The Famous '45 Year Old
MARBLEHEAD LIGHT HOUSE

EACH AND EVERY ONE OF US will do our best to help You and Yours have a most Enjoyable Vacation.

In the heart of the scenic and historic Lake Erie Islands region, the Marblehead Peninsula is just the vacation spot you have been seeking.

Numerous cottages and camps dot the Peninsula's picturesque 20-mile shoreline on Lake Erie and Sandusky Bay. Broad, sandy beaches provide excellent bathing. Hotels, restaurants, food markets, and shops—as well as services of many kinds—are conveniently available. And churches—both Catholic and Protestant—provide for spiritual needs.

Truly a vacation on the Marblehead Peninsula is one which will appeal to the entire family. Dancing, golf, tennis, shuffleboard, cultural programs, symphony orchestra, theaters, amusement parks, boating, fishing . . . and many other forms of recreation are easily available.

The Peninsula provides the midwest's best fishing. Game and pan fish abound in the waters of East Harbor, Sandusky Bay, and along the Lake Erie reefs, north of the Peninsula. Rowboats and bait for along-shore fishing and cruiser-type boats for reef parties are available at many places.

Lakeside-on-Lake Erie, on the north shore of the Peninsula, is a summer community of 700 cottages, hotels, and auditoriums.

Nationally famous for its fine fruits, the Marblehead Peninsula is a blaze of beauty in blossom season, and during the Summer and Fall delicious fruit may be purchased at numerous roadside stands.

Dear [redacted]

Reference your letter of 9 Oct 1967. Thank you for bringing these cases to the attention of the Air Force, however, because these cases occurred so long ago, we cannot properly investigate them.

If in the future similar sightings should occur, the nearest Air Force Base should be immediately contacted so that a complete investigation can be made.

Gentlemen:

Here I have two sightings ~~of~~ which I am sure cant be explained.

1. Interviewed 6-26-67 — 10 or 12 years ago near Ray, Minn., [redacted] were driving ~~at~~ along the old road where the dump is now on Kabetogama Rd. at Kabetogama, Ray, Minn. They were on the crest of a hill overlooking the lake when, over the treetops below them, there was a flying saucer. Said [redacted]: It was like a flat egg... It was just as high as we were. It looked like it floated over the treetops, which were at our level... It was about 10:00 P.M. I guess" (summer.) In the summer it is light till 11:00 or 11:30 P.M. at 10:00 it would be almost dusk.

He said another family viewed it from below it. They said it was like a huge round thing. The moon was clear.

Delete

[redacted] is a Norwegian ~~immigrant~~ immigrant who was a lawyer in Norway and America. He went to the Kabetogama area when middle-aged and raised reindeer. He always liked to carve and still does as a hobby. He has carved ~~a~~ more than 25 or 30 clocks and a table and many chairs and accessories.

(over)

Delete { He is not one to make up a stretcher like that saucer. He very much believes something strange is in the skies, but doesn't believe more than 50/50 in saucers. He does think he saw a real saucer!

2. Interviewed 8/20/67 [Deleted] was driving home a few years ago with his girl when she showed him what they both thought was a falling star. It then stopped, coming towards them. They kept driving towards Terre Haute (Delete) until [redacted] noticed a football-shaped ~~football~~ object following directly above the car. (He said he wouldn't have noticed it except for "those darned purple lights flashing." He stopped, as did the saucer. He got out and looked at it, said some unmentionable words" and got back in the car and started driving. It then gradually speeded up and headed for the right.

Delete all names { [redacted] is more interested in girls and everyday life than UFOs. He was a sceptic before this, and now is a firm believer. He is the girl.

I may write about my sightings sometime, but APRO and Dare investigating first. (Meanwhile) These are unknowns, huh?!

REPORT ON UFO SIGHTING

October 13, 1967. 10:20 am MDT On Colo Hwy 96 W of Ordway Elev. 4300 ft. Road bearing S, 50 deg W. Inclined to SW 1°. Wind from N about 15 mph. Sky clear & blue overhead. High light clouds to far north & south. Slight haze in Arkansas R. valley. Mts to west (about 60 miles) dark & clear against clear sky.

I was driving west towards Pueblo and a few miles west of Ordway I went around a slight curve where Hwy 96 straightened out on a long tangent of a few miles. Down this tangent, at a low level, was a dome shaped object. Color was dull aluminum. There were occasional flashes of bright light. Shape resembled two pie plates with edges together but top & bottom quite rounded. The object was visible down the stretch of pavement but slightly left of the center. Vertical angle was low, almost zero as the object was visible against the lower part of the mountain range west of Pueblo, actually the Wet Mountains. I was looking almost directly toward the area where several UFO have been reported in the San Luis valley.

Because of this I made careful notes of all conditions that might have any bearing on the sighting. As I drove SW at a speed of about 50 mph I watched the object intently and constantly. As it remained within the lines of the right of way I could do this safely.

I estimated the distance as possibly a few miles at most. The object appeared to be approaching me at a fairly high speed. By noting the perspective narrowing of the pavement and estimating the distance I guessed the diameter of the object at 50 to 100 feet.

As it approached it maintained a remarkably constant elevation but it seemed to yaw slightly horizontally. However it definitely remained in view above the pavement, slightly left of center, as if it was following the road. I watched it for many seconds and it was approaching rapidly.

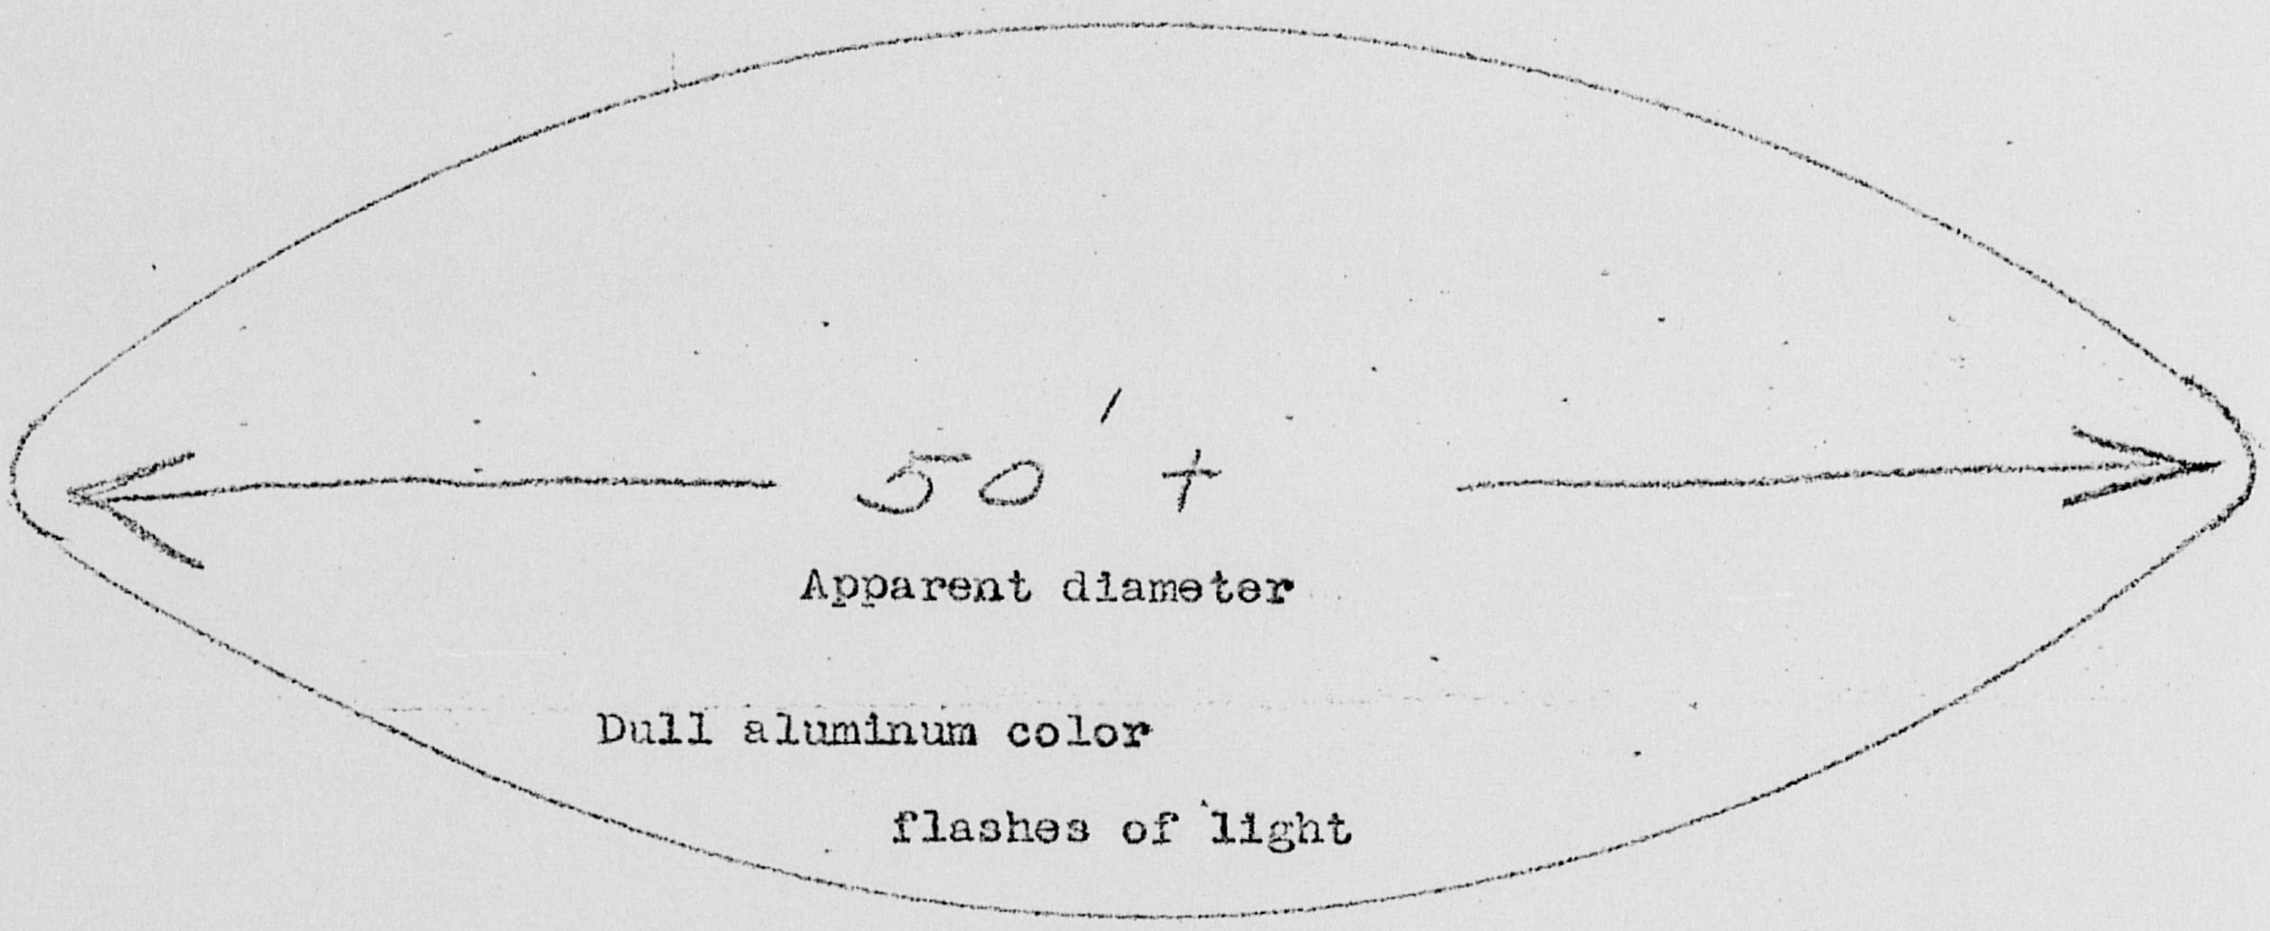

Suddenly the aluminum color and the flashes of light disappeared in a split second. Instantly the color changed to a dark, almost black, and the size decreased to a fraction of the first appearance. I realized it was very close and moving swiftly.

I slowed down to about 20 mph and watched the dark object closely. It began to move higher, or the vertical angle was increasing. I could see that it soon would be above me.

Suddenly it was just above me. I stopped and looked out of my truck window.

The UFO was 3 brown insulators on a guy wire between two power line poles, one on each side of the highway. The 3 insulators, in tandem, were slightly left of the center of the road. They were perhaps 12 inches total length overall and about 16 feet above the pavement. Brown ceramic with a high polish.

Dont release [redacted]

Appearance of UFO as observed - carefully.

WHAT IT WAS!

3 insulators on guy cable between two electric power poles. Across highway, about 16 - 18 ft above pavement.

This observation was made carefully and seriously. Now I feel a little bit silly.
