The witness was contacted but reported that he had not seen any UFO's on the date in question. He did see UFO's on two other occasions but the observer of this case was not listed as a witness to either of these sightings. Because of the very poor quality of the photos, it was not felt necessary to submit them to the photo experts.

The Sighting on July 13 - Showed up as first one bright Red Light after watching it, it broke into smaller objects. A smaller light appeared in front of the larger one then another, At this time the large light Dimmed Down and disappeared. While the two smaller ones was out a third appeared and the first one to appear went away after Dimming Then the fourth one appeared. This went on for about 6 time. only to be in sight for a few seconds.

on Aug 28 - at 00:10. I spotted a bunch of Red light that at first made me think that A plane was on fire. I went home and got my Binoculars, but By that time there was nothing in the sky. - This was traveling west 1½ miles away At 00:10 same Date this object appeared again following Rt 31 Thur The village. I was About 1000 - 1500 ft away from Rt 31 when I spotted this.

00:10 Aug 28 one plane

There was a Sheriffs car traveling About 30-35 mph Thur the village with this object 50 ft north of it and I'd say 500 ft about it. Before I could pick up the two-way Radio and have them check what was Above them the Lights all went out and they didn't appear again. This object was keeping the same Speed as the sheriff's car and the light stayed on. Three Red on top with Three Blue on the Bottom Space about 20-25 ft apart. This looked like (6) six object as there was no Solid thing or outline.

A truck Driver that drives for western N.Y. Lines saw the same object that I SAW on July 13 as he was heading Syracuse, but I don't know his name or Address.

Major Hector Qunitanella
Director of Project Blue Book
Wright Field, Dayton, Ohio

Dear Major:

I know that you are a busy man and must get a great deal of mail about UFO sightings, but Sir there are such things that I have seen. There are several other persons that have seen them. Let me tell you one of the incidents: The town cop and I were having a talk and he told me about the sightings that he has seen (he works 12 to 4 a.m. ~~regular~~). So one night I went behind the school and was looking up in the sky when I thought was a airplane turned out to be something that I have never seen before. It came floating threw the air and then stopped. I saw either three or four huge red lights on the bottom of the object. There seemed to be some amber light in the middle, on the top there were six or less blue lights that were not blinking.

Sir, I took off out of that parking lot like the end of the world was behind me and I was trying to beat it. I went straight downtown about 85-90 m.p.h., slammed on the brakes in front of the park, looked up and there it was over the bank, then I turned to see if I could get a witness, asw no one look up, saw it was above Lock Street which is two blocks from where I was , then the cop spotted it heading towards Lyons.

About one week before this incident behind the school this object was seen by the village cop who was headed down West Genesee Street in a westerly direction. The Sheriff was headed east on West Genesee Street when the village cop spotted the object 200-300 feet above the sheriff's car and approximately 500 feet to the left.) In the first part of this letter I have described an object I have seen behind the school. The village cop who described his object the same as I have before this.

The following diagrams that are enclosed in this letter are of the object seen behind the school and seen by the village cop.

I have some snapshots of the object but they have to be enlarged so you can see them clearly. Please send me some additional data on the people across the nation by letter to you. I would like the description of the object they have seen and the abnoids they have claimed to have seen. If you are interested in seeing these pictures you may, but they will have to be blow up. Send a request for them. I will gladly send them to you but I would like to have them after you have finished

Please do not hesitate in sending me data, or requesting to see my snapshots. Thank you.

Yours very truly,
