1. DATE - TIME GROUP 30 Dec 66 2315Z	2. LOCATION Allentown, Pennsylvania Multiple
3. SOURCE Civilian	10. CONCLUSION Aircraft (possible) <i>Insuff. Info.</i> ✓ <i>JSK</i>
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION N/A	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground Visual	Observers watched a circular shaped object coming from the northwest and heading toward the southeast. The object was sighted in an open field east of Allentown, Pa. The object appeared to be quite high in the sky and moving moderately fast in speed. It had three red, triangular lights on its bottom. When it went away it shot up into the air at a very fast speed.
7. COURSE SE	
8. PHOTOS ☐ Yes ☒ No	The description is consistent with that of an aircraft observation. An aircraft flying toward the New York area could account for the observation.
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

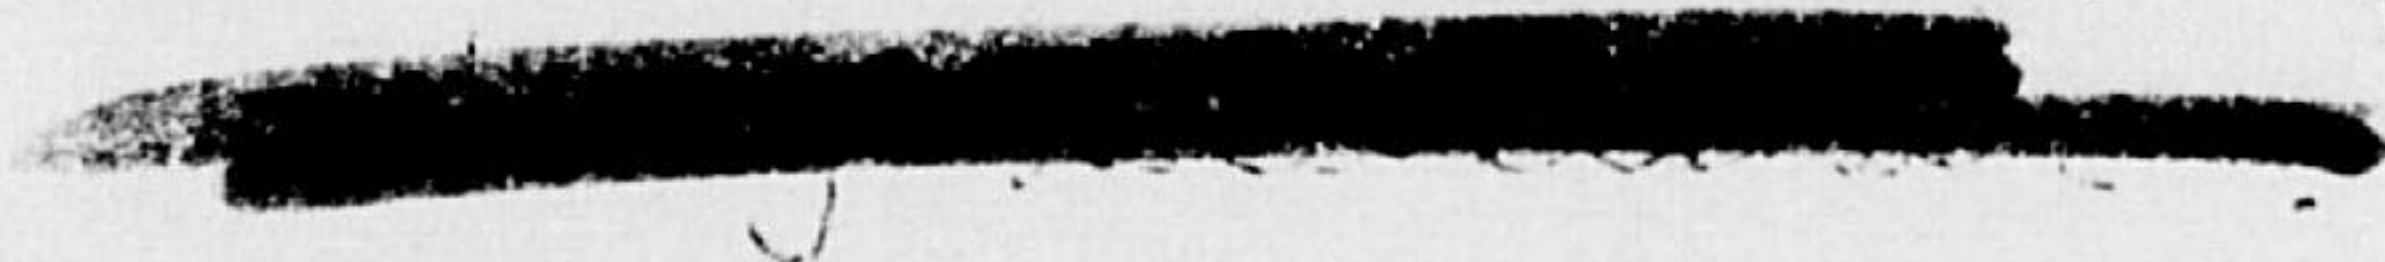

FORM

FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

It had three red triangular
lights on its bottom and
as it went away it shot
up into the air at a very
fast speed.

Here are drawings of the ob-
ject by the people who sighted
it:

Memorandum

My friends and I wish
to report an object we saw
on Friday night Dec. 30 1961
at 6:15 (approximately). The
object was circular in shape
and was coming from the
northwest and heading south-
east. We sighted it in a
field in Allentown, Pennsylv-
ania on it's east side. It
was a clear and cloudless
evening (as far as we could see) night
and the object was seen
by four people whose names
are [redacted]
[redacted] and
[redacted] and me, [redacted]
[redacted]
We sighted it first by eye,
then by telescope at 10x.
It was high off the ground
(I cannot estimate the size
or height it was) moving
at a moderately fast speed.
