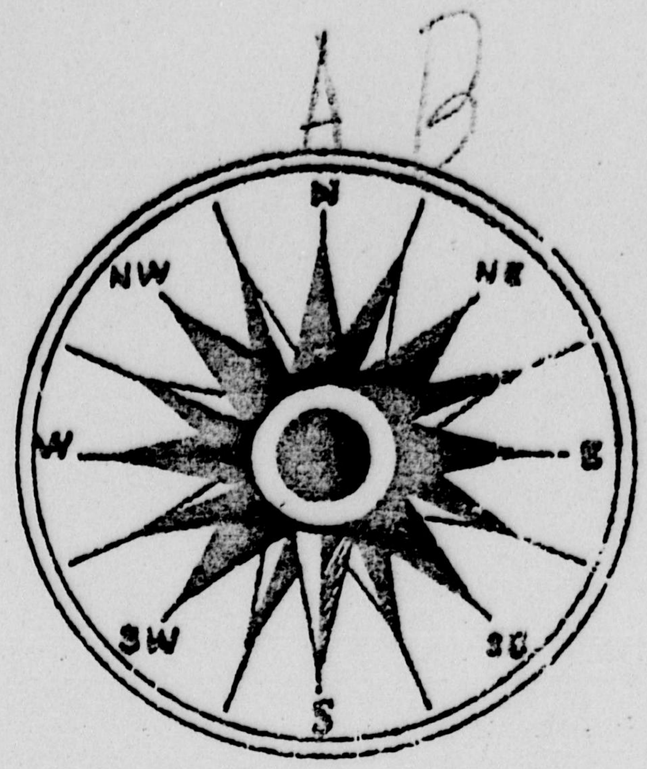

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

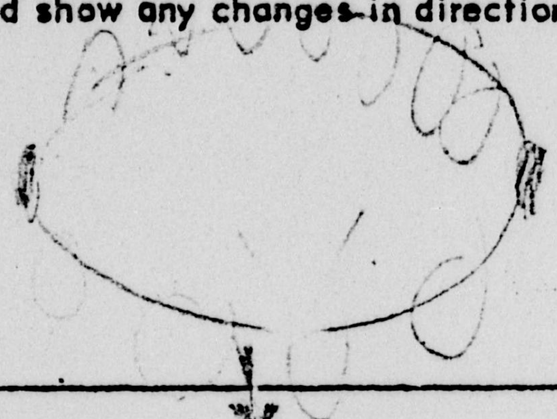

a flying saucer with lights

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

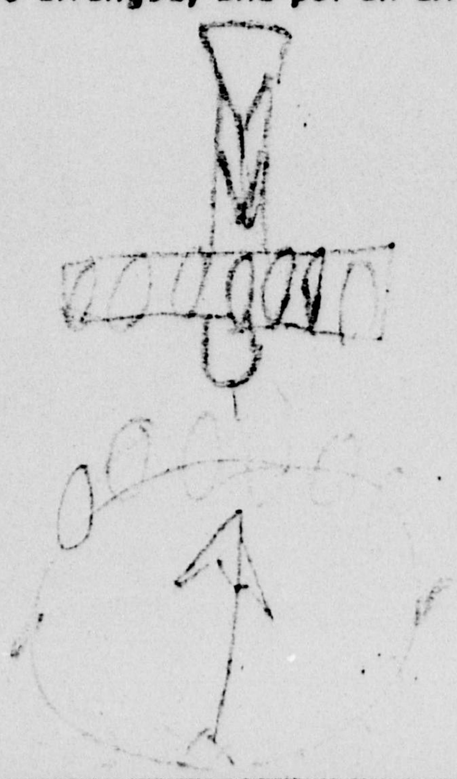

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give data or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* **Yes** No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

[redacted]

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Bronx 53 N.Y.
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 7 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Nov 20, 1966 Pentagon
Day Month Year

34. Date you completed this questionnaire: 25 (Day) 2[illegible]. (Month) 66 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) Nov. (Month) '66 (Year)

2. Time of day: 10 p. (Hour) _____ (Minutes)

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Bx (City or Town) N.Y. (State or County)

5. How long was object in sight? (Total Duration) 10 (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Memory only me

5.2 Was object in sight continuously? Yes ____ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object: Headlight

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Red lights

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Yes - At Top of Cloud

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: Cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

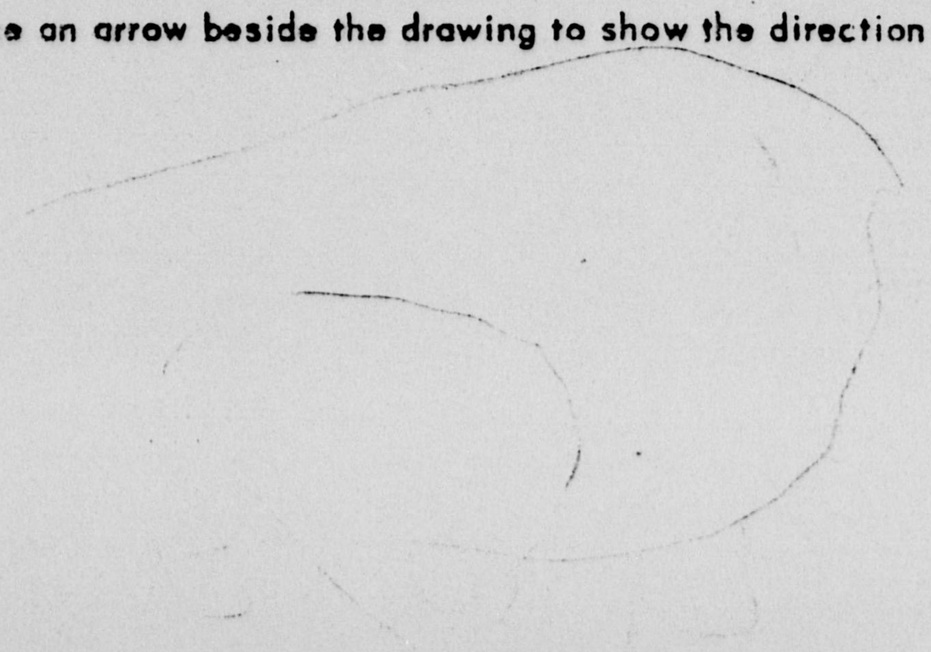

a. Sound No

b. Color Yellow

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Don't Know

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? slow

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? 5 blocks

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

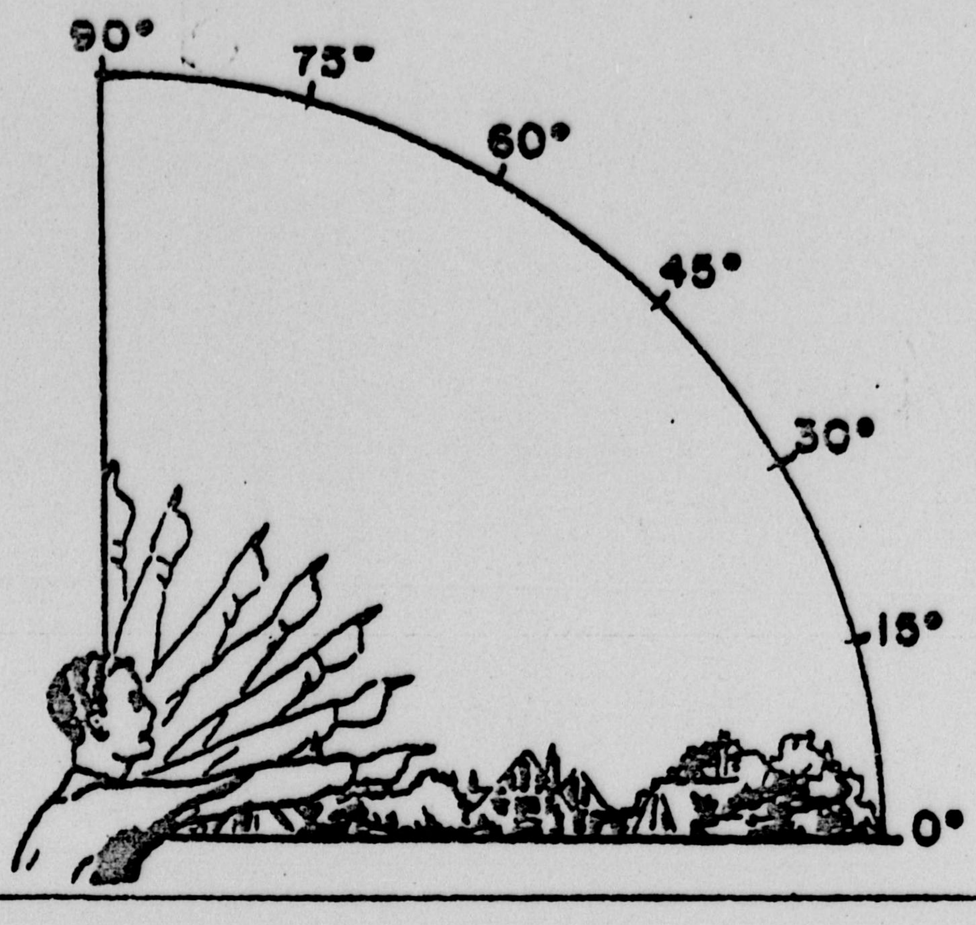

25. Did you observe the object through any of the following?

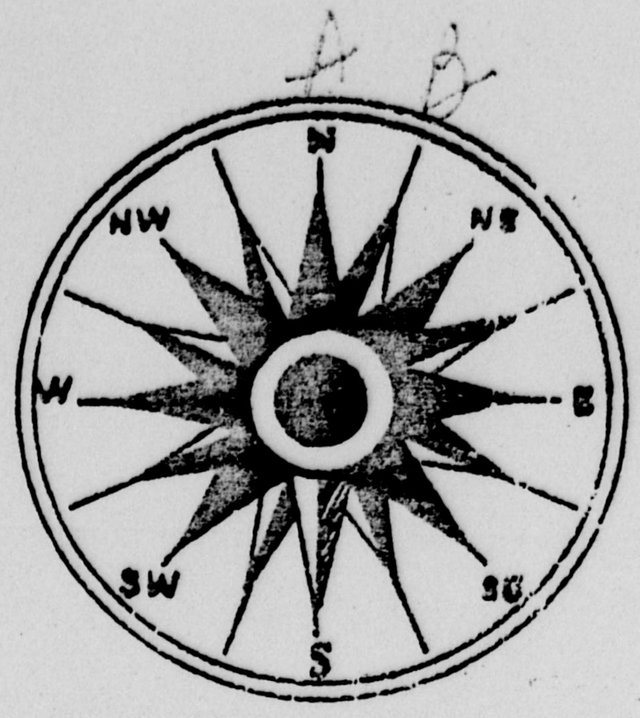

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

another plane

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted] (Mom)

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] [redacted] [redacted] [redacted]
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 4 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

go To Kindergarden

33. When and to whom did you report that you had seen the object? Mommie

Nov. 29, [redacted]
Day Month Year

34. Date you completed this questionnaire: _____ Day _____ Month _____ Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) 11 (Month) 1966 (Year)

2. Time of day: 7:00 (Hour) + 45 (Minutes) (Approximation)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving b. Standard

4. Where were you when you saw the object?

[redacted] Ave (Nearest Postal Address) BRONX (City or Town) New York (State or County)

5. How long was object in sight? (Total Duration) 1 (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. (Not very sure)
d. Just a guess

5.1 How was time in sight determined? Kitchen clock (Estimation in mins)

5.2 Was object in sight continuously? Yes ____ No X

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. (Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 154, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. (Many)
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. (Dull moonlight)
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. (Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. (Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. (Solid)
b. Transparent
c. Vapor
d. As a light
e. Don't remember

→ with bright lights.

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. (About the same)
d. Don't know

11.1 Compare brightness to some common object:

like Flashbulbs

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. (Sharply outlined)
d. Don't remember
e. Other bad lights all around either flashing on & off or revolving around object.

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

While circling buildings on Tremont Ave. It very suddenly dipped in back of building leaving only a bright glow visible to me.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: Buildings, as stated in ques. 14

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: An airplane, as what appeared to me to be an airplane, and stayed in front of plane a couple of minutes as it looking in. Pilots and/or passengers should have seen it.

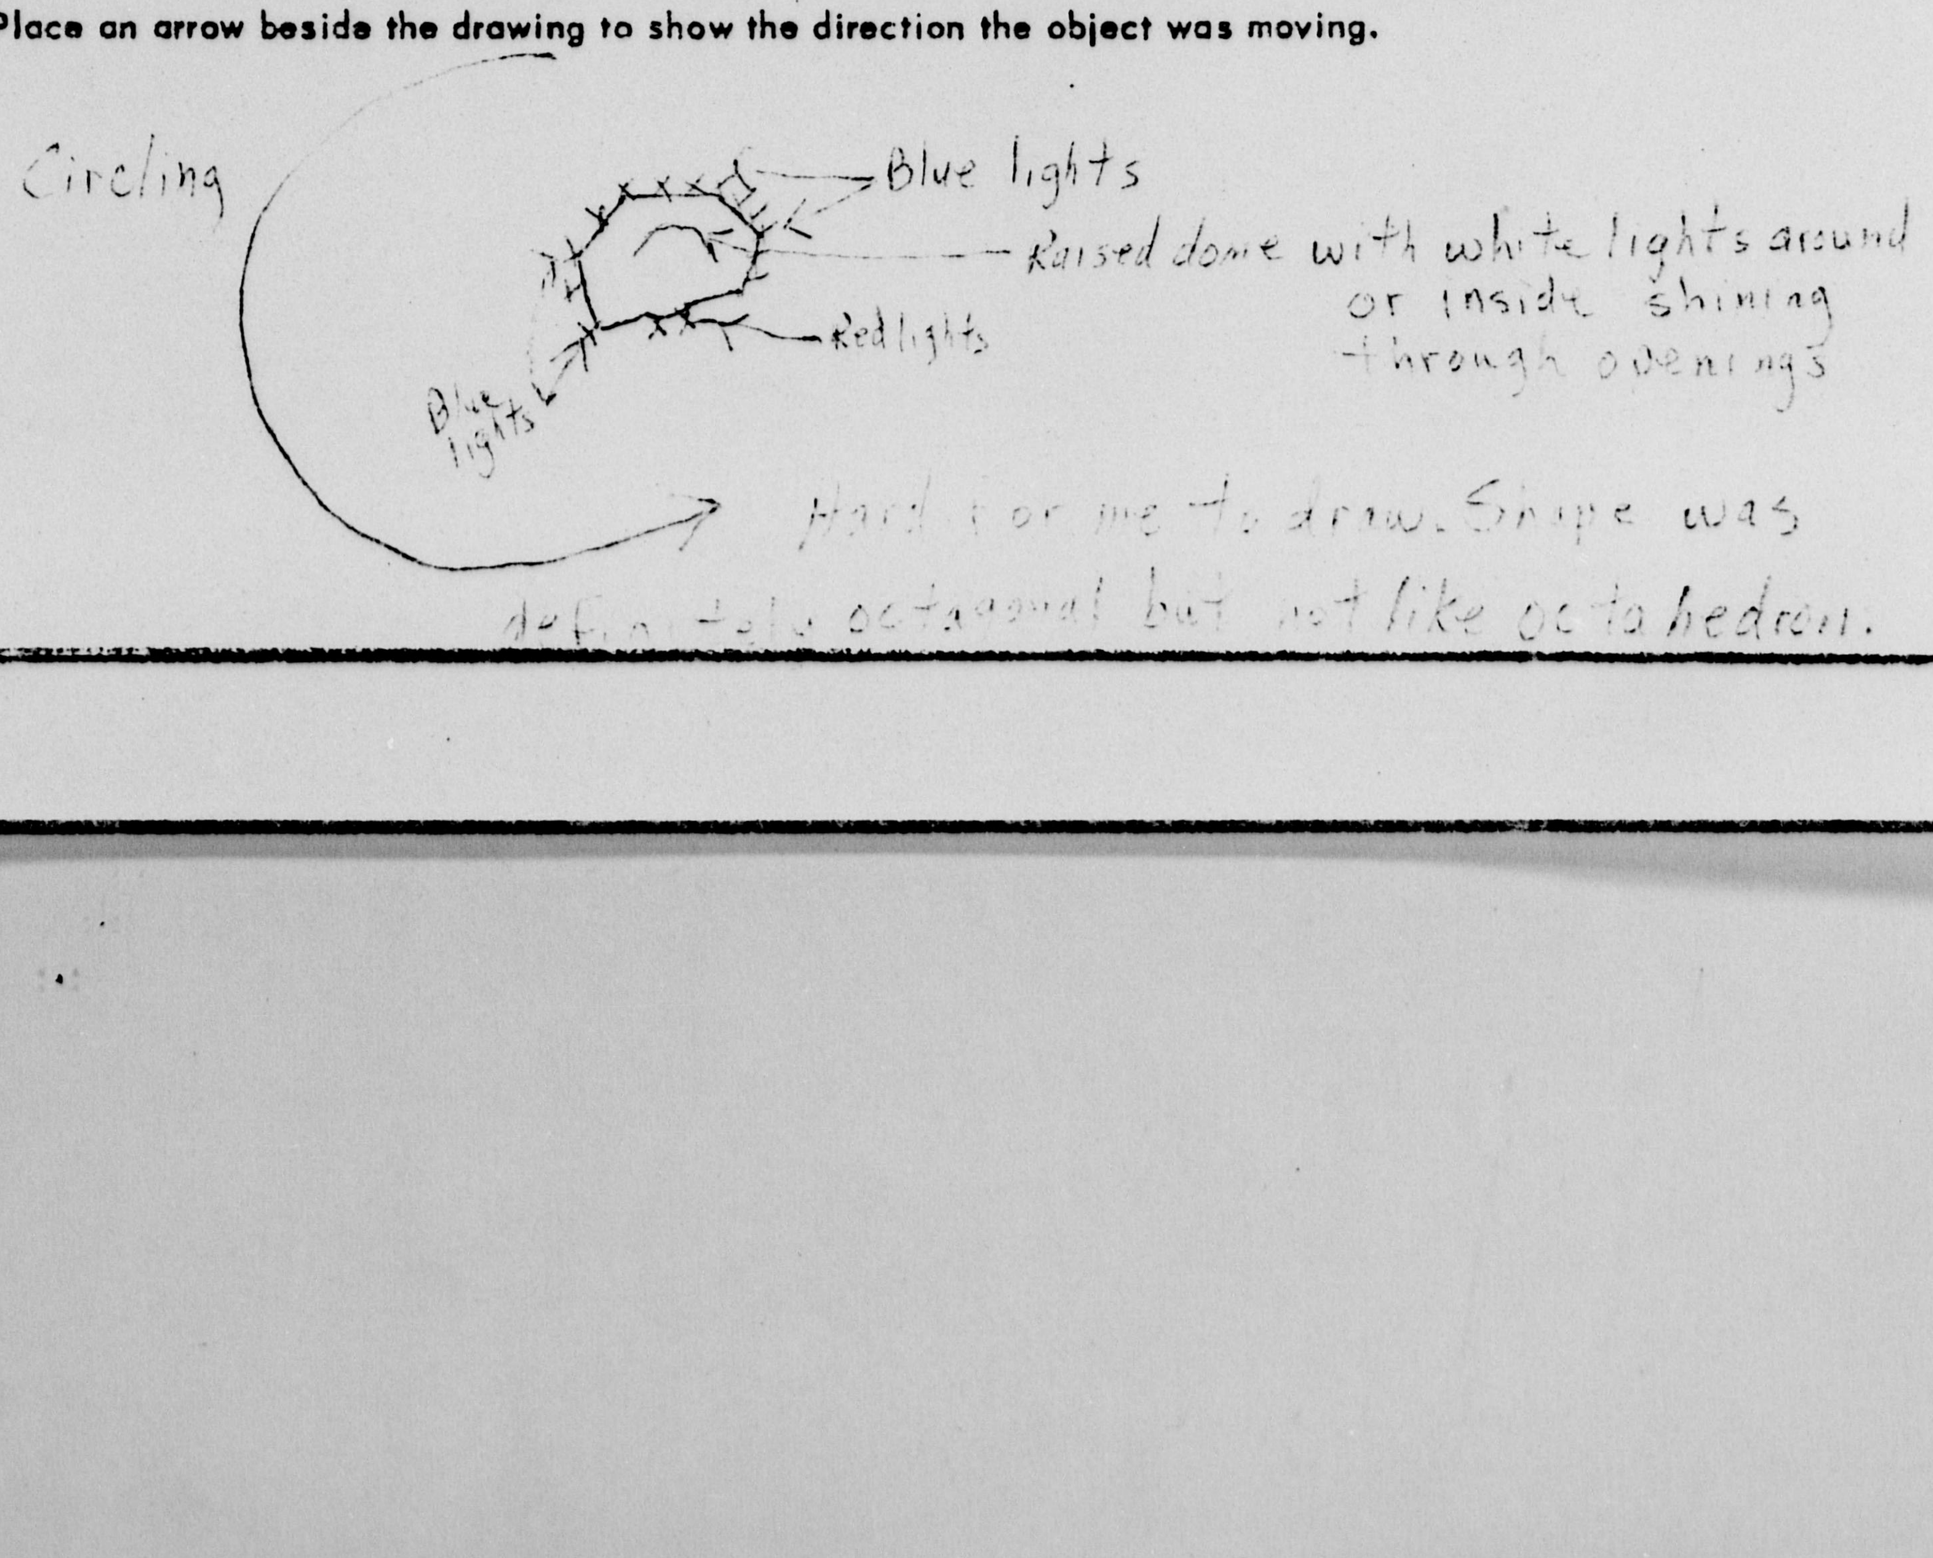

17. Tell in a few words the following things about the object:

a. Sound No Motor Sound. Sound of movement of air.

b. Color Not definite - With blue lights on seemed grey - Red lights like brass

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? An area no larger than the size that the smallest star appears to be when viewed with the naked eye, because the object was seen at close range.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? Quite a bit less than 10 ft block.

22. Where were you located when you saw the object? (Circle One):

a. (Inside a building)
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. (Other) Out on Terrace

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

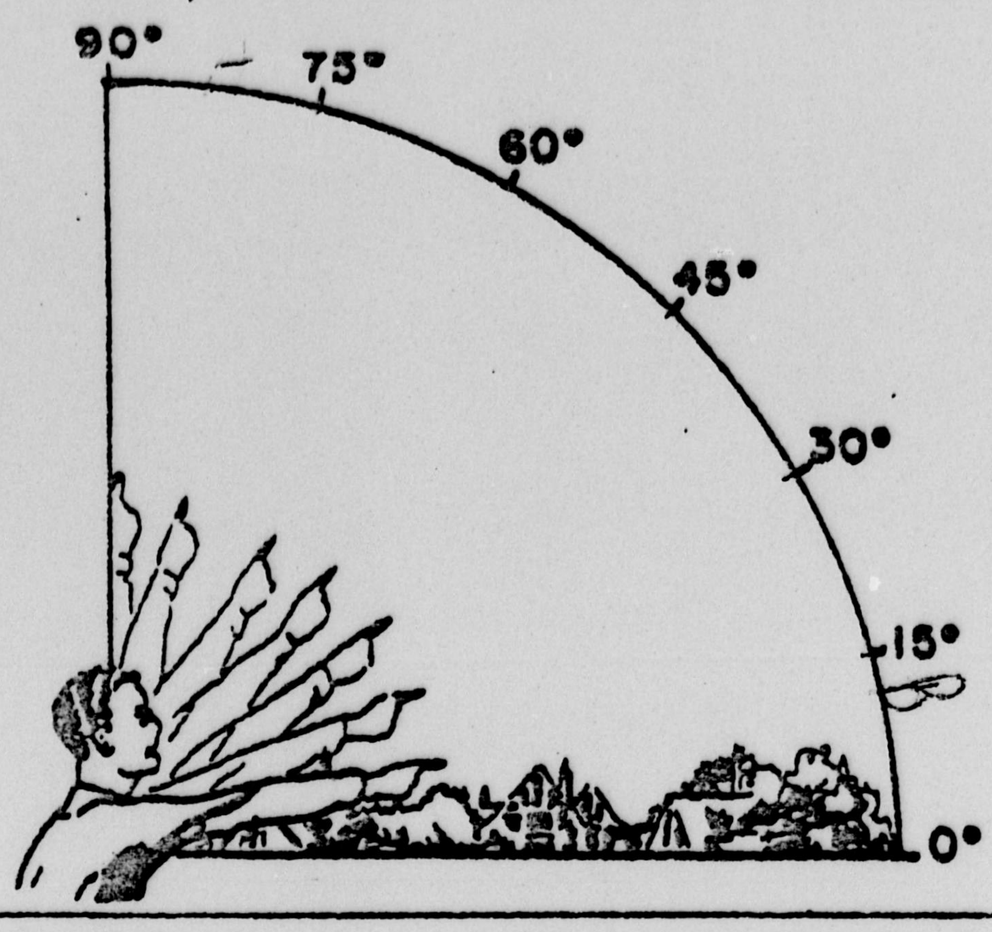

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other _____		

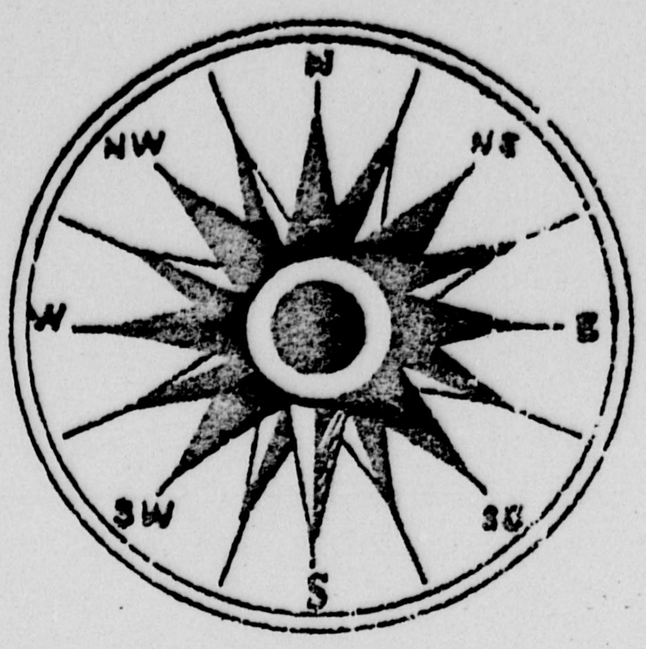

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Any octagonal object with lights at each angle, with a flat surface, and an inverted bowl on top.

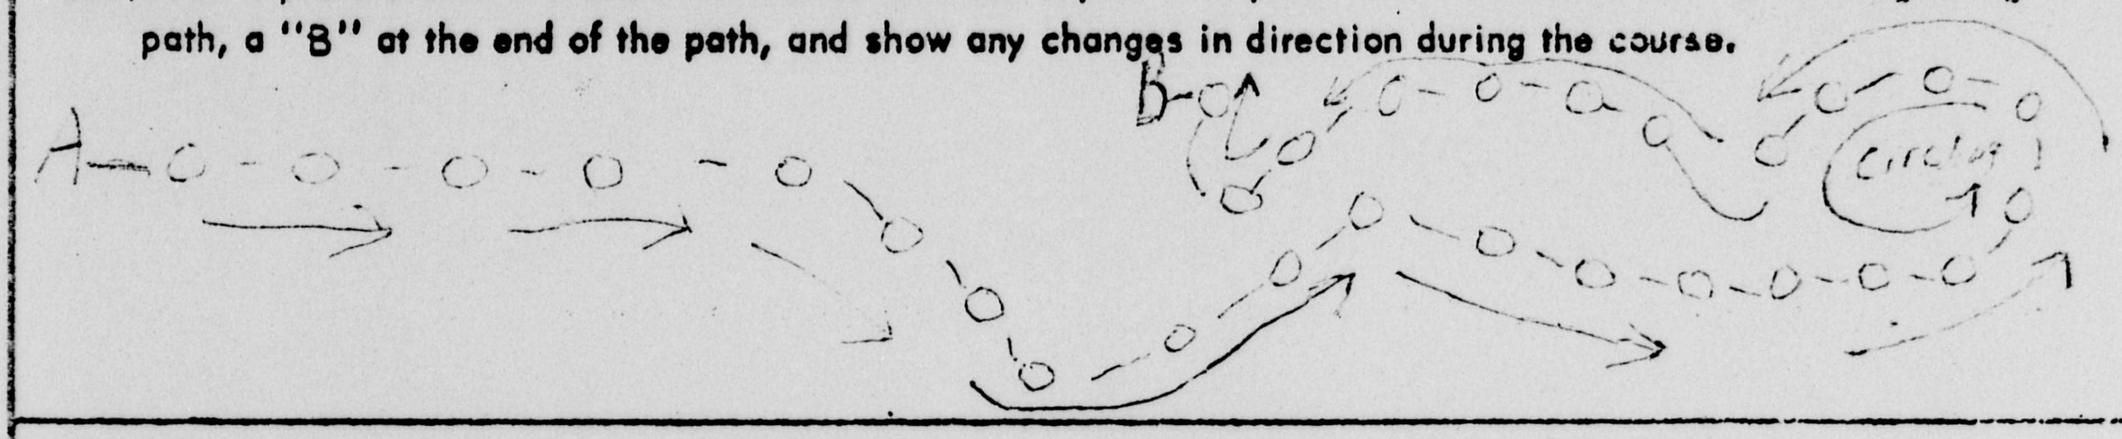

I know of no common object that would give same effect.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

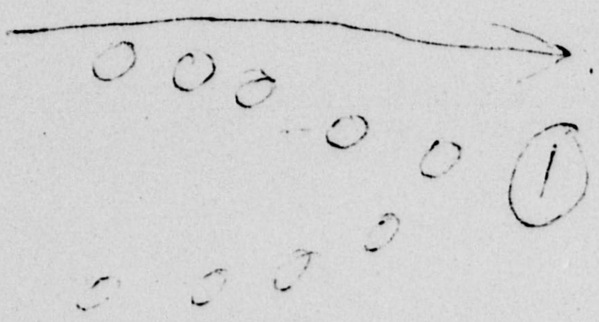

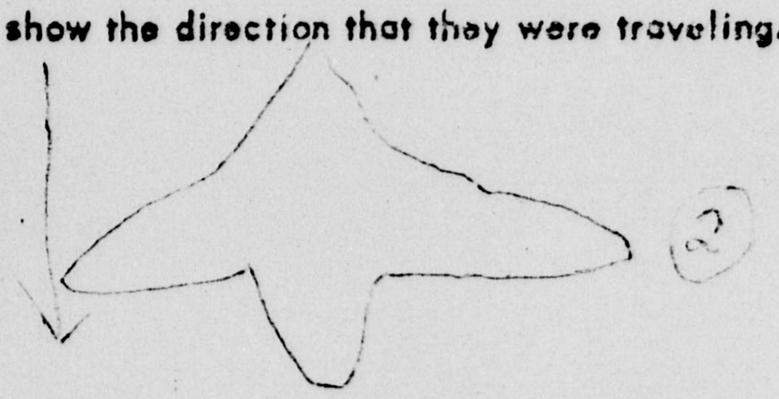

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? Not definite.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

(1) These objects information may very well have been a couple of planes flying close together. I did not see them close enough to tell. (2) This plane shaped object went over building very low without motor sound.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

Mrs. [redacted]

Mrs. [redacted]

[redacted] Bronx New York 10453

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Bronx (City) 53 (Zone) New York (State)

TELEPHONE NUMBER [redacted] AGE 25 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Vision - left eye 20/70
right eye 20/20
} without glasses

Since everything I saw was viewed without my glasses I can only be sure about what I saw at close range, and information such as direction of movement.

33. When and to whom did you report that you had seen the object? New York Daily News United States air force.

20 (Day) 11 (Month) 1966 (Year)

Reports made by Mrs. Lieben by phone.

34. Date you completed this questionnaire: 25 (Day) 11 (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I am sure of my answers describing appearance of the object at the time that it was approximately 55 feet 1/2 mile from the terrace since I was convinced that it was nothing more than an oddly lighted plane until I

Point.

2. Observations on distance were made using rule that 16 average city blocks constitute a mile.

3. observations on time may be totally inaccurate since they are approximated, using the fact that I arrived at Mrs. Lieben's apt. shortly after 9:00 p.m. and talked about ½ hour before her children called us to the window to see what they thought were "shooting stars"

4. There is one point that I am absolutely sure of. That is the octagonal shape of the object's base. This is because during the time Mrs. Smith and Mrs. Lieben were on the phone I opened the terrace door and went outside where I viewed the object passing close over the building at 1999 Sedgwick with the shape as seen from underneath clearly outlined

[illegible] reason I went on the terrace above to see the object without fear was that I was not yet convinced that it wasn't a brightly lit plane, and I thought perhaps I could hear a motor from the terrace even if the sound was very low.

Just after I viewed the object from the terrace Mrs. Smith joined me and we saw a plane flying so low that the bright headlight type beams in front nearly blinded us. It was very frightening since it seemed to be almost level with us while approaching and then it lifted seeming to just clear the building. I do not know if this was a normal plane or not, but, I have never before seen a plane fly so low that you could see its full size, except at an airport. Also there was no motor sound or sonic boom afterward.

I do not think that I was so frightened that I would not hear a plane motor since I could hear auto horns and we were on the 15th floor. I could not swear that the other light formations were the same as the other object since they were about over Jersey when we saw them and I decided I would feel better downstairs with my family and left.

I forget to mention earlier the "object" only approached the building when Mrs. [redacted] began screaming for help. While on the [illegible]" seemed to come closer as if to determine [illegible] calls constituted any danger to it.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) Nov. (Month) 1966 (Year)

2. Time of day: 10 (Hour) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) BRONX (City or Town) New York (State or Country) N.Y.

5. How long was object in sight? (Total Duration) 2 (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? From my watch. I would SAY TEN MINUTES AT A TIME.

5.2 Was object in sight continuously? Yes ____ (No)____

6. What was the condition of the sky?

DAY	NIGHT ✓
a. Bright	a (Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. (Many)
d. Don't remember

8.2 MOON *(Circle One)*:

a. (Bright moonlight)
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*.

(a. Solid)
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a. Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

From a distance, as bright AS A Flood lite. only The lites ON The object.

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
(c. Sharply outlined)
d. Don't remember
e. Other _____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

The object flew behind some buildings and droped out of sight, A few minutes later, it reappeared.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes, No, Don't Know. IF you answered YES, then tell what it moved behind: A Building but wasn't covered with or by Anything.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: The building we observed it from

17. Tell in a few words the following things about the object:

a. Sound Had No Sound at all.

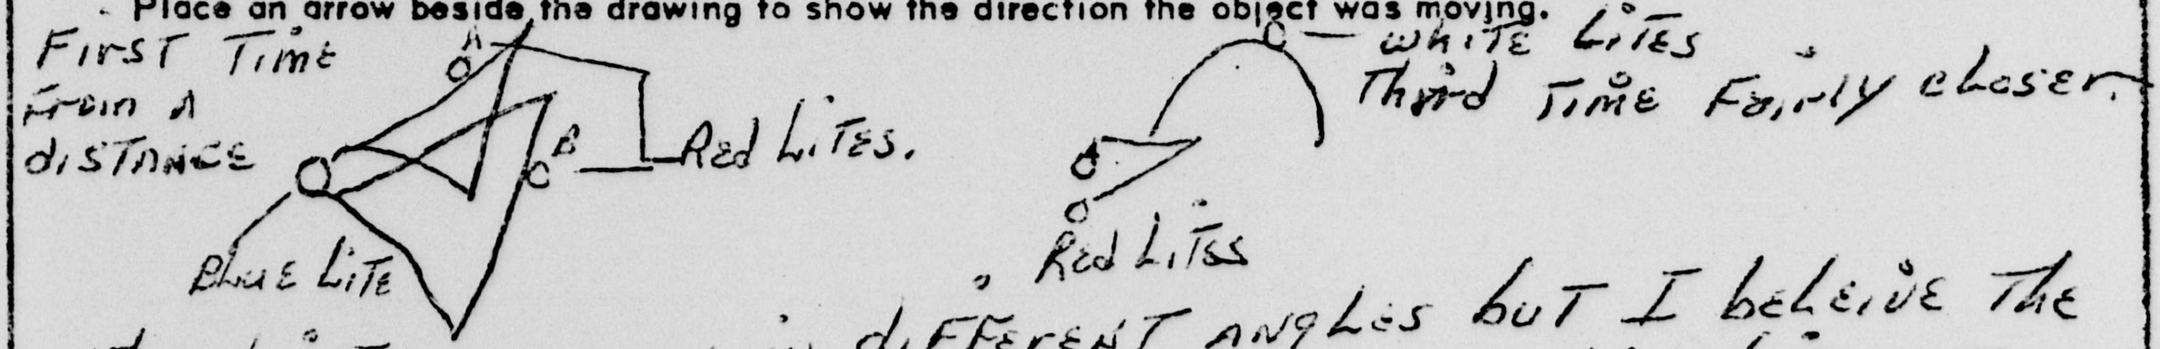

b. Color Bat the Ship Grey

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

At first, according to the distance, it would cover the whole object. After the last sighting, a match would only cover the lights in it's path.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

The object was seen in different angles but I believe the whole thing was light sided having red & blue lites at each end because I could see the lite but I couldn't see the whole thing enough to draw it perfectly.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) I KNOW IT WAS Fairly slow more Like a hilacopter.

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? About 1/2 city Block

22. Where were you located when you saw the object? *(Circle One)*:

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other AND ON THE TERRACE

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

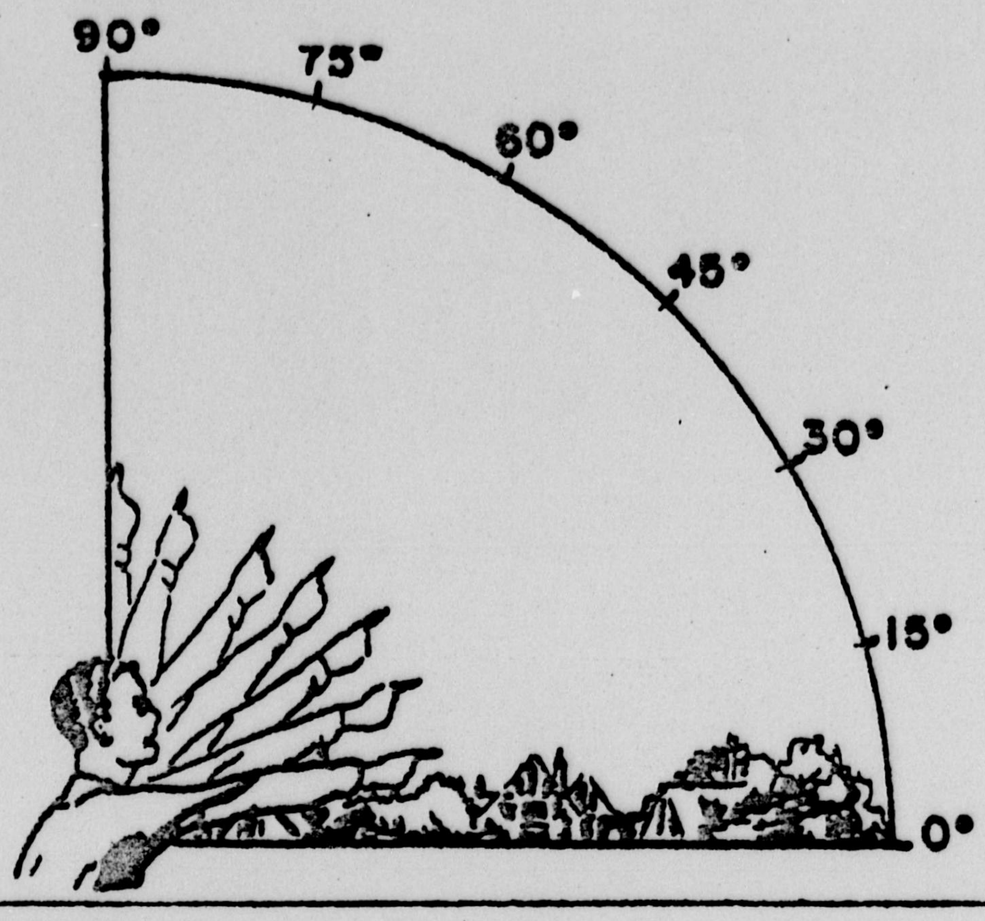

25. Did you observe the object through any of the following?

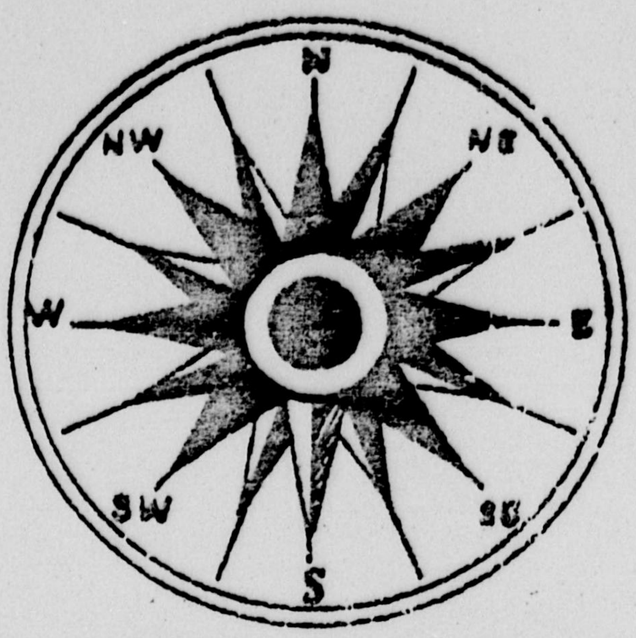

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	(Yes)	No	h. Other OUTSIDE ON QUES. 22 F.		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

AT FIRST A LARGE STAR, THEN A LITE. I WOULD SAY WHEN IT WAS AT ITS CLOSEST, IT WOULD BE OCTAGONAL WITH A DOME ON TOP HAVING LITES ON EVER CORNER.

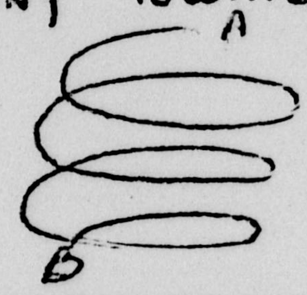

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

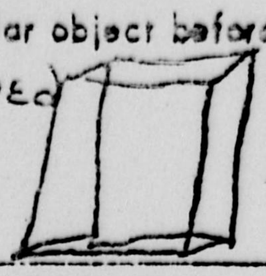

Coming Towards me, Then in The Same motion, over The building

29. IF there was MORE THAN ONE object, then how many were there? About Three

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

I SAW AN OBJECT SHAPED  WITH LITES ON EACH CORNER FLYING
HOLLOW APPEARANCE ON THE CORNER OF 155 ST. + AMSTERDAM AVE,
IN NEW YORK CITY MAN. THE MIDDLE OF JULY 1966.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

PAT TIEBOUT 1849 SEDGWICK AVE. BRONX #2G

MARGIE LIEBMAN SAME ADDRESS # 15A + HER TWO SONS

IN REFERENCE TO QUESTION 30, MY HUSBAND WAS WITH ME BUT HE ONLY SAW THE LITES FROM IT BECAUSE HE WAS DRIVING.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) (First Name) (Middle Name)

ADDRESS [redacted] AVE BRONX 10453 NEW YORK
(City) (Zone) (State)

TELEPHONE NUMBER [redacted] AGE 24 SEX FEMALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

DURING THE SIGHTING, THE OBJECTS CAME CLOSER + CLOSER TOWARDS THE BUILDING, I RAN OUT ON THE TERRACE TO GET A BETTER LOOK AT IT SO I COULD DISCRIBE IT PERFECTLY. WHEN MY GIRLFRIEND [redacted] TIEBOUT CAME OUT, THE OBJECT STOPPED IN MIDAIR AND SHINED TWO LITES AT US, THEREFORE I STILL COULDN'T SEE IT PERFECTLY. I STOOD THERE AND WATCHED IT FLY OVER THE BUILDING.

33. When and to whom did you report that you had seen the object? TO WASHINGTON'S PENTAGON

20 (Day) NOV. (Month) 1966 (Year) N.Y. DAILY NEWS, POLICE DEPT.

34. Date you completed this questionnaire: 25 (Day) Nov (Month) 1966 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The object came from the north moving south and dropped out of sight, we called the Daily News. A few minutes later either the same object or a different one came from south towards the building (west) another object came from north towards object one, we called Washington. When we did call and got through the objects proceeded closer until it was about 1/2 a city block from us. It seemed as though the phone calls made them come closer because they went towards the south when we hung up. We then called the Daily News again and the objects came back in front of the building but ever closer that's when I run on the terrace and they turn the lites on me. I don't want you to think we're crazy because our stories will be a little different only because we saw these objects and all reacted differently ~~one~~ to the phone, by looking out the window one on the terrace therefore we all saw different angles of the objects.

There maybe something that can be checked that we noticed. There was two objects looking like stars flickering red + blue just before the objects appeared. These star looking objects seem to be coming closer to earth. After the flying

objects disappeared for the last time the star looking objects went higher in the sky until they flickered an almost white color like a regular star. On November 24, 1966 I saw the same two star looking objects still flickering red + blue and showed my family, they all agreed they never saw them before. Later the same night, we didn't see the star looking objects at all but, we could see the regular stars.

There should be a way to report these things to someone and get immediate action so that the U.S.A. can find out what they are because if someone would have come when we called, they could have seen these objects since the stayed in sight for so long. Any plane could have gotten into the area and investigated in the time they stayed visiable.

A. Description of the Object(s):

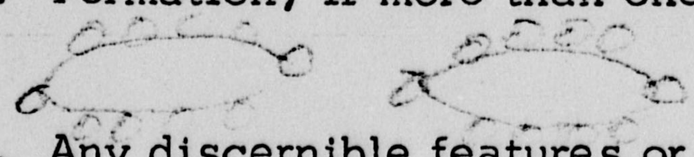

1. Shape:
Like the shape of a clam

2. Size compared to a known object:
(2) 9 X 9 oval rug, (1) the size of 3 big

3. Color:
Old gold

4. Number:
3

5. Formation, if more than one:

6. Any discernible features or details:
1. On the clam shaped objects the blue lights kept flashing low beam and high beam.

7. Tail, trail, or exhaust, including size of same compared to size of object(s):
None

8. Sound; if heard, describe sound:
None what so ever

9. Other pertinent or unusual features:
8 big blue lights and 2 stationary red lights (on two) another eight big white search lights.

B. Description of Course of Object(s): 1 from north to south and another from the north. They met in front of my house and stayed for five minutes.

1. What first called the attention of observer(s) to the object(s):
Two small sons

2. Angle or elevation and azimuth of object(s) when first observed:
North

3. Angle or elevation and azimuth of object(s) upon disappearance:
West - all went west.

Para B Continued: Then the mammoth plane came from the north and made a sharp 90° angle and came at the building. We began to feel good because I had called the Pentigon and I thought it was one of our planes. (No sound though) It seems as if it was coming at us so we ran inside, drew the blinds and the curtains and the lights were so fierce they came through the windows.

After this happened the other two objects terminated west. I called the Pentigon again (I always got the Command Post) and told the officer what happened and thanked him for getting our planes out so fast. He didn't want to frighten me but it wasn't one of our planes.

I don't go out at night. Those things are stationary in the atmosphere. They are so enormous you can't count them. I can't sleep. I also lost 42 pounds since Nov 20 when I first sighted them.

4. Description of flight path and maneuvers of object(s): (1) From north to south - from south back to my building and met one coming from north and going around in circles.

5. How did the object(s) disappear:
It didn't.

6. How long (were) the object(s) visible: From 10 p.m. to 12 midnight - they are still in the atmosphere but you can't outline the shapes now.

C. Manner of Observation:

1.

2. Optical Aids:

3. From my terrace on the 15th floor.

D. Time and Date of Sighting:
Nov. 10, 10 p.m. Local

1. Zulu time-date group of sighting:

2. Light conditions: Night

E. Location of Observer(s):
[redacted]dgwick Ave. Bronx (Terrace)

F. Identifying Information on Observer(s):

1. Military or Civilian:

2. Name: [redacted]

3. Age: 30

4. Mailing Address: [redacted]e, Bronx

TELE[redacted]

5. Occupation: Student

6. Estimate of Reliability: UNKNOWN

J. Location, approximate altitude, and general direction of flight of any air traffic or balloon releases in the area which might possibly account for the sighting:

K. Position, title and comments of the preparing officer:

1/Lt Thomas A. Knutson
UFO Officer

Lt Barnauskas went to investigate this report. He was unable to contact this woman at her home, also she has an unlisted telephone number. So, we sent her a base questionnaire, which she sent back. She has called me twice on the day that she was leaving for North Carolina. I will interview her when she gets back in four days.

L. Existence of physical evidence, such as materials and photographs:

NONE. MRS. [redacted]

THERE ARE WITNESSES, NONE ARE ABLE TO BE CONTACTED.
