35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

When the object (UFO) while circling the general area the frequency signal on the television became distorted and video portion was out of sync. There wasn't any noise coming from the object.

It seemed to be on an observation course of general scanning pattern.

Also I facing due east at 275° a bright star was being circled by red lights. and at 60° SE another star was being circled by a red light (or some object).
