2 of us were standing on the corner of 6th + Brown and ~~Cass~~ Steve looked up in the sky and saw this very light object and I said it is probably an airplane way up there the sun's rays are hitting it but burning parts started falling off and we yelled for 3 other boys we knew to come + see it and two more parts fell off and then it seemed to explode + we didn't see it anymore. John Gordon walked down the street + said he saw it to + we decided to call it in. I was telling the man on the phone what we saw when we saw it again and this time all of us listed on the other page saw it at this time and it did almost the same as the other one but the second of the three peices that fell off very far down before it finally went out. It exploded + went out as the first did.

THE two were self-illuminating like a torch at night — color was red and yellow flittering like a flame — brightness and intensity [redacted] were fairly constant throughout pass up to "burn out" and disappearance — Did not look like a star, planet, moon or heavenly body — at one time the 1st looked like an airplane but doubted after observing for awhile if it was one.

2ND: SPOTTED WHILE ON PHONE WITH DUTY OFFICER AND REPORTING 1ST SIGHTING

A. HOW DID IT FINALLY DISAPPEAR?

BOTH WENT OUT BEFORE REACHING HORIZON — LIGHT INTENSITY INCREASED MAKING OBJECTS APPEAR TO INCREASE IN SIZE.

BOTH WERE SIMILAR

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?
☐ YES ☒ NO. IF "YES," DESCRIBE.

BALL OF FLAME WITH PIECES FALLING OFF WHILE IN FLIGHT.

BOTH WERE IDENTICAL.

16. WHAT WAS THE ANGULAR SIZE? HOLD A MATCH AT ARM'S LENGTH IN FRONT OF A KNOWN OBJECT, SUCH AS A STREET LAMP OR THE MOON. NOTE HOW MUCH OF THE OBJECT IS COVERED BY THE HEAD OF THE MATCH. DESCRIBE SIMILARITIES AND DIFFERENCES BETWEEN THE COMMON OBJECT AND WHAT YOU SAW.

1ST object seemed high above town but somewhere around 2000+ feet — speed was just a little faster than that expected of a jet but slower than a falling star — (here be noted that objects did not "fall" like a ~~meteor~~ meteor but rather traveled a flat path across the sky.) at first be and the others thought it was a plane but that thought left as the object came closer and started to drop "balls of flame"

2ND Similar feeling but when the 2ND appeared they immediately correlated it with the 1ST SIGHTING.

21. DID YOU NOTICE ANY ODOR, NOISE, OR HEAT EMANATING FROM THE PHENOMENON OR ANY EFFECT ON YOURSELF, ANIMALS OR MACHINERY IN THE VICINITY? ☐ YES ☒ NO. IF "YES," DESCRIBE.

Caller was questioned 3 or 4 SEPARATE times during the ½ hour conversation about certain details.

Each time he gave the same duration for each seperate sighting time — direction, elevation and azmuth — location of sightings — type of objects (fireballs) ~~or~~ number of witnesses he knew — lighting conditions and sequence of events

Points he was hesitant on being pinned down on were: exact size
speed
altitude
distance from observer

He did not hesitate to provide upon request the name and addresses of himself and witnesses who did not remain near phone booth for duration of interogation of caller.

Caller stated he called the WPAFB before me and some "air force man" told him that the air force had seen the object on RADAR but did not know what it was. Upon digging for the information from his friends he told this officer he called phone number [redacted]
