For several years, I have been interested in the study of U.F.O. - I definitely believe in them! I am not hes on seeing one within reaching distance. I don't drink and I am quite stable & of sound mind. I definitely saw "something" moving around that brightly lit night in S.C. It fascinated me, but awed me, too! My husband, at my insistence started watching & became interested. He fully agrees that something or somebody had perfect control. There were at least 3 to 5 objects & they were much bigger than what I sighted in Little Rock on May 1, - I will swear to what I saw!!!

The same sighting was made the next night in Benton (Saline County) Arkansas. Later, I was told that my neighbor and her husband also saw what I had seen. It was clearly visible & completely stationary - anybody could have seen these three objects.

Upon 1st sighting, there was only one - when we lost it, it was sitting still, right about the Little Rock Bus. Dist.

We went directly to a filling station & called to report it. Later, driving along freeway to Benton - we spotted object again heading in same direction as before, but this time, it had these two smaller objects behind it. They were spaced perfectly so to suggest that something or somebody had complete control.

Upon sighting Monday night by the 8th they again appeared in uniform position. First one appearing large & second one just as before, somewhat smaller & not as definite in shape tho alike in size & color (the smaller one). The large one remained as before large, bright, shiny, transparent tho.
