

PROJECT 10073 RECORD

1. DATE - TIME GROUP 15 Feb 67 16/0322Z	2. LOCATION Woodberry Forest, Virginia	<i>Copy for Hynek</i> multiple
3. SOURCE Civilian	10. CONCLUSION Aircraft(possible)	<i>- incl. letter.</i>
4. NUMBER OF OBJECTS two		
5. LENGTH OF OBSERVATION 75 seconds	11. BRIEF SUMMARY AND ANALYSIS	
6. TYPE OF OBSERVATION Ground Visual	<p>Observers were looking out a window when they noticed a greenish white light traveling toward the southern sky. It dimmed irregularly and changed course several times, but always continued in the same direction. Just before it disappeared over the trees, there was a bright flash like a flare where the object disappeared. A second object appeared in the same position as the first but it was traveling faster than the first. This object was lower in altitude than the first and moved in the opposite direction.</p>	
7. COURSE 1. south 2. north		
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<p>Since only lights were observed it is possible that aircraft were responsible for the observation.</p>

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

<p>1. When did you see the object?</p> <p><u>12/15/67</u></p> <p>Day Month Year</p>	<p>2. Time of day: <u>10:22</u></p> <p>Hour Minutes</p> <p>(Circle One): A.M. or P.M.</p>		
<p>3. Time Zone:</p> <p>(Circle One): a. Eastern b. Central c. Mountain d. Pacific e. Other</p> <p>(Circle One): a. Daylight Saving b. Standard</p>			
<p>4. Where were you when you saw the object?</p> <p><u>Wendover Forest</u> <u>Wendover Forest</u> <u>Utah</u></p> <p>Nearest Postal Address City or Town State or County</p>			
<p>5. How long was object in sight? (Total Duration)</p> <p><u>1 15</u></p> <p>Hours Minutes Seconds</p> <p>a. Certain b. Fairly certain c. Not very sure d. Just a guess</p>			
<p>5.1 How was time in sight determined? <u>watch + computations</u></p> <p>5.2 Was object in sight continuously? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/></p>			
<p>6. What was the condition of the sky?</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%; text-align: center;"> <p>DAY</p> <p>a. Bright b. Cloudy</p> </td> <td style="width: 50%; text-align: center;"> <p>NIGHT</p> <p>a. Bright b. Cloudy</p> </td> </tr> </table>		<p>DAY</p> <p>a. Bright b. Cloudy</p>	<p>NIGHT</p> <p>a. Bright b. Cloudy</p>
<p>DAY</p> <p>a. Bright b. Cloudy</p>	<p>NIGHT</p> <p>a. Bright b. Cloudy</p>		
<p>7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?</p> <p>(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember</p>			

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Cirrus One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- (a) Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One).

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

a. Brighter
 b. Dimmer
 c. About the same
 d. Don't know

11.1 Compare brightness to some common objects

match under direct hit

12. The edges of the object were:

(Circle One) 3. Fuzzy or blurred
a. Like a bright star
b. Sharply outlined
c. Don't remember

e. Other _____

13. Did the object

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

(Circle One for each question)

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building - ~~Window was open~~
~~no screen~~
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	<input checked="" type="radio"/> Yes	<input type="radio"/> No	e. Binoculars	<input checked="" type="radio"/> Yes	<input type="radio"/> No
b. Sun glasses	<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No	f. Telescope	<input checked="" type="radio"/> Yes	<input type="radio"/> No
c. Windshield	<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No	g. Theodolite	<input checked="" type="radio"/> Yes	<input type="radio"/> No
d. Window glass	<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No	h. Other	<i>1 Person with eyeglasses</i>	<i>3 without</i>

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A Bon fire

14. Did the object disappear while you were watching it? If so, how?

NR

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved in front of: Clouds

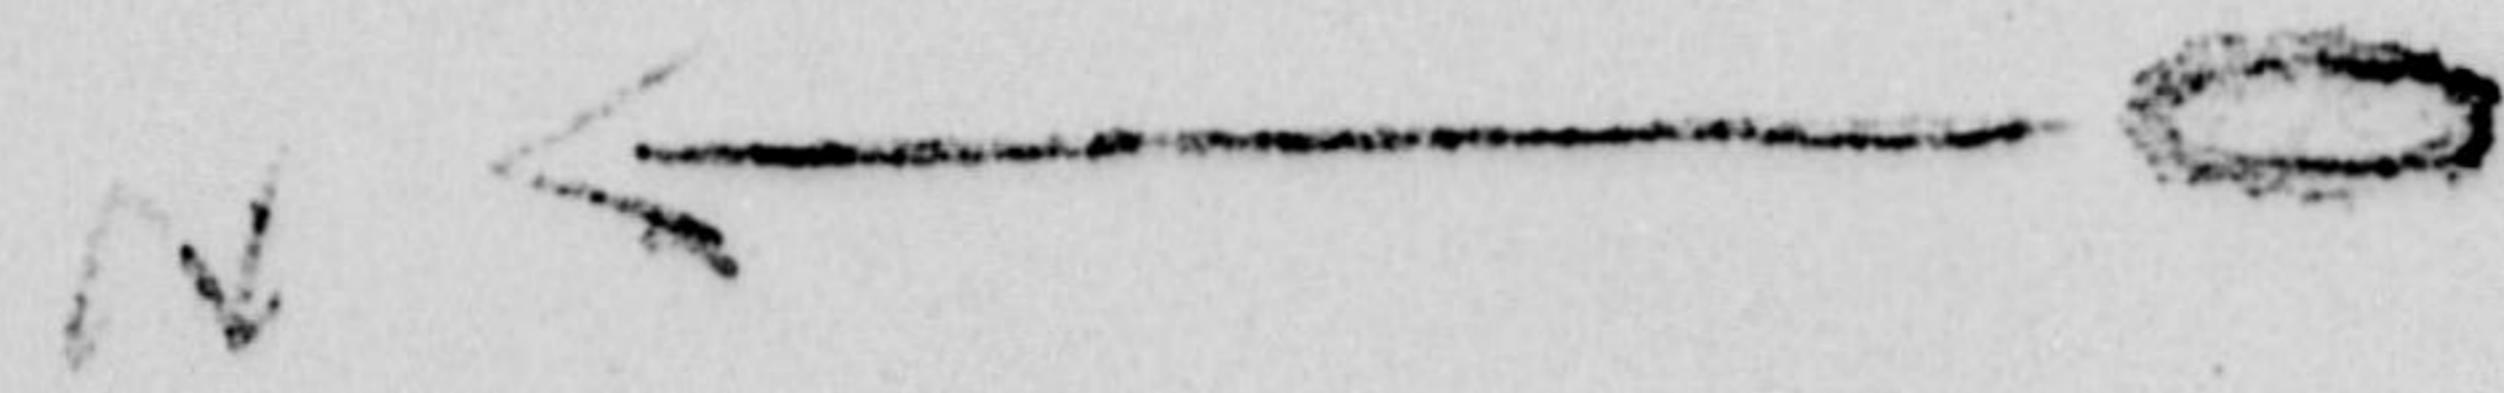

17. Tell in a few words the following things about the object:

a. Sound not sure I never heard anything like it before
b. Color white flat

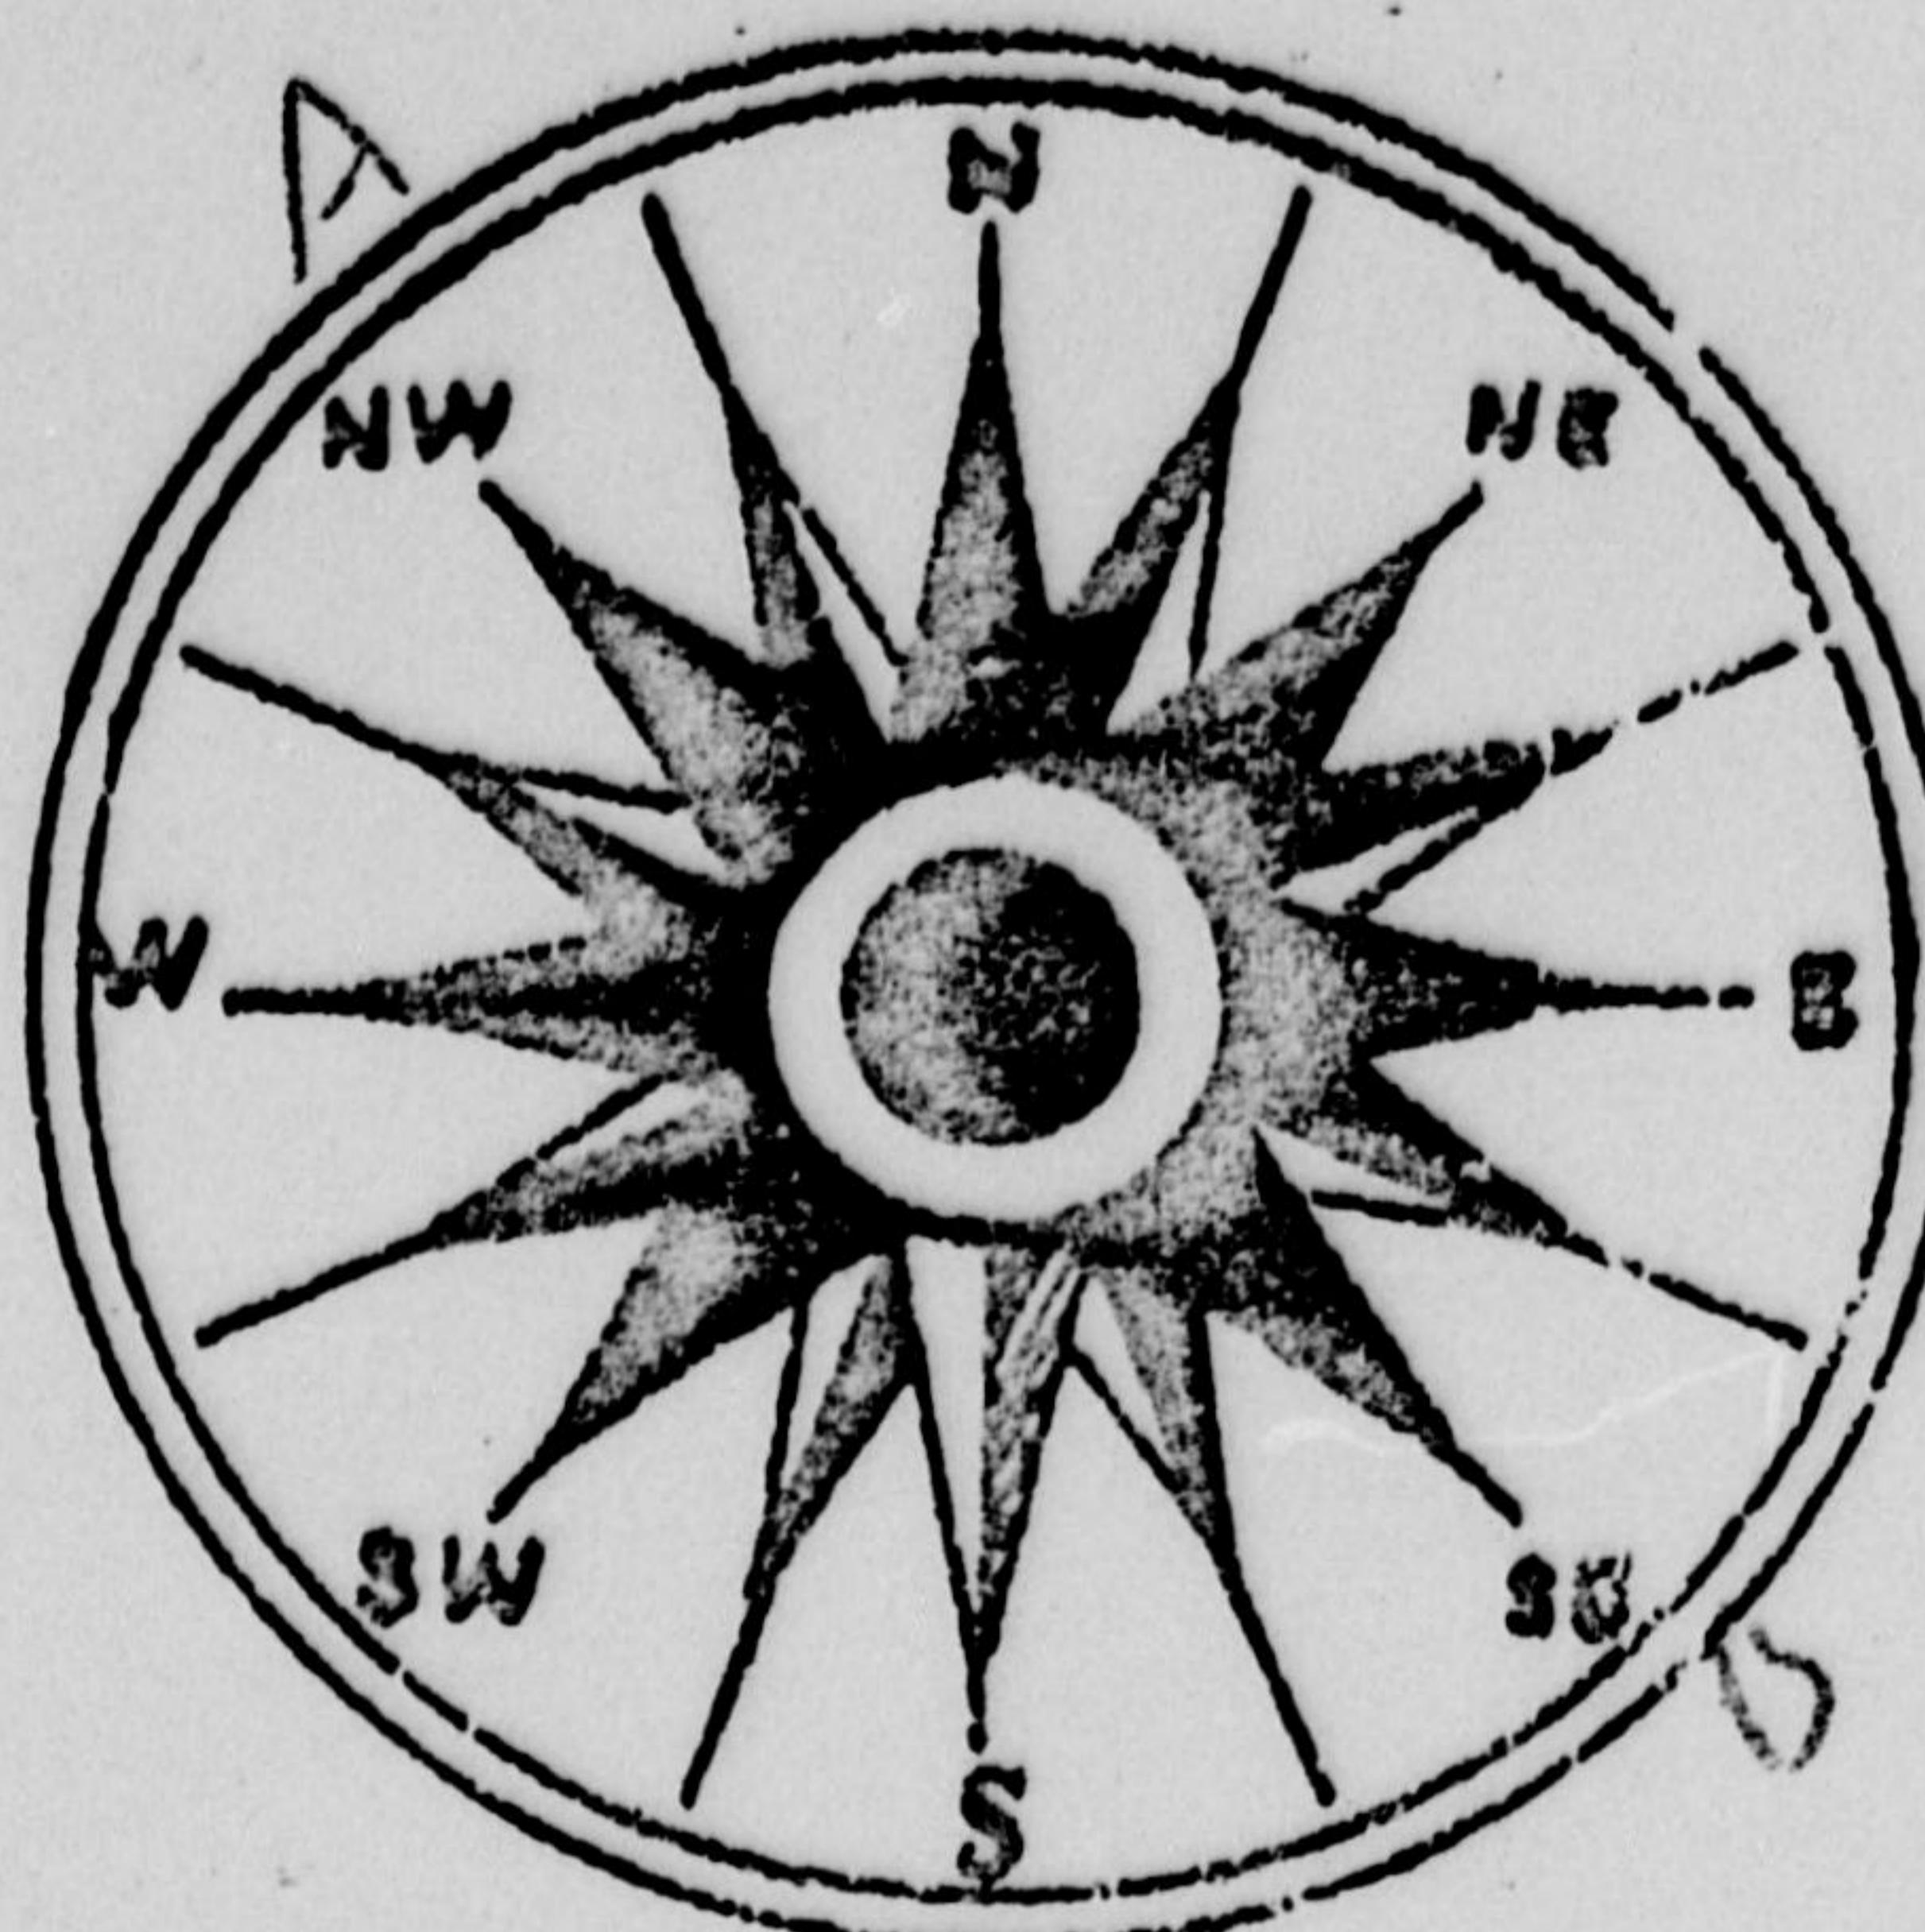

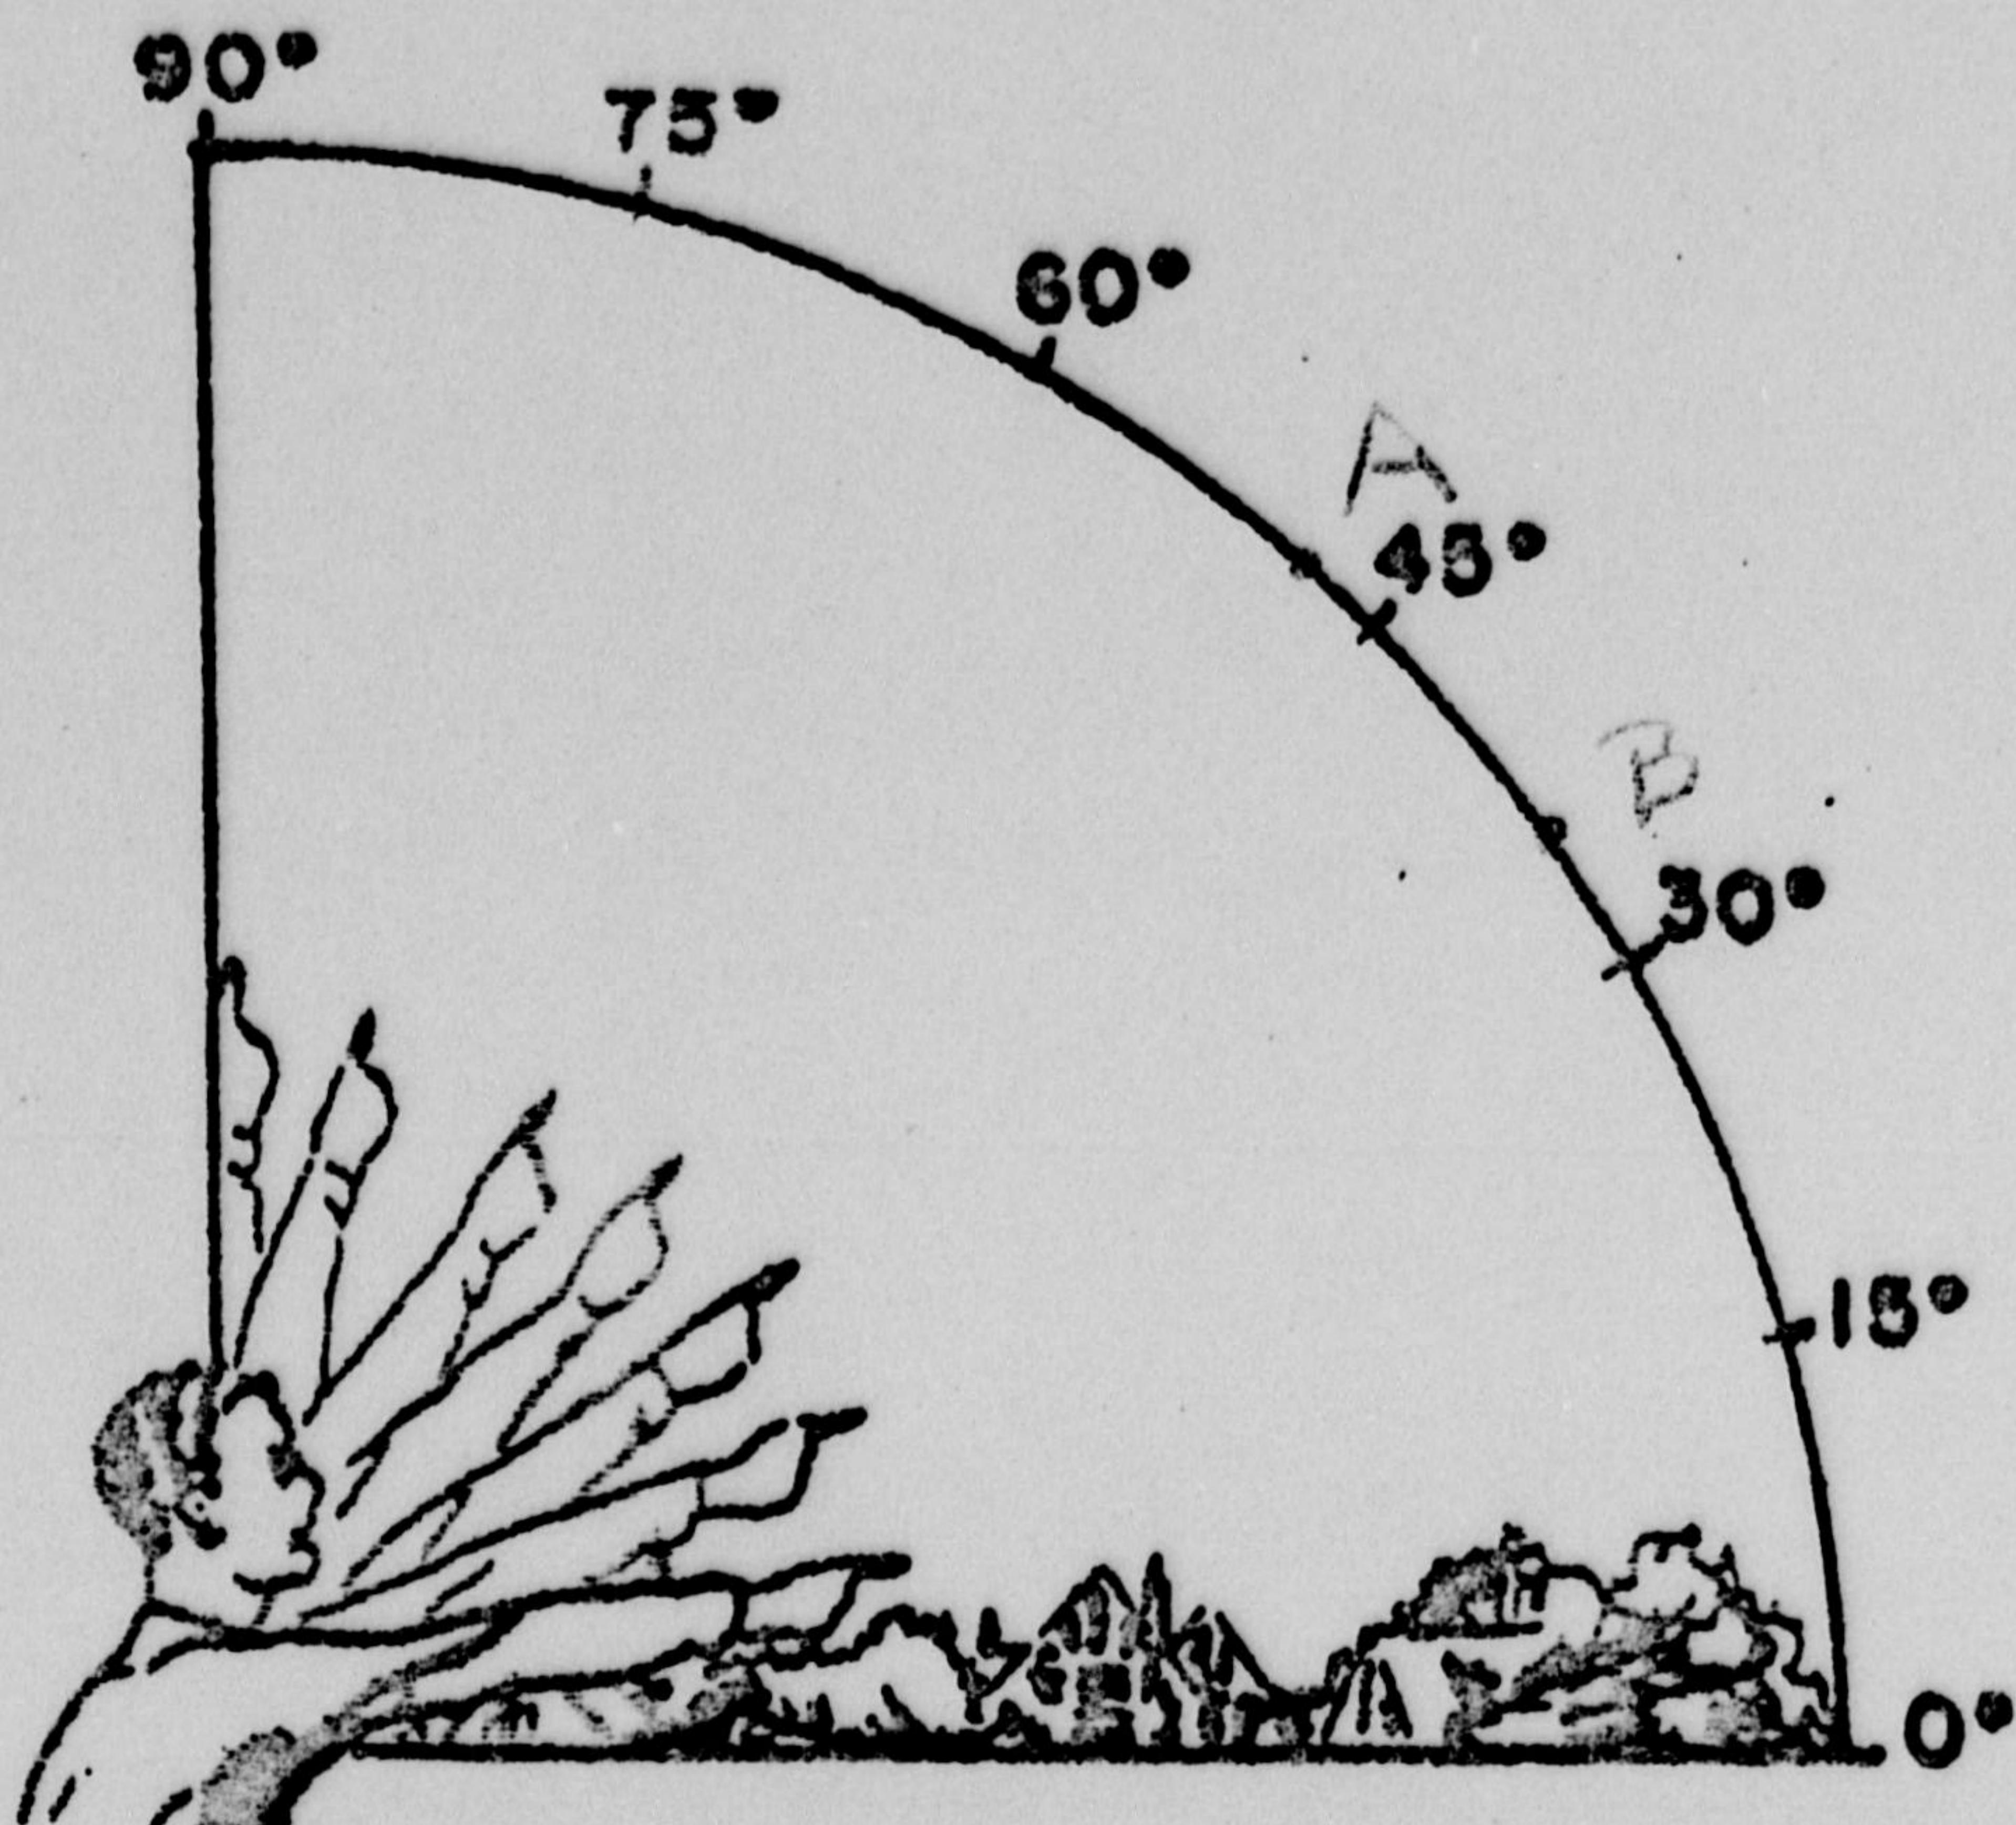

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/3 of the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

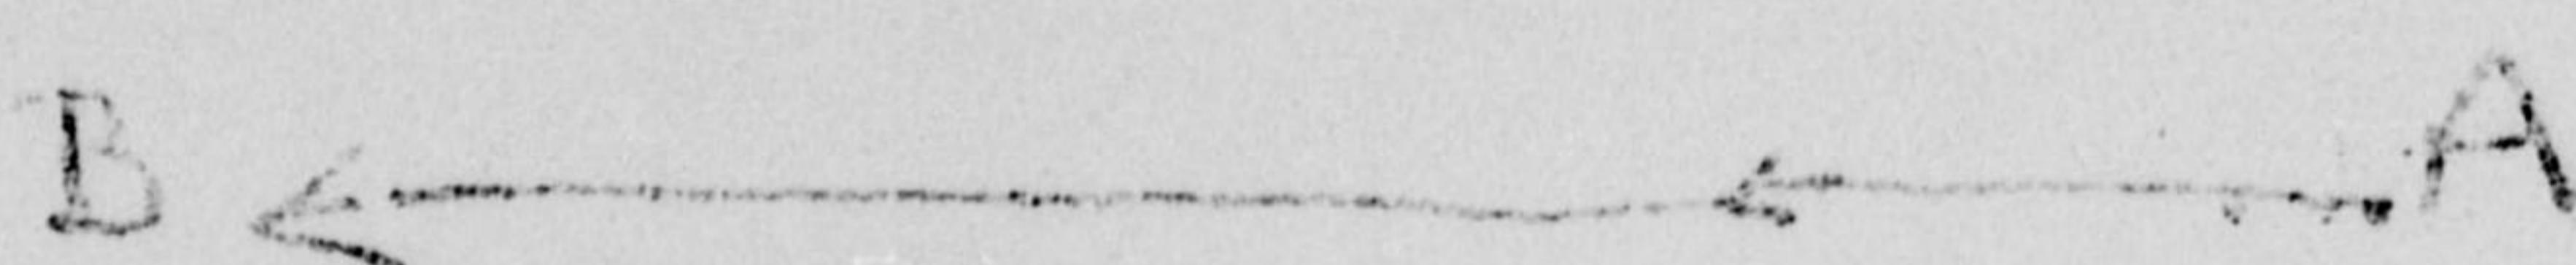

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

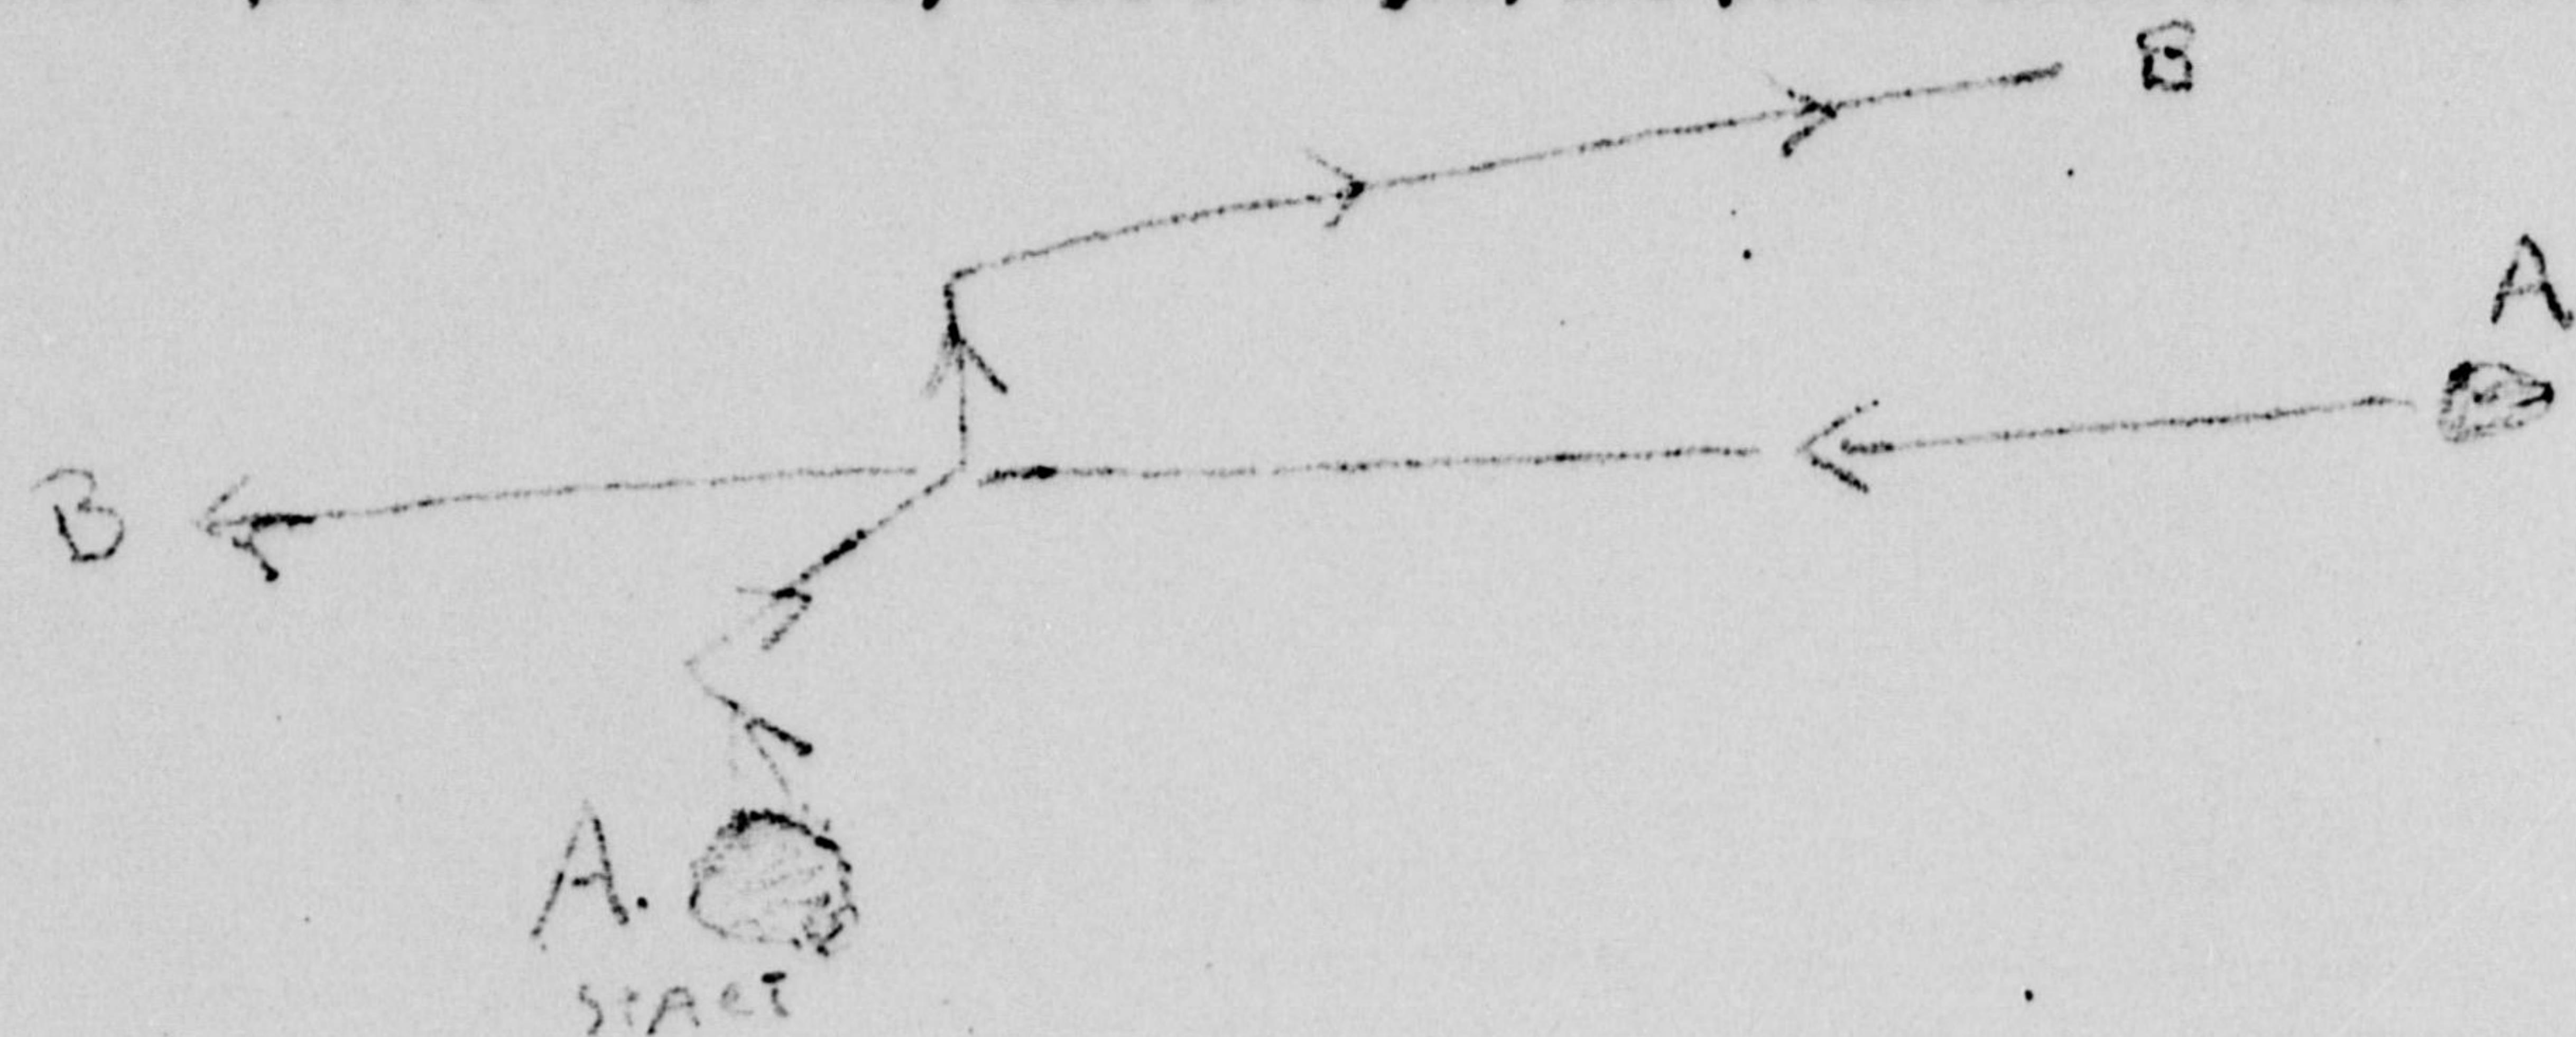

Not going down, just away

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

N → S

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

address → _____ same address

Woodberry Forest School
Woodberry Forest, Virginia, 22929

32. Please give the following information about yourself:

NAME _____

Last Name

First Name

Middle Name

ADDRESS _____

Street

School

Woodberry Forest

City

Zone

State

TELEPHONE NUMBER _____

AGE 16

SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

NONE

33. When and to whom did you report that you had seen the object?

21 2 67
Day Month Year

To Air Force

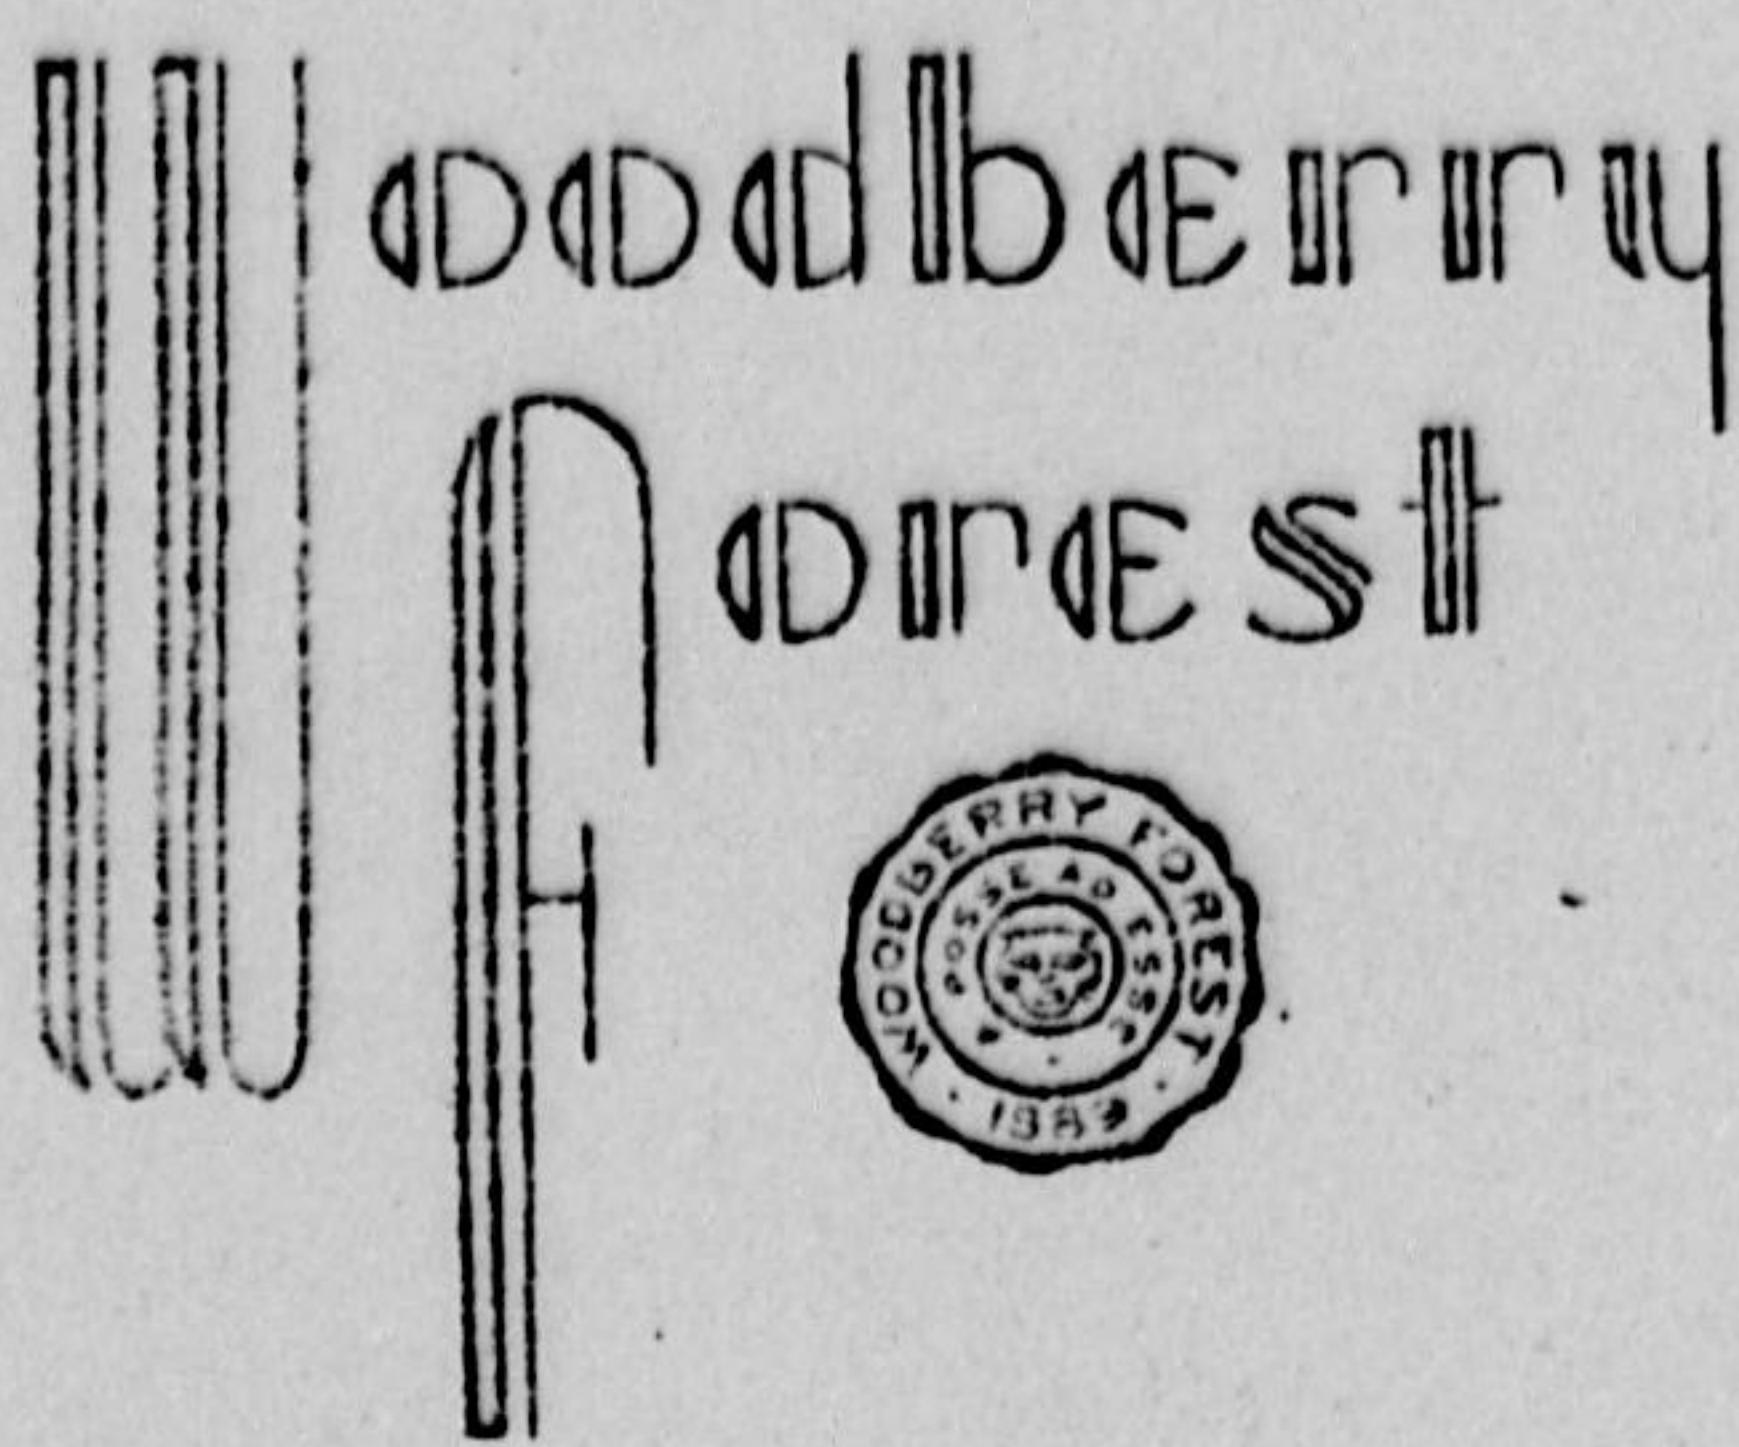

34. Date you completed this questionnaire:

4 3 67
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

There was a flash before the object began moving across the sky.

[REDACTED] already sent you the narrative.

Send 164

Feb. 20, 1967

Dear Major Quintinilla,

I wish to relate to you something extremely strange which occurred at our school, Woodberry Forest, near Orange, Virginia at 10:22 P.M. E.S.T. Feb. 15, 1967.

During that windy night, two boys were looking out their window, because the wind was blowing pretty hard. A greenish-white light, heading from the northeast to the south, caught the eye of one of the boys. It dimmed irregularly, changed courses several times, and even stopped in mid-air a few times, but it always continued in the same direction. Just before it disappeared over the trees, a bright light (pinkish-white) like a flare flashed in the immediate vicinity where it disappeared. By the flash the shape of the object was similar to that of a pocketwatch case.

A second object appeared in the

P. 2

same vicinity as the first when it disappeared, and it shrank till it was the same size as the previous one. The second object increased its speed by 2 or 3 times over the first object, and its color had changed to a pinkish red. This object was lower in altitude than the first and moved in the opposite direction than that of the first.

After sighting the first, two seniors, one is a prefect, were called into the room, and they also saw the second object as it was flying north. These four boys agreed to what they saw, and they had no rational explanation for what it was.

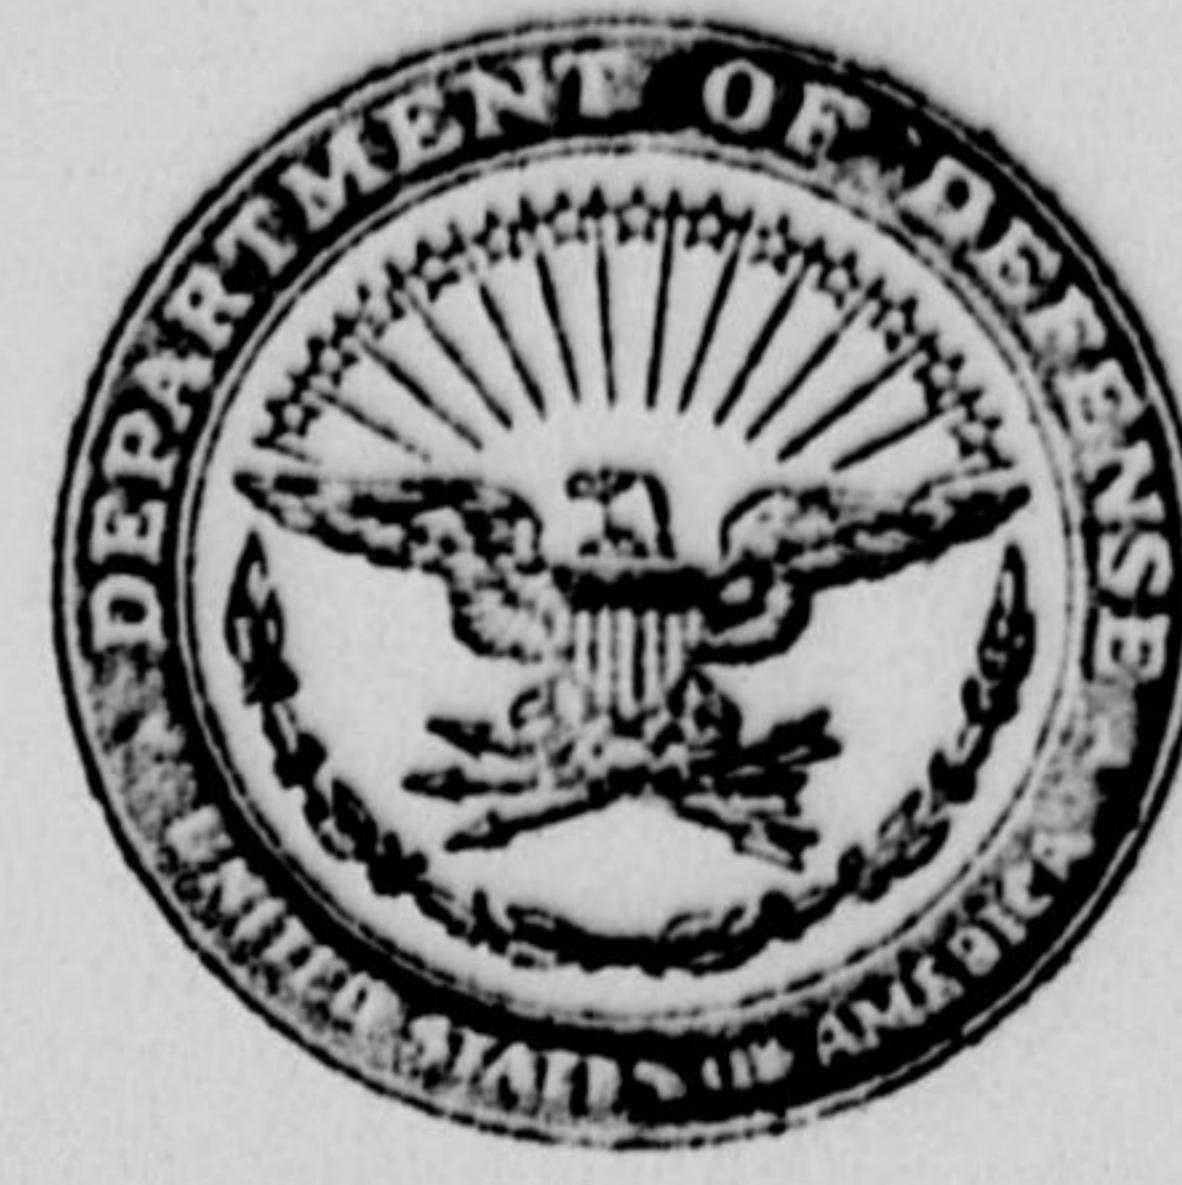

This is the truth and there is no boast implied since that is a serious offence at this school. We'd appreciate your help and explanations if possible. I thank you for your attention.

Yours truly,

Woodberry Forest School
Woodberry Forest, Virginia, 22989
