Dear Sir:

I am writing this letter for a purpose. I have been interested UFO's ever since I had heard about them. I have now had enough. I have sighted several of these space-ships. The most recent sighting was Dec. 7, 1967. I was locking the back door at the time. It was 10:03. I noticed a small light coming over the woods. Our house is in the middle of the flight pattern of Lockbourne, AFB. I have become familiar with the planes that this base has and am also familiar with their flight pattern. This light was moving at a slow rate of speed. I dismissed it as a C-130. I went into the TV room and noticed no interruption. I found this strange because when a plane comes close to our house it receives a large amount of static in the set. I then went to the back door again. At this time I remembered the FAA regulation that a plane must have proper running lights. This didn't even have a collision light. As soon as it got close enough I noticed a definite disc shape with

domes protruding on top of
bottom. No visible means of power.

Please conduct an investigation.

Yours Truly,

~~James H. [unclear]~~
