PROJECT 10073 RECORD

1. DATE - TIME GROUP 30 or 31 Jul 67	2. LOCATION Kernville, California
3. SOURCE Civilian	10. CONCLUSION OTHER (CONFLICTING DATA)
4. NUMBER OF OBJECTS 2	
5. LENGTH OF OBSERVATION 75 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer sighted a bright yellow light in the sky and seemed about twice as large as the largest visible star. Later another light seemed to appear and looked as though it was trying to stear the first on a definite course. Comments: Edwards rapcon was contacted at the time of the sighting. The only thing they painted was a target that was traveling about 100 knots and was believed to have been a light aircraft. The observer indicated that the sighting occurred on 31 Jul but the original twx indicated that it occurred on 30 jul. Dr. Hynek stated that it did not appear profitable to pursue the investigation of the case any further

UFO Observation, 30 or 31 July 1967

31 JAN 1968

Dr. J. Allen Hynek

1. Reference the attached unidentified flying object report from Kernville, California which occurred on 30 or 31 July 1967. Request your written comments as to the possibility of this being an astronomical observation. If you feel that Mr. [redacted] did not observe an astronomical body, please make a statement to that effect.

2. Thank you for your assistance on this case.

To: Major Hector Quintanilla, Jr.

1. There is nothing in the data supplied by Mr. [redacted] indicate that he had been observing an astronomical body. Saturn had not quite risen at the time of his first observation. Further, he indicated the elevation as being approximately half-way to the zenith.

2. From the evidence presented by Mr. [redacted] it does not appear potentially profitable to pursue investigation of this case further, as the likelihood of obtaining anything of scientific value from this sighting seems improbable. This sighting takes its place with hundreds of others which end in a blind alley and yield nothing of scientific value.

UFO Observation, 31 July 1967

Fort Irwin Military Reservation
Barstow, California 92310

1. The Aerial Phenomena Branch is in receipt of an unidentified flying object (UFO) sighting for 31 July 1967, from Kernville, California. The observer first saw the object, which appeared as a light, in the eastern sky at approximately 10:15 pm PDT, at an angle of about 65 degrees. Later, another light appeared beside the first. The objects disappeared at 11:30 pm PDT in the southeast, at approximately 50 degrees above the horizon.

2. Request information on any balloon launches from your base that may have been the cause for this sighting. Was there any traffic on your radar scope at the time of the sighting?

TO: FTD (TDET/UFO)
Wright-Patterson AFB, Ohio 45433

1. Reference your letter of inquiry dated 1 October 1967, concerning UFO observation which allegedly occurred at 0430Z on 31 July 1967. Detailed information as requested in your basic letter was previously forwarded to your office on 25 August 1967. Request you refer to initial report EFTO/FTOO message 14354, 31 July 1967, and letter this headquarters (FTOO), dated 25 August 1967.

2. Paragraph j in the initial report stated that no known balloon or aircraft were in the vicinity when the sighting occurred.

3. Two dates were used to describe time of sighting in previous correspondence. To clarify this, the exact time of the sighting took place at 0430Z, 31 July 1967 or 2130 PDT, 30 July 1967. Both dates and times are correct and signify only one sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 / 31 Day — July Month — 1967 Year

2. Time of day: 10 Hour — 15 Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
(d. Pacific)
e. Other _____

(Circle One): a.(Daylight Saving)
b. Standard

4. Where were you when you saw the object? @ 35° On the Patio, facing East

P. O. [redacted] — [redacted] — Calif. (Kern)

Nearest Postal Address — City or Town — State or County

5. How long was object in sight? (Total Duration) Approx. 1 Hr. — 15 Minutes — ? Seconds

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Listening to Radio, Time just announced

5.2 Was object in sight continuously? Yes X No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

, 2

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
(c. Many)
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
(c. No moonlight – pitch dark)
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d. As a light)
e. Don't remember

Going around in circles, which attracted our attention

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a. Brighter)
b. Dimmer .
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

A light globe

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
(b. Like a bright star, only larger and brighter)
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

Seemed to be circling, then heading one way and another, then circling again.

14. Did the object disappear while you were watching it? If so, how?

At 11:30 P. M., it disappeared off to the Southeast, just blacked out of vision. Not over Horizon, but clear sky all around it.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None. Too high up.

b. Color Bright yellow, until we looked thru Binocualrs, then it was a brilliant blue.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Impossible to tell, however seemed to be about twice as large as the largest visible star.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

Object appeared round as a star, no vapor trail visible.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors , on open Patio)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

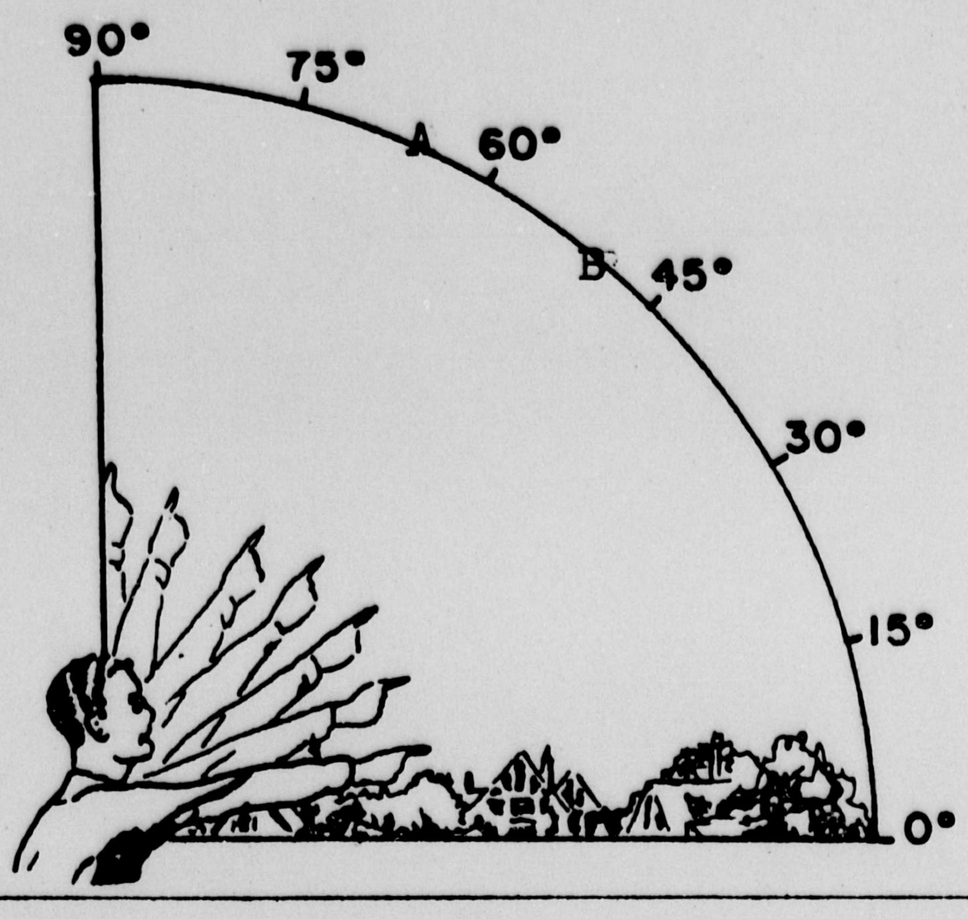

25. Did you observe the object through any of the following?

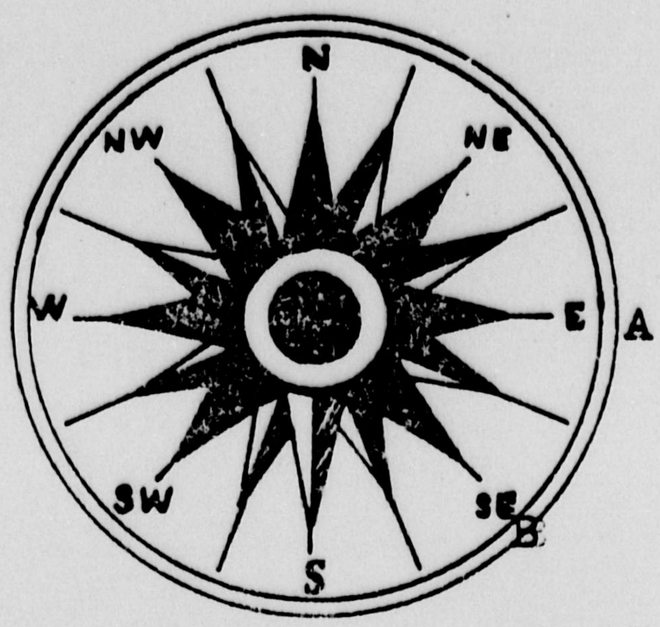

a. Eyeglasses	Yes	No	(e. Binoculars)	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Have stated before, it appeared, as a large star, but about twice the size, and much brighter.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

As before stated, object was going in circles, which attracted our attention. We watched it for some time, then caled the Boron AirForce Base and they referred us to Edwards. Talked to Lt. Smith and he asked us to call him back at any change. A short time later, another light seemed to appear and looked as tho' it was trying to steer the first on to a definite course. Then at 11:30 both just disappeared. Such was reported to Lt. Smith.

29. IF there was MORE THAN ONE object, then how many were there? ~~one at first, then~~ two.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

My Wife [redacted] Same address

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Kernville (City) ___ (Zone) Calif. (State)

TELEPHONE NUMBER [redacted] AGE 67 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

No experiences which might be pertinent.

33. When and to whom did you report that you had seen the object?

31 (Day) July (Month) 1967 (Year)

As stated, reported to Lt. Smith, Edwards Airforce Base, Calif.

34. Date you completed this questionnaire: 19 (Day) Sept. (Month) 1967 (Year)

First day after receipt.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The foregoing information has been given as accurately as my wife and I remember it.

Kernville, California

1. Reference your letter dated 3 August 1967, subject as above. The following information is further submitted concerning a possible UFO observation in the area of Kernville, California on 30 July 1967.

a. Mr. Buckley, a representative of the Edwards FAA Rapcon, relayed the following facts:

(1) FPS-35 radar equipment was used.

(2) No scope photographs were taken.

(3) An intercept was not made or requested by Edwards Rapcon.

(4) On the date of the observation, the Edwards Rapcon controller received a call from China Lake that an unknown object was sighted over Walker Pass. Edwards Rapcon controller did observe a target on the FPS-35 scope at that time. The target was estimated to be travelling about 100 knots. Edwards Rapcon could not correlate this information to a UFO since the route of the object was within an area frequently used by light aircraft.

2. Mr. Buckley, Edwards Rapcon, can be contacted directly if further information is required by calling Edwards AFB by AUTOVON 898-1550, ext 73843.
