Observer saw a total of four UFO's between [illegible] - 22 Nov. On 14 Nov, observer saw [illegible] UFO's. [illegible] apparently he saw one small green one, one large circular orange one with a small protrusion on the side, a small red one and a large red one that looks very much like a star. On 13 Nov, he observed another small green one. A sky watcher sent to the observer from the [illegible] Range but the [illegible] 164 apparently described [illegible] of 14 Nov of the large orange circular object with [illegible] protrusion. [illegible] the date of the observation [illegible] 22 Nov. He got no answer on the [illegible] and previously seen any UFO's. The observer is only [illegible] apparently quite imaginative.

Dear [redacted]

This will reply to your letter relative to your sighting of an unidentified flying object (UFO) on November 14th.

Your letter did not contain sufficient details for us to identify what you saw. If you will complete the attached questionnaire, and forward it in the inclosed envelope, we shall try to determine what it was that you observed.

In the future, should you sight another UFO, please contact the UFO investigator at the nearest Air Force base as soon as possible. By so doing, the possibility of identifying the object will be substantially increased.

We are sending you some material which may help you determine what you saw. We hope you will find it interesting, as well as informative.

Thank you for your interest in the Air Force project concerning UFOs.

SUBJECT: UFO Observation, 20 Nov 1967 (TDPT ltr, 24 Nov 1967)

TO: TDPT(UFO)

1. The 29OIN message 231855Z Nov 67 mentions two lights seen by Bayfield County, Wisconsin Sheriff's Office personnel. These were probably the same lights Deputy Sheriff LePage saw, as Bayfield County is near Superior, Wisconsin.

2. LePage heard them talking on the radio about their sighting prior to his own sighting, and believes he saw the same lights.

3. No balloons are known to have been in the area at the time, the lights did not behave like aircraft, and the moon was visible in the west. The temperature inversions present at the time might account for the lights, but it seems unlikely, as they were seen by several people in different areas, apparently at the same time.

4. Mrs. [redacted] alleged sighting of a UFO in her front yard (29OIN message 211610Z Nov 67) ocurred about ten hours earlier, and may have been connected in some way with LePage's sighting.
