

PROJECT 10073 RECORD

1. GROUP 0502	2. LOCATION Titusville, Florida
3. SOURCE Civilian	10. CONCLUSION Sighting: (INSUFFICIENT DATA) Photos: Probable Astro (STELLAR BODIES) The duration of each sighting is not given. It is not clear what the elevation of each object is upon appearance and disappearance.
4. NUMBER OF OBJECTS 8	11. BRIEF SUMMARY AND ANALYSIS The observer sighted several orange lights in the sky. The observer had a total of 4 different sightings during the 1 1/2 hr period. The object did not move while visible but would disappear and then reappear more toward the E. The observer stated that the object was as big as a dime at arms length. CONCLUSION CONT'D: Photo analysis could find no object on the film as described in the report. The film contained processing xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx blemishes and true images. The images appear to be stellar bodies or light sources from distant earth object or their reflections. The local UFO investigator felt the observer was watching stars.
5. LENGTH OF OBSERVATION 30 Minutes	
6. TYPE OF OBSERVATION Ground-Visual

DATE OF REPORT 10 Oct 1967

SUBJECT UNIDENTIFIED OBJECT, TITUSVILLE, FLORIDA

LOCATION Titusville, Florida

DATE 24 April 1967

PHOTOGRAPHY

AF _____ IR _____ QUALITY _____

P NRS 1 Roll (16 Frames) of Original Negatives

1. PURPOSE: The purpose of this report is to answer Work Order Number 67-124, submitted by Major H. Quintanilla, for identification of objects as reported on the attached film strip.

2. ANALYSIS: The roll of film appears to have been exposed in the hours of darkness or near darkness as suggested in the interview report. (0130 to 0300 hours local time.) The only imagery on the film, other than processing blemishes, appear to be stellar bodies or light sources from distant earth objects or their reflections. No object could be found such as was described in the accompanying report and sketch.

SUBJECT:

Unidentified Flying Object of 24 April 1967

25 May 1967

TO:

FTD (TDETR)

1. In accordance with reference AFR 80-17, para 11, attachments 1 thru 5 are forwarded for your information and action.

2. The photograph (atch 1) was taken by [REDACTED] on 24 April 1967. He reported that three exposures were made on the enclosed roll of film (atch 2) which was processed at Patrick Air Force Base. The photographs were taken with his son's "\$2 or \$3 camera." It was not available for identification, but Mr. [REDACTED] indicated that he would phone the required information to ETW. The photos were taken at an elevation angle of approximately 15° at the azimuth angles indicated on atch 5.

3. Information on the camera and film will be forwarded when it becomes available.

INTERVIEW REPORT OF UFO OF 24 APRIL 1967

Interview with [REDACTED] at Pad 37, CKAFS from 1330 to 1430E, on 24 May 1967. By S. J. O'Shaughnessy, ETWT.

Photo is
characteristics
of stellar
image

The following paragraphs are in accordance with paragraph numbers and letter in AFR 80-17, para 11.

- a. (1) Shape: "Source of Light" with naked eye.
"Flying Pancake" with 7X50 binoculars (See atch 1)
- (2) Size: About a dime at arms length. (This had been arrived at with the assistance of private investigators who had contacted subject earlier.
- (3) Color: Orange with naked eye. Orange with blue haze on top with binoculars.
- (4) Number: Sighting 1 - 2
Sighting 2 - 1
Sighting 3 - 1, then 2, then 1
Sighting 4 - 1
- (5) Formation: Sighting 1 - 1 on ground below the other
Sighting 3 - 1 below and slightly to the side of the other
- (6) Details: Rod antenna type object was noted with binoculars (See atch 1).
- (7) Tail, Trail, etc.: None
- (8) Sound: None
- (9) Other details: See comments of interviewer.
- b. (1) What called attention: Subject was out looking around marina as owner had asked him to keep an eye on things.
- (2) Elevation and azimuth when first observed: AZ - 50° True
EL - 15° (both are APX) (See atch 2).
- (3) Elevation at disappearance: A little less than 15 degrees.
- (4) Flight path: Objects did not move while visible. They would disappear and reappear more towards the East. Object receded from view at end of last sighting.
- (5) How did object disappear: "The light went out" at end of first three sightings. It receded towards the Vertical Assembly Building at the end of the last sighting.

aberration

Atch 3

Capt for Hynd

- c. (1) Type sighting: Ground-visual
- (2) Optical aids: 7 X 50 binoculars used for portion of 2 sightings.
- d. (1) Time: 240630 to 240800, April 1967 (Zulu time)
- (2) Night
- e. Location of observers: Titusville Marine, Titusville, Florida, 28°37.2'N - 80°48.6'W
- f. Identification of observer: [REDACTED] (approx age-45), [REDACTED] Titusville, Florida. Lives aboard yacht "[REDACTED]" in [REDACTED]. Employment: Federal Electric Corp., Kennedy Space Center, Florida, Electronics Technician on Saturn 1B. Work phone [REDACTED]

Observer served as radio operator in Air Force 1942 - 1947. He appears to be a 'gadgeteer' and talked about his magnetometer, I R equipment, radiation detectors and doppler radar that was still up in Ohio. He stated that he had observed a UFO in 1947 while doing a field strength survey for a TV station near Pittsburgh. He has also worked on detection of atomic blasts in Ohio, looked for uranium in Canada, and tracked B-52's with his doppler radar. He questioned the presence of uranium in Florida or the ocean that these objects may be seeking and related the sighting to the night before the Titan III had all the prelaunch problems.

Other observers: Wife, [REDACTED]
 Daughter: [REDACTED]
 Son: [REDACTED]
 Owner of yacht "4 M", [REDACTED]

- g. Weather reported by Patrick Air Force Base:

(2) Winds at 0600Z:

Altitude (X1000 feet)	Direction (°)	Speed (knots)
Surface	260	5
6	260	17
10	290	25
16	300	30
20	300	40
30	300	65
50	280	40
80	100	6

- h. Possible causes: Range Control Office, Cape Kennedy Air Force Station indicated that no activities were taking place at that time.
- i. None
- j. None
- k. Interviewer:
Electronic Engineer (electro-magnetic)
[REDACTED], Jr.
Civilian
Technical Support Division, Directorate of Foreign Technology (ETWT),
Patrick Air Force Base, Florida.
Area code: 305; office phone: [REDACTED]; home phone: [REDACTED]

Comments: Observer also stated that he turned on his TV and swept through the channels and turned on a short wave set and swept the frequencies. He noticed a whistling and static around 17 KC. A 4° deviation was also noted in two of the boats' compasses that had cleared up by morning.

Possible Cause: Possible planet or star based upon:
Photo similar to other photos of stars and planets.
Duration of sighting (1-1/2 hours)
General motion of object during sighting period
Atmospheric conditions.
Observer's interest in UFOs which may have affected his judgment and evaluation of the object.

No attempt has been made to evaluate the second object which did not appear in the photograph.

NOTE: Observer was contacted by representatives of "NICAP" before this interview. He requested to be informed of the results of this investigation.

Object was very bright. Affected observers vision after looking at it a short time.
