They are brighter than stars, appear at random in different parts of the sky." For the past two summers the observers family and his uncles family have been seeing lights around their farms. Since all the sightings are of point light sources there is little chance of identifying the stimulus. Some may be caused by hot air balloons, aircraft, satellites, and stars and planets. Also since the sightings are of point light sources they do not meet the definition of a UFO as given in AFR 80-17 and as such are carried as Insuff. Data.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

BUDGET BUREAU APPROVAL
NUMBER 21-R258

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

1. WHEN DID YOU SEE THE PHENOMENON?

also one week prior DAY 6 & 7 MONTH Sept. YEAR 1968

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR nine MINUTES 25 ☐ A.M. ☒ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR nine MINUTES 35 ☐ A.M. ☒ P.M.

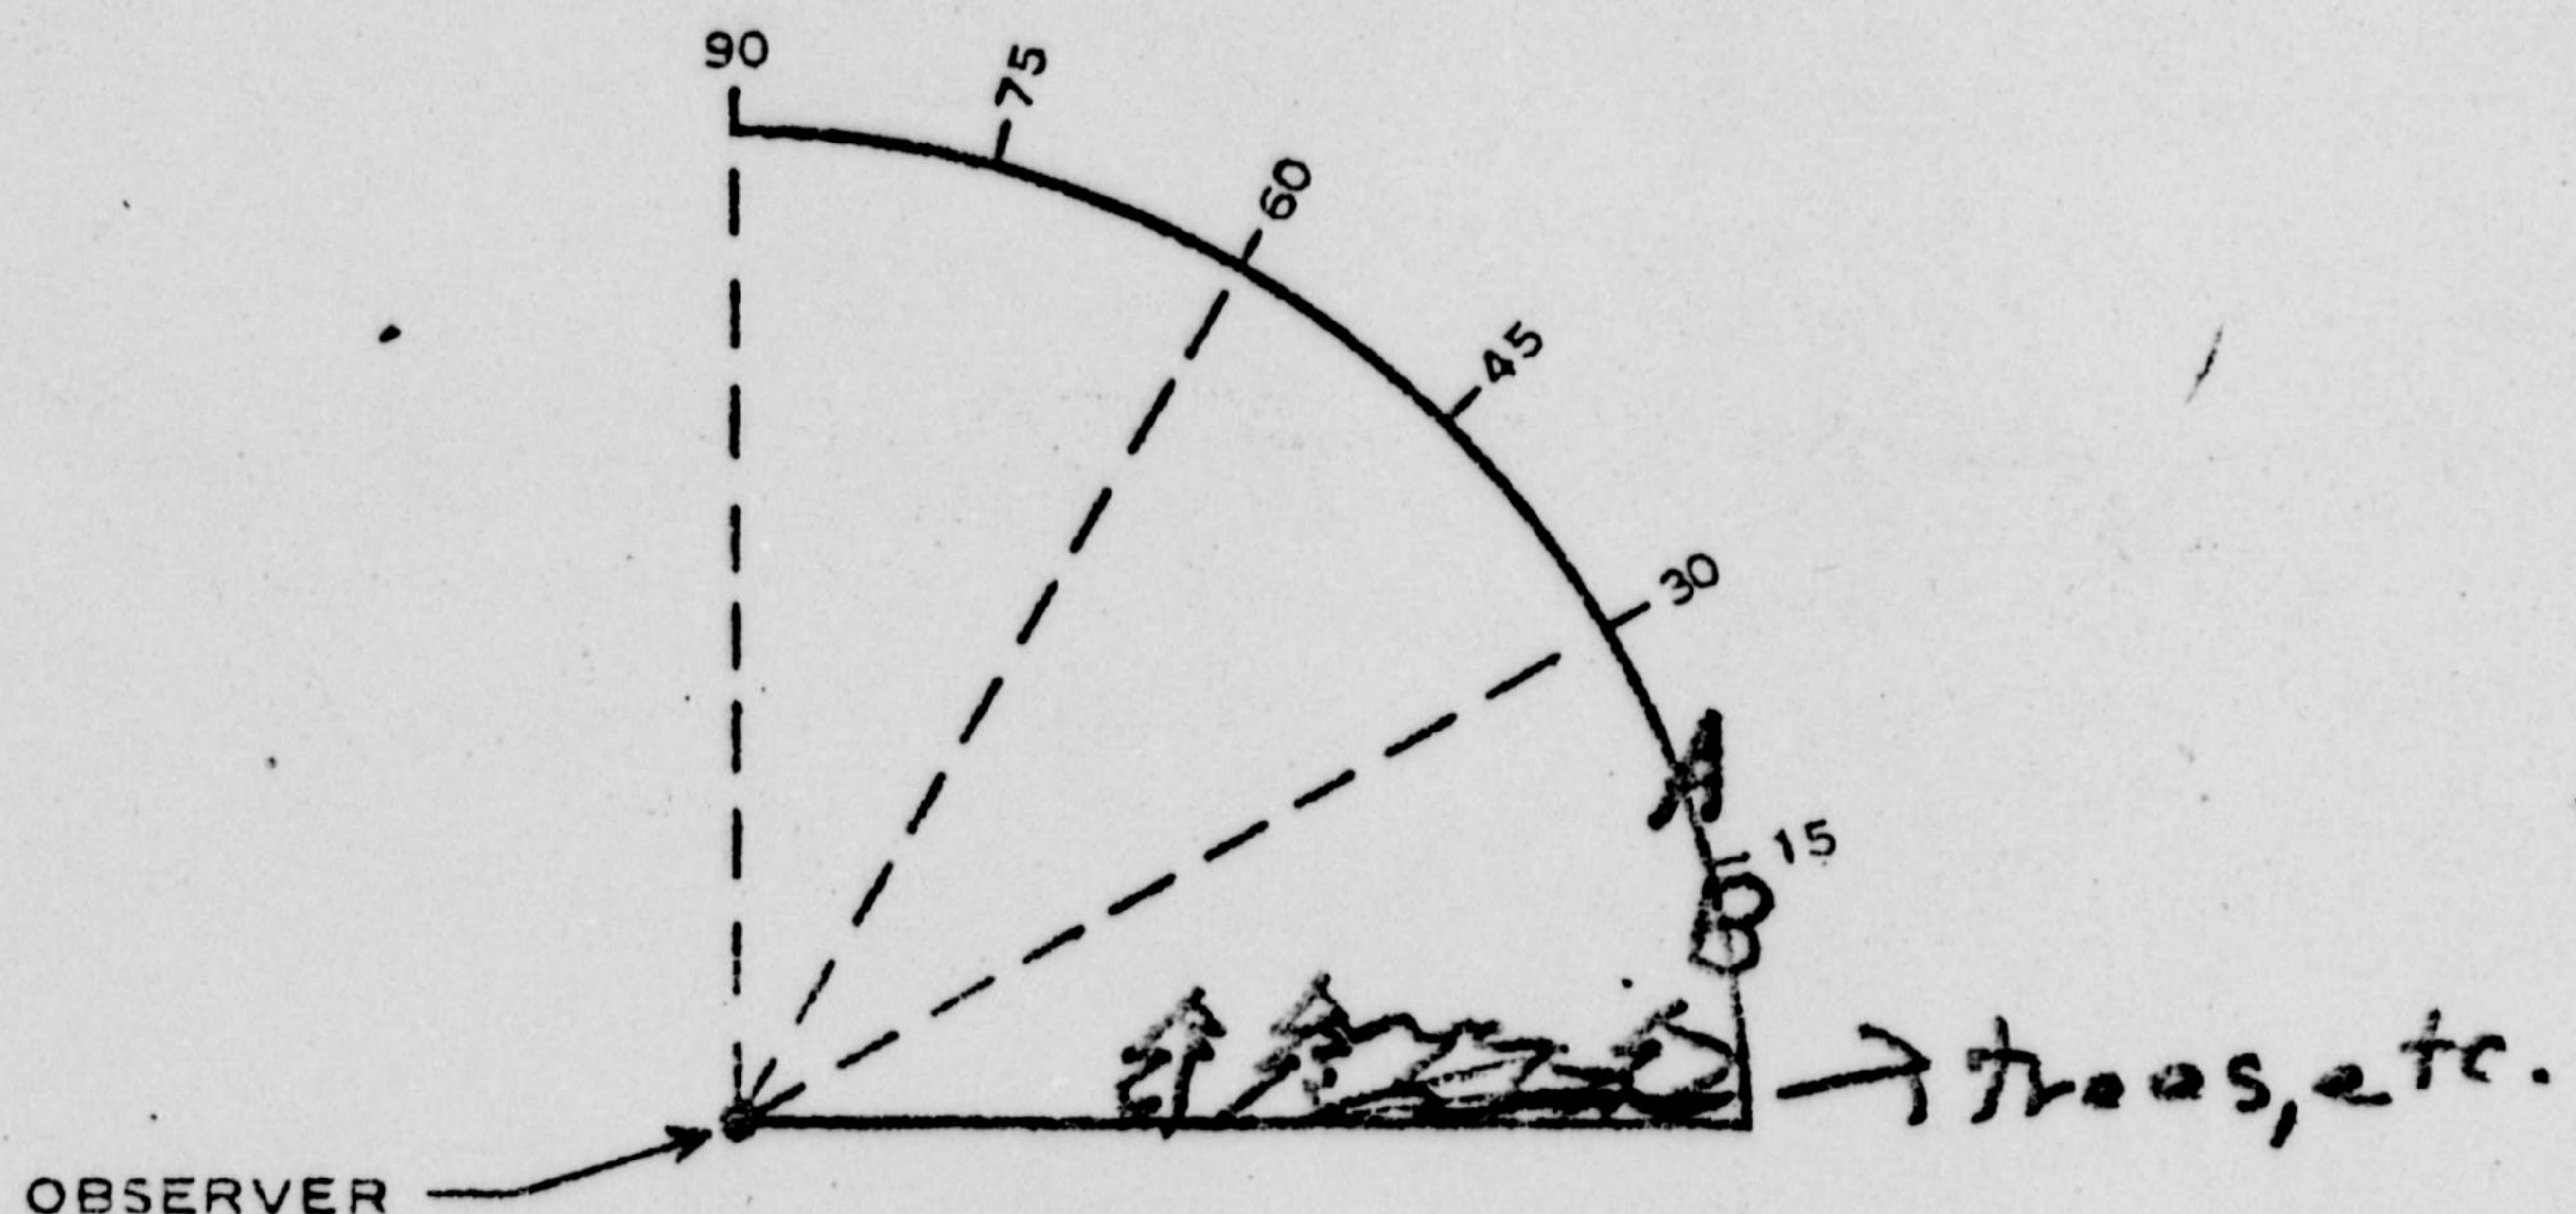

4. TIME / ZONE

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

Sitting in automobile parked at side of Old State Road 62 facing towards Charlestown at crest of hill just south of Zollman Road. (September 6 Sighting). Sighting of September 7 observed from inside house of ~~██████████~~ at same location.

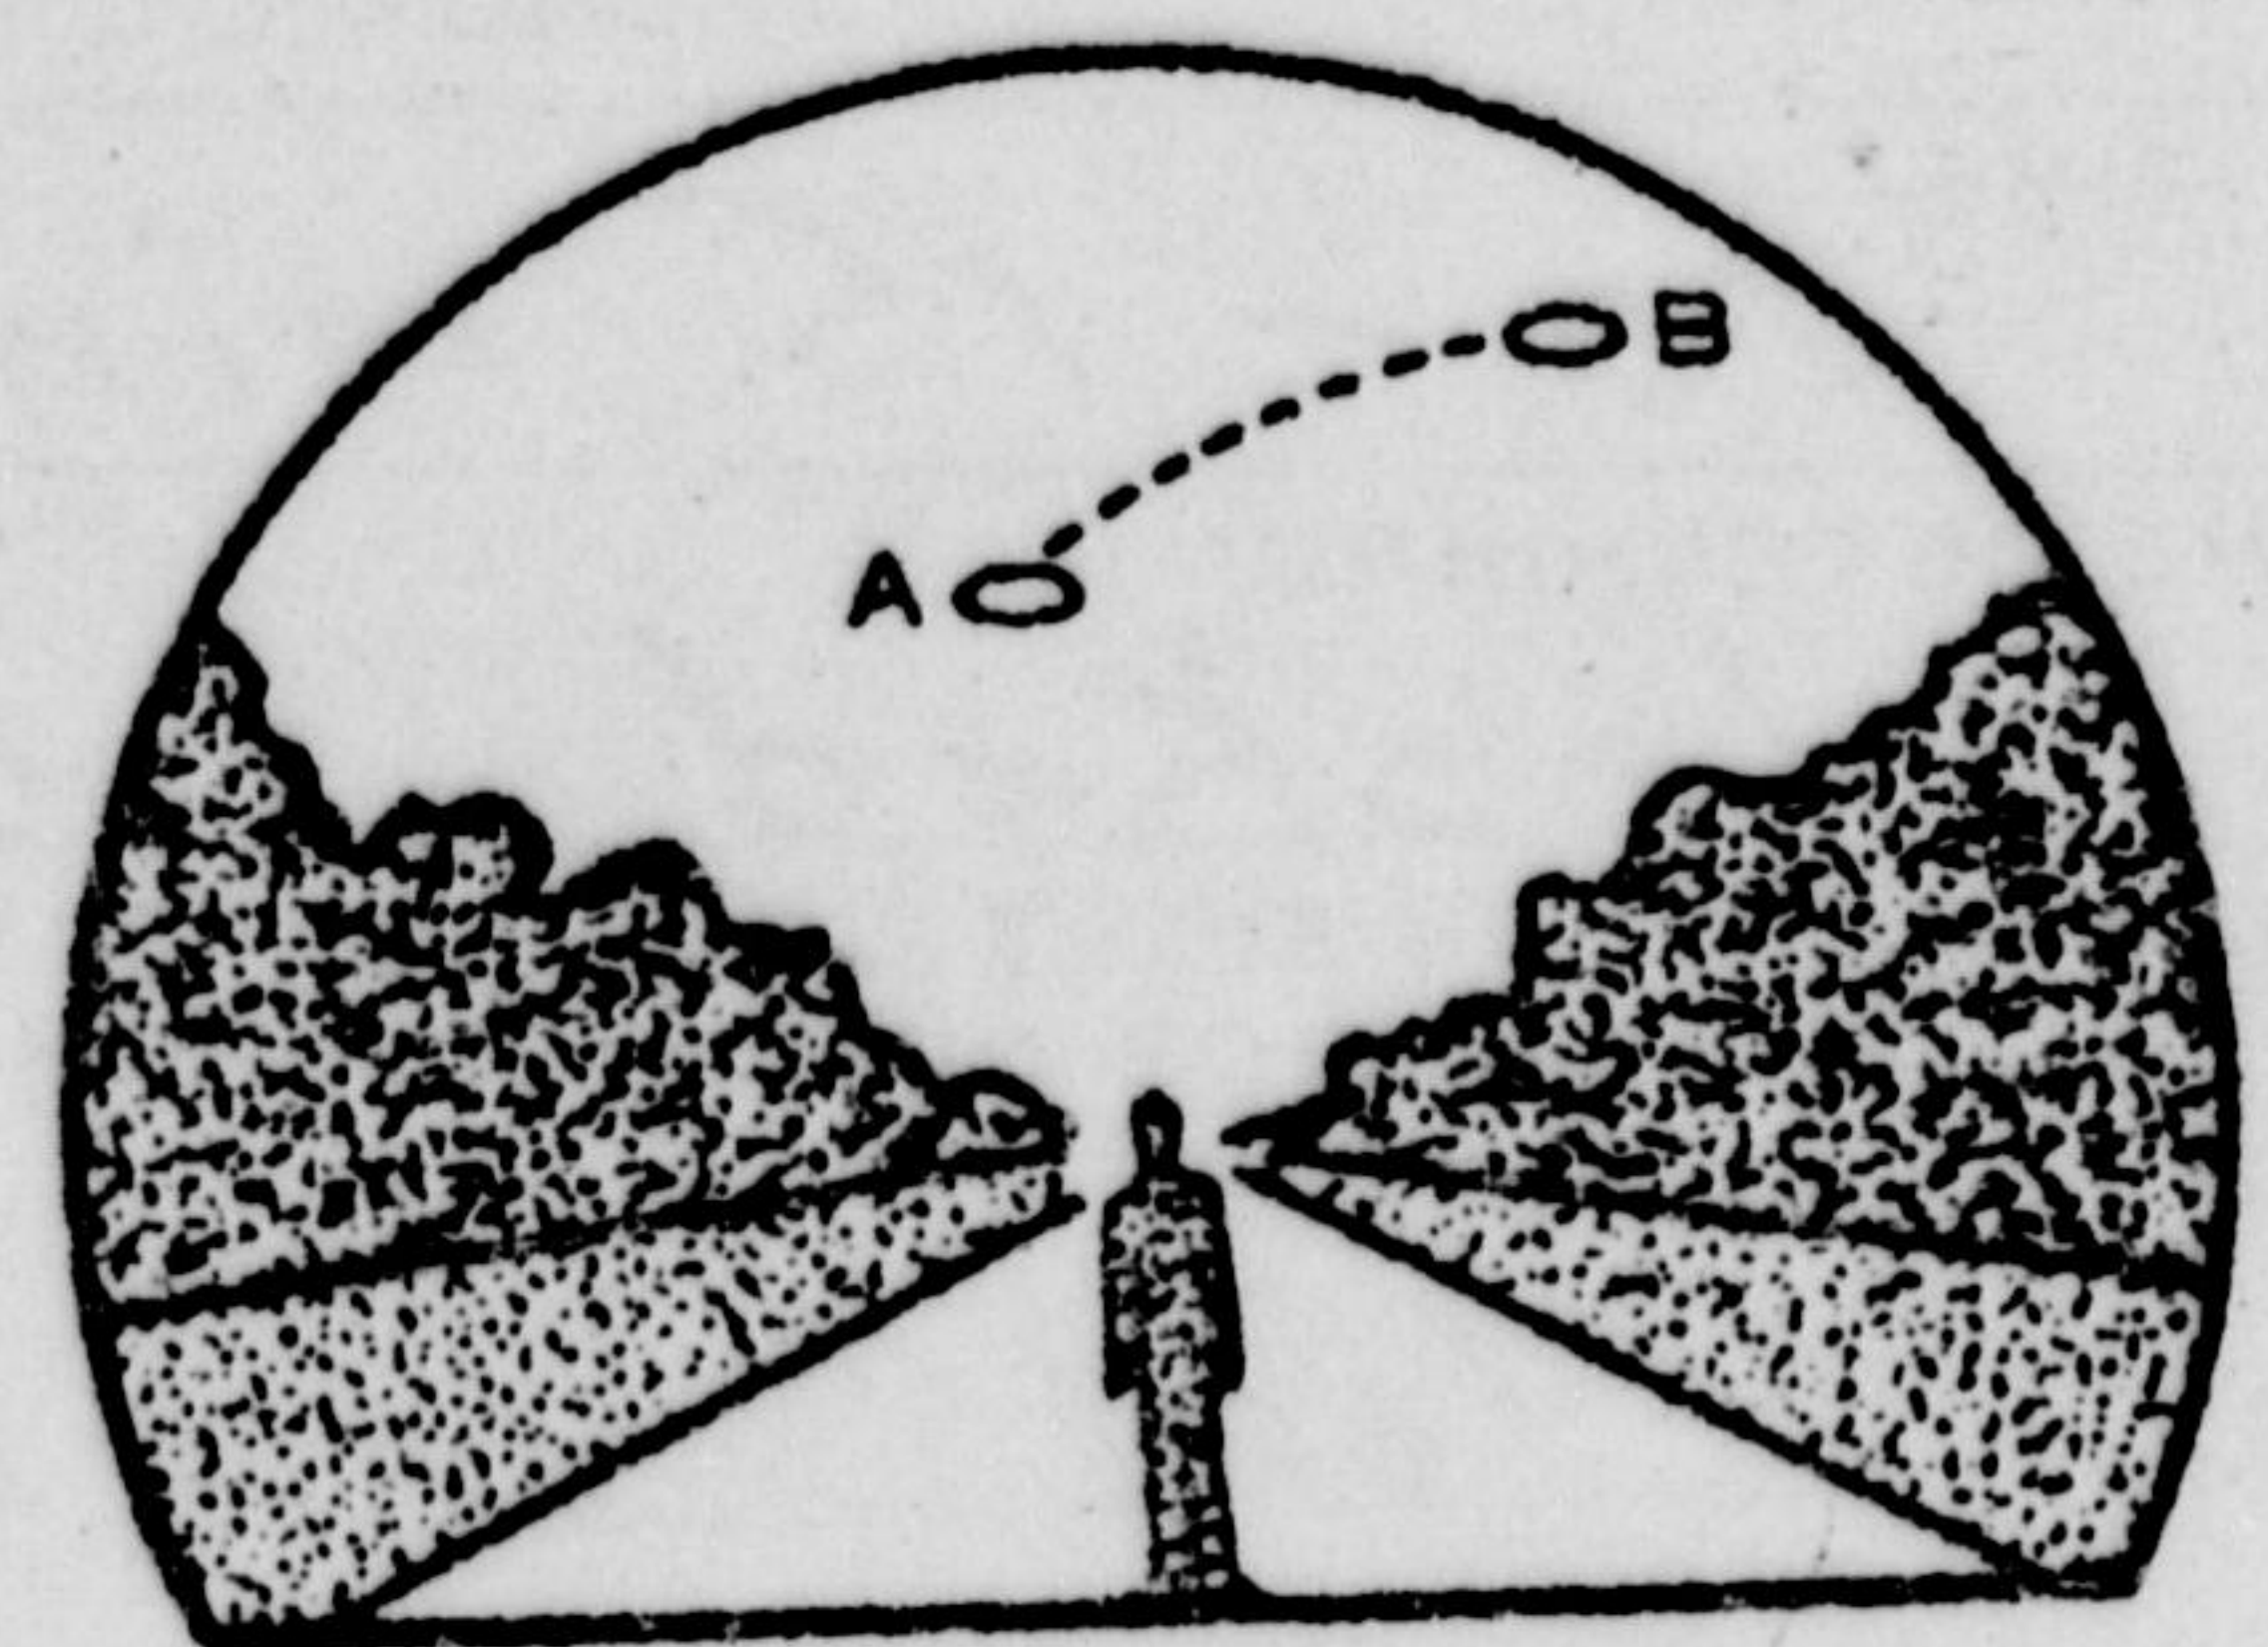

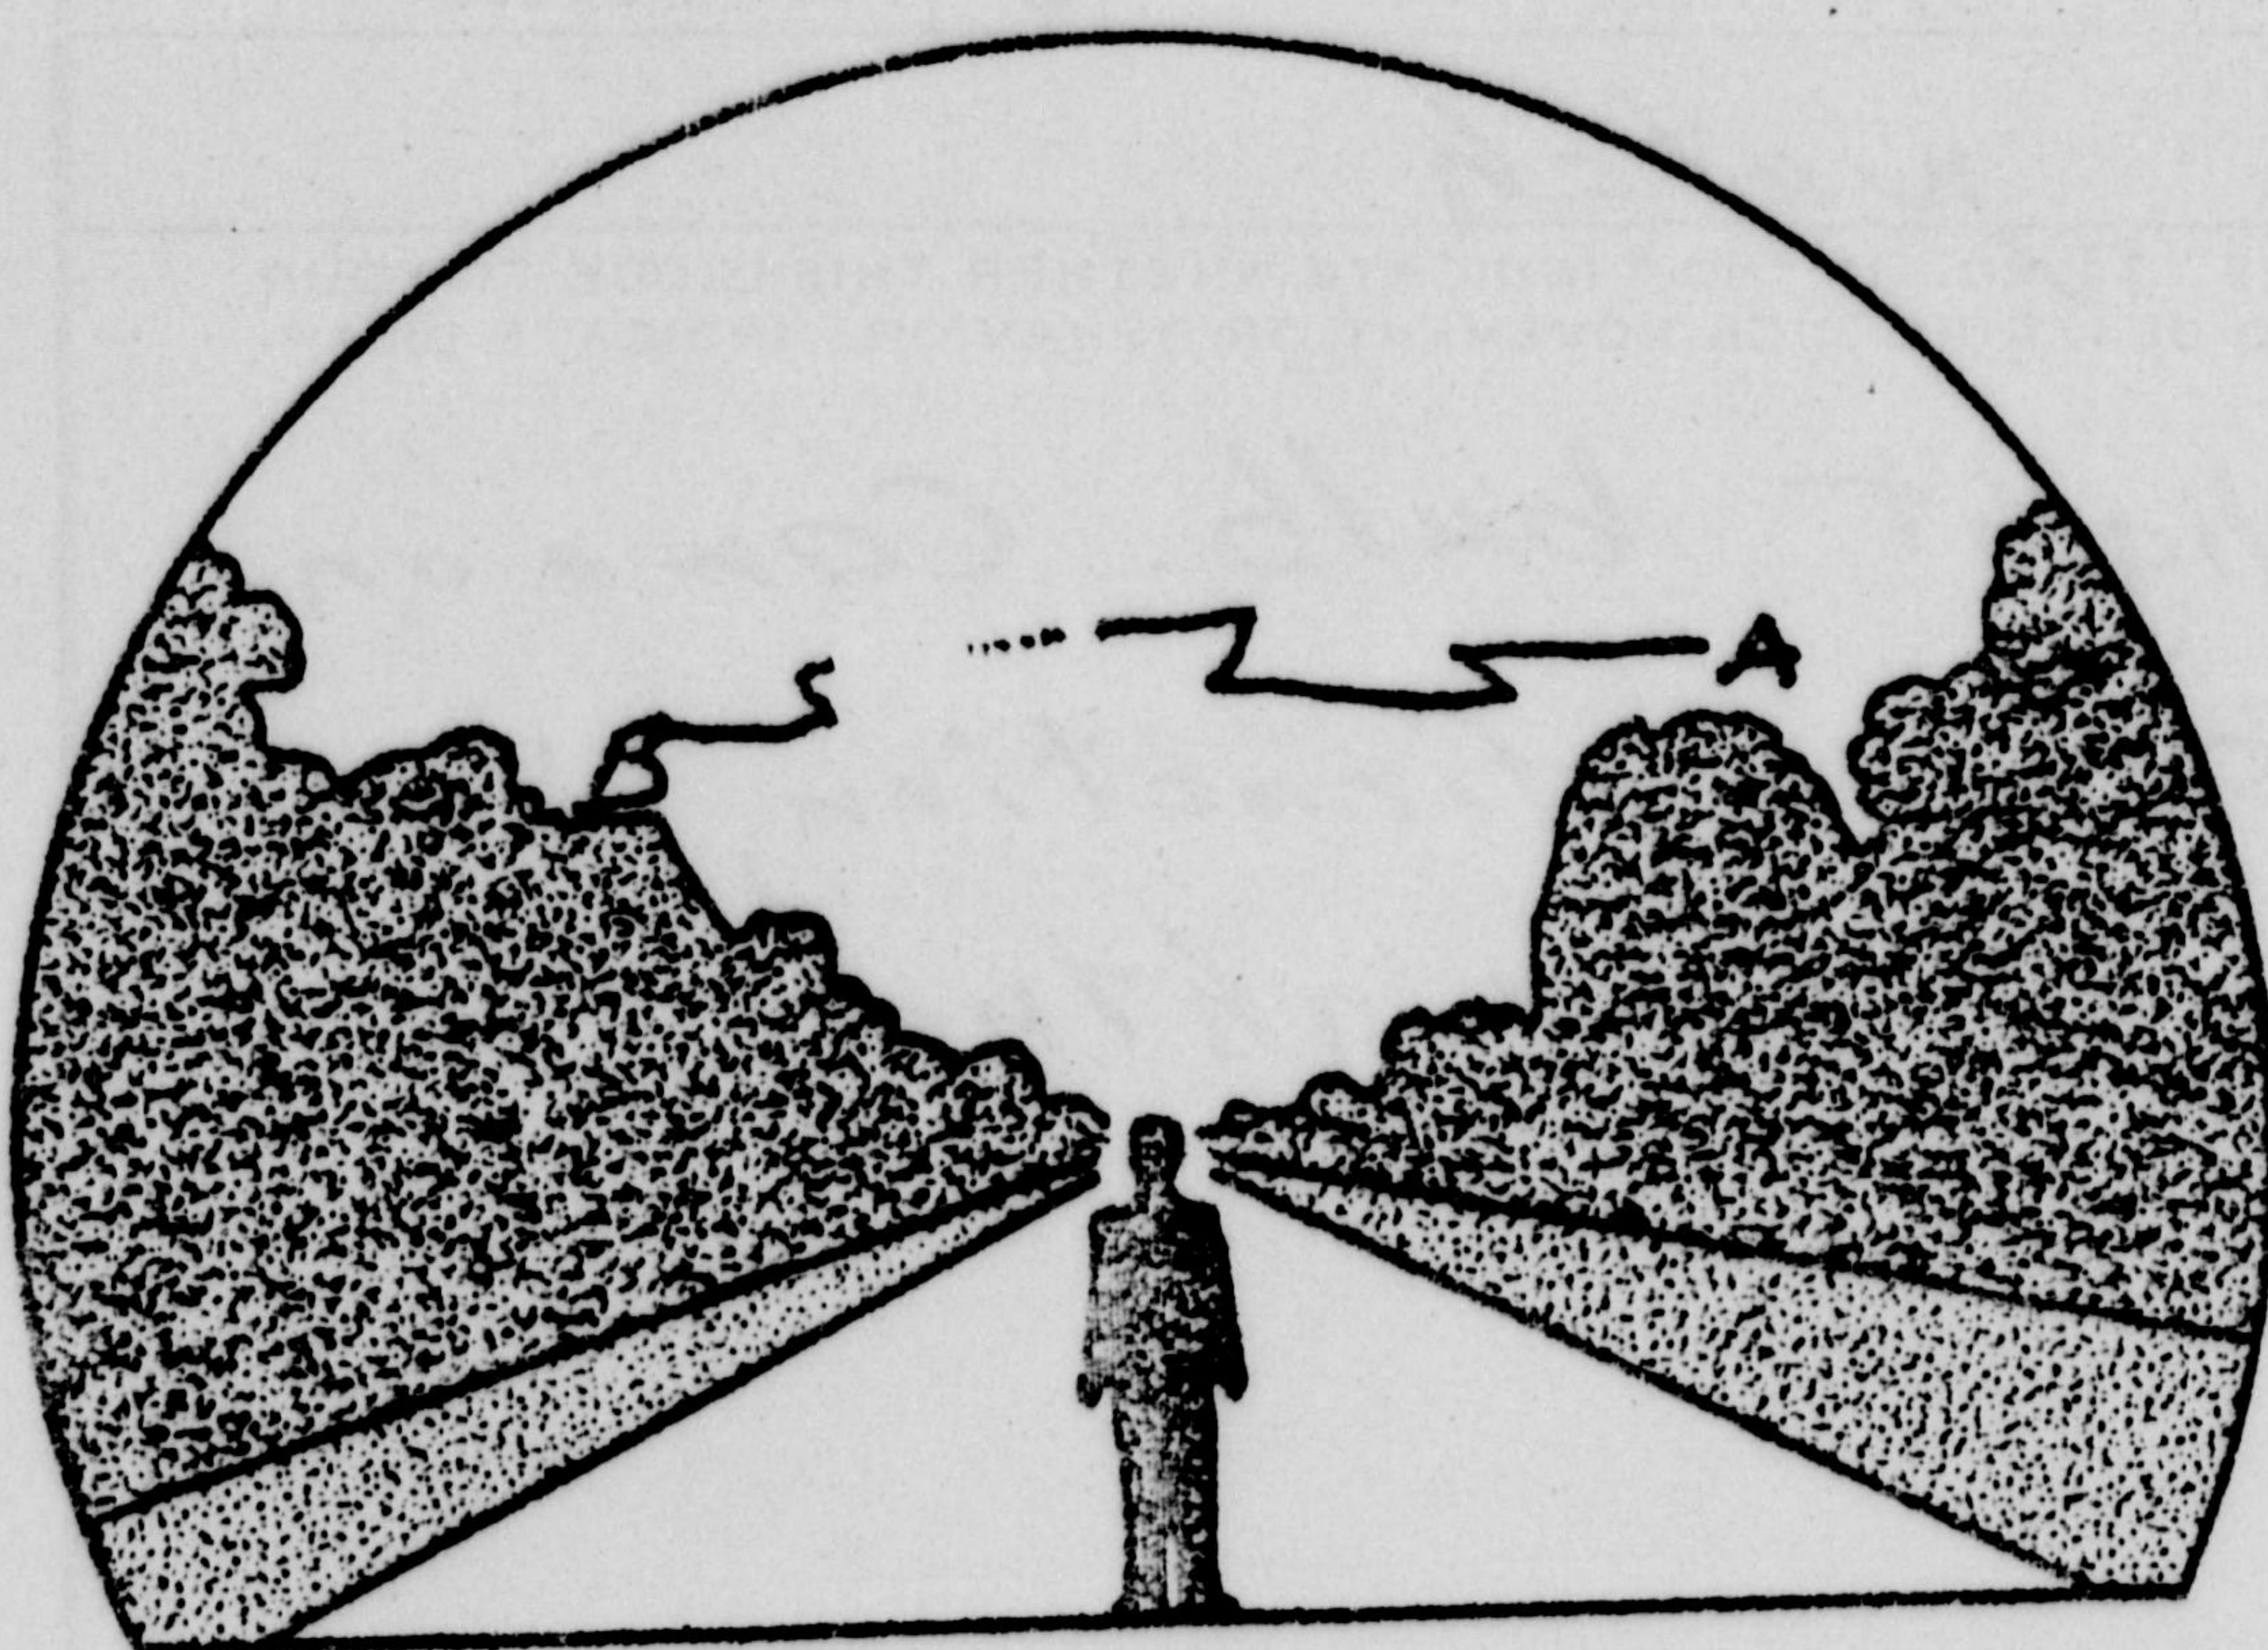

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH, PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

6A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.

7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

We looked out the car window and saw the light moving irregularly toward the direction of the Indiana Arsenal at Charlestown. We saw it from both inside and outside the car. It disappeared and reappeared until it went below the horizon. What we thought was the red flashing light of an airplane then approached us from the direction of the light's disappearance. It did not come directly over us, as expected. It had made no noise and we could no longer see it. (September 6th)

(September 7th) Light a lot closer. Saw it out window of our house. Several miles away, a few hundred feet over electric power lines. Lights blinking on and off on top and bottom of it. Visible for 2 hours, then disappeared.

Gentlemen:

When you read what is in this letter, please keep in mind that I am neither a crackpot or eccentric, nor a practical joker. I am merely a citizen who is concerned about what is happening in the skies of our nation, and I am interested in finding out what is going on.

For the past two summers members of my family and my uncle's family have been seeing "lights" in the skies around our farms. Last summer my aunt and her two small children saw a light over the trees behind their barn, a very bright light that got alternately brighter and then dimmer and remained stationary for several hours. My aunt did not go to the barn since it was night and she and the children were alone (my uncle had gone to work). She told us about it and we thought it was funny.

Last summer I was at the other farm feeding the dogs. I finished, got in the car, and proceeded to make a turn. In the middle of the turn I saw a peculiar light in the sky towards the direction of Jeffersonville. It was like a star, but something told me it wasn't a star, it just didn't look right. I stopped the car, left the headlights burning, and the light went out like someone would switch out an electric light in the house. It didn't temporarily disappear from view or twinkle like a star will do, it just disappeared. Later I remembered that the light would have been just about over the Indiana Army Ammunition Plant at Charlestown.

Nothing more unusual than that was seen by me last summer, but this summer I and others have seen other, more strange things. A couple of weeks ago, my mother and I were sitting outside in a car talking, when I saw a light, that peculiar sort of star, but not a star, in the extreme southwestern sky. The light was moving, but it was not a plane because it was moving erratically, in a sidewise-forward-and-backwards motion. As it rocked along, it got alternately brighter and dimmer, and it eventually proceeded toward the south (the direction of the Indiana Army Ammunition Plant). We, my mother and I, could hear no jet or piston motors; there was no sound. When over the ammo plant it appeared to go so low on the horizon that we couldn't keep sight of it any longer. We then saw a red light that was blinking regularly on-and-off and coming from the direction of the ammo plant towards us. I told my mother the first light we had seen could not have been a plane, since a plane was then coming towards us and the difference could readily be seen. But then we lost

sight of the "airplane," and we listened for the sound of its motors, which we would have by then heard directly over us. There was nothing. We knew then that neither of the lights had been airplanes. Once we thought that the first light might have been a helicopter, but we dismissed this guess, since why would a helicopter be flying at night over the ammo plant with his light off part of the time? Surely he could have seen more during the day and not had the safety risk that he had without his light in continuous use.

My brother and I have seen from our bedroom window a "star" which would come from a higher region of the sky in a "waterfall" or "staircase" pattern, go back to the higher sky region, and continue the sideways, zig-zag, staircase pattern of movement for an extended period of time.

Last Friday night, the 6th, my 13-year-old sister came running from her bedroom ~~about~~ about 11:30 to tell me that she had just seen one of those lights in the sky. We looked out the back door, (she and I, the others had already gone to bed), and we saw one of the "stars" which are not stars. They look so much like stars that, unless you have seen them before, you would never pay them any attention, unless they started to move. Once you have seen one moving in the sky and cavorting, you can easily pick out the "suspect" stars for observation. The light was bright enough that we could watch it easily even though it was in the same region of the sky that our pole light is in. The light moved back-and-forward for a few minutes until it "blinked out" and disappeared.

Saturday night, my sister again saw one of those lights in the sky. This time it did not move, but we had seen them before and we recognized it as one of the strange kind. We did not keep a close watch on the object, and after about an hour and a half I went back for another look (it had been there during a few checks during the hour and a half, but we did not check very often). When I looked again after the hour and a half, the "star" was gone.

I am beginning to be concerned about this matter, since there are a number of things in this general area that may be very interesting to someone: the Indiana Army Ammunition Plant at Charlestown, the Public Service Company of Indiana electric generating plant at New Albany, the McAlpine dam and locks at Louisville, the Jefferson Proving Grounds (for artillery shells) at Madison, and the electric ~~generating~~ generating plant at Madison (whose heavy power lines pass through our fields not far from our house, in fact the light of Sept. 7 was just about over the extended power lines in the distance several miles), to name a few.

I am of the opinion that a discreet investigation is in order. I and some of the members of our two families would like to know something about what this can and does mean, and what the government is prepared to do about it.

Signed,
