I am a proofreader on the Journal Herald. I wear glasses for close work but not otherwise. My ophthalmologist is Dr [redacted] Salem Ave, who can give more detailed information about my vision.

I am not prone to hysteria as general responses to emergencies in my life could demonstrate.

It was a beautiful night and I was not in the least frightened. In truth, I believe it a UFO were to land in my yard I'd say "Welcome." I am intellectually very curious and have an abiding faith that all phenomena are based in reason and, thus, understandable if humans were less finite. I am NOT a church going religious person by any means.

25. WHEN AND TO WHOM DID YOU REPORT THAT YOU HAD SIGHTED THIS PHENOMENON?

NAME ? ? Forget his name DAY Late 14 MONTH Dec YEAR 1967

26. DATE YOU COMPLETED THIS QUESTIONNAIRE. DAY Late 12 MONTH Jan. YEAR 1968

What earthly difference does "day", "late" or the "date" you want make?

27. INFORMATION WHICH YOU FEEL IS PERTINENT BUT WHICH IS NOT ADEQUATELY COVERED IN THIS QUESTIONNAIRE, ALTERNATIVELY PROVIDE A NARRATIVE EXPLANATION OF THE SIGHTING.

It may not be relevant to this report, but I have no reason to believe that neither the U.S. Govt. is telling the whole truth and nothing but the truth about U.F.O's. Yet I feel I owe it to myself to report anything of an unknown, unrecognizable incident in the skies.

I have flown in planes since I had to hoist my skirts to get to the foreport of the plane — as a co-pilot (?) pilot the only attendants [redacted] as children we used to watch old [redacted] from across the river, hoping (rather gruesomely), for a crash.

In Washington, D.C. where I lived for almost 20 years, I had an apartment overlooking Bolling Field and the old National Airport. During the war I trained classes for airplane plotting (NOT spotting) and received low Artillery Coast Defense pin for 500 hours of volunteer work. Also I worked for the Navy on a part-time basis. My latest trip was from Seattle to Alaska by jet (which I hate; there too cumbersome for my task.) March 1950, mass hysteria, hysterics to the contrary, millions of people all over the world believe the convictions of their eyes and not what some lemming thing three-star tells them they saw.

27. INFORMATION WHICH YOU FEEL IS PERTINENT BUT WHICH IS NOT ADEQUATELY COVERED IN THIS QUESTIONNAIRE, ALTERNATIVELY PROVIDE A NARRATIVE EXPLANATION OF THE SIGHTING.

SUBJECT WAS IN LARGE BACKYARD AT OWN RESIDENCE. NERVOUS BEHAVIOR OF HER DOG (60 LB. HOUND) CAUSED HER TO LOOK AROUND & NOTICE OBJECT. DESCRIBED IT AS A NEBULA-LIKE LIGHT TRAVELING IN A COUNTER CLOCKWISE CIRCLE CENTERED ON SUBJECT AT 45° ELEVATION, MAKING ONE CIRCLE EVERY 4 SECONDS. SUBJECT SAID OBJECT LOOKED LIKE PATTERN MADE BY A SEARCHLIGHT ON CLOUD BASES BUT DEFINITELY WAS NOT A SEARCHLIGHT BECAUSE SKY CONDITION WAS CLEAR. PATTERSON WAS NOT SO REPORTING 12,000 OVERCAST; DAYTON REPORTED 6000 OVERCAST. SOME BREAKS IN CLOUDS WERE VISIBLE FROM 825; CLOUDS OBSERVED WERE STRATIFORM & SOMEWHAT THIN. A [redacted] SEARCHLIGHT WAS OPERATING IN FAIRBORN BUT THIS IS ABOUT 12 MILES FROM SUBJECT'S RESIDENCE. SOME OF THE CLOUDS ~~WERE~~ OBSERVED FROM 825 SEEMED THIN ENOUGH TO SEE STARS THROUGH WHILE STILL FORMING A BRIGHT SPOT WHEN HIT BY A SEARCHLIGHT. SUBJECT MADE A SECOND CALL AT 2100 & REPORTED THE OBJECT WAS STILL VISIBLE AND WAS BEGINNING INTO 2 OBJECTS DURING PART OF THE CIRCLE, THEN REJOINING.

MEMO FOR THE RECORD 14 March 1968

Subj: UFO Observation, 24 December 1968

On 14 March 1968 Mrs [redacted] of [redacted], Dayton, Ohio, 45406, phone [redacted] called to inform us that she had observed an unidentified object on 24 December 1968 at approximately 530 or 545 am. She wanted to know if we had received any other reports for this date. Explained to Mrs. [redacted] that are filing equipment was being repaired at present and that we would check into this on Monday, 18 March. Mrs. [redacted] said she wanted to report her observation, however, some of her friends said to and others said not to because she might be laughed at. I assured Mrs [redacted] that we do not laugh at witnesses and also her name would not be released to the newspaper. Mrs. [redacted] then described her observation. She saw a bright light, comparable to the north star. She saw the object first through her window and watched it for a long time remembering that it was the day before Christmas and the story of the bright star. The huge star all of a sudden came down, like it was coming towards the earth, then it went back to the same place and then it moved slowly across the sky. Mrs [redacted] took time to go outside and watch it for it intrigued her. When asked the total duration of the sighting she said it must have been a long time about three or four seconds. When asked the second time about the time, she again repeated three or four seconds. Mrs. [redacted] compared the brightness to the bright north star. Mrs. [redacted] said she was not sure of her directions and thought may be it was in the northwest or north but said she couldn't tell directions very well. Will forward AF Forms 117 to her to complete, however, I did inform Mrs. [redacted] that we may not be able to positively identify

her observation due to the length of time that has passed. I told her that reports are best when they are made the same day, day or to later, or within the same week. We will also inform Mrs. [redacted] whether we received any other reports for 24 Dec.
