MEMORANDUM FOR RECORD 22 August 1967

SUBJECT: UFO - Brevard County Sheriff's Department, 21 August 1967

1. Received a call from the Brevard County Sheriff's Department, Titusville, Fla. at approximately 2310 EDT, 21 August 1967. A deputy had spotted a bright light while crossing the Titusville bridge headed west. While trying to determine any activity from the Cape Range Control Office and Cape Weather, the Command Post got another call concerning two more sightings by Sheriff's Department in Rockledge, Florida. I requested transportation and departed for Titusville.

2. Interview in Titusville, Florida, 0045, 22 August 1967: Informant, [redacted], Deputy Sheriff, 2nd Division, Titusville, age - late 20's, had been a policeman in Milwaukee before joining the Brevard County force. Informant reported seeing a bright light ahead of him and to his left while headed southwest over the Titusville bridge at about 2300 EDT. He reported over the radio that the light was moving from side to side and then started moving to the northeast. (See attachment #5 of UFO report dated 25 May 1967 for bridge location). Upon questioning in person, it appeared that the light was moving in more of a northerly or north-northwesterly direction. Light was reported to be white, very bright, and about 6 inches in diameter, one-half mile high. Light was observed for about ten minutes and seemed to gain altitude as it moved. It disappeared into the clouds; no other phenomena was noted; brightness was compared to a street light.

3. Interview in Rockledge, Florida, approximately 0200, 22 August 1967: Informant, [redacted] Captain, Brevard Sheriff's Department, is a long time Brevard County resident and experienced pilot; age - late 30's. Informant heard the Titusville UFO report over sheriff's radio 21 Aug 67 at 2310 and went to the river behind the Rockledge Sheriff's Office to investigate. He reported using his binoculars and observing two lights up in the clouds about one-half mile apart. One was moving northwest and the other was moving northerly. Size was compared to being about ten times bigger than a star. Both objects did not appear to move very fast (about the speed of a Piper P-3) and disappeared in the clouds. Lights had bright white centers with red, blue and green light rotating counter clockwise around the edges. The objects' altitude was estimated to be 10,000 feet and 5 to 7,000 feet. Objects were seen for about 20 minutes and then disappeared into the clouds. Informant was sure that objects were not UFO's, but something was up there.

4. It was determined from the PAFB Command Post and the Cape Kennedy Range Control Office that no activity was taking place that would cause these reports. The local rescue squadron had been conducting exercises, but they ceased activity at 1300. Negative reports were also received from the Air Defense Radar and the PAFB Weather Radar. Clouds at that time were 1/10 cumulus at 2400 feet, 3/10 alto cumulus at 8000 feet, and 5/10 cirus; one hour later the report was 2000 feet scattered, 7000 broken. Winds were between 10 and 20 knots, from between 140 and 160 degrees from the surface up to 40,000 feet.

5. It has been tentatively concluded that the objects were probably balloons drifting with the wind. Illumination was either internal or external. In accordance with paragraph 7a of AFR 80-17, a formal report will not be prepared.

2 Deputies Spot UFOs

Two sheriff deputies, one in North Brevard and the other in Central Brevard, reported seeing unidentified flying objects late Monday night.

Deputy Jim Schmidt reported seeing a huge star-like object moving very fast toward New Smyrna Beach. He said he saw it over SR 402.

The other sighting came from Capt. Dick Granger who three minutes later saw two black starlike objects moving very fast toward the northwest over the Banana River.

He was on SR 520.

Both sightings lasted two minutes. Capt. Granger reportedly watched the two UFOs through binnoculars.

Case includes six (6) 5"x7" photograph and one (1) 3½"x3½" photograph and one (1) 4"x5" negative.
