PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

Dear Mr. [REDACTED]

This replies to your letter of December 11, 1968, in which you state that you have seen an unidentified flying object (UFO).

Unfortunately, we have found that after 30 days, precise details tend to become too vague in the observer's mind to permit a useful scientific investigation.

Should you ever sight another UFO, please report it as soon as possible to the nearest Air Force base. Each base in the United States has a UFO investigator, who is in a better position to make an on-the-spot investigation. This usually results in a more accurate analysis.

On the other hand, you might be able to identify your sighting by looking at the categories of objects often reported as UFO's in the material on this subject that we are inclosing. In addition, you might wish to order for 20¢ a leaflet entitled Aids to Identification of Flying Objects from the Superintendent of Documents, Government Printing Office, Washington, D. C. 20402.

Sincerely,

JAMES H. AIKMAN

Gentlemen :

What I am about to relate to you may to some people sound like an attempt for attention, but believe me, to me it was as real as the paper this letter is typed on. Please refer to the map I have attached.

It was on a night, not too late, in either late July or early August when I made a sighting. It wasn't too dark where shapes couldn't be seen against the sky. I was standing at one of the highest points in Camp Kinder - Ring, in Hopewell Junc., Poughkeepsie, when while I was looking through a group of trees that formed a " V ", I saw what looked to me like a "saucer". I heard no noise though I did see two or three lights on the area above the bottom ridge. The color I felt was unimportant to the situation. After about one hour or less of hovering in one position it just seemed to vanish from sight. It didn't really zoom off into the horizon, it just seemed to melt into the sky. Everyone I told scoffed at me so I kept silent, until now when I decided to lecture my High School Class on the subject, as I have been following it for a number of years. I have no photographs or evidence, except my word, to prove what I am telling you. In going over the facts to myself, I ruled out swamp gas as it isn't a swampy area.

Please examine what I have told you, and do whatever you feel necessary. Please get in touch with me soon.

Thank you very much, ..
