We saw a thing about a yard tall and circular
come out the side of the U.S.O. At first I put it
down as an object on question 29. But later I decided
it wouldn't be classified as a U.S.O. So I only put

Dear Sir,

I'm only eleven so you might not believe me, but please do, because I'm telling the truth! I am very interested in U.F.O.s. I've seen two. I think one was a star, but the other one was not! I'll tell you about the one that was real. It was a Wednesday night. Two of my friends and I were watching for flying saucers in the sky. It was a clear night, stars were out. One of us looked down across a field. There it was. Sitting by some trees about two miles away. It was as big as the trees and half-circular landed on the ground. It was a bright pulsating red-orange. We watched it about ten minutes. Two more of my friends joined us so there were five witnesses. We watched with a 10 power eyeglass and with our naked eyes. Then to our surprise a red dot shot out of it and blinked off and on in the woods. We had to go to a church service so we left. I went back on

Friday, it was gone but the red dot was
still flashing and blinking in the
in the woods. About three weeks later
my mom and dad were gone so we had a
babysitter for my little brother. It
was about ten o'clock, when we looked out
of our big picture windows there it was
hovering about 100 feet above the spot we
had seen it three weeks ago. The red-orange
half-circular light. It hovered about
one minute then slowly moved eastward.
it began to gain speed it went faster,
faster, until it was too far away to be seen.
Could you please send me some information
on U.F.O.s? I would appreciate it very much.

Very respectfully,
