Dear Sirs:

I would like to report to you a sighting of a UFO. The object was sighted at about 7:40 P.M. on March 31, 1967 at Venango Campus in Oil City, Pennsylvania. I would have reported the sighting sooner, but I didn't know where to send the report. I am a freshman at Venango Campus, and on the evening of March 31, 1967 I was going for a walk. As I recall, it was a clear night and the stars were visible in the sky. I was walking along when I felt the urge to look into the sky, and then I saw the UFO. It was cigar-shaped and had windows which were clearly visible. It was so light out that I could see that the UFO had no wings at all. The windows in the object glowed red, and because of the light from the windows and also the brightness of the night I could see the object very clearly. Here is a diagram of what it looked like.

As I mentioned before, the windows were red, but a white flashing light was going around inside the object, and I could see it flashing from the windows. The light rotated in the direction in which the arrow on my diagram points. I did not

send 164

hear any sound such as that of an air craft the whole time that I observed this object. It was fairly close to the earth, but I could not give you any distance because I am not that good a judge of distance. The object was large, too. I observed it for about two or three minutes, and then it went behind a chain of mountains.

In case you are wondering about whether or not I am a reliable source, I would like to inform you that I am not the type of person who would pull a joke about something so serious as a UFO.

All of the information which I have stated in this letter is true.

Sincerely,

M

Mia
