I was always very interested in U.F.O.'s. I read all the books I can on the subject. I never really believed that there were any flying saucers. I was just amazed by the experiences of other people. But seeing is believing. And I did see them.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Everything that happened was covered in the questionnaire. Except that I never really planned on reporting this to anyone because everything I told them, they didn't believe. I had just about given up until yesterday (21/2/67) I saw the magazine. I was interested (because the time I had a reason for being interested, I saw them) and I read it. Then I filled this questionnaire out and finished tonight (22/2/67)

Please contact me as soon as you can telling me what becomes of this. Even if nothing does, tell me anyway. You'll have a hard time convincing me it wasn't U.F.O.'s. I know what I saw. You may use my name. I wouldn't be ashamed for people to know what I saw. It doesn't bother me if they don't, because what's important is that I do know I saw them. And no one can tell me differently, unless they prove to me that

I saw different objects. So once again if you use my name, let me know.
