First On question #5.2 The object was in sight ~~of~~ by me for one and a half minutes, and in that time it was a continous sighting in view all the time, no change in its make up whatsoever.

I went outside to feed the birds, had a pan of food for them in my hand. It was very clear and the stars looked like someone shined each one. I ~~immediately~~ immediatly caught sight of this object and put the pan down in my driveway after watching for a minites a half, ran back into the house which was on the double, got my Binoculars and on the double was outside. But it was nolonger in sight. That is all the information I can give you on this object.

I told the Officer also that I had another sighting of an object that was very unusual. ~~Now~~ Not getting two forms, I can't report the second one. If you send me another form I will be only too happy to report on my second sighting at about eleven minutes after the first one.

On closing I must say you people are on your toes. Its nice to know we have people who give so much to our Country.

We have a Son in Vietnam in the Air Force loading Bombers. 30 years old three children. God be with all of you.

Sincerely
