5 June, 1967

Gentlemen:

As you have probably already discovered I live by Kennedy International Airport. I am an amateur astronomer, and a nut on space and flying. With due modesty I can point out almost any commercial or military plane. On the night of May 28th (of this year) I saw an object which I cannot explain. I have and will try to deal with this logically and not emotionally. An object the size of a basketball in the sky. It was directly over head and was moving from north to south. The speed and altitude (both estimated) were from 75 to 100 mph and from 1 to infinity in height (it was hard to estimate altitude because the object was at zenith). The object was oval shaped and was not as bright as a star of 1 or 2 magnitude. There were no markings or visible protrusions (such as windows etc.). The time was 9:30 EST and the place was the back of my residence. There were no changes in color speed or direction. The object was in view for ten to fifteen seconds at most. This is all well and good but to use a cliché "you ain't seen nothin' yet". The trail of the object was milky in between two parallel lines trailing across the whole horizon. (?*,*)'a%_13#^a-2v/. Enclosed you will find a drawing of the object.

Possible Solutions...

- A) Meteor. - not possible because the object was moving too slow
- B) Comet. - not possible because of the size
- C) Satellite. - not possible because of size and no visible satellites were listed in the NEW YORK TIMES May 28th, 1967
- D) Aircraft. - as stated before I can pick out planes and the possibility of a "secret weapon" (either American or indifferent) is totally out of the question.

I would truly like some help in explaining this object. Please be as kind to send any information you may have on UFO's to the above address. I am sixteen years old and cannot type or spell (as you can see). I am typing this because my writing is YUK. I attend Lynbrook High (tenth grade) and am a member of the Lynbrook Astronomy Club.

I offer no explanation for this object in hopes this letter will be answered with one. If further information is requested just ask. Again I ask that any information connected with space, astronomy, or UFO's PLEASE be sent to me.

hopefully
