REMARKS

LSE ATCT reported an unidentified aerial phenomenon 5 NM S of LSE at 1,500 feet. The unknown phenomenon was visually observed by LSE ATCT and described as having flashing green/red/blue lights and looking like a jelly fish, traveling W bound. ZMP observes a primary target on RADAR in the area. No aircraft observations. 0205 ZMP reports no additional observations on RADAR. AWO/TY notified.
