I was lying in bed - looking ^{out of my window} at the stars - thinking how beautiful they were - when this formation appeared. I was amazed and got out of bed to see it better. After watching it for a short time - I called my wife and she came and watched. She watched for a time - but I watched until it was out of sight. It moved in the direction of the Pacific Ocean.

Gentlemen:

I am writing this because I have sighted the second "object" recently. The first one I saw was January 26, 1967 at about 10 or 10:30 P.M. I had just retired and was looking at the sky as the stars were so beautiful, when all of a sudden I saw what appeared to be a cloud about the size of a small house. What attracted my attention was that it gave off a glow rather soft. I got up to see it better as it moved along, slowly, I should say about 25 miles an hour. I could not believe my eyes! It was about 40 feet high and quite clear. It made no noise at all. I called my wife to come and look, and we both watched, as it moved slowly away. We stood and watched it for about five minutes or so, until it disappeared from view. It moved out toward the ocean which is about 2 miles west of our home.

This morning as I was looking out the window again, I saw an "object", the same type as the first, moving across the sky at a distance of about a mile or so away. It also was aglow, and I watched it for about five minutes, going in the opposite direction. It was about 6 o'clock A.M., the stars were still out and it was just beginning to get light.

We are sincere about this, my wife and I are both church members, and have been for years. We cannot account for this and thought you may have an answer.

I have just read "America's Big Eye On the Sky" in the Reader's Digest, which prompted me to write about this to you.

I am retired and have worked for twenty-three and a half years for R.A.S.A. Moffett Field, California. I was former of the missile division, so you can understand my interest in this matter.

At present, we reside in San Diego but are returning to the San Francisco Peninsula after February 23rd. Our new address will be 265 [redacted] Menlo Park, Calif. in the event you answer this letter.

Sincerely,

Send 164 to
