The enclosed pictures are the best ones that we took. We saw the object at 4:00 P.M Thursday on [redacted] terrace. We saw it from the 16th floor of [redacted]. These are our names.

When we first saw it it was black and oval shaped. It moves up and down. (its on top of the George Washington Bridge but a little ~~Fath~~ farther Nor
Now its 4:30 and the object is standing still but its turning orange. We can't really tell you how its moving because sometimes it moves up and down and other times it stands still.

Sincerely

We all hope that these pictures
can be of significant value to
