BB 5 Da Sighting Form

[redacted]
Bristol, Tenn. 37620
July 8, 1967

Dear Sirs,

Forgive me for sending this to you because I did not know where else to send it to.

My name is [redacted] III, age 14, and I am a resident of Bristol, Tenn..

There is probably some reasonable explanation for my observation but I thought my sight of a UFO should be reported.

On the early morning of July 5 at 2:30 A.M. I was camping with my cousin [redacted] and two of his friends [redacted] and [redacted] all residents of Glade Spring, Va.. Our campsite was situated near "Reservoir Hill" there. It was a clear night and cold (it got down to 41° F. that night.) Overhead [redacted]

OVER →

spotted the object. The outline was not visible only four lights, two red and two yellow. There was a bluish-white flame shooting from the rear. Its height could not be determined. It went across the sky from east to west at a very high speed. There was a sonic boom. It disappeared at about 2:35 A.M.

(Y) (R)

AS I SAW IT PASSING OVERHEAD.

(Y) (R)

Thank-you for for your time and trouble.

Sincerely Yours,

[redacted]

P.S. — This was [redacted]'s fourth sighting of the same object at the same location.

AIRCRAFT

Memo for the Record:

Letter was sent to the witness to clarify several points in his sighting. Witness wrote back explaining that the sighting involving a kite shaped object with red lights was only seen on 27 June 1967. When he completed a 164 he had put down the date 6 June 1967 as the date. Additional information revealed that only 27 June 1967 was the date of the sighting. Additional information also helped to clarify the actual direction in which the object was seen. The witness now says the object was in the eastern sky.

It is interesting to note that the Wilkes-Barre Scranton Airport is east of the sighting area. At this late it would be impossible to determine if any aircraft activity was responsible for the sighting. Possibily some type of aircraft activity could have accounted for the sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. Reference your recent observations of an unidentified flying object. There are a few points that need to be clarified before we reach our final conclusion. We have two completed FTD Forms 164 from you which appear to describe the same sighting. One form states that you observed the UFO on June 6, 1967, yet on the other form you state that the sighting occurred on June 27, 1967. Was there actually two sightings on different dates or just one sighting? If there was just one sighting, would you indicate the correct date.

2. In your letter of June 11, you indicated that the large UFO was hovering in the direction of Dupont, Pennsylvania. According to our maps, Dupont is east of Pittston, yet in your letter you stated that the UFO was in the northwestern part of the sky. We would like to clarify the direction in which the UFO was observed.

3. We would appreciate a note from you clarifying the above discrepancies.

Dear Major Quintanilla,

I'm sorry to cause you any trouble. (1.)
On the problem about the date(s), I did see the triangular shaped object on June 27, 1967. I might have a mistake on the looks of another object. I am fairly certain, it was June 6, 1967, I saw a gold object. It moved in forward direction, (→) moved up (↑) and it disappeared.

The U.F.O.
I have goofed the direction. ~~I~~ was east of Pittston. (2.)

Dear Major Hector Quintanilla:

I saw 2 U.F.O.'s June 6, 1967 at 11:31 P.M. They was over Dupont, Pennsylvania. I saw them from Pittston, P.A.

B= The bigger one was: a triangular shaped object, which had a black spot in its center and red blinking lights on the 3 sides and watched it for about 5 minutes. It also had a lighted tail, like a kite. It was hovering over a large tree, There were 2 figures under it, (on the ground).

S= The smaller object was: an all red, triangular shaped, and fiery. It was hovering above a tree about 4-5, miles from the bigger one. Then, it raced toward the bigger U.F.O. with rantastic speed. The bigger one disappeared when the smaller one ran into it.
