Since there was insufficient data in this report a 117 was sent to the observer. (<u>none</u> was sent to the witness). The form was later returned and the exact date was not given, the sighting was given only as April 68. The time the sighting also differed by aprox. 1 hour. We also received a completed form 117 from the listed observer for the 16 May 68 sighting. This form also listed the month of the observation as April 68. Since no date is given on either form and since both the month, time, and course are conflicting, the sighting is both insufficient and conflicting data.

MEMO FOR THE RECORD

5 March 1968

Subj: UFO Observation, 5 Mar 68

TIME: 1235, EST

Duration, 15 - 20 minutes

Location: Dayton, Ohio Corner of Stanely Ave and Kuntz

Direction of Travel: Heading North

Elevation: 55 deg

Mr. [REDACTED] and his friend observed the object on 5 March 1968 while in the car, saw it when they were turning the corner, seemed to be giving a glare, and at first seemed to be standing still over Globe Industries, moved very fast then and out of sighting within two or three seconds. Sees jets all the time but this wasn't that. Seemed to be bright shiny metal, looked metallic. The object seemed way off in the distance, but it looked bigger when it got farther away, then it turned dark in color. About 90 deg from the sun (failed to say whether to the right, left, overhead or what). Mr [REDACTED] would like one form for himself and one for his friend.
