N.Y., N.Y.

Dear Sirs:

On August 9th between 3:00 A.H.
and 3:30 A.H. I sighted an unidentified
flying object. It was a large and a
bright white object. It was stationary
but changed planes ^{and} when it dipped
it was possible to see a bulbous
center part. It resembled the planet
Saturn in that it seemed to have rings around it.

I have never sighted such an
object. Do you have any idea what
it could have been? Did anyone
else report such a sighting? At
3:30 A.H. I went to bed and therefore
did not sight it afterwards. I have
looked for it since then, but to no avail.

fincarly,
